

BI 404 : Research Experience Capstone

This course serves as the capstone experience for students in the biology, health sciences, kinesiology and exercise science, or environmental studies in wildlife management program who are involved in student faculty research projects. The objective of this course is to provide students an opportunity to analyze and synthesize the data collected during their research experience and a means to present their work in both oral and written form.

Credits 3.0-4.0

Prerequisites

completion of at least one hour of student faculty research ([BI 465/466](#)) and consent of instructor
