PS 327: Sensory and Motor Systems

A survey of all major senses (vision, hearing, balance, touch, taste, smell) and how we organize and interpret sensory information in the brain to understand the external world. Additional topics include principles of psychophysics; natural history of the senses; development and aging of the sensory systems; and the role of the senses in communication.

Credits 4.0 Prerequisites PS 101, BI 110, or BI 107
