

Access to the Campus by Un-Enrolled Students

The events and activities of the College exist for the benefit of enrolled students. Students who are not enrolled in the College but living in Jacksonville during a particular year or term are to be regarded as members of the local community and welcomed to the College as such, but they are not to take part in events, productions, trips, etc. that are ordinarily reserved for Illinois College students. Students on leave or who have withdrawn may stay in the residence halls only under the terms of our guest policy. Guests are held to our Community Standards and their behavior may impact their relationship with the College in the future.
