Mission Statement and Vision

The Mission of the College

True to its founding vision in 1829,
Illinois College is a community committed
to the highest standards of scholarship
and integrity in the liberal arts.
The College develops
in its students qualities of mind
and character needed for fulfilling lives
of leadership and service.

Approved by the Trustees, 2004

Vision

Illinois College will build an international reputation for inspiring achievement and empowering students to make a difference in the world.

Illinois College

Illinois College is a private, Phi Beta Kappa, liberal arts college located in Jacksonville, Illinois. Founded in 1829 through the joint efforts of John M. Ellis, a Presbyterian missionary, and a group of seven Congregational students from Yale (one of several "Yale Bands"), the College has maintained a long tradition of academic excellence. Illinois College retains its historic ties with both the Presbyterian Church (U.S.A.) and the United Church of Christ.

Illinois College is a scholarly community that values close and frequent collaboration among faculty and students and is devoted to the liberal arts. Its curriculum requires both breadth of learning and knowledge in depth, leading students to explore the fine arts, humanities, natural sciences, and social sciences.

Within this liberal arts context, all students develop specific areas of knowledge through majors. Many pursue additional opportunities for learning through pre-professional programs. Students enrich their educations further through independent research and writing; internships, off-campus "BreakAways" and study abroad; performance in art, drama, and music; and participation in organizations and clubs, athletics, and student government. Academic advisors play an essential role in helping students plan and successfully complete their academic programs. The Office of Career Services, the various departments, and advisors make every effort to help students prepare for graduate study and professional schools as well as direct entry into careers after graduation.

The Undergraduate Academic Program

At Illinois College, education in the liberal arts means "education for life." A liberal arts education transcends the current moment, the local environment and the next job. It fosters open-mindedness and respect for different values and prepares students for a life of responsible civic engagement. Liberal arts students think critically and independently, communicate ideas effectively, and learn to distinguish the good, the beautiful, and the true.

With those objectives in mind, students graduating with an undergraduate degree from Illinois College must:

1. Complete the BLUEprint 3.0 General Education Program.
2. Complete an academic major with an average of 'C' (2.00) or better for courses in the major.
3. Complete satisfactorily at least 120 semester hours of academic credit.
4. Earn at least 32 semester hours of academic credit at Illinois College, with 24 of the last 32 completed in residence.
5. Attend 30 College convocations. (Students admitted to Illinois College for the first time as transfer students may attend a smaller number of convocations. See convocations on page 19.)
6. Maintain at least a 'C' average (2.0 cumulative grade point average).
7. When a minor has been declared, complete an academic minor with an average of 'C' (2.00) or better for courses in the minor.

The responsibility for meeting all requirements for graduation rests solely and only with the student. Each student should check with his or her advisor and the Office of the Registrar to track satisfactory completion of these requirements. Advising worksheets are available on Connect2.

Unless explicitly waived by the instructor, all prerequisites must be completed with the grade of 'C' or above.

A maximum of 16 credits for internships can be counted towards the 120 required semester hours. Majors also may limit the number of internship hours that can be counted in the major.

Students at Illinois College, under normal circumstances, should be able to complete their requirements for a bachelor's degree in four years. Students must complete all graduation requirements as stated in a single edition of the college catalog. Students normally fulfill the requirements set forth in the edition of the catalog in effect at the time they first enter the College, but they may elect to fulfill the requirements in any subsequent annual catalog in effect during the time of their attendance at Illinois College by submitting their request in writing to the Registrar. Students readmitted after an absence of four or more consecutive semesters must fulfill all graduation requirements according to a catalog in effect after they re-enroll.

Students transferring to Illinois College may receive credit for parts of the academic program based upon courses they have completed with grades of 'C-' or better at other accredited colleges, universities, or two-year colleges. See Transfer Credits (page 198) for detailed information.

Students enrolling in one of the fully online degree programs may receive credit or waivers for parts of the academic program based upon courses they have completed with grades of "C-" or better at other accredited colleges, the possession of an associate of arts or science degree, and prior work experience. See Online Programs and General Education (page 200) for detailed information.

The BLUEprint 3.0 General Education Program

Illinois College gives you a BLUEprint for your future, a general education program with the themes of connections, skills, and communities. The BLUEprint 3.0 lasts throughout college. You learn about the ways people act together, preparing you for citizenship. You learn the skills employers want: how to solve a problem, how to come up with new ideas, how to communicate well, and how to collaborate. BLUEprint 3.0 shows you the way to an inspiring and practical education.

Lists of courses that fulfill each of the BLUEprint 3.0 categories are available on Connect2.

A. The core of the Illinois College BLUEprint 3.0 general education program consists of 12 courses.

FOUNDATIONS (3 courses):

Foundations prepare you for the challenges of college.

1. First-Year Seminar: Introduces you to all of the major ideas and skills you need to prepare for your college career.
2. English Composition: Prepares you for college-level writing and research.
3. Speech Fundamentals: Teaches you the skills to comfortably speak in public.

EXPLORATIONS (8 courses):

You explore the world, choosing where you will focus your knowledge and strengthening those skills you need in college and later.

Take at least one course in each category and then choose where to take the other four. (Your choices must include courses from four disciplines and only one course can be in your primary major. Limit of three courses per category.)

1. Creative Expressions: Explore creativity. Create works of art, music, theatre, or creative writing. (1 studio course required)
2. Cultures and Worldview: Explore cultures. Consider how the ideas of your own culture have affected who you are now.
3. Science in Society :Explore the scientific method. Understand the connection between science and societal issues. (1 lab course required)
4. Social, Spiritual, and Philosophical Issues: Explore your own values and the meaning of your life by learning from others who have asked big questions.

TRANSFORMATIONS (1 course):

In your Senior Capstone Experience, you use skills and knowledge you have learned through BLUEprint 3.0 and in your major. It prepares you for post-college problem-solving. This course must be completed at Illinois College.

B. To follow the rest of BLUEprint 3.0, choose courses and activities that build connections and skills. Some courses are in your major. Some are Explorations courses. Some are part of your life as a student, such as writing for the College newspaper or carrying out a service project through a student organization.

EMBEDDED EXPERIENCES:

Embedded experiences give you practice in the skills you need to prepare you for your future profession. Often you can learn by doing, through community service, study abroad, student leadership, and public writing or speaking.

1. *Writing Extensive*: Learn how to write well, preparing for your future career.
Four experiences:
 - one satisfied in your Foundations writing course
 - one fulfilled through your major
 - one completed in your Senior Capstone Experience
 - any other designated course or approved co-curricular activity
2. *Speaking Extensive*: Practice presenting your ideas to others with confidence and skill.
Four experiences:
 - one satisfied in your Foundations speech fundamentals course
 - one fulfilled through your major
 - one completed in your Senior Capstone Experience
 - any other designated course or approved co-curricular activity.

3. *US Diversity/Global Awareness*: Understand the needs and dreams of different groups of people.
Three experiences:
 - one completed in a world language course at the 102-level or above
 - one completed through a course with a significant U.S. Diversity component
 - one completed through a course designated as Global Awareness or an approved BreakAway/Study Abroad
4. *Community/Civic Engagement*: Take action to make the world a better place.
One experience:
 - a designated course or independent study
5. *Preparing for Ethical and Responsible Action*: Understand how to make the best choices in your life.
Three experiences:
 - one satisfied in your speech fundamentals course
 - one fulfilled through your major
 - any other designated course
6. *Information Literacy*: Discover how to separate trustworthy from misleading information.
Three experiences:
 - one satisfied in your English composition course
 - one fulfilled through your major
 - any other designated course
7. *Statistical Literacy*: Understand statistics to make good decisions, from voting to choosing insurance.
One or two experiences:
 - either one course in statistics or two courses designated with statistical components
8. *Reading Intensive*: Fulfilled by 1 course with two-thirds of course time and assignments devoted to written texts (especially primary sources)

Your education happens everywhere on the Illinois College campus. Specialized knowledge in your major combined with the deep and broad learning of BLUEprint 3.0 prepares you to take on the world. By working closely with faculty, practicing skills for the future, learning about the world, and choosing your own values, you will be ready to practice and encourage respect for everyone, lead and serve your community, and show integrity through all you do.

General Academic Information

The Academic Major

Students must complete requirements for at least one academic major from the following disciplines or programs. Exceptions are possible for combined majors approved by the faculty, and academic minors are possible in some disciplines or programs. The requirements for the major, including courses outside the major discipline when such courses are specifically required of the major, must be completed with the grades specified by the department. Some areas of concentration are listed under the major.

--	--

Degrees

Each student earns a Bachelor of Arts (B.A.) degree or a Bachelor of Science (B.S.) degree based on their primary (first) major, no matter what other majors or minors they may earn. Students enrolled in the nursing program (Traditional Track or online RN to BSN) will graduate with a Bachelor of Science in Nursing (BSN). Students graduating with a first major of Biology, Biochemistry, Chemistry, Computer Science, Engineering, Environmental Studies and Wildlife Management, Health Sciences, Kinesiology and Exercise Science, Neuroscience, Physics or Psychology earn a Bachelor of Science degree. Students with any other first major earn a Bachelor of Arts degree.

Combined Degree Programs

A student who successfully completes one of the defined combined degree programs receives appropriate degrees from both cooperating institutions at the end of one unified plan of study. Special requirements and regulations apply to these programs.

ENGINEERING

Illinois College cooperates with the University of Illinois College of Engineering, Southern Illinois University Edwardsville College of Engineering, and Washington University School of Engineering in dual degree programs in engineering. During the three years at Illinois College, students follow the typical program for science students and complete the specified courses required for a degree. Students seeking a career in engineering are advised to concentrate in Mathematics and Physics. Engineering universities will have minimum GPA and course requirements, for both general education and science courses, for entry to their individual programs. During the two years at one of the universities, students complete studies in a specified field of engineering. Upon completion of the program, students qualify for degrees from both institutions. See [Engineering](#).

CLINICAL LABORATORY SCIENCE

Illinois College cooperates with OSF Saint Francis Medical Center, Peoria, Illinois, in a 3-1 program in clinical laboratory science. See [Clinical Laboratory Science](#).

OCCUPATIONAL THERAPY

Illinois College cooperates with Washington University in a combined degree program in occupational therapy. During their three years at Illinois College, candidates for this program fulfill most of the general requirements for graduation at Illinois College and carry a specific concentration in biology or psychology. Students must apply for admission to the graduate program at Washington University. A cumulative grade point average of 3.0 and a recommendation from the faculty are required for admission into the program. Admission is competitive; however, Washington University gives preference to qualified students from its 3-2 affiliates. Students admitted to the graduate program at Washington University will be granted a degree from Illinois College after successful completion of the first year of the professional program and submission of official transcript to Illinois College. See [Occupational Therapy](#).

NURSING

In addition to our traditional and our RN to BSN online program, Illinois College has affiliation agreements with other schools for students interested in other nursing options. For additional information on each of these schools, contact the Biology Department.

Rush University College of Nursing – Rush offers students who complete certain course requirements, regardless of major, preferential admission to the Rush MSN/RN program. After successfully completing two additional years of rigorous study at Rush University, students will be awarded the MSN from Rush College of Nursing and be eligible to sit for the NCLEX (the national exam for licensure as a registered nurse).

St. John's School of Nursing – Illinois College cooperates with St. John's Hospital, Springfield, Illinois, in a 2-2 and 3-2 program in nursing. See [Nursing](#) for additional information and contact the Biology Department.

St. Louis University – Preferential admission will be available for students who complete their bachelor's degree from Illinois College to earn their MSN from St. Louis University.

All affiliate BSN and MSN programs prepare students for the NCLEX (the national exam required for licensure as a registered nurse).

All affiliate BSN and MSN programs prepare students for the NCLEX (the national exam required for licensure as a registered nurse).

HEALTH SCIENCES OR BIOLOGY WITH PRE-ATHLETIC TRAINING

Illinois College entered an affiliation with Culver-Stockton College in Canton, MO in 2018 in order to facilitate students earning a Master of Athletic Training. Students have the option to major in Health Sciences or Biology for their 4 years of undergraduate study then apply to Culver-Stockton for the master's degree in athletic training for 2 more years. Illinois College students are guaranteed an interview and a seat if requirements are met.

Courses required to be admitted to Culver-Stockton College Master of Athletic Training include: [BI 110](#) (Biological Investigation); [BI 315](#) and [316](#) (Anatomy and Physiology I and II); [PY 225](#) (College Physics I); [CH 110](#); [KI 225](#) (Nutrition); [KI 340](#) (Exercise Physiology); [KI 232](#) (Motor Development); and [PS 101](#) (Intro to Psychology). Recommended courses include [KI 308](#) (Prevention and Care of Athletic Injuries) and [PS 346](#) (Abnormal Psychology).

Culver-Stockton also requires Pathophysiology which may be taken as a summer course in the first semester of their program.

OTHER COMBINED DEGREE PROGRAMS

Students who have completed all of the general requirements for graduation, who maintain a 2.500 cumulative grade point average, who have enrolled at Illinois College for at least three years without graduating, and who subsequently complete a professional degree program at an accredited professional school may, upon application, be eligible for baccalaureate degree from Illinois College.

INTERNATIONAL SCIENCE CERTIFICATE AND THE PROCESS FOR EARNING ONE:

To develop the linguistic competencies and cultural knowledge to comfortably live and carry out scientific knowledge abroad, students will have to meet all of the following goals to earn an International Science Certificate. The culmination of the work students will do to earn an International Science Certificate is an intensive lab and/or field study experience in the country where the target language that the student is studying is spoken.

To prepare for the culminating research experience abroad, students will do meet the following standards:

1. Declare a major in a BS department or program. Graduating with a major from a BS- granting department or program is a requirement for earning an International Science Certificate.
2. Develop a plan to fulfill the requirements for earning an International Science Certificate and then apply to participate in the International Science Certificate Program. The plan must be approved by the following faculty: 1) the chair or coordinator of the science department or program in which student is majoring; 2) The student's academic advisor in the science major; 3) the professor who is sponsoring the research being carried out abroad; and 4) the chair of the Department of World Languages and Cultures. It is recommended that this plan be created and approved by the end of the sophomore year.
3. Complete Introduction to Global Studies ([GB 101](#)). This gives science students a fundamental and necessary understanding of international politics and policymaking that science students desperately need in a world where the validity of scientific inquiry and protecting the environment is being challenged worldwide. Additional Global Studies courses are strongly recommended.
4. Complete language courses at a level necessary to successfully live and conduct research in a country where that language is spoken. For Spanish, French, and German, this will be two courses at the 300/400 level. For Japanese, this will be a course at least at the level of JP 201 (or higher).
5. Learn about science issues in the country where they will study through a language course at Illinois College, a course abroad, or in an independent study. This may include learning science vocabulary in the target language through the development of a scientific dictionary, completing a scientific literature review in the target language, or completing some other appropriate assignment to learn the relevant science vocabulary for the type of lab experience of field study they will carry out.
6. Complete all coursework done for the International Science Certificate with a C- or better.

In order to carry out the culminating experience abroad to earn an International Science Certificate, students will:

1. Develop a detailed plan to do research in a specific country, working with faculty at Illinois College, the Study Abroad Office, and contacts abroad. It is expected that students will work with scientists and other contacts in the country where the research will take place in order to plan and carry out the research.
2. Write a short description of the plan that will have to be approved by the sponsoring science professor at least a semester before departure.
3. Participate in a science-oriented lab or field study experience outside of the United States in a country where the language they have studied is spoken as the primary language. The intensive research experience must occupy a minimum of two weeks of the experience abroad. These two weeks or more of intensive research abroad in countries where the target language is spoken can be divided among more than one experience.

4. Present the research that they have carried out in a public presentation on the Illinois College Campus (at the Celebration of Excellence, etc.) Students earning an International Science Certificate will also be encouraged to present their work off- campus at regional, national, or international conferences.

Law School Advising Program

Students interested in pursuing admission to law school are encouraged to become a part of the law school advising program. Illinois College students can acquire the skills necessary to achieve success in law school through a variety of majors and courses. Although no particular major is designated for the program, students can benefit from faculty input when planning their courses, internships and the law school application process.

An integral part of the program is student participation in Phi Alpha Delta, Illinois College's pre- law society. This student run organization sponsors activities which include visits to law schools, campus talks and convocations given by members of the legal profession, and social events with alumni who have attended law school.

Students who choose to participate in the law school advising program have a high success rate in applying to and graduating from law school. More information about the program, law school catalogs, law school events and the LSAT is available on the second floor of Kirby Hall.

Health Professions Advising Program

The medical professions advising program is an essential resource for students considering application to graduate or professional programs in such fields as:

<ul style="list-style-type: none">• Athletic Training• Clinical Laboratory Science• Dentistry• Health Administration• Medicine	<ul style="list-style-type: none">• Nursing• Occupational Therapy• Optometry• Pharmacy• Physical Therapy	<ul style="list-style-type: none">• Physician Assistant• Podiatry• Veterinary Medicine
--	--	--

Students who take advantage of this resource work closely with faculty members from the sciences to plan coursework, research and internships that will assist them in meeting the requirements for admission to their chosen program. In all cases, students should meet with a health professions advisor as early as possible to begin the process. Students who choose these programs must be dedicated to achieving an exceptional academic record.

Second Degrees

No student shall receive two degrees at the same commencement but may be awarded any number of majors for which requirements have been completed. Any student with a bachelor's degree (whether earned at Illinois College or another regionally accredited college or university) may enroll as a candidate for an additional degree. All the following conditions must be fulfilled:

- The candidate shall fulfill all the requirements for a major within the proposed second degree that are in effect at the time of (re)entry into Illinois College. The major must be different from the one completed for the first degree with no more than 12 credits counted toward major requirements of both degrees.
- A prior bachelor's degree from an academic program in the liberal arts and sciences will be considered to have completed Illinois College's BLUEprint 3.0 general education requirement.
- The candidate shall enroll at Illinois College for not less than 32 additional semester hours following the awarding of the first degree.
- The college's convocation requirement will be waived.

- The candidate shall fulfill all requirements in effect at the time of (re)entry into Illinois College with the exception of the items included here.

Declaring A Major

Students may choose a major field of academic interest at any time after arrival, but the choice must be made by the time Junior standing is achieved. When declaring a major, students meet with the Department or Program Chair to plan a program of study. Students planning further study may wish to declare their majors early, to prepare effectively. Students interested in preparing for elementary or secondary teaching should refer to the Education section of the Course Descriptions. Questions on teacher licensure should be directed to the Department of Education.

It is the responsibility of students to check with their advisor regarding satisfactory completion of all major and teacher licensure requirements.

Minors

An academic minor consists of 16 to 24 hours of work with grades as designated in a particular field. Students are not required to have a minor but may elect to complete one or more. Students may minor in Accounting, Agribusiness Management, African American Studies, Art and Design in Visual Studies, Biology, Business Administration, Chemistry, Communication and Rhetorical Studies, Computational Biology, Computer Science, Criminal Justice, Economics, Editing and Publishing, Education, English, Entrepreneurship, Environmental Studies, Finance, Fine Arts, Fine Arts Administration, French in Global Studies, Gender and Women's Studies, German in Global Studies, Global Studies, History, Human Resource Management, Japanese in Global Studies, Kinesiology and Exercise Science, Leadership Studies, Literature, Literature & Writing (Combined), Management, Marketing, Mathematics, Molecular Biology, Music, Neuroscience, Philosophy, Physics, Political Science, Pre-Law, Professional Writing, Psychology, Religious Studies, Sociology, Spanish in Global Studies, Sports Management, and Theatre, Writing.

Academic Advisors

The Illinois College Advising Program's mission is to help students become part of the IC family, discover their personal goals, achieve their academic and extracurricular successes, learn how to learn, and prepare for rewarding careers.

All faculty, staff, and students have a role in making advising work well. All staff members stand ready to help each student to find the answers to their questions and tap the existing extracurricular, counseling, and health services to their fullest extents. On an informal basis, staff members also can offer guidance in career planning.

All faculty members stand ready to answer questions or offer suggestions to students regarding academic matters, but each student has a designated faculty advisor. This pre-major advisor helps students maintain good academic standing, engage in fulfilling and enriching activities, and decide upon a major. Once the student selects a major, an advisor from the major department provides continuing guidance as well as major-specific course and career concerns.

All students should see their advisor as one of their most important teachers, meet regularly with their advisor, and feel welcome to ask any question for which they need an answer. The student should think carefully and deeply about his or her interests and seek the advice or knowledge he or she needs to have a fulfilling and successful experience at Illinois College and a productive life of leadership and service after graduating.

Students who wish to change their advisor should consult with the registrar.

Exceptions To Academic Policies and Requirements

Illinois College operates according to specific policies established by governmental bodies, faculty and administration. When a student seeks exceptions to academic policies or requirements, the student provides a written request to the Office of Academic Affairs. The Dean of Faculty and the Registrar meet to discuss the request, gather any further information needed, and either make a decision or refer the appeal to the Curriculum Review Committee. The Dean of Faculty or Registrar will communicate the decision to the student and later report it to the full faculty. Petitions may be submitted through Connect2.

Graduation and Commencement Participation

Students may participate in the May Commencement Ceremony following completion of degree requirements. Students graduating in December will be presented their official Illinois College diploma (with the December graduation date) on or after the date of the following May Commencement Ceremony. Students may participate in only one commencement ceremony.

Students may participate in graduation ceremonies prior to completing all graduation requirements in only one of three situations. 1) Students who have completed all graduation requirements except two courses, equaling no more than eight credit hours. These hours may be taken at Illinois College or another Institution 2) Students who have completed all graduation requirements except sixteen credit hours that can be completed during the online summer semester at Illinois College. Students must be fully registered for the summer session prior to participation in commencement 3) Students who have completed all graduation requirements except for one semester of student teaching.

Convocation requirements must be completed prior to participation in the commencement ceremony. See Convocation below for details, or contact the Registrar for additional information.

Applications for December graduation are due no later than September 1. Applications for May graduation are due no later than December 1.

General Descriptions

UNIT OF CREDIT

The unit of credit is the semester hour, which represents a 50-minute period each week for approximately 15 weeks, including examinations. Illinois College credits follow the U.S. Department of Education's guidelines about the definition of a credit.

For purposes of the application of this policy and in accord with federal regulations, a credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates:

1. Not less than one hour of classroom or direct faculty instruction and a minimum of two hours out of class student work each week for approximately fifteen weeks for one semester hour of credit, or ten to twelve weeks for one quarter hour of credit, or the equivalent amount of work over a different amount of time, or;
2. At least an equivalent amount of work as outlined in item 1 above for other academic activities as established by the institution including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.

CLASSIFICATION OF STUDENTS

Students are classified according to the number of semester hours earned previously to the current semester, including all transfer hours accepted toward an Illinois College degree:

First-year:	less than 27 hours
-------------	--------------------

Sophomores:	27 up to 56.9 hours
Juniors:	57 up to 87.9 hours
Seniors:	88 or more hours

COURSE DESCRIPTIONS, NUMBERING AND REQUIREMENTS

The most up-to-date course descriptions and general education indicators are available on Connect2 through the Illinois College website. General education requirements met by each course are designated at the end of the course description on Connect2.

In this written catalog, the semester hours of credit are indicated by the number in parentheses following the course title. Placement tests provide additional guidance in course selection. Classes for which eight or fewer students register on registration day may be withdrawn from the schedule for that semester. All first-year seminars have '130' as the course number. Course numbers ending in 97 or 98 are special courses that are only taught one time.

Unless explicitly waived by the instructor, all prerequisites must be completed with the grade of 'C' or above.

CONVOCATION

Convocations are an integral part of the academic experience and are tied to the mission and vision of the College. Convocations are presentations for the campus community intended to foster an academic and social environment marked by a pervasive sense of concern for the intellectual, moral, social, aesthetic, and spiritual development of our students.

All students, except students entering for the first time as transfer students, are required to attend 30 convocations. The number of convocations students admitted to Illinois College for the first time as transfer students must attend is determined by the number of credits they successfully transfer to Illinois College before they begin their first semester at Illinois College. The formula for determining the convocation requirement for these transfer students is 30 minus one-quarter of these successfully transferred credits. Additional transfer credits do not reduce the number of required convocations.

Students are expected to attend convocations every semester and complete convocations by the end of their junior year. Each student may check with their advisor and the Office of the Registrar to track satisfactory completion of these requirements. Convocation progress appears on Connect2.

Students in the fully online programs who possess an associate degree (A.A., A.D.N., A.S.) or at least one year of work experience relevant to their area of academic interest are exempt from the convocation requirement.

Co-Curricular and Special Academic Programs

The alumni of Illinois College have an enviable record of career success in such fields as education, law, medicine and allied fields, the ministry, social work, journalism, engineering, and business. Leaders in these fields constantly affirm that the best preparation for the professions is a liberal arts background.

Illinois College makes every effort through its career planning program to assist students in preparing for the career of their choice not only through the traditional curriculum but through a range of co-curricular opportunities. Students should bear in mind that most professional schools require a college record of more than average achievement for admission.

BreakAway Program

The BreakAway program offers students a unique learning opportunity beyond the campus. Faculty members offer courses which include travel off campus, usually for 10 days to three weeks when classes are not in session. Students of any class standing are eligible to participate. Past BreakAways have included: Costa Rica, Mexico, England, Germany, Greece, Ireland, Italy, Morocco, Spain, Japan, China, Thailand, a Civil Rights Tour of the South, Tropical Ecology in the Florida Keys, the 2008 Democratic National Convention, and Tornado Chasing in the Midwest. BreakAway destinations for the following academic year are announced in April of the current academic year. Students apply to participate in a given BreakAway. Eligible students may receive a subsidy up to \$1,000 toward the cost of the trip. More information about the BreakAway program can be found at <https://www.ic.edu/international/admission>.

Campus Writing Center

The Campus Writing Center (CWC) is located in Lincoln Hall. The Campus Writing Center offers peer tutoring, faculty assistance and a number of other support services to all writers at Illinois College. A select group of juniors and seniors are chosen from different departments to serve as peer consultants in the Center. Writers may make appointments or use the walk-in consultation service. Hours are posted each semester. The Center also hosts special events.

Center for Academic Excellence

Located in Lincoln Hall, the Center for Academic Excellence houses resources such as academic coaching, tutoring, and supplemental instruction. Academic coaches help students develop an action plan for success at IC. Strengths-based and future focused, they are here to be students' educational partner. They will work with students to develop specific study, time management, note-taking, and reading strategies. The Illinois College tutoring program is a free, comprehensive peer-based program designed to provide one-on-one assistance and small group support for student success. More information about the Center for Academic Excellence can be found at: <http://www.ic.edu/centerforacademicexcellence>.

The Center for Academic Excellence also houses the TRIO Student Support Services Program, a \$1.1 million grant program funded by the U.S. Department of Education, that helps students who are first-generation, income-eligible, or students who have a documented disability reach their academic goals and graduate from Illinois College. Students must apply and be accepted into the program, which gives them access to academic coaches, grant aid, social events, and programs and services. These programs focus on academic success, financial literacy, and career development. More than half of all Illinois College students are eligible for the TRIO Program. For more information or to apply to the TRIO Program, visit: <http://www.ic.edu/centerforacademicexcellence/trio>.

Also located within the Center for Academic Excellence is the college's Disability Services. Illinois College is committed to providing equal educational opportunity for all individuals and strive to provide reasonable accommodations to students who need, and will benefit from, specific learning accommodations. Students who had an Individualized Education Program (IEP) or a 504 plan in high school, have a documented disability, or would like assistance in determining their eligibility should contact the Center for Academic Excellence. More information about the services, related policies, application, and forms can be found at www.ic.edu/disabilityservices.

Community-Engaged Learning

Illinois College's students are active members of the community, fulfilling our mission to develop qualities of mind and character needed for fulfilling lives of leadership and service. Illinois College has a long-standing tradition of service, and our students take great pride in being engaged within the community. Many students are involved in campus courses or organizations dedicated to service learning, while others seek out opportunities to share their talents with the Jacksonville community on their own time. Whether cleaning up the Illinois River, fundraising for the local women's shelter or building homes for Habitat for Humanity, IC students regularly incorporate service into their college experience, diversifying their backgrounds in the liberal arts.

Service to our communities is at the heart of an Illinois College education. In a typical year, more than 90 percent of our students contribute to a total of over 40,000 volunteer hours. The Office of Community-Engaged Learning offers resources and support for students, faculty and community partners involved in this important work. Find out more information at 217.245.3630 or www.ic.edu/communityengagement.

Yates Fellowship Program

The Yates Fellowship Program is for first-generation college students and provides a yearlong learning community that will provide support for students as they begin their journey at Illinois College. It begins with a two-week, on-campus program prior to the start of the academic year. During the summer program, students work closely with Illinois College faculty members strengthening skills in writing and mathematics, improving organizational and study skills, and gaining a clearer sense of how a liberal arts college prepares students to achieve their life and career goals. Students will work closely with the Yates leadership team and an academic advisor throughout the entire academic year. There is no cost to participate in this program.

Intercultural Exchange Program

The Intercultural Exchange Program with Ritsumeikan University of Kyoto, Japan is a unique offering at Illinois College. The program brings 27 Japanese students to the College each spring for four weeks of study with Illinois College students participating as campus hosts and classroom assistants. As a part of the exchange, Ritsumeikan University hosts Illinois College students routinely for three weeks in the summer as part of the Illinois College Views of Japan BreakAway program. This study tour includes seven weeks of instruction in preparation for the trip to Japan.

Professional Experience Programs

Illinois College has a history of creating unique learning experiences for its students. Through field work, internships, practical and student teaching, students in every major have the opportunity to take part in supervised, credit-bearing professional experience programs.

These programs engage students in the application of theoretical or classroom knowledge in practical, work environments. Each student who participates in one of the professional experience programs works with a faculty member to establish learning objectives and course requirements through a learning contract or syllabus. These documents reflect the unique challenges and learning opportunities presented to each student while ensuring the academic quality of the program.

Students interested in participating in one of the professional experience programs should begin the process by talking with their academic advisor. Internship credit hours are awarded based on a minimum of 45 hours of work for each hour of credit. Faculty supervisors will provide, as part of the internship learning contract, the

projected hours for site work, writing and presentations. Many programs are offered during the academic semester and the summer, but it is important to plan ahead in order to meet application deadlines and assure appropriate course scheduling. Internships for academic credit must be established and recorded with the Office of Career Readiness & Experiential Learning and the Office of the Registrar by the tenth day of the academic term or by May 15 for summer internships.

Many internship opportunities are also advertised through the Office of Career Readiness on Handshake. The total number of credit hours from internships and field experience courses that may be counted toward an Illinois College degree is 16 and, except for student teaching, no more than four credits may be taken in any one term. Students may also earn credit through the following programs:

CHICAGO CENTER FOR URBAN LIFE AND CULTURE

The Chicago Center for Urban Life and Culture is an independent, not-for-profit organization partnered with 22 accredited colleges and universities nationwide. Through internships and classes, students connect with the practical work world outside the college campus and deepen their understanding of America's economic and political structures, race and gender relations and the role of the arts in community and social discourse. The Chicago Center for Urban Life and Culture program incorporates the expertise of sociologists, artists, community activists, religious leaders and social workers, as well as the experience of its internship partners in business, social service, education, art, health care, research, community programming and journalism as a part of the education process. The Chicago Center for Urban Life and Culture also offers opportunities for student-teachers through the Urban Teaching Program. The program meets the state accreditation requirements and provides participants the opportunity to teach in a successful city school with children of diverse racial, ethnic and economic backgrounds. In addition, students take part in a weekly Urban Teaching Seminar.

Students interested in the Chicago Center for Urban Life and Culture programs for the fall or spring semesters are guided through the application process by the Director of Global Programming and a faculty advisor. In order to receive Illinois College credit and retain their financial aid while at the Center, students must complete an application process and receive Illinois College approval prior to the academic year during which they wish to do the program.

Applications are due during the fall semester. Once approved by Illinois College and accepted to the program, students register for credits with their faculty advisor. Details about eligibility, the application process, academic credit, and financial implications of studying off-campus are spelled out in the "Illinois College Off-Campus Study Policies," which can be found at <https://www.ic.edu/international/admission>. Academic and travel awards, for which students may apply, are available to help offset any additional costs of the program. The Chicago Center also offers a summer term for students. Students are responsible for the Chicago Center fees and IC summer tuition rates apply for any credits the student earns. Financial aid may be available in the summer to assist in covering these fees depending on how many credits a student is enrolled in and academic standing. More information about the Chicago Center for Urban Life and Culture program is available in the Career Readiness & Experiential Learning Office and through the internet at www.chicagocenter.org.

CLINICAL EXPERIENCES IN EDUCATION

Courses in education are designed to provide preparation for students who anticipate careers in elementary, secondary or K-12 teaching. Students are assisted in selecting their required practicum and student teaching experiences by the director of clinical experience.

COMMUNICATION

Students who are interested in a career in journalism or public relations may wish to major in the Department of Communication and Rhetorical Studies or English. Internships for these students are available in both

Communication and Rhetorical Studies and English. An opportunity for practical experience may be secured on the staffs of the college publications: The Rambler, The Hilltop, and Forte. There are also possibilities for part-time employment at the Jacksonville Journal-Courier and local radio stations. Students should consult with the Office of Career Readiness & Experiential Learning or their academic department about these possibilities.

ENVIRONMENTAL ISSUES INTERNSHIP PROGRAM

Students interested in the environment may apply for a paid, summer internship with Starhill Forest Arboretum through the Office of Career Readiness & Experiential Learning.

FIELD EXPERIENCE IN INTERNATIONAL STUDIES

Students have the opportunity to work outside the United States with private agencies or international businesses.

FIELD WORK IN PSYCHOLOGY

Students participate in clinical experiences in local facilities arranged through the department.

IC EXPLORER INTERNSHIP PROGRAM

Illinois College has partnerships with organizations throughout the state of Illinois that offer opportunities for students to pursue internships in areas related to their academic interests. By working with the selected agencies to develop learning opportunities that match student interests and skills with employer needs, the program encourages students to put their academic knowledge to work.

Summer internships are typically 10-11 weeks of full-time work beginning in May or June. Students interested in participating in any of the programs should watch for application announcements late in the fall semester. Interested students should contact the Office of Career Readiness & Experiential Learning. Program partners have included:

ABRAHAM LINCOLN PRESIDENTIAL LIBRARY AND MUSEUM

Interns have the opportunity to work in various areas of the library and museum in Springfield. The museum offers the areas of education, facility management, theatre, guest services, marketing and volunteers. The library gives the intern experience in working with historical documents on Illinois and American history.

HENSON ROBINSON ZOO

Students interested in animal care and public educational outreach work directly with the Zoo's education curator to deliver daily programs that increase awareness about conservation concerns locally and globally.

HERITAGE HEALTH THERAPY AND SENIOR CARE

Interns will work with the social services director, the activity director, and therapists at this retirement home.

ILLINOIS STATE MUSEUM

Illinois College students who choose an internship with the Illinois State Museum will have the opportunity to work in the Museum's collections, including objects and specimens ranging from the ancient to the modern. Interns will gain practical museum experience with options in several different content areas: anthropology, history, museum education, art and art history, life sciences, earth sciences, museum techniques and museology, and library science.

LINCOLN'S NEW SALEM STATE HISTORIC SITE

Students have the opportunity to become active learners in the historic 1830s environment at Lincoln's New Salem State Historic Site in Petersburg where Abraham Lincoln spent his early adulthood. Students work collaboratively with park employees and volunteers as historical interpreters in the village or camp counselors for the Pioneer Life Day Camp programs held each summer at the historic site.

Other paid and unpaid internships are available throughout the year for first-year through senior students. Students interested in internships should contact the Office of Career Readiness & Experiential Learning the semester prior to when they would like to complete the internship – earlier is always better. Summer internships for credit must be on record in the Office of Career Readiness & Experiential Learning and the Office of the Registrar by May 14.

MEDICAL SCHOOL PREPARATION PROGRAM

Students planning to take the MCAT as part of their medical school preparation can apply to the Medical School Preparation Program. This paid, summer program is typically for rising seniors and provides summer housing, fees for the online Kaplan MCAT preparation course, and half-time research with an IC faculty member.

MILLS EXPERIENTIAL LEARNING FUND

The Mills Experiential Learning Fund supports a student's experiential learning activity while a first-year, sophomore, or junior. Funds can help support BreakAways, internships, service learning, study abroad, and student-faculty research opportunities. Applications are accepted on a rolling basis through the Experiential Learning Fund General Application.

PRACTICUM IN SOCIOLOGY

Students have the opportunity to apply sociological theory and research methods through field work. Emphasis is placed upon interviewing, data gathering, agency organization and/or interrelationships, and the evaluation of programs and approaches.

STUDY ABROAD

The Study Abroad program at Illinois College allows students with majors in any discipline to spend a semester or an academic year studying outside the United States. While abroad, students usually study at a host university, but may also choose to participate in internships or other approved international programs such as the TANDEM program in Madrid for future Spanish teachers. These programs challenge students to adapt to new cultures, expose them to diverse perspectives, and often enhance their ability to communicate in a second language.

Students interested in study abroad consult with the Director of Global Programming about an approved partner program that will best suit their personal goals and academic needs.

In order to receive Illinois College credit and retain their financial aid while abroad, students must complete an application process and receive Illinois College approval prior to the academic year during which they wish to study abroad. Applications are due during the fall semester. Once approved by Illinois College and accepted to a study abroad program, students register at Illinois College for a travel-study course. Upon completion of the semester abroad, credit for specific courses replaces the travel-study course. Students may fulfill both general education and major/ minor requirements with courses taken abroad.

Details about eligibility, the application process, academic credit and financial implications of studying abroad are spelled out in the “Illinois College Off-Campus Study Policies,” which can be found at <https://www.ic.edu/international/admission>. Academic and travel awards, for which students may apply, are available to help offset any additional costs of the program.

WASHINGTON CENTER PROGRAM

The Washington Center enables students of all majors to earn college credit for internships and academic seminars in Washington, DC. Through Illinois College’s affiliation, students can acquire substantive internships at any of the thousands of governmental, for-profit and nonprofit organizations for which The Washington Center maintains ties. Students participate in a topical seminar program incorporating guest experts and taught by faculty members from Washington area universities.

Students applying to The Washington Center program for the fall, spring or summer semesters are guided through the application process by the Director of Global Programming and a faculty advisor. In order to receive Illinois College credit and retain their financial aid while at the Center, students must complete an application process and receive Illinois College approval prior to the academic year during which they wish to do the program. Applications are due during the fall semester. Once approved by Illinois College and accepted to the program, students register for tuition credits with their faculty advisor. Details about eligibility, the application process, academic credit and financial implications of studying off-campus are spelled out in the “Illinois College Off-Campus Study Policies,” which can be found at <https://www.ic.edu/international/admission>. Academic and travel awards, for which students may apply, are available to help offset any additional costs of the program.

The Washington Center also offers a summer term for students. Students are responsible for The Washington Center fees and IC summer tuition rates apply for any credits the student earns. Financial aid may be available in the summer to assist in covering these fees depending on how many credits a student is enrolled in and their academic standing. Applications for this program are typically due in the fall semester of the year prior to the expected experience.

More information about The Washington Center program is available in the Office of Career Readiness and via the internet at www.twc.edu.

Illinois College is committed to ensuring every student has the option to complete an experiential learning opportunity.

Affirmation of Community Responsibility

To ensure that all members of our community live, work, and learn in an environment where they can thrive, we affirm four guiding virtues: **commitment**, **curiosity**, **clarity**, and **civility**.

With **commitment**, we will work diligently to support our community and pursue excellence.

With **curiosity**, we will be eager to learn, open to new information, ready to take risks, and earnest in our pursuit of growth.

With **clarity**, we will be open and honest with each other, and act with integrity at all times.

With **civility**, we will treat one another with respect and care, and seek justice and understanding within and beyond our community.

Through **commitment, curiosity, clarity, and civility**, we pledge to uphold the mission and vision of Illinois College, ensuring that, both individually and collectively, we do all we can to make a positive difference in our world. (Adopted by the Faculty, 2018)

Academic Rights and Responsibilities

Intellectual Integrity

Because intellectual honesty is essential for the health of an academic community and the achievement of its objectives, any attempt on the part of students to submit work which is not their own, or to assist someone else in doing so, cannot be tolerated. A Statement on Intellectual Integrity, printed in the Student Handbook (Blue Book), includes the basic policies, the penalties for violations, and recommended procedures for avoiding violations.

Full-time Status

Students must register for a minimum of 12 semester hours to be considered full-time. The normal schedule is 16 hours each semester, although schedules range from 12 to 18 hours. Permission to take more than 18 hours must be obtained from the Provost. Full-time status is required to be eligible to live in the residence halls and to be eligible for and to maintain participation in extracurricular activities.

Part-time/Special Status

Students taking a course load less than 12 hours for credit are designated as part-time or “special” students. A course load fewer than six hours is “less than half-time.” Special students may or may not be degree candidates and must maintain the following grade point averages in order to remain in good standing regardless of how many courses are taken: after the first semester 1.500, after the second semester 1.700, after the third semester 1.900, thereafter 2.000. Special students who are not in good standing are governed by the same regulations with respect to probation, dismissal and readmission as full-time students. A special student who is a degree candidate and who has never enrolled in the College as a full-time student, but otherwise meets all requirements for graduation, may receive the earned degree provided the student has attended a number of convocations equal to one-quarter of the number of credit hours earned at Illinois College up to a total of 30 convocation attendances.

A student-athlete with athletics eligibility remaining may participate in organized practice sessions while enrolled in less than a minimum full-time program of studies, provided the student is enrolled in the final semester of the baccalaureate program and the institution certifies that the student is carrying (for credit) the courses necessary to complete the degree requirements, as determined by the faculty of the institution. (See NCAA Rule 14.1.8.1.3.) Illinois College requires a minimum of 4 credit hours for students enrolling under this special status. However, the minimum number of hours is subject to change. Students must consult with the Office of the Registrar and the Athletic Department if they intend to enroll under this special status.

Grades, Quality Points and GPA

The achievement of each student is recorded in terms of letter grades carrying quality point values. Beginning with the fall 2007 semester, Illinois College uses the following numerical grade points:

A	4.00	C	2.00
A-	3.67	C-	1.67
B+	3.33	D+	1.33

B	3.00	D	1.00
B-	2.67	D-	0.67
C+	2.33	F	0.00

Grade point average (GPA) is determined by dividing the total number of quality points by the total number of credit hours attempted. Only course work which has been completed at Illinois College is included in determining grade point average. Credit hours for a grade of F are counted in determining grade point average but are not counted in determining hours toward graduation.

Academic Honors and Awards

IC SCHOLARS HONORS PROGRAM

IC Scholars, the honors program at Illinois College, is designed to encourage academic achievement by providing opportunities for research, interdisciplinary learning, and creative challenges through enhanced coursework, supervised research, and travel. We ask students to enter a community of scholars willing to take intellectual risks and engage with the complex global issues confronting our diverse world. Admitted students will be considered for the IC Scholars program based upon academic achievement in high school and an interview with faculty during the Bright Blue scholarship program.

Successful completion of the IC Scholars program includes completion of an honors First-Year Seminar in the first semester; completion of four honors-designated course assignments by the end of junior year; completion of an honors project during senior year; and maintaining a 3.5 GPA.

Students will be eligible for a fully-funded BreakAway in their junior or senior year if they are in good standing and have completed requirements to that point. Contact the IC Scholars director for more information.

DEAN'S LIST

Each semester students who have completed and received graded credit for at least 14 hours with a grade point average of 3.5 or above, have no grade below 'C', have no more than one 'C' grade, and no 'Incomplete' grades are placed on the Dean's List.

GRADUATION HONORS

The grade point standards for graduating from Illinois College with honors are:

Summa Cum Laude	3.9000 - 4.0000
Magna Cum Laude	3.7500 - 3.8999
Cum Laude	3.6000 - 3.7499

The cumulative grade point will be based on grades received at Illinois College alone and must cover at least four semesters of full-time attendance. Students with fewer than four semesters at Illinois College are not eligible for graduation honors. (Note: These standards are effective for all students who graduate in the academic year 2020-21 and later.)

PHI BETA KAPPA

Phi Beta Kappa is a national honor society that recognizes high scholarship. The first chapter was formed at the College of William and Mary in Virginia in 1776. Colleges merit a local chapter of Phi Beta Kappa on the basis of their high scholastic attainments, and membership in the society is a mark of distinction. Four universities and

seven colleges in the state of Illinois have chapters of Phi Beta Kappa; the Illinois College chapter is the Epsilon of Illinois. During the second semester of each year the faculty members of the chapter, who are solely responsible for selection, elect to membership a limited number of graduating seniors whose scholastic records show marked attainment and promise in the liberal arts and sciences tradition of Phi Beta Kappa. Grades in internships, field work and the professional semester are not included. Students entering in fall 2003 or later must have a broad program in the liberal arts and sciences, including at least 90 hours of liberal arts coursework, successful completion of a language course at the 200-level or beyond, successful completion of a mathematics course at the 200-level or beyond, and must have completed at least 75 semester hours at Illinois College to be considered as candidates. Membership in Phi Beta Kappa is the highest scholastic distinction which undergraduates can receive.

STUDENT MARSHALS

Two juniors are selected on the basis of high scholarship and effective leadership in college activities to serve as Student Marshals in the academic processions at commencement and other special occasions.

Satisfactory Academic Progress, Warning, Probation and Suspension

Illinois College requires that students earn the bachelor's degree within 10 semesters of fulltime enrollment (pro-rated for part-time enrollment). The College requires students enrolled in 3-2 programs to earn the Illinois College bachelor's degree within 12 semesters of full-time enrollment including semesters of study at the cooperating institution. Students with special circumstances may make written appeals to the Office of Academic Affairs for exceptions to these requirements. The following policy was approved by the Illinois College Faculty on February 3, 2014.

In accordance with the Higher Education Opportunity Act of 1965, as amended by Congress in 2008, Illinois College has established a minimum Standards of Academic Progress (SAP) Policy. When a student accepts financial aid, he or she also accepts the responsibility for making satisfactory academic progress towards a degree. In order to maintain eligibility for financial aid funding, a student must meet the Satisfactory Academic Progress (SAP) standards stated below.

A student will be considered to be making satisfactory progress if he or she meets ALL of the following standards. Failure to comply with any ONE of the standards will affect Academic Standing and may result in a loss of financial aid eligibility. Satisfactory Academic Progress is evaluated after the completion of each semester.

All federal, state, and institutional financial aid programs administered by the Illinois College Office of Student Financial Services are covered by this policy.

This policy replaces all previous SAP Policies and beginning in Fall Semester 2014 goes into effect for all students.

STANDARDS OF SATISFACTORY ACADEMIC PROGRESS (SAP)

1. Cumulative Grade Point Average (GPA)

Unless a student is placed on SAP warning, an undergraduate student must maintain the minimum cumulative GPA as displayed in the chart below in order to remain in good academic standing and to receive financial aid. A student must achieve a 2.0 cumulative GPA by the end of the fourth semester and maintain it every semester thereafter. GPAs are calculated to the fourth decimal place and will not round up. Transfer students should refer to the section at the end of this policy for additional information.

# Semesters	Cumulative GPA Required
1	1.5000

2	1.7000
3	1.9000
4 or more	2.0000

2. Completion Rate

All students in their first year at Illinois College must successfully complete 66% of all attempted credit hours. After the first year, a student must reach a cumulative Completion Rate of 75% of all attempted credit hours. The Completion Rate is calculated by dividing the cumulative number of earned hours the student has successfully completed by the cumulative number of hours the student has attempted. These percentages will be calculated to two decimal places and will not round up.

- Course grades of A, A-, B+, B, B-, C+, C, C-, D+, D, D- and CR will be considered attempted and successfully completed.
- Course grades of F and NCR will be considered attempted and unsuccessfully completed.
- Course grades of CR (credit) will be considered attempted and successfully completed, but they will not affect the student's grade point average.
- Course grades of I (incomplete) indicate a student has not yet completed the course, and therefore, will not be considered as successfully completed. An incomplete grade does not earn credit or influence the grade point average. However, an incomplete grade will count toward total credits attempted. If an "I" grade is later changed to a grade, the student's progress will be re-evaluated.
- Course grades of W (withdrawn from class) do not earn credit toward graduation or toward satisfying the minimum credit hours requirement; however, these credits will count toward the total attempted credits and the Maximum Timeframe requirement (see below). Within the drop/add period (the first ten days of a term), a student may drop courses without a grade. These courses are removed from the academic record and will not count as attempted hours.
- Audit courses (AU) are not counted as either attempted or completed credits and are not eligible for financial aid funding.
- Credit hours from another institution that are accepted at Illinois College must count as both attempted and completed hours.

3. Maximum Timeframe Rule

In addition to the two measures of academic progress, a student must complete their program of study within 150% of the standard timeframe required to earn their degree. With 120 hours needed to complete degree requirements, an Illinois College student must complete a degree within 180 attempted hours. If a student will go over 180 hours in their last semester, they must appeal to the Office of Academic Affairs to obtain an exception to this rule.

FINANCIAL AID GOOD STANDING STATUS

A student who is meeting all of the SAP Standards above is considered in good standing and is eligible for financial aid funding.

SAP WARNING

If a student fails to meet either the cumulative GPA standard or the Completion Rate standard, he or she is placed on Academic and Financial Aid warning requiring that he or she must meet the GPA and Completion Rate standards by the end of the following semester. Warning status lasts for only one semester during which the student remains in good academic standing and may continue to participate in intercollegiate athletics and to receive financial aid funds. A student who fails to make satisfactory progress after the warning period loses his or her aid eligibility unless he or she successfully appeals and is placed on probation.

SAP PROBATION STATUS

A student who fails to meet SAP Standards may be subject to Academic Suspension but may appeal to have his or her financial aid eligibility reinstated for one additional semester. A student who successfully appeals is placed on Academic and Financial Aid Probation.

A student who is placed on probation is not in good academic standing and is not eligible to participate in intercollegiate athletics until he or she meets the SAP standards.

During the probationary period, a student has one semester to satisfactorily meet the SAP Standards unless his or her Academic Plan allows otherwise. An Academic Plan may be developed with the student by the Office of Academic Affairs to ensure the student will be able to meet all SAP Standards within a given period of time. The Academic Plan may set individual goals for a student that do not bring the student into compliance with SAP at the end of the semester but do move the student toward timely graduation. If SAP standards are met at the end of the probationary period, the student returns to Good Academic and Financial Aid standing for the next semester of enrollment. If the goals of an individual Academic Plan are met, without attaining the SAP standards, the student will stay on SAP probation and remain eligible for financial aid. If neither SAP standards nor the Academic Plan goals are met at the end of the probationary period, the student will be placed on SAP suspension.

A student can be placed on or continue SAP Probation under the following circumstances:

1. If, after one semester of SAP warning, the student does not meet the SAP standards, he or she may be placed on SAP Probation if he or she successfully appeals his or her SAP Suspension for not meeting the SAP standards.
2. If he or she meets the goals of a customized Academic Plan while on probation in the previous semester but is still not achieving the SAP standards.

SAP SUSPENSION STATUS

A student who earns less than a 1.2 semester GPA or fails to meet the SAP standards or fails to meet the goals of an Academic Plan while on SAP Probation may be immediately placed on SAP Suspension. As long as a student is on suspension, he or she is not eligible for any financial aid funding at Illinois College. A student may appeal this status; however, submitting an appeal does not guarantee approval.

SAP REINSTATEMENT

A student who loses financial aid eligibility because he or she is not meeting SAP Standards may restore his or her eligibility in one of the following ways:

1. Successfully appealing the loss of eligibility. To appeal, the student must submit a Satisfactory Academic Progress (SAP) Appeal with supporting documentation to the Office of Academic Affairs. If, based on the appeal, the Office of Academic Affairs determines the student should be able to meet the SAP standards by the end of the subsequent semester; he or she may be placed on probation without an academic plan for one semester only. A progress review is required at the end of that semester. If, based on the initial appeal, the student will require more than one semester to meet progress standards; he or she may be placed on probation with an Academic Plan that ensures the student is able to meet the SAP standards by a specific time. A progress review at the end of one semester is required of a student on probation status to determine if the student is meeting the requirements of the Academic Plan. If the student is meeting the requirements of the Academic Plan, the student is eligible to receive financial aid as long as the student continues to meet those requirements and is reviewed every semester according to the requirements specified in the plan. If the conditions of the Academic Plan are not met, the student will no longer be eligible to continue at Illinois College or to receive financial aid funding until such time as SAP Standards are met. A student must also appeal to change their plan. He or she must explain what has happened to make the change necessary and how he or she will be able to make academic progress.

2. By completing one full-time semester or two full-time quarters at another college/ university which allow the student to achieve the SAP standards. Keep in mind that credits taken elsewhere will not resolve the Cumulative GPA component of SAP, except under certain conditions, but may be used to resolve the Completion Rate requirement. Courses taken must be chosen in consultation with the Registrar. Simply sitting out of school for a semester or two will not restore eligibility for a student who has lost eligibility to receive financial aid funding due to not meeting SAP Standards. A student who has been suspended from Illinois College by the Academic Affairs Office but is subsequently given permission to re-enroll is not automatically eligible to receive financial aid funding. Readmission decisions are separate from funding decisions.

Other than when a student is placed on financial aid warning or probation or has agreed to an academic plan as outlined above, he or she can regain eligibility only by taking action that brings him or her into compliance with satisfactory progress standards. However, neither paying for classes with the student's own funds nor simply sitting out for a term affects a student's academic progress standing. It is necessary to make changes to the GPA or Completion Rate that achieve the SAP standards to reestablish aid eligibility.

SAP APPEAL PROCESS

A student who fails to meet the Satisfactory Academic Progress Standards has the right to appeal the suspension of their financial aid funding. The appeal cannot be based upon the student's need for assistance or student's lack of knowledge that his or her funding was in jeopardy. Appeals must be based on some type of extenuating circumstance (death, illness, accident, natural disaster, activation into military service, previously undiagnosed learning disability, etc.) that impacted negatively upon student's ability to meet the required standards and based on what has changed in the student's situation that would allow the student to demonstrate satisfactory academic progress at the next evaluation. The SAP Appeal process is a two-part process. Submitting an appeal does not guarantee approval. The appeal process is a request for an exception to the SAP Policy. Not all circumstances will warrant an exception to the SAP Policy. The student must submit a Satisfactory Academic Progress Appeal to the Academic Affairs Office including a detailed statement explaining the extenuating circumstance(s) along with third party documentation (doctor's statement, death certificate, police report, activation papers, etc.) verifying his or her claim. In addition, the appeal must address what has changed in the student's situation that would allow the student to demonstrate satisfactory academic progress at the next evaluation. The appeal will be reviewed and a determination of whether or not the appeal has merit will be made. Appeals submitted without all required documents will be considered incomplete and denied due to lack of sufficient evidence.

Keep in mind that due to the limited amount of time between semesters, a complete review of all financial aid recipients' SAP standards may not be possible before financial aid funds are credited to the student account or bills are due; therefore, a student who is subsequently determined to be ineligible under the SAP Standards will have their funds returned to the appropriate federal and/or state agency and the student will be billed for the amount owed to the college.

NOTIFICATION

A student will be notified of decisions regarding their Satisfactory Academic Progress through his or her Illinois College email.

RE-ADMISSION WITHOUT FINANCIAL AID

At the discretion of the Office of Academic Affairs, a student may appeal for re-admission to the college without financial aid.

TRANSFER STUDENTS

A transfer student who enrolls at Illinois College with 24 credits or more must meet the standards listed above with the exception of their first semester at Illinois College as a full-time student. For this first semester, the standard for good academic standing is a GPA of 1.7 or above, the standard for being placed on SAP warning is 1.69 or less. Fifteen hours of transfer work count as one semester for calculating the number of semesters. The grades earned on transfer work do not count toward the grade point average at Illinois College.

Completing Out-of-Residence

In completing their graduation requirements, students are required to take at least 32 hours, including 24 of their final 32 semester hours, at Illinois College. For sufficient cause, students may appeal this policy through written petitions in the Educational Policies Appeal form on Connect2.

Seniors will ordinarily not be permitted to take more than their last eight credit hours out-of-residence. Students granted permission to complete graduation requirements out-of-residence must normally do so within one calendar year after the end of the last semester in residence. Students completing out-of-residence during the second semester of an academic year must have their work completed and the grade recorded in the institution's records office at least one week prior to Illinois College's commencement date in order to be considered for graduation that academic year. Failure to do so may result in their graduation being held over to the following academic period. This policy does not apply to students who are enrolled in a program established by an articulation agreement (3-1, 3-2 programs) with another college or university, or to students who are enrolled at Illinois College while studying off-campus.

Class Registration

Illinois College has an open add-drop period of five class days at the beginning of each semester to allow students to make any necessary adjustments to their schedules. During this period, schedule changes may be made using the online system through Connect2. After the fifth class day for on-campus students, all enrollment changes must be made using the paper add-drop form which is submitted in person to the Office of the Registrar. The forms are available on Connect2 and in the Office of the Registrar.

With advisor approval, students may add courses to their schedule through the fifth class day of the semester without the instructor's approval. For on-campus students, adding a course after the fifth class day and prior to the end of the tenth class day of the semester is permissible if the course's instructor and the student's advisor sign a paper add form. Students will not be penalized for any absences that occurred prior to their enrollment in the course. They also will be allowed to complete any missed homework, quizzes, or projects, or any substitute work that the faculty member agrees to accept, from that period. However, should they choose not to make up the work, they will receive zeros or failing grades on that work.

Students who withdraw from a course prior to the end of the tenth day (or fifth day for online students) can remove the course from their schedule without a "W" appearing on their transcript. **It is the student's responsibility to ensure their enrollment is correctly listed on Connect2 by 4:30 p.m. on the tenth day (or fifth day for online) of classes.** Illinois College reserves the right to modify this policy as needed. Students will be notified of any changes via their campus email.

Note: For any changes to these dates, see the College's website.

Withdrawals

In courses in which a grade has not already been filed, on-campus students may withdraw from a full-term course until Monday of the tenth week of classes with a grade of 'W'. If a student withdraws from a repeated course, the 'W' does not replace a grade in the previous course. See Satisfactory Academic Progress (page 192) for the impact of withdrawals.

For online courses, Illinois College has an open add-drop period of five business days at the beginning of each term to allow students to make any necessary adjustments to their schedules. Students who withdraw from a course prior to the end of the fifth business day of a term can remove the course from their schedule without a "W" appearing on their transcript. Students can withdraw from a course with a "W" appearing on their transcript until 4:30 p.m. on the end of the last business day of the fifth week in the term. After the fifth week of classes, students must accept a grade for the course or petition the Office of Academic Affairs for an exception.

On-campus students intending to withdraw from the college must report their intent to withdraw to the Office of Academic Affairs on the second floor of Tanner Hall. Students who withdraw from the College after the tenth day of classes and before the Monday of the tenth week of classes will receive a grade of 'W' (withdraw) in all courses for which a grade has not already been filed. Students withdrawing from the College prior to the seventh week of classes will receive a partial refund of tuition as stipulated on page 215. Students who withdraw from the College must receive permission to return from the Provost before re-enrolling.

Online students intending to withdraw from the college must report their intent to withdraw to their Online Advisor and the Office of Academic Affairs. Students withdrawing from the College prior to the sixth day of classes will receive a 100% refund of tuition and fees. Students who withdraw after the fifth day of classes and prior to the fifth week of classes will receive a partial refund of tuition as stipulated by the chart provided by Student Financial Services.

Note: For any changes to these dates, see the College's website.

Credit/No Credit Registration

Certain courses have been approved for Credit/No Credit registration by the departments or programs concerned. Students may enroll in one such approved course, outside their major, each semester instead of registering for the normal letter grade. Students enrolled on a Credit/ No Credit basis must fulfill all course requirements including attendance, assignments, classroom participation, papers and examinations. Credit is given if the semester grade is D or above. If the semester grade is F, it is recorded as NC and is included in hours attempted but not hours completed. Credit/No Credit registration must be completed in the Office of the Registrar by the tenth day of classes and may not be reversed thereafter. Credit/No Credit courses count as hours attempted. An exception was made for courses taken in spring 2020 due to the COVID-19 pandemic and students could request CR/NC grading late in the semester and CR was applied to C- and higher grades.

Repeat Courses

During the term in which the course is being repeated, credit hours earned in the first attempt will still be in the student's total hours. The student must remember that additional hours will not accrue for courses that previously earned credit hours. When a student repeats a course, the previous credit and grade are canceled upon completion of the subsequent attempt with the more recent grade becoming the grade of record. The earlier attempt remains on the transcript with an asterisk or parentheses around the grade to show that the course has been repeated. Subsequent attempts are marked with an 'R' for repeat. Improving a course grade of F will affect both grade point average and hours counted toward graduation, whereas improving a grade of D or above will affect grade point average only. Repeated courses count as additional hours attempted.

Incomplete Grades

In consultation with the Dean of Student Success, an instructor may award the grade of Incomplete (I) when extenuating circumstances make successful completion of course requirements impossible. A grade of incomplete must be made up prior to the 10th day of the subsequent semester (census date) at which time the grade defaults to an 'F' unless a Course Completion Contract is filed with the Provost specifying an alternative timetable and default grade. For students taking courses online, those in the A subterm have until the end of

the semester to complete the course requirements; students taking courses in the B subterm have until the 5th day of the subsequent semester (census date) to complete the course requirements. If a student, on campus or online, has incomplete course work, all federal and state financial aid, including loans, cannot be disbursed until all incomplete work has been completed. If a student has not made satisfactory academic progress (SAP) by the census date and is placed on SAP suspension, the student is not eligible for any financial aid funding and will be responsible for all charges incurred.

Summer Study on an Individual Basis and Internships

With faculty supervision, students may register for credit for an independent study or participate in college-approved internships during the summer. Internships for academic credit must include summer assignments, opportunities for reflection on the activities of the internship, and a culminating project. Approval by a faculty supervisor and the Office of Career Readiness is required by June 1 each year. The internship learning contract, available from Career Readiness, is required. See [Internships](#) for more information.

Transfer Credits

In most cases, Illinois College accepts transfer credits from regionally accredited institutions of higher education for coursework equivalent to coursework offered at Illinois College. In general, undergraduate academic coursework with a grade of 'C-' or better is transferrable to Illinois College while vocational and graduate course work is not because Illinois College does not offer work in these areas. No credit is given for any coursework for which the student received a grade below a 'C-' or a credit/no credit grade. An exception will be made and CR grades will be accepted for courses taken in spring 2020 due to the COVID-19 pandemic. Official transcripts from an accredited college are required before transfer credit can be evaluated, accepted, or recorded. Copies issued to the student, even sealed copies, are not accepted as official. Transfer credits are evaluated by the Office of the Registrar in consultation with the relevant academic departments. Application of the coursework within each major is determined by that academic program. Acceptance of transfer courses for credit does not automatically guarantee that those courses will substitute for particular Illinois College courses in meeting general education requirements or within majors or minors. Transfer courses normally receive the semester hour equivalent of the credit value of the institution where the courses were taken, whether higher or lower than the equivalent Illinois College course. The grades earned on transfer work do not count toward the grade point average at Illinois College.

Illinois College accepts credits earned by dual enrollment, provided the credits are presented on the transcript of an accredited institution of higher education. Illinois College also accepts Advanced Placement, International Baccalaureate, CLEP and other work based on testing, based on its evaluation of the test scores. In no case does Illinois College allow double-dipping (e.g., credit for both the AP test results and a dual-credit high school course in the same area would not be allowed). Illinois College also accepts military education credits which meet the same equivalence standards as other transfer work.

No more than 88 hours of transfer work from accredited two-year colleges or four-year institutions may be counted toward an Illinois College degree. Students must earn at least 32 semester hours of academic credit at Illinois College, with 24 of the last 32 completed with Illinois College.

For students already enrolled at the College, the Transfer Credit Approval form for pre-approval of courses to be taken out of residence is available from the Office of the Registrar, the Illinois College Web site and Connect2 and is highly recommended for all transfer work. Applicability for general education or major/minor credit should be documented by completion of this pre-approval form.

Policies for Transfer Students Seeking to Satisfy BLUEprint 3.0 Requirements

1. Students may transfer approved courses into Illinois College to substitute for BLUEprint 3.0 (General Education) courses. In most cases, departments will collaborate with the Office of the Registrar to approve courses from other institutions of higher learning to meet the standards of various BLUEprint requirements. In cases for which there is no appropriate department or program to approve such a course, students may petition for approval by submitting the Educational Policies Appeal (EPA) form.
2. Oral Communications: Students who satisfy the Oral Communications requirement by taking an approved course away from Illinois College will be considered to have completed the Ethical and Responsible Actions and Speaking Extensive experiences normally satisfied by the Communications 101 course at Illinois College.
3. Written Communications: Students who satisfy the Written Communications requirement by taking an approved course away from Illinois College will be considered to have completed the Writing Extensive and Information Literacy experiences normally satisfied by the English 121 course at Illinois College.

SEMINAR COURSE REQUIREMENTS FOR TRANSFER STUDENTS:

Students who transfer to Illinois College with less than 15 credits must take the First-Year Seminar (FYS) or the Transfer Student Seminar (TSS). Students who transfer to Illinois College with at least 15 credits from another institution of higher education are strongly encouraged to take the Transfer Student Seminar (TSS). The Transfer Student Seminar, along with Oral and Written Communications, make up the set of Foundations requirements for transfer students who enter Illinois College with at least 15 credits.

Transfer students entering Illinois College with an associate's degree (AA or AS) are exempt from all Foundations and Explorations requirements. They remain responsible for other BLUEprint 3.0 requirements.

TRANSFER STUDENT SEMINAR

The Transfer Student Seminar is designed to help transfer students fulfill BLUEprint 3.0 requirements.

Successful completion of TSS also guarantees credit for three embedded experiences: Community/ Civic Engagement, Ethical and Responsible Actions, and Information Literacy.

Successful completion of TSS and a science lab course taken either at Illinois College or elsewhere will together satisfy the Exploration requirement of Science in Society with lab.

Students may transfer into Illinois College courses which meet the embedded experience requirements.

GENERAL EDUCATION AND TRANSFER POLICIES FOR ONLINE DEGREE PROGRAMS

Illinois College welcomes students into its fully online programs, and the faculty have approved several substitutions to the general education requirements to acknowledge the different circumstances of this mode of study. Students in the fully online programs who possess an associate degree (A.A., A.D.N., A.S.) are exempt from all Foundations and Explorations requirements. They remain responsible for other BLUEprint 3.0 requirements.

Students in the fully online programs who possess an associate degree (A.A., A.D.N., A.S.) or at least one year of work experience relevant to their area of academic interest are exempt from the convocation requirement. Students with transfer credits but no degree who possess at least one year of work experience relevant to their area of academic interest are exempt from the first-year seminar or transfer seminar requirement, can substitute a Science in Society non-lab course for the lab requirement, and can substitute an additional Global Awareness course for the language requirement.

Student Conduct Rights and Responsibilities

An academic community can only function if the rights and responsibilities of all its members are recognized. Illinois College requires that students be familiar with stated College policies and procedures as printed in the Student Handbook (Illinois College Blue Book <https://www.ic.edu/studenthandbook>), which also includes the Code of Student Conduct, disciplinary process and appeal information.

Students who violate Illinois College policies may be subject to warning, probation, deferred suspension, suspension or dismissal. A student who has been dismissed for non-academic reasons and wishes to return must apply in writing to the Provost. The Provost in consultation with the Associate Dean of Students will then make a determination on readmission. If the student's request for readmission is denied, the student may submit an appeal letter. The appeal letter should include evidence of new and substantive information or why they believe they were denied due process on their request to be readmitted.

Class Attendance

Class attendance requirements are determined by the instructor. When an absence is justified, a student may be permitted to make up missed assignments, but in no instance is a student excused from fulfilling regular course requirements. Excessive absence may result in a reduction of the student's grade or the college dropping the student from the course with the grade of 'W' or 'F.'

Confidentiality of Records and Release of Information

In compliance with the Family Educational Rights and Privacy Act of 1974 (FERPA), Illinois College is prohibited from providing certain information from student records to a third party, such as information on grades, billing, tuition and fees assessment, financial aid (including scholarships, grants, work-study or loan amounts) and other student record information except under certain conditions. This restriction applies, but is not limited, to parents, spouse, or a sponsor. A student may grant Illinois College permission to release information about his/her student records to a third party by submitting the Set Permissions for Access to Information on Connect2. FERPA allows the college to release directory information, which Illinois College designates as name, address, telephone number, e-mail address, picture, major field of study, grade level, enrollment status, dates of attendance, participation in officially recognized activities, degrees, and honors/awards. Students may elect to limit the release of directory information when completing their Personal Information Updates each semester.

Complete information on procedures to allow or block release of information and student access to personal files is included in the Student Handbook (Illinois College Blue Book), which is available on the college web page.

Responsibility for Off-Campus Activities

From time to time, students at Illinois College participate in activities which take them off the campus. In all cases, students must follow the directives of faculty or staff leading the activity and represent publicly the values of Illinois College. In most instances, such as field trips, athletic contests or music performances, these off-campus trips are short in duration. Students are expected to sign a release of liability in order to participate in these programs each term. More extended trips such as travel abroad will have specific releases of liability to be signed by parents and students as a condition of participation. Off-campus activities undertaken outside the programs of the College are at the individual liability of the student.

Cellular Phone Policy

Illinois College aims to provide an optimum environment for teaching and learning. To this end, we encourage all members of the community to be considerate in their use of cell phones and other electronic communications devices. No conversation on a cell phone should take place when a class or meeting or other public event (such as convocation or concert) is in progress. In general, all electronic devices should be turned off inside academic buildings. When it is necessary to leave such devices turned on, all members of the Illinois College community should endeavor to receive only non-audible signals. When receiving a phone call on a cell phone, conversations should in all cases be carried on away from other individuals.

Appeal Procedure

While Illinois College operates according to specific policies established by the faculty and administration, the appeal procedure allows for the orderly suspension or change of policy for cause, or in case of extenuating circumstances. Students may appeal an academic action or seek the change or suspension of an academic policy through written petitions in the Educational Policies Appeal form on Connect2. Disciplinary actions may be appealed to the Dean of Students.

Appeals related to the Teacher Preparation Program may be directed to the Teacher Preparation Committee. Students have the right to advice from the College community before and during all such proceedings. Detailed information on such things as disciplinary policies and appeal processes is in the Student Handbook (Blue Book).

Student Services

Career Readiness & Experiential Learning

The Office of Career Readiness & Experiential Learning prepares students to make informed and purposeful career choices throughout their lives. Students are encouraged to participate in a full schedule of events that complement their academic program, such as campus employment, career exploration, graduate school preparation, internships, international experience, research, and life skills development. Specific topics such as resumés, job search and interview skills are covered one-on-one as well as in scheduled workshops. The office facilitates transportation for students to attend career and graduate school fairs in the fall and spring. Illinois College is a member of the College Career Consortium of Illinois and provides a multitude of opportunities for students in their job search.

Global Programming, Community-Engaged Learning and Experiential Learning programming are critical programmatic areas within Career Readiness & Experiential learning. Dedicated staff

Chesley Health & Wellness

Chesley Health & Wellness is located in Lincoln Hall and provides medical and counseling support for students. Illinois College also contracts with area providers for psychiatric and additional psychotherapy services. All services provided by Chesley Health & Wellness are strictly confidential and free to students.

Completed and updated medical records must be on file in the Office of Health Services. Any first-year student who is not in compliance on the 10th day of the semester will be assessed a non-refundable \$25 fee. Students not in compliance at the completion of that semester will be denied the privilege of registering for classes for subsequent semesters. In the majority of cases, a medical form only needs to be filed once and it will be acceptable for the duration of the student's enrollment at Illinois College

Diversity, Inclusion and Belonging

The Office of Diversity, Inclusion, and Belonging is committed to offering programming and initiatives that allow for awareness, growth, understanding and celebration of the diverse backgrounds that compose our campus community and world. Our mission is to help build and maintain an environment at Illinois College that is enriching and welcoming to students of diverse backgrounds, cultures, races, ethnicities, religions, and experiences.

In addition, the office seeks to network and build partnerships with community entities that provide recourses, additional support, and opportunities for underrepresented students. We aim to assist in the continual development of an inclusive campus climate that is conducive for healthy social engagement, academic achievement, and ultimately degree attainment. The Office of Diversity, Inclusion, and Belonging also programs and manages space reservation for the Multicultural Center which is located in Lincoln Hall.

Public Safety

Campus safety and security procedures are coordinated by the Office of Public Safety, consisting of an Executive Director and five full-time officers. The officers are non-sworn officers but utilize citizen's arrest authority on the rare occasion when a situation requires an immediate detention.

Public Safety officers currently conduct foot and vehicle patrols of the campus 24 hours a day when school is in session. The officers enforce all regulations and laws on campus of both the College and the state of Illinois. The College has a good working relationship with the Jacksonville Police Department, who assist with incidents that may occur on or near campus. Illinois College enforces regulations concerning underage drinking, the use of controlled substances and weapons. For a copy of the annual crime report contact the Office of Public Safety or visit the following web link: <https://www.ic.edu/safety-report>.

Religious & Spiritual Life

Illinois College nurtures the religious and spiritual lives of all its students, helping them draw deeply from their own religious and spiritual traditions as they make a positive difference in our diverse and pluralistic world. Founded out of the Presbyterian and Congregationalist Churches, IC remains connected to this socially-engaged mode of the Christian faith while extending its support to students from any or no particular religious tradition. A campus-wide inclusive spiritual gathering takes place during the Wednesday morning (10 a.m.) chapel hour. In addition, multiple student organizations meet throughout the week to allow students to grow in their faith practices and support each other. The Campus Chaplain also offers individualized spiritual direction and support.

Student Development

The Office of Student Development is overseen by the Associate Dean of Students and is located on the first floor of Caine Student Center. The Office of Student Development will assist students with finding answers to questions when they are not sure who to contact. The Assistant Dean of Students is the person to notify if you will miss classes due to illness, family emergency, etc. The Office of Student Development also oversees student conduct, SAFE IC, Title IX and prevention programs on campus. The Assistant Dean of Students also advises Student Senate.

Student Involvement

The Center for Student Involvement, located on the first floor of Caine Student Center, complements academic programs through development of, exposure to and participation in a variety of programs, activities and leadership opportunities. The amount of energy – both physical and psychological – that students expend at their institution has been shown to affect positively their development during college. The Center for Student

Involvement provides students a chance to develop their leadership skills, gain career-related experience, learn organizational skills, develop marketing and public relations skills, and have fun while getting involved in campus life.

Over 80 student organizations, from community service, sports and spirit clubs to the historic literary societies, invite every student to get involved. The Center for Student Involvement serves as a resource for student leaders through advising, leadership development programs and organizational support services. Through your involvement in co-curricular activities, you'll round out your academic experience by learning new skills that will make your education complete! Find out how to start your involvement journey at www.ic.edu/student-involvement.

Student Employment

Many students at Illinois College work part-time on campus for up to 10 hours per week. The College employs students in departments on campus including the library, dining hall, academic departments, administrative offices, recreation center and in buildings and facilities management. Students may also hold part-time jobs in the community. Students interested in working on campus should attend the on-campus job expo during the first week of school and follow up with the Director of Student Employment in the Human Resource Office. It is important to keep in mind, however, that a normal schedule of college classes, along with the preparation that is necessary outside of a class, is itself a full-time activity. Students employed on campus are paid once a month. Contact Sarah Kaisner at Sarah.Kaisner@ic.edu or the Office of Human Resources for more information.

Facilities

Alumni House

The Alumni House contains the Office of Development and Alumni Relations.

Barnes House (1901)

Barnes House, home of the College president, was a gift of Clifford W. Barnes, fifth president of the College, and Mrs. Barnes. Receptions and informal gatherings of students, faculty, and trustees are held in the house.

Baxter Hall (1929; remodeled 2005)

Baxter Hall contains the Office of Student Financial Services, classrooms, a computer lab, the mailroom, Mondo's sub shop, Starbucks, and a faculty lounge. The lower level contains faculty offices for the Department of Psychology, classrooms, and serves as a meeting place for one of the men's literary societies. The upper level contains guest apartments. The building was given to the College by Dr. George E. Baxter, class of 1896, and Mrs. Baxter.

Beecher Hall (1829; renovated 1991)

Beecher Hall serves as a meeting place for two of the men's literary societies. Named for Edward Beecher, founding president of the College, it was the first college building erected in the state of Illinois. At various times in the College's history, it has housed classrooms, a dormitory, the chapel, the library, a chemistry laboratory and the first medical school in Illinois (1843-1848).

Bruner Fitness and Recreation Center (2003)

The Bruner Fitness and Recreation Center is a comprehensive 150,000 square foot sports complex with a performance arena, natatorium and field house, with areas devoted to wellness, fitness and recreation. The building has direct access to England Field. Offices for the Athletic Department are located here.

Caine Student Center (1967)

Named in honor of Dr. L. Vernon Caine, tenth president of the College, Caine Student Center includes a fireplace lounge, the Office of Student Development, the Center for Student Involvement, the Office of Residential Life, the IC Store, and several student organization offices.

Center for Global Studies (2018)

Illinois College's Center for Global Studies serves as the campus hub for international and intercultural learning. The newly renovated space opened in August 2018 and is home to faculty teaching world languages, cultures and international studies.

Crispin Science Hall (1963)

The building includes classrooms, a multi-purpose room with flexible seating from 80 to 120, the Department of Education, the Office of Information Technology, and the Office of Institutional Research.

Cummings Dining Hall (1986)

This wing of the Caine Student Center is named in honor of Lew and Mary Cummings, members of the class of 1924. It provides seating for more than 400 persons and hosts many special functions.

The Dr. Friedrich and Alice Engelbach Biology Station (1983)

Seven and one-half wooded acres about seven miles northwest of Jacksonville were presented to the College by Mrs. Engelbach and her family and are used by faculty and students to study plant and animal life in their natural habitat.

Kirby Learning Center (1992)

The Kirby Learning Center contains classrooms, seminar rooms and faculty offices for accounting, agribusiness management, business administration, computer science, economics, finance, history, international studies, political science, philosophy, and religion. Special facilities include a 100- seat lecture hall. The building's name commemorates Harry N. Kirby, class of 1897 and a former member of the Board of Trustees.

Abraham Lincoln Hall (2006)

In addition to being a residence hall, Lincoln Hall serves as a hub of offices that provide services for students. The Office of Career Readiness & Experiential Learning, Center for Academic Excellence, Chesley Health & Wellness Center, Office of Diversity, Inclusion and Belonging, and the Campus Writing Center are located on the main floor.

McGaw Fine Arts Center (1980)

A generous gift from Mary and Foster McGaw made possible McGaw Fine Arts Center which houses the Departments of Art, Music, and Theatre. Arranged around the Sibert Theatre are the Woodcock Art Gallery, studios, music practice rooms, a rehearsal room, and classrooms.

C. Reed Parker Science Building (2002)

A 44,000 square foot science center, Parker Science Building is named for Mr. C. Reed Parker, long- time chair of the Illinois College Board of Trustees and generous benefactor of the College. The facility provides laboratories, seminar rooms, classrooms, offices and study lounges for biology, chemistry, physics and mathematics, as well as a Learning Center serving the entire campus.

Rammelkamp Chapel (1962)

The chapel, named for the sixth president of the College, Dr. Charles Henry Rammelkamp, is a multipurpose building with a seating capacity of about 800. It houses the Hart Sesquicentennial Organ, a 3-manual mechanical action Holtkamp organ of thirty-nine ranks. There are classrooms on the lower level.

David A. Smith House (1854)

The David A. Smith House, built by an early trustee, is home of the three women's literary societies. The parlors of Smith House are available to college women and the faculty for social activities.

Schewe Library (1976)

The library, named in honor of Karl and Louise Schewe, contains 125,000+ books and subscribes to 25,000+ online journals. Schewe Library is a member of CARLI, the statewide circulation system for 132 libraries, which provides borrowing privileges to over 100 million books, music scores, audio-visual material and many other formats. The Khalaf Al Habtoor Archives is housed in the library and contains material on Abraham Lincoln, American Civil War, Findley papers, and the history of Illinois College.

Sturtevant Hall (1857; remodeled 1993)

Sturtevant Hall is named for Julian Sturtevant, second president of the College. It contains offices for the English and sociology departments.

Tanner Memorial Hall (1929; remodeled 1977)

Tanner Hall houses the Office of the President, the Offices of Academic Affairs, Admission, Accounting Services, Business Affairs and the Registrar. The building was named for Edward Allen Tanner, a graduate in the class of 1857 and third president of the College.

Whipple Hall (1882; renovated 2010)

Whipple Hall, originally the preparatory department for Illinois College, began in a building on the Jacksonville town square named for Dr. Samuel Whipple, a leading abolitionist who had provided the original funding. Among the more distinguished alumni of Whipple Academy was William Jennings Bryan, who took his first course in oratory there before enrolling in the College. The current building was built in 1882 and housed the Academy until 1920. Since that time, it has provided space for classrooms, the bookstore, and literary societies. Whipple Hall now serves as the home for the Khalaf Al Habtoor Leadership Library, the Paul Findley Congressional Office Museum, the Illinois College Congressional Hall of Fame, and the Department of Communication and Rhetorical Studies.

Khalaf Al Habtoor Leadership Library supports the programming of the Khalaf Al Habtoor Leadership Center. The Center was established in 2011 by Dr. Khalaf Al Habtoor, a native of Dubai, UAE, and the Chairman of the Al Habtoor Group of Companies, an international business conglomerate. The Library also features artifacts from Abraham Lincoln and Edward Beecher.

Paul Findley Congressional Office Museum examines the career of Paul Findley, a 1943 Phi Beta Kappa graduate of Illinois College, who represented the 20th Illinois Congressional District in the U.S. House of Representatives from 1961 to 1983. Reflecting Findley's political career, his interest in Abraham Lincoln, and in his involvement in the quest for universal human rights, the museum includes artifacts such as Lincoln's 1837 law office sofa, campaign memorabilia, and items from seven U.S. presidents and several international leaders.

Illinois College Congressional Hall of Fame honors the twenty-one alumni who have served in the U.S. House and Senate from 1851 to the present. The most prominent honoree is William Jennings Bryan, class of 1881, who was a Representative, Secretary of State, and a three-time candidate for the presidency.

Residential Facilities

Crampton Hall (1873; remodeled 2011) accommodates 42 men and women in air-conditioned rooms and is named for Rufus C. Crampton, former professor (1853-88) and acting president (1876-82).

College Avenue Apartments (purchased in 2004), apartments for up to 57 residents provide kitchen and optional meal plans.

Ellis Hall (1957), with accommodations for 111 men and women in air-conditioned rooms, is named in honor of a College founder, Reverend John M. Ellis and his wife, Frances.

Fayerweather House (1852), a campus landmark named for Elizabeth Fayerweather Sturtevant, wife of the second president of the College, has been used in recent years as a residence hall housing 15 students in air-conditioned rooms.

Gardner Hall (1954) accommodates 114 men and women and is named in memory of Judge William Gardner (A.B. 1884, A.M. 1887, Litt.D. 1943). Gardner Hall went through a major renovation during the 2011-2012 school year and is fully air-conditioned. The Office of Public Safety is located on the lower level.

Greene Hall (1995) is a coeducational hall accommodating 78 students in suite-style, air- conditioned units.

Abraham Lincoln Hall (2006) is a coeducational hall accommodating 191 students in air- conditioned rooms. The Office of Career Readiness & Experiential Learning, Center for Academic Excellence, Chesley Health & Wellness Center, Office of Diversity, Inclusion and Belonging, and the Campus Writing Center are located on the main floor.

Munding Hall (1992), a coeducational residence hall named in honor of Donald C. Munding, eleventh president of the College, houses 64 students in air-conditioned rooms.

Pixley Hall (1966) accommodates 98 women in air-conditioned rooms and is named for A. Boyd Pixley and Ruth Badger Pixley, class of 1918, who were composer and author respectively of the "Illinois College Alma Mater."

Turner Hall (1965) is a male hall for 108 students in air-conditioned rooms, named for two brothers: Asa Turner, a member of the College's founding "Yale Band," and Jonathan Baldwin Turner, early faculty member and "father of the Land Grant College Act of 1862" that opened the possibility of a college education to many Americans.

Campus houses are also available. There are several houses that can accommodate anywhere from 4 to 7 students depending on the house. These houses offer students more independence while still providing the conveniences of living in campus housing.

Athletic Fields

The athletic fields include Green Athletic Field, the Ware Family Track, Joe Brooks Baseball Field, Jessica Kamp Softball Field, a soccer field and intramural fields. There are six tennis courts located in the Bellatti Tennis Complex.

Admission to Illinois College

Illinois College welcomes applications from students who are seeking a challenging liberal arts education. Applicants entering as first-year or as transfers must present evidence that they are prepared to pursue excellence in their academic and co-curricular endeavors at the College. Recognizing that each individual student brings their own gifts and talents, the admissions process is personalized from the initial contact the student has with the college to their matriculation at the College.

The Admission Committee reviews the applicant's academic record, extracurricular activities, recommendations and essay or writing sample for evidence of academic and intellectual integrity, the ability to communicate effectively and the ability to foster tolerance and respect for fellow members of the Illinois College family and the community. The admissions process is selective, with only those students with a strong likelihood of success being offered admission.

Suggested Course Preparation for First-time, First-Year Applicants

Work completed at the high school level forms the foundation of work to be done at Illinois College. Students are expected to have taken a solid college preparatory course load, including a minimum of four years of English/language arts, three years of mathematics (including Algebra 1&2 and Geometry), two years of lab science courses and two years of social sciences (one of which must be U.S. History). In addition to these courses, Illinois College expects that students will have taken at least two years of a foreign language as well as strong academic electives whenever possible. Candidates should have a minimum of 16 academic units. Particular attention is paid to a student's course selection with the expectation that students who wish to attend a selective liberal arts college will have challenged themselves with the most demanding set of courses possible.

First-Year Application Procedures

Illinois College offers multiple ways to apply for admission. Illinois College's online application is available at www.ic.edu/apply. Additionally, Illinois College is a member of the Common Application and accepts the Common Application for first-year, transfer and international students. The Common Application is accepted at more than 700 colleges and universities across the nation. No application fee is required with any application type and all applications are treated equally in the review process.

A complete application to Illinois College includes:

- Submit a college essay/writing sample (required).
- Submit an official transcript of all high school and/or college work completed (required).
- Submit the Secondary School Report Form completed

Standardized Test Scores

In 2009, the faculty of Illinois College approved a resolution to make the submission of standardized test scores optional for first-year students graduating from a public/private high school. Students who are home-schooled or students applying as international students are required to submit the results of the ACT, SAT Reasoning Test, TOEFL or IELTS for proof of English proficiency.

Students who believe their standardized test scores strengthen their application are encouraged to submit them. Students who elect not to submit standardized test scores will not be penalized in any way. The admissions process at Illinois College is comprehensive, which means that all information and accomplishments in a student's application are evaluated. Students who elect not to submit standardized test scores and whose high school record falls below the median of the class most recently admitted may be asked to submit additional information or interview with an admission counselor or a representative of the College.

While test scores will not be used to determine admission, all students who choose to enroll at Illinois College will be required to submit test scores prior to enrollment to assist in appropriate course placement and scheduling.

Personal Interviews and Campus Visits

The Admission Committee at Illinois College strongly encourages all students applying for admission to visit campus and meet with a member of the admission staff. Personal interviews are an opportunity for the candidate to provide additional information that would be helpful to the Admission Committee and to gain important information about the college. Individual appointments may be arranged by contacting the Office of Admission at 866.464.5265. In addition to the personal interview, students may schedule a campus tour, visit classes or meet with faculty members and/or coaches.

Admission Notification

Illinois College operates a modified rolling admission process. Students may begin to submit their applications in the summer prior to their senior year in high school. Files will be reviewed beginning in August with decisions beginning in mid-September. From that date, decisions are mailed weekly.

Candidates who wish to be considered for the Illinois College Trustee Scholarship Program or IC Scholars must have a complete application on file in the Admissions Office by December 1 to be considered.

Students who wish to be considered for other merit scholarships offered by Illinois College should have a complete application on file by March 1. Merit scholarships are awarded on the basis of a student's overall academic performance, standardized testing results, and personal involvement in both school and community.

Enrollment Deposits

All admitted students are asked to submit an enrollment deposit submitted/postmarked on or before May 1 (the National Candidate Reply Date) to hold their seat in the class. Deposits date stamped after May 1 will be accepted by the College as space is available. Enrollment deposits are applied to tuition charges for the first semester. Enrollment deposits are refundable up until May 1 if the request is made in writing and received by the Office of Admissions by May 1.

Final Transcripts

Enrolling students must submit an official record indicating the date of graduation from a secondary school approved by a state or regional accrediting agency prior to the first day of class. Illinois College accepts credits earned by dual enrollment, provided the credits are presented on the transcript of an accredited institution of higher education. In no case does Illinois College allow double-dipping (e.g., credit for both the AP test results and a dual-credit high school course in the same area would not be allowed.) Students who have not submitted final transcripts to the College will not be allowed to register for second semester.

Online Programs

Illinois College welcomes candidates who seek to enroll in its fully online courses and fully online programs. New applicants who wish to learn more about online courses or programs should visit <https://online.ic.edu> or call 855-822-5202. Current students on campus who are interested in enrolling in the online summer courses should contact the Registrar's Office.

Home-Schooled Students

Illinois College welcomes candidates who have received a home study-based education. As is the case with all applications to Illinois College, home-schooled candidates will be considered on an individual basis to determine an appropriate admission decision. A candidate may be evaluated for admission on the basis of six semesters of high school level course work.

In addition to the application materials previously listed, home-schooled students are expected to present the following:

- Official copy of the academic record indicating the grade point average, a summary of all courses taught by the home school (curriculum list, biography), the title of each course, the grade received and the name of the instructor (if that person is different than the registered home school instructor).
- Official transcripts received through any correspondence school or regional organization that provides this service for home schools (should list courses completed, grades and the accreditation status of the school or organization).
- The secondary school report form completed by your instructor.
- Application essay or personal writing sample.
- Results from either the ACT or the SAT Reasoning Test. Official scores are preferred, but students may submit a copy of their official score report.

If the candidate has been registered with the home school state's department of education, the registration number and name of the home-schooled education registered should be indicated on all documents.

The following items may be requested: official results of the SAT II Subject tests in English and mathematics, plus one additional subject test in either the social sciences or natural sciences. An on-campus interview is strongly recommended and may be required

International Students

Illinois College welcomes the interest of international students who desire to study on our campus. To be considered for admission the following items must be submitted:

- All candidates for admission to Illinois College must submit an application for admission.
- An official certified copy of all secondary school work translated into English with all courses/grades listed (an explanation of the grading system should accompany your academic record).
- Secondary school report and essay or personal writing sample.
- Students who are non-native English speakers must submit evidence of proficiency in the English Language by submitting PTE, GTEC, TOEFL, IELTS, ITEP, Duolingo, ACT or SAT scores. A complete listing of acceptable test scores may be found at www.ic.edu/international/admissionrequirements.

While the Admission Committee may find a student qualified for admission, the I-20 cannot be sent to students until they have assured the college that they have the necessary funds to finance their education at Illinois College. The I-20 will be sent when international students have submitted the "Illinois College Financial Questionnaire" and a copy of their bank statement. A completed health information form is required by the Illinois College Office of Health Services. International students are required to purchase health insurance through Illinois College (approximate cost \$2,200 for 12 months of coverage).

Advanced Placement

Illinois College grants advanced placement with appropriate academic credit for scores of 4 or 5 on Advanced Placement (AP) Examinations administered by the College Entrance Examination Board (CEEB). Many AP examinations scores of 3 will also qualify for credit. Applicants should request that their scores be reported to the Provost. Illinois College does not allow double-dipping (e.g., credit for both the AP test results and a dual credit high school course in the same area would not be allowed.)

Illinois College grants academic credit for College Level examinations (CLEP) prepared by the College Board provided they are passed with a score of 50 or above. Evaluations are made by the Provost.

Illinois College grants academic credit for International Baccalaureate higher-level examinations. Evaluations are made by the Provost.

Transfer Admission

The Specific Minimum Requirements for Transfers Include:

- Graduation from an accredited four-year high school or the equivalent with at least fifteen (15) hours of credit.
- Verification of good academic standing at the institution from which the applicant wishes to transfer.
- A minimum 2.5 for their most recent full-time semester of college level coursework and a minimum cumulative 2.0 G.P.A. for all college level coursework attempted.
- A minimum of 24 transferable credits completed. If 24 credits have not been completed at the time the candidate submits their application, the student's high school record will also be evaluated.

Transfer Application Procedure

All candidates interested in transferring to Illinois College are encouraged to submit either the Illinois College admission application or the Common Application. Both can be submitted electronically. No application fee is required.

To complete the application, transfer students should also submit:

- An official final high school transcript showing date of graduation.
- Official college transcripts for all course work attempted.

While not required, on-campus interviews are strongly encouraged.

Evaluation of Transfer Credit

In most cases, credit is awarded for courses taken at regionally accredited institutions which have content similar to courses offered at Illinois College. No credit is given for any coursework for which the student received a grade below a 'C-', or a credit/no credit grade. An exception will be made and CR grades will be accepted for courses taken in spring 2020 due to the COVID-19 pandemic. Final evaluation of transfer credits resides with the Office of the Registrar and the Provost. (See Transfer Credits pages 198.) Transfer students must request that an official final transcript be sent directly to Illinois College prior to starting classes.

Transferology

Illinois College subscribes to Transferology, a nation-wide network designed to help students explore their college transfer options. At no cost, students can learn how courses they have taken will transfer to Illinois College by adding coursework to Transferology. Illinois College has articulated courses from many of our surrounding community colleges as well as various other schools when requested by students. A link to Transferology is located on the College web page.

Health and Immunization Records

A completed health information form and up-to-date immunization record is required by the Illinois College Health Services Office prior to enrollment for all students.

Visiting Students

Students who do not intend to seek a degree from Illinois College may enroll for coursework on a semester-by-semester basis. Visiting students must provide evidence of a bachelor's degree or good academic standing at their home institution. A special visiting student application may be obtained in the Office of Admission. Visiting students who eventually decide to enroll at the College full-time must follow standard admission procedures. Visiting students are not eligible for financial aid.

Applicants with a GED

First-year applicants who did not complete their high school education in the traditional manner and who have achieved a passing score on the GED are welcome to apply to Illinois College. A copy of the official GED score report with a score of at least 600 on each of the five GED tests is required. Students who will be applying with a GED are asked to contact the Office of Admission to discuss their candidacy.

Returning Students

Students who leave the College, whether by choice, withdrawal, dismissal or otherwise, require the permission from the Office of Academic Affairs to return. See the appropriate areas of this catalog for relevant policies and details.

Finish in 4

Illinois College's Finish in 4 program is designed for first-time, first-year students. While most IC students graduate in four years on their own, this voluntary program provides additional guarantees that participants will graduate with their bachelor's degree from Illinois College in four years. Registered participants are responsible for following all of the prescribed actions set forth in the student participation agreement form to remain eligible for the Finish in 4 Program. Then, if Illinois College does not fulfill its part of the agreement, the cost of the remaining required courses at Illinois College (up to a full-time semester of credits) will be paid by the College. Students who voluntarily choose to participate in this program need to sign and submit the student participation agreement form prior to the first day of classes. This is just one of many ways Illinois College will ensure our students Graduate READY.

Room and Board

The College maintains residence halls for students, and all room assignments are made without regard to race, religion, disability, or national origin. Students must enroll for a minimum of twelve hours per semester (full-time status) to be eligible to live in the residence halls. A limited number of single rooms are available.

At the beginning of the academic year, all first-year, sophomores and juniors that have not successfully completed 88 credit hours or have not lived on campus for at least six semesters, are required to live on campus. Room reservations at the opening of the academic year are for both semesters. Students are obligated to keep the commitment for room and board arrangements for the second semester unless not enrolling for the second semester or unless the Executive Director of Residential Life gives written permission for canceling the room reservation. Residence halls will be closed during extended vacations and after commencement.

Automatic washers and dryers are available in the residence halls. Students are required to furnish bed linens, blankets, towels, lamps, pillow, wastebasket, and mattress cover.

Payment of Semester Charges

Payment of tuition, room and board, and other charges is due by August 5, 2021, for fall semester, January 5, 2022, for spring semester and May 5, 2022, for summer semester.

Deferred payment options are available through Nelnet. Visit their website, call 800.609.8056 or <https://mycollegepaymentplan.com/ic/>.

Illinois College is committed to helping students understand the best solution for financing their college education. This financial responsibility should be taken seriously, and our Office of Student Financial Services will be able to discuss financial aid and student loan options.

Refunds

Refunds of tuition are made upon the following basis if withdrawal has been approved by the Provost and the Vice President for Business Affairs:

ON CAMPUS CLASSES

On or before the first day of class 100% percent refund

Weeks 1 and 2	75% percent refund
Weeks 3 and 4	50% percent refund
Weeks 5 and 6	25% percent refund
After week 6	0% percent refund

ONLINE CLASSES

Before the sixth day of class	100% percent refund
After the fifth day of class	0% percent refund

Board will be pro-rated based on the official date of withdrawal. Room rent is non-refundable. Fees are non-refundable. Federal financial aid will be calculated based on the U.S. Department of Education regulations. Institutional financial aid will be pro-rated in conjunction with tuition. The refunds will be mailed to the billing address.

If a student leaves the College at any time after entrance without the approval of the Provost and the Vice President for Business Affairs, or because of suspension or dismissal, no tuition is refunded.

A student's federal financial aid eligibility (including Federal Pell Grant, SEOG, Direct Loans: Stafford and PLUS) is recalculated if the student withdraws, drops out, is dismissed or takes a leave of absence prior to completing 60 percent of a semester. The amount of the Title IV Aid earned by the student is based on the percent of earned aid using the following formula: 'percent earned' equals the number of days completed up to the 'withdrawal date' divided by total days in the period of enrollment. The 'withdrawal date' is defined as the actual date the student began the College's withdrawal process, the student's last date of recorded attendance or the midpoint of the semester for a student who leaves without notifying the College. Federal financial aid is then returned to the federal government based on the percent of the unearned aid using the following formula: The aid to be returned equals 100 percent minus the 'percent earned' (see above), times the amount of aid disbursed toward institutional charges. When the student owes funds to the College due to federal aid being returned, the student should contact the Office of Student Financial Services to make payment arrangements for the balance.

Students who pay tuition on an installment basis through Tuition Management and who withdraw before the account is paid in full are not relieved from payment of the amount due but will be credited according to the previous table.

Notwithstanding the provisions of the College's refund policies, if any disciplinary action results in the suspension or expulsion of a student from the College, housing or any activity, the College may not refund the student's tuition, fees or room and board charges.

Delinquent Bills

Students who have not met their financial obligations to Illinois College will be refused diplomas, reports of grades, transcripts, and readmission for future semesters. He or she could also be denied the privilege of participating in commencement activities. There is a \$30 late fee applied to all student accounts that are past due over 30 days.

Students using U.S. Department of Veterans Affairs (VA) Post 9/11 G.I. Bill® (Chapter 33) or

Vocational Rehabilitation and Employment (Chapter 31) benefits, while their payment from the U.S. Department of Veteran Affairs is pending to the College, will not be: prevented from enrolling, assessed a late penalty fee, required to secure alternative or additional funding or denied access to any resources available to other students who have satisfied their tuition and fee bill to the College.

GI Bill ® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government web site at <https://www.benefits.va.gov/gibill>

IC Store

Supplies and clothing are sold in the IC Store located in the Caine Student Center, or shop online at <https://www.ic.edu/icstore>.

Textbooks

Illinois College leases textbooks for full-time, degree-seeking on-campus students with the cost included in tuition. Students pick up their books at the designated location at the beginning of the semester and return them as designated at the end of the semester. When classes are being held on campus, students should return their books to the designated location before they leave campus. When students are away from campus at the end of the term, they should ship them using the prepaid shipping label in their book account. Students are charged replacement costs for books that are not returned by the stated deadlines.

Financial Aid

Office of Student Financial Service
Illinois College
1101 West College Avenue
Jacksonville, IL 62650
FAFSA code: 001688

217.245.3035 Fax: 217.245.3274 Toll free: 866.464.5265
Email: sfs@ic.edu
web: www.ic.edu

Illinois College offers a wide variety of need-based and merit-based programs. Need-based aid is awarded based on the premise that the primary responsibility of paying for college lies with the student and his or her parents. Aid is intended to help fill the gap between the cost of the education and the family's ability to pay.

Eligibility for need-based financial aid is determined from the Free Application for Federal Student Aid (FAFSA). The FAFSA may be completed online at www.fafsa.gov. The Illinois College school code is 001688. Students should file by October 31 in order to receive full consideration for all federal, state and institutional programs. Illinois College does not provide any institutional aid for part-time enrollment, for summer school or for students that have earned a baccalaureate degree.

Financial aid packages are prepared for students based on their demonstrated eligibility and individual circumstances. Awards may include grants, scholarships, loans and/or work-study opportunities. Eligibility for need-based aid is evaluated every year by completing a new FAFSA. Award amounts may increase or decrease as the family's financial situation changes.

Faculty

Dates indicate the years of appointment to the Faculty and to the present rank.

Professors

JENNY BARKER-DEVINE, Professor of History (2008, 2020) B.A., University of Central Missouri; M.A., Ph.D., Iowa State University. (Sabbatical Leave – Spring 2023)

BETH W. CAPO, Professor of English, Edward Capps Professor of Humanities (2003, 2014) B.A., Denison University; M.A., Ph.D., Pennsylvania State University.

NICHOLAS P. CAPO, Professor of English (2003, 2016) B.A., M.F.A., Pennsylvania State University.

LAURA COREY, Dean of Faculty and Instructional Excellence and Professor of Biology (2009, 2020) B.A., Grinnell College; Ph.D., Harvard University.

KELLY A. DAGAN, Professor of Sociology (2001, 2015) B.A., Hiram College; M.A., Ph.D., Kent State University. (Sabbatical Leave – Spring 2023)

ADRIENNE HACKER DANIELS, A. Boyd Pixley Professor of Humanities and Professor of Communication and Rhetorical Studies (2000, 2010) B.A., Brooklyn College; M.A., Northwestern University, Ph.D., University of Wisconsin-Madison.

JOHN DREA, Professor of Business Administration (2014, 2014) B.A., Illinois College; M.B.A., University of Notre Dame; D.B.A., Southern Illinois University Carbondale.

BERND K. ESTABROOK, Professor of World Languages and Cultures (German) (1994, 2006) B.A., Whitman College; M.A., Ph.D., University of California-Berkeley.

BARBARA A. FARLEY, President of the College and Professor of Business Administration (2013, 2013) B.A., College of Saint Benedict; M.B.A., Ph.D., Carlson School of Management, University of Minnesota.

JEFF GALLE, Professor of Agribusiness Management (2020) A.S., Black Hawk College; B.S., Western Illinois University; M.S., Southern Illinois University; Ph.D., University of Illinois.

STEVEN M. GARDNER, Francis McReynolds Smith Professor of International Understanding and Professor of World Languages and Cultures (Spanish) (2001, 2013) B.A., Alma College; M.A., University of Delaware-Newark; Ph.D., University of Illinois at Urbana-Champaign. (Sabbatical Leave - Fall 2022)

PATRICIA L. KIHNE, Professor of Mathematics (1999, 2012) B.S., University of Nebraska- Lincoln; M.S., University of Nebraska-Omaha; Ph.D., University of Tennessee.

KEVIN C. KLEIN, Professor of Economics (1986, 2003) A.A.S., Illinois Central College; B.S., M.S., D.A., Illinois State University.

ROBERT C. KUNATH, William and Charlotte Gardner Professor of History (1994, 2006) B.A., University of Chicago; M.A., Ph.D., Stanford University. (Sabbatical Leave – Fall 2022)

MARGARET A. MAREK, Professor of World Languages and Cultures (Spanish) (2003, 2020) B.A., St. Olaf College; M.A., Ph.D., Pennsylvania State University.

JAMES P. MARSHALL, Hitchcock Professor of Mathematics (1993, 2005) B.A., Grand Valley State College; M.A., Ph.D., University of Wisconsin-Madison.

MARY K. MARSHALL, Professor of Mathematics (1995, 2008) B.A., St. Olaf College; Ph.D., University of Wisconsin-Madison.

TODD D. OBERG, Professor of Mathematics (1999, 2012) B.A., Luther College; M.S., University of Iowa; Ph.D., University of Montana.

CATHARINE E. O'CONNELL, Professor of English (2016, 2016) B.A., Amherst College; M.A., Ph.D., University of Michigan-Ann Arbor.

ZVI PASMAN, Professor of Chemistry (2003, 2015) B.S., Ph.D., Duke University.

ADAM L. PORTER, Scarborough Professor of Religion (2000, 2012) B.A., Oberlin College;

M.T.S., Harvard Divinity School; Ph.D., Duke University. (Sabbatical Leave – 2022-2023 Academic Year)

ELIZABETH A. RELLINGER ZETTLER, Professor of Psychology (1993, 2005) B.S., Loyola University of Chicago; M.A., Ph.D., University of Notre Dame.

NANCY TAYLOR PORTER, Professor of Theatre (2004, 2017) B.A., Guilford College; M.A., University of Louisville; Ph.D., Tufts University.

JEREMY TURNER, Professor of Psychology (2006, 2015) B.A., Illinois College; M.A., Ph.D., Northern Illinois University.

WINSTON R. WELLS, Findley Family Professor of International Affairs and Professor of Political Science (1998, 2016) B.A., Northwestern University; M.A., Ph.D., University of California-Los Angeles.

LAWRENCE W. ZETTLER, Hitchcock Professor of Biology (1996, 2007) A.A., Santa Fe Community College; B.S., University of Florida; Ph.D., Clemson University.

Associate Professors

BRYAN ARNOLD, Associate Professor of Biology (2013, 2019) B.S., Ohio University; M.S., John Carroll University; Ph.D., University of Maryland.

DEVIN BRYSON, Associate Professor of World Languages and Cultures (French) (2011, 2016) B.A., University of Utah-Salt Lake City; MA., Ph.D., University of Pennsylvania.

JEFFREY E. CHAMBERLAIN, Associate Professor of Physics (2000, 2003) B.S., Northeast Missouri State University; Ph.D., University of Missouri-Columbia.

BRENT CHANDLER, Associate Professor of Chemistry (2012, 2019) B.S., University of Illinois at Urbana-Champaign; Ph.D., Princeton University.

CYNTHIA A. COCHRAN, Associate Professor of English (1997, 2001) A.B., M.S., University of Illinois at Urbana-Champaign; Ph.D., Carnegie Mellon University.

DIANA GRULLÓN-GARCÍA, Associate Professor of Global Studies-Spanish (2015, 2021) B.A.,

University of Puerto Rico; M.A., Ph.D., Florida International University. (Sabbatical Leave – 2022-2023 Academic Year)

PAUL HAMILTON, Associate Professor of Biology (2016, 2022). B.S., Illinois College; Ph.D. University of Illinois at Urbana-Champaign.

ADAM JONES, Director of Debate and Associate Professor of Communication and Rhetorical Studies (2008, 2011) B.A., M.S., Illinois State University; Ph.D., University of Nebraska- Lincoln. (Sabbatical Leave – Spring 2023)

MIRANDA KARBAN, Associate Professor of Biology (2016, 2022) B.A. Illinois Wesleyan University; M.S., Illinois State University; Ph.D., University of Iowa.

JOHN A. LAUMAKIS, Associate Professor of Philosophy (2004, 2010) B.A., Lehigh University; Ph.D., Marquette University.

JOCELYN LANORIO, Associate Professor of Chemistry (2017, 2022) B.S. University of the Philippines; M.S., Michigan State University; Ph.D., University of Nevada, Reno.

CHRISTOPHER OLDENBURG, Associate Professor of Communication and Rhetorical Studies (2010, 2016) B.A., M.A., University of Dayton; Ph.D., University of Memphis.

CHRISTIAN SECRIST, Director of Bands and Associate Professor of Music (2014, 2019) B.M.Ed., University of Mount Union; M.M., Cleveland State University; D.M.A., Ohio State University.

TAKAKO SOMA, Associate Professor of Computer Science (2005, 2011) B.S., M.S., Texas A&M University; Ph.D., University of Iowa.

CLAYTON F. SPENCER, Associate Professor of Chemistry (1996, 2002) B.S., Rhodes College; M.S., Ph.D., Cornell University.

CRAIG STEENERSON, Associate Professor of Theatre (2008, 2011) B.A., Cal State University;

M.F.A., Utah State University. (Sabbatical Leave – 2022-2023 Academic Year)

LISA J. UDEL, Associate Professor of English (2002, 2007) B.A., University of Michigan; M.A., Indiana University; Ph.D., University of Cincinnati.

Assistant Professors

PRASANNA ACHARYA, Assistant Professor of Biology-Kinesiology (2020, 2020) B.E., Bapuji Institute of Engineering & Technology, India; M.Tech., Motilal Nehru National Institute of Technology, India; Ph.D., Louisiana State University, Baton Rouge.

Campus Map

Programs

Accounting

Assistant Professor Emily Wright

Instructor Dana Bangert

Part-time Instructor Mallory Fairless

Students who enjoy problem solving and decision-making will find the accounting major a challenging but rewarding discipline of study. While learning content, students will improve their analysis and evaluation skills to be prepared for life beyond Illinois College.

Each major in the Business Department will require a minimum of 24 additional hours of new content.

Each minor in the business department will require a minimum of 16 additional hours of new content.

Accounting

Major

All students majoring in accounting are encouraged to take leadership roles in campus organizations and to consider a double major or minor in another discipline within the college.

A major in Accounting shall consist of 42 credit hours as follows:

Required Courses

Item #	Title	Credits
EC 105	Principles of Economics	4.0
	EC 245 or MA 123	4
AC 231	Principles of Accounting	4.0
MG 315	Business Ethics	4.0
AC 325	Intermediate Financial Accounting I	4.0
AC 326	Intermediate Financial Accounting II	4.0
	AC 463/464 or IC 421	1-4
AC 485	Senior Seminar	4.0

Three Courses chosen from the following:

Item #	Title	Credits
AC 320	Accounting, Taxation, & Finance in Agriculture	4.0
AG 320	Accounting, Taxation, & Finance in Agriculture	4.0
AC 321	Accounting Information Systems	4.0
AC 323	Intermediate Cost Accounting	4.0
AC 329	Tax Accounting	4.0
AC 433	Auditing	4.0
	Total Credits	42

EC 245 or MA 123

Elective Credits 4

Item #	Title	Credits
EC 245	Statistics	4.0
MA 123	Elementary Statistics	4.0

AC 463/464 or IC 421

Elective Credits 1-4

Item #	Title	Credits
AC 463	Internship in Accounting	1.0-4
AC 464	Internship in Accounting	1.0-4
IC 421	Graduate READY: Career Strategies	2.0

Accounting

Minor

A minor in accounting shall consist of 20 credit hours as follows:

Required Courses

Item #	Title	Credits
	EC 245 or MA 123	4
AC 231	Principles of Accounting	4.0

Three other courses chosen from the following:

Item #	Title	Credits
AG 320	Accounting, Taxation, & Finance in Agriculture	4.0
AC 320	Accounting, Taxation, & Finance in Agriculture	4.0
AC 321	Accounting Information Systems	4.0
AC 323	Intermediate Cost Accounting	4.0
AC 325	Intermediate Financial Accounting I	4.0
AC 326	Intermediate Financial Accounting II	4.0
AC 329	Tax Accounting	4.0
AC 433	Auditing	4.0
Total Credits		20

EC 245 or MA 123

Elective Credits 4

Item #	Title	Credits
EC 245	Statistics	4.0
MA 123	Elementary Statistics	4.0

Accounting Course Descriptions

AC 207 : Volunteer Income Tax Assistance (VITA)

A study of basic income tax preparation and tax preparation software. Students will prepare tax returns for those with incomes of \$60,000 or less in the local area. All work is supervised in person by a faculty member. May be repeated for a maximum of 4 hours.

Credits 2

Prerequisites

No prerequisite

AC 231 : Principles of Accounting

Fundamental financial and managerial accounting concepts used in decision making. Emphasis is on operating, investing, and financing activities and planning, controlling, and evaluating performance.

Credits 4

AC 320 : Accounting, Taxation, & Finance in Agriculture

The learning objectives of this course are to (1) understand source documents and the usefulness of recordkeeping. (2) Understand ag accounting using the Farm Financial Standards Council guidelines. (3) Understand taxation for both Federal and Illinois. (4) Understand accounting, taxation, and legal implications related to type of business entity. (5) Understand and analyze financial statements using benchmark ratios; horizontal, vertical, and per acre analysis. (6) Understand financial markets and institutions in agriculture. (7) Understand sources and costs of capital. (8) Understand risk management and insurance needs.

Credits 4

Prerequisites

[AG 211](#) or equivalent, [AC 231](#), and [EC 105](#)

AC 321 : Accounting Information Systems

Study of Accounting Information Systems (AIS) internal control, the system development cycle, relational data structure, and e-commerce solutions. Learning application of AIS in the business environment by using an integrated accounting package, building flowcharting skills, and choosing and implementing a computerized accounting system. Also, discussion of Enterprise Resource Planning (ERP) and the valuation of Information Technology (IT) resources.

Credits 4

Prerequisite Courses

[AC 231: Principles of Accounting](#)

AC 323 : Intermediate Cost Accounting

Use of costs for planning, controlling and decision making with emphasis on standard costs, flexible budgets, cost behavior, direct costing, relevant costs, responsibility accounting and cost analysis for control and motivation.

Credits 4

Prerequisite Courses

[AC 231: Principles of Accounting](#)

AC 325 : Intermediate Financial Accounting I

In depth study of the accounting process and financial statements preparation. Analysis of balance sheet elements relating to income determination through conceptual discussion and procedural presentation.

Credits 4

Prerequisite Courses

[AC 231: Principles of Accounting](#)

AC 326 : Intermediate Financial Accounting II

Discusses in depth the traditional financial accounting topics as well as the recent developments in accounting valuation and reporting. Special topics are EPS, accounting for deferred income taxes, leases, pensions, changes/errors preparation of the statement of cash-flows, and financial analysis.

Credits 4

Prerequisite Courses

[AC 325: Intermediate Financial Accounting I](#)

AC 329 : Tax Accounting

The federal income tax principles and applications with primary emphasis upon personal income taxes.

Credits 4

AC 433 : Auditing

A study of the external principles, procedures and techniques used by auditors in verification of the financial statements of the business enterprise.

Credits 4

Prerequisite Courses

[AC 325: Intermediate Financial Accounting I](#)

AC 461 : Independent Study in Accounting

Credits 1-4

AC 462 : Independent Study in Accounting

Credits 1-4

AC 463 : Internship in Accounting

A practical application of theoretical skills in actual job-related situations. Open to Junior and Senior majors. Permission of department chair required.

Credits 1-4

AC 464 : Internship in Accounting

A practical application of theoretical skills in actual job-related situations. Open to Junior and Senior majors. Permission of department chair required.

Credits 1-4

AC 465 : Independent Research in Accounting

Credits 1-4

AC 466 : Independent Research in Accounting

Credits 1-4

AC 485 : Senior Seminar

As an interdisciplinary capstone course, students will analyze and evaluate financial information with respect to profitability, corporate risk management, and proper financial reporting.

Credits 4

Prerequisites

senior standing, declared Accounting or Finance Major only

Notes

(See FI 485.)

Agribusiness Management

Professor Jeff Galle

Professor Kevin Klein

Instructor Dana Bangert

Instructor T.J. Devine

Each major in the Business Department will require a minimum of 24 additional hours of new content.

Each minor in the Business Department will require a minimum of 16 additional hours of new content.

Agribusiness Management

Major

The Agribusiness Management major is designed for students to use for the advancement of business fundamentals that improve the agricultural industry and farm production. Agricultural business management, also called agribusiness management, applies business theories and practices to the agricultural industry to lower costs, boost profits and ensure that farm or food products are grown and distributed effectively.

With an education in agribusiness management, students could work in government, education, natural resources management, for energy or biofuels companies, and for firms selling food products, farm machinery, seed, livestock feed and pesticides. Other jobs students might pursue include loan officer, agribusiness consultant, agriculture inspector, farming program manager, compliance analyst, production supervisor, sales associate and lobbyist.

As an Agribusiness Management major, students will learn to apply business fundamentals, such as marketing, management and accounting, to areas like food systems, biotechnology and natural resources management. Students will study courses in agricultural marketplaces, economics, pricing, federal farm policy, sales, computers, soil conservation, plant and animal science, ethics, and entrepreneurship.

An Agribusiness Management major consists of 42 credit hours. The courses required are:

Business Core

Item #	Title	Credits
AC 231	Principles of Accounting	4.0
EC 105	Principles of Economics	4.0
CO 210	Business Communication	4.0
	One of the following ethics courses:	4

Agribusiness Core

Item #	Title	Credits
AG 111	Emerging Issues in Ag & Natural Resources	4.0
AG 211	Introduction to Agribusiness	4.0
AC 320	Accounting, Taxation, & Finance in Agriculture	4.0
AG 321	Agricultural Marketing	4.0
AG 463	Internship in Agribusiness	1.0-4
AG 491	Agribusiness Management Senior Capstone	4.0
	AG/EC 331 or AG 340	4
	Total Credits	42

One of the following ethics courses:

Elective Credits 4

Item #	Title	Credits
CO 315	Communication Ethics	4.0
PH 213	Agricultural Ethics	4.0
PH 216	Computer Ethics	4.0
MG 315	Business Ethics	4.0

AG/EC 331 or AG 340

Elective Credits 4

Item #	Title	Credits
AG 331	Agricultural Economics	4.0
EC 331	Agricultural Economics	4.0
AG 340	Farm Management	4.0

Agribusiness

Minor

Students are encouraged to complete a double major or minor in a related area.

A minor in Agribusiness consists of 20 hours as follows:

Required Courses

Item #	Title	Credits
EC 105	Principles of Economics	4.0
AG 111	Emerging Issues in Ag & Natural Resources	4.0
AG 211	Introduction to Agribusiness	4.0
	AG/AC 320 or AG 321	4

One additional course selected from the following :

Item #	Title	Credits
AG 320	Accounting, Taxation, & Finance in Agriculture	4.0
AG 321	Agricultural Marketing	4.0
AG 340	Farm Management	4.0
	Total Credits	20

AG/AC 320 or AG 321

Elective Credits 4

Item #	Title	Credits
AG 320	Accounting, Taxation, & Finance in Agriculture	4.0
AC 320	Accounting, Taxation, & Finance in Agriculture	4.0
AG 321	Agricultural Marketing	4.0

Agribusiness Management Course Descriptions

AG 111 : Emerging Issues in Ag & Natural Resources

Survey of emerging issues in the food and agricultural industry, including: 1) geography of food production and consumption; 2) human agricultural and natural resource relations; 3) agriculture in the United States and abroad; 4) modern agribusiness; 5) food, agriculture, and natural resources policy; 6) ethical and legal implications; and 7) role and impact of science and technology.

Credits 4

AG 202 : Horticulture, Plant & Soil Science

This laboratory course provides the science of growing horticultural and plant species including their binomial systems, species development, plant genetics, and how plants and soils impact the environment in which we live. Emphasis is on growth and development of plant species, management practices as well as environmental factors impacting plant growth. The course will also emphasize soil science, soil genesis, pedology, and soil fertility so students may gain a deep understanding of the importance of soils and how soils and plants share an essential relationship.

Credits 4

AG 203 : Agricultural Animal Science

This laboratory course provides the science of agricultural animals including cattle, swine, horses, goats, sheep, poultry, equine, and dairy. Anatomy and physiology of each animal species is studied extensively as well as growth and development from birth to adulthood. The course will also emphasize how to successfully manage livestock animals so that sound decision-making skills may be made within in each animal system.

Credits 4

AG 211 : Introduction to Agribusiness

The role of agricultural business in the economy. Introductory economic and business principles and their application to the solution of agricultural problems.

Credits 4

Corequisites

[EC 105](#) or equivalent

AG 301 : Community Engagement in Agriculture-SAE & FFA Administration

This course provides a deep look into how the Supervised Agriculture Experience program (SAE) and the FFA organization plays a vital role in agricultural education programs at the middle and secondary school levels. Community engagement in carrying out SAE and FFA is emphasized as well as agricultural education students gaining experience within their field experience program. This course is required for agricultural education majors in their sophomore or junior year.

Credits 4

AG 320 : Accounting, Taxation, & Finance in Agriculture

(See [AC 320](#).)

Credits 4

AG 321 : Agricultural Marketing

Marketing concepts, techniques, and management of the U.S. marketing system from agricultural production, agribusiness, and traditional business perspectives.

Credits 4

Prerequisites

[AG 211](#) or equivalent

Notes

May not be taken for credit if a student has earned credit for MG 354.

AG 331 : Agricultural Economics

An introduction to the principles of economics including production principles; production costs, supply and revenue; profit maximization; consumption and demand; price elasticity; market price determination; and competitive versus noncompetitive market models. These principles are applied to agriculture and the role of agriculture in the United States and world economies. Other topics include a survey of the world food situation; natural, human and capital resources; commodity product marketing; and agricultural problems and policies. (See EC 331.)

Credits 4

Prerequisites

EC 105 or equivalent

AG 340 : Farm Management

Economic principles are applied to the management of farms using budgeting system analysis record analysis, financial management, and lease analysis. Students develop expertise in evaluating and making decisions like those faced by farm operators and managers.

Credits 4

Prerequisites

AG 211 or equivalent and EC 105

AG 461 : Independent Study in Agribusiness Management

Advanced independent study in the field of agribusiness management or marketing. Open to senior majors seeking advanced study in their areas of specialization. May be repeated with different subject matter for a maximum of 6 hours

Credits 1-4

Prerequisites

Consent of the instructor

AG 462 : Independent Study in Agribusiness Management

Advanced independent study in the field of agribusiness management or marketing. Open to senior majors seeking advanced study in their areas of specialization. May be repeated with different subject matter for a maximum of 6 hours

Credits 1-4

Prerequisites

Consent of the instructor

AG 463 : Internship in Agribusiness

A practical application of theoretical skills in actual job-related situations. May be repeated for a maximum of 6 hours. Open to sophomore, junior and senior majors.

Credits 1-4

Prerequisites

Consent of the instructor

AG 464 : Internship in Agribusiness

A practical application of theoretical skills in actual job-related situations. May be repeated for a maximum of 6 hours. Open to sophomore, junior and senior majors.

Credits 1-4

Prerequisites

Consent of the instructor

AG 491 : Agribusiness Management Senior Capstone

This course will serve as the capstone course for all senior-level students majoring in Agribusiness Management. In addition, a strong emphasis will be placed on undergraduate research. Specifically, students will be asked to research relevant agribusiness topics from either the social scientific or humanistic perspectives during the semester and formally present their scholarly findings. As part of the capstone experience in this course, students will be asked to synthesize their previous coursework and critically reflect on their experiences in the Agribusiness Management program.

Credits 4

Prerequisites

senior standing or consent of the instructor

Art and Design in Visual Studies

Assistant Professor Katelyn Greenberg

Part-time Assistant Professor Khara Koffel

The courses in the Department of Art and Design in Visual Studies foster a development of techniques and theories in the visual arts through a rigorous curriculum focused on problem-solving, creativity, and critical thinking. Students will gain the ability to communicate conceptual ideas both visually and verbally to a diverse audience in a contemporary context. This context is understood through research/investigation, analysis of lived experience, and in-class discussions/ presentations, which collectively result in an appreciation of art history and technology.

A major as well as a minor in Art and Design in Visual Studies are offered. As part of the Communication Arts Department, the Art major is inherently interdisciplinary and prepares students for research in related fields. In addition, students may pursue an Individualized Studies major, which can focus on Art but also encompass creative uses of media such as photography, film/video, sound, music, sculpture, performance, and theatre.

Art and Design in Visual Studies

Major

Consists of 7 required courses and 2 electives (36 earned credits) and must include the following courses:

Core Courses:

Item #	Title	Credits
AR 100	Two-dimensional Aesthetics	4.0
AR 131	Visual Perceptions through Drawing	4.0
AR 204	Visual Communication	4.0
AR 342	Medium Development, Experimentation, and Innovation	4.0
AR 346	Theories and Philosophies in Contemporary Art and Culture	4.0
AR 402	Senior Seminar	4.0
IS 485	A Liberal Arts Survival Guide	4.0

Elective courses

One course from the following category:

Item #	Title	Credits
AR 123	Spatial Understanding in 3-D Design	4.0
AR 225	Teaching Fine Arts in the Elementary Schools	4.0
AR 251	Maker Space	4.0
AR 361	New Media	4.0

One course from the following category:

Item #	Title	Credits
CO 214	Advertising and Public Relations	4.0
HI 140	The Sixties in America	4.0
HI 277	Public History	4.0
HI 379	Digital History	4.0
TH 190	From Comic Books to Blockbusters	4.0
TH 231	Stagecrafts	4.0
TH 352	Theatre on the Edge	4.0
Total Credits		36

Art and Design in Visual Studies

Minor

A minor in Art and Design in Visual Studies consists of 3 required courses and 2 electives (20 earned credits) in art and/or art history. A minor must include the following courses:

Required Courses

Item #	Title	Credits
AR 100	Two-dimensional Aesthetics	4.0
AR 131	Visual Perceptions through Drawing	4.0
AR 346	Theories and Philosophies in Contemporary Art and Culture	4.0

Electives

The remaining 8 hours in electives can be drawn from any departmental offering.

Total Credits		20
----------------------	--	-----------

Fine Arts

Minor

The Fine Arts minor shall consist of 20 credit hours with these requirements:

1. Students must successfully complete, with a minimum grade of 'C' in all courses, at least 8 credit hours in two of the fine arts areas chosen from Art, Music, and Theatre. Students may take courses in all three areas.
2. Within the 8 credit hour minimum requirement in each discipline, at least four credit hours must be completed as an academic class.
3. If the student chooses the area of theatre, the 8 hour minimum can be split between academic and application classes or practicums. For example, in theatre this could be one 4-credit hour class and four credit hours of performance experience.
4. If the student chooses the area of music, the 8 hour minimum must include at least one music theory or music history class. The remaining four credit hours may include another theory or history course or application courses such as ensembles participation or private music lessons.
5. If the student chooses the area of art, the minimum may include any art class.

Total Credits	20
----------------------	-----------

Fine Arts Administration

Minor

Professor Nancy Taylor Porter, Coordinator (Theatre)

The Fine Arts Administration minor is open ONLY to students majoring or minoring in Art, Music, and Theatre or minoring in Fine Arts. It is intended to create a related or alternative career path for students in the arts, preparing them for an entry-level administrative position at an arts organization. Conversely, it helps give them the skills to build their own company or studio if that is their goal. During their senior year, students will register for an internship, which may either be focused on a particular field or be designed to include experiences from multiple arts arenas. It can be taken as a one-credit course in both semesters or as a two-credit course in a single semester.

The Fine Arts Administration minor consists of 18 hours:

Course Requirements

Item #	Title	Credits
AC 231	Principles of Accounting	4.0
EC 265	Economics of Entrepreneurship	4.0
MG 364	Management	4.0
MG 354	Marketing	4.0

Practicum Requirements

Item #	Title	Credits
	Fine Arts Administration Internship	2
Total Credits		18

Fine Arts Administration Internship

Elective Credits 2

Art and Design in Visual Studies Course Descriptions

AR 100 : Two-dimensional Aesthetics

An introductory course that introduces the core concepts of visual design theory and aesthetics, using elements and principles of design in the creative process. Strategies in visual design are explored through examples, exercises, critiques, and creative projects. Additional fee may apply.

Credits 4

Prerequisites

No prerequisite

AR 123 : Spatial Understanding in 3-D Design

An introductory course in basic 3D design through projects and exercises in line, plane, volume, space, and texture in three-dimensional form. Students are introduced to simple construction methods using a variety of materials and tools with an emphasis on craftsmanship, problemsolving, and ideation in a three-dimensional construct. Additional fee may apply.

Credits 4

Prerequisites

No prerequisite

AR 131 : Visual Perceptions through Drawing

An introductory course that explores basic drawing methods, media, and concepts. Emphasizes drawing from observation with development of proportion, accuracy, value, implied shape, composition, line, edge development, volumetric analysis of form, light, and perspective. Use of wide range of techniques, materials, and subject matter. Additional fee may apply.

Credits 4

Prerequisites

No prerequisite

AR 204 : Visual Communication

Basic graphic design concepts and software with an emphasis on typography, visual hierarchy, and grid layouts. Students will gain a working knowledge of Adobe software used to create and manipulate vector graphics and bitmap images. Additional fee may apply.

Credits 4

Prerequisites

No Prerequisite

AR 225 : Teaching Fine Arts in the Elementary Schools

This course is a synthesis of the principles of fine arts (visual arts, drama, and music) teaching and learning at the elementary school level. Emphasis is placed on the integration of creative processes (visual arts, drama, and music) in the elementary school curriculum and instruction, on the teacher as problem-solver and creative artist, and on the creation of classroom structures that accommodate individualization of instruction and creative problem solving in children. Studio projects will supplement lectures. (See ED 225.)

Credits 4

AR 251 : Maker Space

A studio course on concepts and creative techniques used in classic and contemporary methods of deconstruction of materials. Methods involve 2D and 3D making. This course will revolve around the development of basic skills and understanding of drawing, painting, fiber, plaster, wood, and metal projects. We will focus on safety, craftsmanship, and creating fluid transitions between concept, execution, context, and intention. This would be a Creative Expressions Studio course designed primarily for majors and minors but open to other students.

Credits 4

AR 342 : Medium Development, Experimentation, and Innovation

Continued exploration of various media. Students work with original ideas and methods to reinforce independence, enthusiasm, and personal creativity. May be taken twice with different prompts. Additional fee may apply.

Credits 4

AR 346 : Theories and Philosophies in Contemporary Art and Culture

A survey of contemporary art from mid-20th century to present. Examination of the broader social, cultural, aesthetic, and theoretical developments in which contemporary art was produced, presented and interpreted. Focus on feminism, gender identity, and post-modernism in a global context.

Credits 4

Prerequisites

No prerequisite

AR 361 : New Media

A studio course focused on a range of topics that include materiality, interactivity, time, social media, and exploring forms and technologies identified as new or emerging. Through practice research, discussion, and lecture, this course introduces students to the changing new media landscape that is transforming the way we think about the intersection of disciplines, including art, technology, humanities, and social sciences. This is an upper-level course designed for majors and minors.

Credits 4

AR 402 : Senior Seminar

Independent work in a specialized area of study intended to result in a senior exhibition, a thesis paper, or an internship.

Credits 4

Prerequisites

senior art major standing and consent of the department

AR 461 : Independent Study in Art

Advanced studio course in a specific area beyond listed course offerings.

Credits 1-4

Prerequisites

consent of the instructor

AR 462 : Independent Study in Art

Advanced studio course in a specific area beyond listed course offerings.

Credits 1-4

Prerequisites

consent of the instructor

AR 463 : Internship in Art

A practical application of skills in an art related job experience

Credits 1-4

Prerequisites

consent of the department chair

AR 464 : Internship in Art

A practical application of skills in an art related job experience

Credits 1-4

Prerequisites

consent of the department chair

AR 465 : Independent Research in Art**Credits** 1-4**AR 466 : Independent Research in Art****Credits** 1-4

Biology

Professor Laura Corey***Professor Lawrence W. Zettler******Associate Professor Bryan Arnold******Associate Professor Miranda Karban******Associate Professor Paul Hamilton******Assistant Professor Prasanna Acharya******Assistant Professor Gwendolyn Knapp******Part-time Instructor Terry Geirnaert******Part-time Instructor Juanita Leonhard******Edith Sternberg, Adjunct instructor, Starhill Arboretum Guy Sternberg, Adjunct instructor, Starhill Arboretum***

The courses in the Department of Biology are designed to give students an understanding of modern biology as part of a liberal arts education and to prepare students for both employment and graduate/professional study in the discipline. Courses in biology utilize state-of-the-art equipment in Parker Science Building, as well as a climate-controlled greenhouse and a museum containing plant and animal specimens. The Engelbach Biology Station and the Starhill Arboretum are important supplements to the department for field work by faculty and students. Regular spring break trips to coral reefs in the Florida Keys, the rainforests in Costa Rica, and the coastlines of Cuba are also available to provide students with additional learning opportunities.

A major in Biology requires 32 credit hours in Biology courses plus 20 hours in designated tool courses. Several concentrations are available through the Department of Biology. These include Biology/ Ecology, Biology/ Physiology, 3-2 Biology/Occupational Therapy, and 3-1 Biology/Medical Technology. Also, Illinois College has a nursing program as well as affiliation agreements with other schools for students interested in nursing. For additional information on each of these schools, contact the Biology Department.

No courses in which a student earns a final grade below a C- will be counted as meeting major or minor requirements.

Biology with Clinical Laboratory Science

3-1

Clinical Laboratory Science is an excellent career option for students with strong laboratory skills who do not wish to pursue lengthy graduate study. Clinical Laboratory Science professionals play a critical role in health care although they may rarely have direct patient contact.

Students who wish to pursue a career in clinical laboratory science (medical technology) may complete the prerequisite courses at Illinois College in three years and apply for admission to the OSF Healthcare St. Francis Medical Center for the professional year. After successful completion of the fourth year of study at OSF, students will earn a Bachelor of Science degree in Biology with a concentration in Physiology and a certificate in clinical laboratory science/medical laboratory technician from OSF. To earn a B.S. in Health Sciences after successful completion of the professional year, students must also complete two psychology courses at Illinois College: PS 101 Intro to Psychology and either PS 276 Lifespan and Development or PS 346 Abnormal Psychology.

To be eligible for the professional year, students must complete the following at Illinois College:

Item #	Title	Credits
BI 110	Biological Investigation	4.0
BI 207	Molecular Genetics	4.0
BI 215	Medical Terminology	2.0
BI 345	Principles of Microbiology	4.0
BI 310	Immunology	4.0
BI 315	Anatomy and Physiology I	4.0
BI 316	Anatomy and Physiology II	4.0
CH 110	General Chemistry	4.0
CH 203	Organic Chemistry I	4.0
MA 123	Elementary Statistics	4.0
MA 133	Precalculus	4.0

Students must complete an additional two courses in chemistry chosen from the following:

Item #	Title	Credits
CH 211	Quantitative Analysis	4.0
CH 304	Organic Chemistry II	4.0
CH 309	Biochemistry I	4.0

Additional Requirements

PY 225 College Physics I is strongly suggested but not required for admission to the professional year.

Students who chose to complete the B.S. in Biology with a concentration in Physiology during a fourth year at Illinois College must complete BI 238 Evolution and Ecology, one quantitative elective (see list under the biology major) and also complete a capstone course in Biology (BI 401 and BI 402, HS 402, or BI 404).

Students who chose to complete the B.S. in Health Sciences during a fourth year at Illinois College must complete HS 402 Health Sciences Senior Seminar or the Interdisciplinary Capstone IS 485: A Liberal Arts Survival Guide and a social science/humanities elective from the list in [Health Science](#), in addition to the two psychology courses mentioned above.

Students complete at least 90 credit hours at Illinois College. They will transfer back credits from OSF to reach the 120-credit minimum for graduation (at most 30 credits back from OSF).

Courses taken at OSF will be:

- CLS 410 Clinical Chemistry I
- CLS 412 Clinical Chemistry II
- CLS 420 Clinical Hematology
- CLS 430 Clinical Hematosis
- CLS 440 Clinical Immunohematology
- CLS 450 Clinical Immunology
- CLS 460 Clinical Microbiology I
- CLS 462 Clinical Microbiology II
- CLS 470 Selected Topics in CLS
- CLS 480 Management and Education

Courses will transfer back to cover senior capstone in biology or health sciences, an additional elective, and for completion of credits to graduate.

Total Credits

50

Biology with Occupational Therapy

3-2

Illinois College has been affiliated with the Program in Occupational Therapy at Washington University School of Medicine in St. Louis, Mo., since 1986. Students may complete three years of prescribed study at Illinois College and then complete either the M.S. program (two years of study) or the new clinical doctorate program (3 years of study) at Washington University. After the first year of professional study, the student will receive the B.S. in Biology from Illinois College and graduate with the rest of the senior class.

Required Courses

Illinois College students who are interested in the 3-2 or 3-3 Biology/Occupational Therapy program must fulfill most of the requirements for the Biology major, including the following:

*Other prerequisite courses for entry into the Washington University Program in Occupational Therapy include PS 275 or 276, PS 346, an additional social science course, and MA 123.

Item #	Title	Credits
BI 110	Biological Investigation	4.0
BI 345	Principles of Microbiology	4.0
BI 315	Anatomy and Physiology I	4.0
BI 316	Anatomy and Physiology II	4.0
CH 110	General Chemistry	4.0
CH 211	Quantitative Analysis	4.0
MA 133	Precalculus	4.0
PS 275	Child Development	4.0
PS 346	Abnormal Psychology	4.0
MA 123	Elementary Statistics	4.0

Notes:

Students may also opt to complete the Biology major in a fourth year by enrolling in BI 207 (Molecular Genetics); BI 238 (Ecology and Evolution); CH 203 (Organic Chemistry I); BI 401, 402 (Research and Analysis I, II) or HS 402, and completing two quantitative electives. Students with a bachelor's degree may apply to any occupational therapy program in the U.S. For further information, contact the Biology department chair or pre-health professions advisor.

Item #	Title	Credits
BI 207	Molecular Genetics	4.0
BI 238	Ecology and Evolution	4.0
CH 203	Organic Chemistry I	4.0
BI 401	Research and Analysis I	2.0
BI 402	Research and Analysis II	2.0
HS 402	Senior Seminar	4.0
	Quantitative Electives	8
	Total Credits	40

Quantitative Electives

Elective Credits 8

Item #	Title	Credits
CS 160	Introduction to Computer Science	4.0
CS 170	Introduction to Data Structures	4.0
MA 201	Discrete Mathematics	4.0
MA 213	Calculus I	4.0
MA 223	Calculus II	4.0
PY 225	College Physics I	4.0
PY 226	College Physics II	4.0

Gender and Women's Studies in Biology

Certificate

Students may complete coursework and an experiential learning component that focuses on the role of gender in their primary area of study of Biology, Criminal Justice, or Health Sciences. Students who wish to pursue the certificate should contact the Gender and Women's Studies coordinator and consult with the instructor in the course from their field of study. The following is required:

Two of the following courses:

Item #	Title	Credits
GW 101	Introduction to Gender and Women's Studies	4.0
GW 102	Introduction to Gender and Men's Studies	4.0
GW 110	Gender and Social Justice	4.0

BI 207

Students must complete the prerequisite course(s) to enroll in BI 207. Students would choose a gender-related topic for the major literature review project in BI207

Item #	Title	Credits
BI 207	Molecular Genetics	4.0

Internship or Research Experience

An internship or research experience (2-4 credits) that allows students to gain experience in their discipline, with the academic component having students apply Gender Studies' texts, topics, and theories to their practical work.

Total Credits	14-16
----------------------	--------------

Biochemistry

Major

Biochemists investigate the chemical reactions and mechanisms that govern and regulate life. Biochemistry, therefore, combines the broad perspectives of biology and chemistry and uses diverse approaches to examine the chemistry of living things. The curriculum includes courses in chemistry and biology and provides students with expertise at the interface of these disciplines. The mastery of fundamentals in biology and chemistry permits students to seamlessly integrate ideas from both areas of science and approach problems from an interdisciplinary perspective.

The biochemistry curriculum incorporates class instruction with significant laboratory work, including experimental approaches in protein and nucleic acid chemistry, cell biology, biophysics, and molecular biology. Independent research is encouraged, and research opportunities are provided. The Biochemistry major is administered jointly by the Biology and Chemistry Departments (see the Biology and Chemistry Departments mission statements). Students majoring in Biochemistry are considered to be a part of both departments.

The Biochemistry major consists of eleven courses (40 credit hours), three electives (12 credit hours), and two corequisites (8 credit hours). The major is designed to allow students the flexibility to pursue individual interests as they prepare for their post-college careers.

*Students majoring in Biology and Biochemistry may only count BI 110, 207, and 307 towards both majors. Students majoring in Chemistry and Biochemistry may only count CH 110, 203, 304, and 211 towards both majors. Students majoring in Biology, Chemistry, and Biochemistry may only count BI 110, 207, 307, CH 110, 203, 304, and 211 towards the three majors. Due to significant course overlap, students majoring in Biochemistry are ineligible for a minor in either Biology or Chemistry.

Core Courses

Item #	Title	Credits
BI 110	Biological Investigation	4.0
BI 207	Molecular Genetics	4.0
BI 307	Cell and Molecular Biology	4.0
CH 110	General Chemistry	4.0
CH 203	Organic Chemistry I	4.0
CH 304	Organic Chemistry II	4.0
CH 211	Quantitative Analysis	4.0
CH 309	Biochemistry I	4.0
CH 410	Biochemistry II	4.0
CH 441	Senior Seminar I	2.0
CH 442	Senior Seminar II	2.0

Electives

At least three selected from:

Item #	Title	Credits
BI 345	Principles of Microbiology	4.0
BI 306	Developmental Biology	4.0
BI 310	Immunology	4.0
BI 311	Virology	4.0
CH 231	Inorganic Chemistry	4.0
CH 327	Medicinal Chemistry	4.0
CH 332	Advanced Inorganic Chemistry	4.0

Required Corequisites

Item #	Title	Credits
PY 225	College Physics I	4.0
PY 226	College Physics II	4.0
Total Credits		60

Biology

Major

The introductory Biology program for majors (BI 110) serves as a solid preparation for more advanced study and is a prerequisite for any advanced courses. The second tier of the Biology program includes required courses of Molecular Genetics (BI 207) and Ecology and Evolution (BI 238).

Required Courses

Item #	Title	Credits
BI 110	Biological Investigation	4.0
BI 207	Molecular Genetics	4.0
BI 238	Ecology and Evolution	4.0

Other Requirements

Students must also complete a minimum of four Biology courses number 200 or higher, including at least one from each of the following categories:

Item #	Title	Credits
	Cellular and Molecular Biology	4
	Organismal Biology	4
	Systems Biology	4

Capstone

In the senior year, all majors complete the program by enrolling in one of the capstone options offered in Biology:

- The two-semester sequence of Research and Analysis I (BI 401) and II (BI 402),
- HS 402 for students interested in the Health Sciences or who need a one semester capstone experience,
or
- BI 404 for students who have conducted research with faculty in Biology

Item #	Title	Credits
BI 401	Research and Analysis I	2.0
BI 402	Research and Analysis II	2.0
HS 402	Senior Seminar	4.0
BI 404	Research Experience Capstone	3.0-4

Tool Courses

Students should complete as many of the following tool courses as possible before enrolling in 200- 300 level courses. Math: MA 133 is required for CH 110; A course in statistics (e.g. MA 123 or PS 243) is highly recommended.

Three chemistry courses from the following list are required for the major:

Item #	Title	Credits
CH 110	General Chemistry	4.0
CH 203	Organic Chemistry I	4.0
CH 211	Quantitative Analysis	4.0
CH 231	Inorganic Chemistry	4.0
CH 304	Organic Chemistry II	4.0
CH 309	Biochemistry I	4.0

Additionally, students must take two quantitative electives from the following list:

Item #	Title	Credits
CS 160	Introduction to Computer Science	4.0
CS 170	Introduction to Data Structures	4.0
MA 201	Discrete Mathematics	4.0
MA 213	Calculus I	4.0
MA 223	Calculus II	4.0
PY 225	College Physics I	4.0
PY 226	College Physics II	4.0
Total Credits		52

Cellular and Molecular Biology

Elective Credits 4

Item #	Title	Credits
BI 306	Developmental Biology	4.0
BI 307	Cell and Molecular Biology	4.0
BI 310	Immunology	4.0
BI 311	Virology	4.0
BI 345	Principles of Microbiology	4.0

Organismal Biology

Elective Credits 4

Item #	Title	Credits
BI 201	Botany	4.0
BI 206	Vertebrate Zoology	4.0
BI 318	Algae and Fungi	4.0
BI 342	Parasitology	4.0
BI 345	Principles of Microbiology	4.0
BI 350	Entomology	4.0

Systems Biology

Elective Credits 4

BI 325: Trip course. Additional fees assessed.

Item #	Title	Credits
BI 315	Anatomy and Physiology I	4.0
BI 316	Anatomy and Physiology II	4.0
BI 324	Ecological Interactions	4.0
BI 325	Tropical Ecology	4.0
BI 326	Marine Biology	4.0
BI 332	Aquatic Biology	4.0

Biology with Ecology Concentration

Major

The ecology concentration within the biology major is intended for students interested in conservation biology, ecology, or environmental biology. To complete the biology major with a concentration in ecology, students take the three required Biology core courses (BI 110, BI 207, and BI 238), complete a biology capstone course (BI 401 and BI 402, or BI 404) in their final year, and choose a total of four electives from two categories:

Required Courses

Item #	Title	Credits
BI 110	Biological Investigation	4.0
BI 207	Molecular Genetics	4.0
BI 238	Ecology and Evolution	4.0

Capstone

Complete a biology capstone course in their final year (BI 401 and BI 402, or BI 404).

Item #	Title	Credits
BI 401	Research and Analysis I	2.0
BI 402	Research and Analysis II	2.0
BI 404	Research Experience Capstone	3.0-4

Electives

Choose a total of four electives from two categories:

Item #	Title	Credits
	Two Organismal Biology Courses from this list:	8
	Two Ecology Courses from this list:	8

Tool Courses

Student majoring in biology with an ecology concentration must also take the required tool courses in Chemistry.

Three courses chosen from the following:

Item #	Title	Credits
CH 110	General Chemistry	4.0
CH 203	Organic Chemistry I	4.0
CH 211	Quantitative Analysis	4.0
CH 231	Inorganic Chemistry	4.0
CH 304	Organic Chemistry II	4.0
CH 309	Biochemistry I	4.0

Two quantitative electives from the following list:

Item #	Title	Credits
CS 160	Introduction to Computer Science	4.0
CS 170	Introduction to Data Structures	4.0
MA 201	Discrete Mathematics	4.0
MA 213	Calculus I	4.0
MA 223	Calculus II	4.0
PY 225	College Physics I	4.0
PY 226	College Physics II	4.0

A course in statistics (e.g. MA 123 or PS 243) is strongly recommended; MA 133 is a prerequisite for CH 110 but is not required for the major.

Total Credits	52
----------------------	-----------

Two Organismal Biology Courses from this list:

Elective Credits 8

Two Organismal Biology Courses from this list:

Item #	Title	Credits
BI 201	Botany	4.0
BI 206	Vertebrate Zoology	4.0
BI 318	Algae and Fungi	4.0
BI 342	Parasitology	4.0
BI 345	Principles of Microbiology	4.0
BI 350	Entomology	4.0

Two Ecology Courses from this list:

Elective Credits 8

Item #	Title	Credits
BI 324	Ecological Interactions	4.0
BI 325	Tropical Ecology	4.0
BI 326	Marine Biology	4.0
BI 328	Animal Behavior	4.0
BI 332	Aquatic Biology	4.0

Biology with Physiology Concentration

Major

The physiology concentration within the biology major is intended for students interested in applications of biological concepts to human health.

Biology Core Courses

Item #	Title	Credits
BI 110	Biological Investigation	4.0
BI 207	Molecular Genetics	4.0
BI 315	Anatomy and Physiology I	4.0
BI 316	Anatomy and Physiology II	4.0

Capstone

Student must complete a biology capstone in their final year (BI 401 and BI 402, HS 402, or BI404).

Item #	Title	Credits
BI 401	Research and Analysis I	2.0
BI 402	Research and Analysis II	2.0
HS 402	Senior Seminar	4.0
BI 404	Research Experience Capstone	3.0-4

Physiology Concentration

Additionally, students in the Physiology concentration of the biology major must complete a total of four semesters of Chemistry and quantitative elective courses, including at least one semester of each.

The chemistry courses available are:

Item #	Title	Credits
CH 110	General Chemistry	4.0
CH 203	Organic Chemistry I	4.0
CH 211	Quantitative Analysis	4.0
CH 231	Inorganic Chemistry	4.0
CH 304	Organic Chemistry II	4.0
CH 309	Biochemistry I	4.0

The quantitative electives available are:

Item #	Title	Credits
CS 160	Introduction to Computer Science	4.0
CS 170	Introduction to Data Structures	4.0
MA 201	Discrete Mathematics	4.0
MA 213	Calculus I	4.0
MA 223	Calculus II	4.0
PY 225	College Physics I	4.0
PY 226	College Physics II	4.0

Biology Electives

Additionally, students in the Physiology concentration choose two Biology electives from the following list:

Item #	Title	Credits
BI 306	Developmental Biology	4.0
BI 307	Cell and Molecular Biology	4.0
BI 310	Immunology	4.0
BI 311	Virology	4.0
BI 342	Parasitology	4.0
BI 345	Principles of Microbiology	4.0
KI 340	Exercise Physiology	4.0

Notes

Students completing the Physiology Concentration may also find KI 225 Nutrition helpful. Students preparing for specific graduate health professions training should consult the target programs and their advisors to select additional coursework as necessary.

Total Credits	44
----------------------	-----------

Neuroscience

Major

The major will consist of 48 credit hours, including 12 hours of interdisciplinary preparatory courses, 20 hours of core neuroscience courses, and 16 hours of interdisciplinary neuroscience electives spread across disciplines.

A student wishing to double major in Neuroscience and another field may count no more than 12 credit hours in the major field towards both majors.

Interdisciplinary Preparatory Courses

Item #	Title	Credits
	Three 100-level courses	12

Core Neuroscience Courses

Item #	Title	Credits
PS 226	Introduction to Neuroscience and Behavior	4.0
PS 261	Neuropharmacology: Drugs and Behavior	4.0
PS 327	Sensory and Motor Systems	4.0
PS 329	Advanced Neuroscience	4.0
PS 401	Seminar	4.0

Neuroscience Electives

Majors must choose an additional 4 courses from the following Neuroscience electives:

Item #	Title	Credits
BI 306	Developmental Biology	4.0
BI 328	Animal Behavior	4.0
KI 232	Motor Development	4.0
PH 170	Philosophy of Mind	4.0
PO 270	Brain, Biology, and Politics	4.0
PS 322	Cognitive Psychology	4.0
PS 346	Abnormal Psychology	4.0
Total Credits		48

Three 100-level courses

Elective Credits 12

1 from Psychology, 1 from Biology, and 1 chosen from Chemistry, Physics, or Computer Science.

Biology

Minor

Required Courses

A minor in Biology can be met by taking BI 110, CH 110, and sixteen hours of Biology courses numbered 200 and above.

Item #	Title	Credits
BI 110	Biological Investigation	4.0
CH 110	General Chemistry	4.0
	Biology courses numbered 200 and above	16

Students majoring in Nursing, Health Sciences, Kinesiology and Exercise Science, and Environmental Studies and Wildlife Management can earn a minor in Biology by taking BI 110, CH 110, and two additional electives (i.e. 8 hours) in Biology (numbered 200 and above) beyond the requirements for the specific major

Total Credits		24
----------------------	--	-----------

Biology courses numbered 200 and above

Elective Credits 16

Computational Biology

Minor

Since the development of methods for rapid sequencing of DNA, there has been an explosion in the amount of molecular data available from a wide variety of organisms. As the data accumulates, the computational resources necessary to analyze and utilize them has become more and more sophisticated, and there is a need for workers with strong computational and programming skills who are also familiar with the structure of biological inquiry.

The Computational Biology Minor will provide an introduction to applied computational methods in biology and will be available to students in any major except Biology. This minor would be advised for students who major in computer science, mathematics, and physics who also have an interest in biology and desire an opportunity to use their computer skills to solve biological problems, from analyzing health record data, to simulating ecological community dynamics. While this minor does not include formal training in health informatics, we would welcome interest from students majoring in Health Sciences or Business who are interested in pursuing work or graduate training in that field.

Required Courses

MA 133 is required for CS 160. CH 110 is required for BI 207.

Item #	Title	Credits
BI 110	Biological Investigation	4.0
CS 160	Introduction to Computer Science	4.0
CS 170	Introduction to Data Structures	4.0
BI 207	Molecular Genetics	4.0
BI 324	Ecological Interactions	4.0

Independent Research

Students must propose and complete a 2-credit independent research project in computational biology with a biology faculty member in either the fall (BI 465) or spring (BI 466) semester.

Item #	Title	Credits
BI 465	Independent Research in Biology	1.0-4
BI 466	Independent Research in Biology	1.0-4
Total Credits		22

Molecular Biology

Minor

A molecular biology minor will provide students with a path to gain a better understanding of the principles of the molecular processes occurring within cells, without pursuing the Biochemistry major. It will also provide an easy way to demonstrate this specialization with future graduate programs and employers. This minor, requiring 24 credits, would pair well with several majors on campus, such as Psychology (e.g., students

completing the Neuroscience concentration), Physics (e.g., students interested in biological engineering), Chemistry (e.g., students interested in working in the pharmaceutical industry), and Agribusiness (e.g., students interested in GMO development). Certainly, other majors could also complement the Molecular Biology minor.

Core Courses:

[MA 133](#) (Precalculus) is a corequisite for [CH 110](#).

Item #	Title	Credits
BI 110	Biological Investigation	4.0
BI 207	Molecular Genetics	4.0
BI 307	Cell and Molecular Biology	4.0
CH 110	General Chemistry	4.0
CH 203	Organic Chemistry I	4.0

Electives

One selected from:

Item #	Title	Credits
BI 306	Developmental Biology	4.0
BI 310	Immunology	4.0
BI 311	Virology	4.0
Total Credits		24

Neuroscience

Minor

The minor will be available to any student except Psychology majors. Interested Psychology majors can complete the Psychology Neuroscience concentration.

Introductory Course

An Introductory Course in Biology or Psychology (PS 101, BI 110 or BI 107)

Item #	Title	Credits
PS 101	Introduction to Psychology	4.0
BI 110	Biological Investigation	4.0
BI 107	Human Biology	4.0

Core Neuroscience Courses

Item #	Title	Credits
PS 226	Introduction to Neuroscience and Behavior	4.0
PS 327	Sensory and Motor Systems	4.0
PS 261	Neuropharmacology: Drugs and Behavior	4.0

Neuroscience in the Liberal Arts

Choose 2 of the following 4 courses (8 hours), and at least one has to be PH 170 or PO 270:

Item #	Title	Credits
PH 170	Philosophy of Mind	4.0
PO 270	Brain, Biology, and Politics	4.0
PS 330	Behavioral Genetics	4.0
BI 328	Animal Behavior	4.0
Total Credits		24

Biology Teaching Licensure

Teaching Licensure

Biology students interested in earning a teaching license should plan to double major in biology and education and student teach their final semester. These students should enroll in ED 101 their first semester or as soon as possible thereafter and work closely with their advisors in both departments to ensure all State of Illinois requirements for licensure are met.

A major in biochemistry is also available. Refer to the catalog description under Biochemistry for details (page 30).

For information on the Kinesiology and Exercise Science major; for Health Sciences; and for Environmental Studies and Wildlife Management. Targeted minors in Computational Biology and Molecular Biology are also available.

Biology Course Descriptions

BI 107 : Human Biology

Fundamental concepts of normal human anatomy and physiology, including basic cell biology, examination of organ systems, experimental design, and scientific writing. One 2-hour laboratory per week. Does not count towards the biology major.

Credits 4

Semester Offered

[Offered fall semesters](#)

BI 109 : Plants & Society

A presentation of the relationships between plants and people with strong emphasis on the economic aspects and implications of plants and fungi. One 2-hour laboratory per week. Does not count towards the biology major.

Credits 4

Semester Offered

[Offered alternate fall semesters](#)

BI 110 : Biological Investigation

This course is an introduction to the nature of biological inquiry. Major concepts of biological science and modes of experimentation are introduced through an exploration of a variety of topics selected by the instructor. This course is designed for first- and second-year students interested in pursuing a major or minor in biology or biochemistry and is required for all subsequent biology courses. One two-hour laboratory period per week.

Credits 4

Semester Offered

[Offered every semester](#)

BI 191 : Forensic Anthropology

This course examines the field of forensic anthropology through an applied, scientific approach. Covered topics include an overview of human osteology, examination of trauma and postmortem processes affecting the human body, discussion of ethical issues pertinent to the field of forensic anthropology, and techniques of estimating sex, age-at-death, ancestry, and stature from human skeletal remains. (For online programs only.)

Credits 4

BI 192 : Forensic Science

An introduction to forensic science and crime scene investigation through a realistic, applied approach. Methods used in a number of forensic fields will be covered, including forensic anthropology and odontology, pathology, forensic genetics, forensic chemistry and toxicology, forensic facial reconstruction, forensic entomology, and forensic psychology. One 2-hour laboratory session per week.

Credits 4

BI 201 : Botany

A detailed study of the plant kingdom with an emphasis on diversity, identification of the local flora, and collecting/preparing herbarium specimens. One 2-hour laboratory period per week.

Credits 4

Prerequisites

[BI 110](#) or consent of instructor

Semester Offered

[Offered alternate fall semesters](#)

BI 206 : Vertebrate Zoology

A detailed study of the vertebrates (especially those in the Midwest) emphasizing the diversity, identification, comparative physiology and anatomy, ecology, and human impact on their populations. One 2-hour laboratory per week.

Credits 4

Prerequisite Courses

[BI 110: Biological Investigation](#)

Semester Offered

[Offered alternate fall semesters](#)

BI 207 : Molecular Genetics

The molecular principles of heredity and variation in living organisms. One 3-hour laboratory period per week. Required for the biology major.

Credits 4

Prerequisite Courses

[BI 110: Biological Investigation](#)

Corequisites

[CH 110](#)

Semester Offered

[Offered fall semesters](#)

BI 215 : Medical Terminology

An introduction to medical terminology commonly used in a wide variety of health professions. Special emphasis is placed on learning the prefixes, suffixes, and combining forms used to generate informative terms that are commonly encountered in health professions or anatomy and physiology.

Credits 2

Prerequisites

[BI 107](#), [BI 110](#) or consent of the instructor

Semester Offered

[Offered every semester](#)

BI 238 : Ecology and Evolution

An introduction to the theoretical and practical concepts of ecology and evolution. Topics include application of the principles of genetics to populations, phylogenetics, history of evolutionary thought from Darwin to the Modern Synthesis, origins of life on Earth, and speciation. One 2-hour laboratory period per week.

Credits 4

Prerequisite Courses

[BI 110: Biological Investigation](#)

Semester Offered

[Offered spring semesters](#)

BI 245 : Microbiology

Introduction to the core concepts and basic principles of microbiology, examining microorganisms and how they interact with humans. Survey of the physiology structure, metabolism, diversity, and genetics of microorganisms. Correlated laboratory investigations. One 2-hour lab period per week.

Credits 4

Prerequisite Courses

[BI 107: Human Biology](#)

Corequisites

[CH 103](#) or consent of instructor

Semester Offered

[Offered fall semesters](#)

BI 306 : Developmental Biology

Consideration of the concepts of development in biological systems; developmental processes, events of embryogenesis, and mechanisms of development in animal systems. One 2-hour laboratory period per week.

Credits 4

Prerequisites

BI 207, or consent of the instructor

Semester Offered

Offered alternate fall semesters

BI 307 : Cell and Molecular Biology

A detailed investigation of the structure, physiology and biochemistry of eukaryotic cells and their organelles. One 3-hour lab period per week.

Credits 4

Prerequisites

BI 207 and CH 203

Semester Offered

Offered alternate spring semesters

BI 310 : Immunology

Study of the vertebrate immune system, including the principles of cellular and humoral defense mechanisms, and reviews of current research in the field.

Credits 4

Prerequisites

BI 207 or consent of instructor

Semester Offered

Offered alternate spring semesters

BI 311 : Virology

An exploration of the viruses that infect all three domains of life, with a focus on the molecular biology and genomic diversity of pathogens that threaten human life and economic activity. Topics to be considered include long-studied pathogens such as poliovirus, variola (smallpox), and tobacco mosaic virus, as well as emerging or re-emerging agents such as hepatitis C and D, prions, and viroids. Discussions of the primary literature will be used to examine recent scientific and clinical developments.

Credits 4

Prerequisite Courses

BI 207: Molecular Genetics

Semester Offered

Offered alternate years

BI 315 : Anatomy and Physiology I

An exploration of the fundamental concepts of anatomy, histology, and physiology with consideration of integumentary, skeletal, muscular, and nervous systems. One 2-hour laboratory per week.

Credits 4

Prerequisites

BI 110 or BI 107

Corequisites

CH 103 or CH 110

Semester Offered

Offered fall semesters

BI 316 : Anatomy and Physiology II

Emphasis on human anatomy, histology, and physiology with consideration of endocrine, digestive, respiratory, cardiovascular, urinary, and reproductive systems. One 2-hour laboratory per week.

Credits 4

Prerequisite Courses

BI 315: Anatomy and Physiology I

Semester Offered

Offered spring semesters

BI 318 : Algae and Fungi

A detailed study of fungi and autotrophic protists (algae) with an emphasis on diversity, identification of microscopic algae, seaweeds and mushrooms. One 2-hour laboratory period per week.

Credits 4

Prerequisites

BI 110 or consent of instructor

Semester Offered

Offered alternate years

BI 324 : Ecological Interactions

Principles of ecology, illustrated by lecture and by the investigation of selected types of habitats.

Credits 4

Prerequisite Courses

BI 110: Biological Investigation

Semester Offered

Offered alternate years

BI 325 : Tropical Ecology

An introduction to the composition, structure, and function of tropical rainforests. Laboratory, held during spring break in Costa Rica or Cuba, will emphasize biological diversity. Three lecture hours per week.

Credits 4

Prerequisites

BI 110 and consent of instructor

Semester Offered

Offered alternate springs semesters

BI 326 : Marine Biology

An introduction to the study of the plants, animals, and other organisms that live in the ocean. Lecture topics include the principles of marine science, life forms in the marine environment, the structure and function of marine ecosystems, and the role of humans on the sea. Laboratory held during spring break in the Florida Keys.

Credits 4

Prerequisites

BI 110 and consent of instructor

Semester Offered

[Offered alternate springs semesters](#)

BI 328 : Animal Behavior

The behavior of animals as revealed by the ethological approach. Orientation, learning, social behavior, migration, and agonistic behavior. One 2-hour laboratory period per week.

Credits 4

Prerequisites

BI 110 or consent of instructor

Semester Offered

[Offered alternate fall semesters](#)

Notes

(See PS 328.)

BI 332 : Aquatic Biology

Field course covering biological, physicochemical and geological attributes of both lotic (flowing) and lentic (still) freshwater habitats. Emphasis on aquatic entomology, field data collection techniques, data analysis and critical reading of the primary literature in aquatic biology. One 2-hour laboratory period per week with trips to local aquatic habitats.

Credits 4

Prerequisite Courses

BI 110: Biological Investigation

Semester Offered

[Offered alternate spring semesters](#)

BI 342 : Parasitology

A detailed study of eukaryotic parasites (protozoa, helminths, and medically relevant arthropods) that afflict animals and humans with an emphasis on life cycles, treatment and control, and the impact on human and animal lives.

Credits 4

Prerequisites

BI 110 or BI 107 or consent of the instructor

Semester Offered

[Offered alternate years](#)

BI 345 : Principles of Microbiology

Students will develop a working understanding of the structure, growth, nutrition, metabolism, genetics, diversity, and ecology of prokaryotes, and become familiar with medical, agricultural and some other applied aspects of the field of microbiology. One 2-hour lab period per week. [BI 110](#), [CH 110](#) (or concurrent enrollment) and [BI 207](#), consent of instructor

Credits 4

BI 350 : Entomology

A study of the terrestrial members of the Phylum Arthropoda, with emphasis on insects and their identification. One 2-hour laboratory period per week. Labs will emphasize field collection and preservation of insects.

Credits 4

Prerequisites

[BI 110](#) or consent of instructor

Semester Offered

[Offered alternate years](#)

BI 401 : Research and Analysis I

Discussion of biological topics with emphasis on critical analysis of data and research articles. Required for the major.

Credits 2

Prerequisites

[BI 110](#) and junior status

Semester Offered

[Offered fall semesters](#)

BI 402 : Research and Analysis II

Presentation of a biological topic by a student based on library and/or laboratory research carried out at IC. Required for the major.

Credits 2

Prerequisite Courses

[BI 401: Research and Analysis I](#)

Semester Offered

[Offered spring semesters](#)

BI 404 : Research Experience Capstone

This course serves as the capstone experience for students in the biology, health sciences, kinesiology and exercise science, or environmental studies in wildlife management program who are involved in student faculty research projects. The objective of this course is to provide students an opportunity to analyze and synthesize the data collected during their research experience and a means to present their work in both oral and written form.

Credits 3-4

Prerequisites

completion of at least one hour of student faculty research ([BI 465/466](#)) and consent of instructor

BI 461 : Independent Study in Biology

Credits 1-4

BI 462 : Independent Study in Biology

Credits 1-4

BI 463 : Internship in Biology

Students serve as interns for a total of not less than 40-160 hours.

Credits 1-4

Prerequisites

at least Sophomore standing, a B average, and consent of the instructor

BI 464 : Internship in Biology

Students serve as interns for a total of not less than 40-160 hours.

Credits 1-4

Prerequisites

at least Sophomore standing, a B average, and consent of the instructor

BI 465 : Independent Research in Biology

Credits 1-4

BI 466 : Independent Research in Biology

Credits 1-4

Business Administration

Professor John Drea

Professor Jeff Galle

Professor Kevin Klein

Assistant Professor Allison Burrus

Assistant Professor Michael Harden

Assistant Professor Marilyn Markel

Assistant Professor David Walter

Assistant Professor Emily Wright

Instructor Dana Bangert

Instructor T.J. Devine

Instructor Kanji Kitamura

Part-time Instructor Brandon Myles

A major or minor in the interdisciplinary program of Business Administration enables the student to begin any career that requires fundamental knowledge of the principles of management and the qualities of leadership. Students are equipped with the knowledge required to create value in public or private entities and to manage in a global environment.

Students seeking to complete more than one major in the Business Department must complete a minimum of 24 additional hours of new content beyond the first major.

Each minor in the Business Department requires a minimum of 16 additional hours of new content beyond the requirements of declared majors in the department.

Actuarial Science

Major

The Actuarial Science major is an interdisciplinary program that is housed in the Math department. It requires 48 semester hours, with 28 hours of the courses taking place in Math and the remaining 20 hours in Accounting, Economics, and Finance. The focus of the program is to prepare students for careers as actuaries,

with at least one course focused around actuarial exam preparation. The program will ensure that students will also complete a Math minor and be prepared to attempt two professional exams prior to graduation. The courses required for the major are:

Mathematics Core

Item #	Title	Credits
MA 213	Calculus I	4.0
MA 223	Calculus II	4.0
MA 233	Calculus III	4.0
MA 323	Introduction to Linear Algebra	4.0
MA 341	Probability	4.0
MA 342	Mathematical Statistics	4.0
MA 347	Mathematics of Investment	4.0

Business/Other Core

Item #	Title	Credits
AC 231	Principles of Accounting	4.0
AC 325	Intermediate Financial Accounting I	4.0
AC 326	Intermediate Financial Accounting II	4.0
EC 105	Principles of Economics	4.0
FI 362	Corporate Risk Management	4.0
IS 485	A Liberal Arts Survival Guide	4.0
Total Credits		48

Business Administration

Major

A major in the interdisciplinary program of Business Administration enables the student to begin any career that requires fundamental knowledge of the principles of management and the qualities of leadership. Students are equipped with the knowledge required to create value in public or private entities and to manage in a global environment.

A major in Business Administration shall consist of 46 credit hours.

Core Courses

Item #	Title	Credits
EC 105	Principles of Economics	4.0
AC 231	Principles of Accounting	4.0
CO 210	Business Communication	4.0
MG 491	Senior Capstone	4.0
	MG 315, PH 315, or CO 315	4
	MG 463/464, IS 302, or IC 421	2

Business Administration

Item #	Title	Credits
MG 364	Management	4.0
MG 354	Marketing	4.0
FI 352	Financial Management (Corporate Finance)	4.0

MG 463	Internship in Management	1.0-4
MG 464	Internship in Management	1.0-4
IS 302	Summer Internship	1.0-4
IC 421	Graduate READY: Career Strategies	2.0

12 semester hours from 300- or 400-level courses in AC, AG, EC, FI, or MG or TH 363

Elective Credits 12

Except AC 321, MG 355

Human Resource Management

Major

Through completion of the Human Resource Management major requirements, students will develop professional knowledge and general critical thinking and problem-solving skills to manage the intricate regulatory and human components present in organizations. By studying aspects of human behavior, labor relations, and cultural impacts on business organizations, students will be prepared for various positions within a Human Resource department and generally equipped to manage people in a variety of settings. In addition, the Human Resource Management major is aligned with the Society for Human Resources Management, which provides students with unique eligibility to take the SHRM certification exam.

A major in Human Resource Management shall consist of 46 credit hours.

Core Courses

Item #	Title	Credits
EC 105	Principles of Economics	4.0
AC 231	Principles of Accounting	4.0
CO 210	Business Communication	4.0
	MG 315, PH 315, or CO 315	4
MG 491	Senior Capstone	4.0
	MG 463/464, IS 302, or IC 421	2

Human Resource Management Courses:

Item #	Title	Credits
MG 237	Organizational Behavior	4.0
MG 357	Business Law	4.0
MG 359	Human Resource Management	4.0
MG 360	Talent Acquisition and Retention	4.0
MG 362	Rewarding Employees	4.0
CO 330	Developing Talent and Intercultural Competence	4.0

IC 421	Graduate READY: Career Strategies	2.0

Management

Major

The Management Major allows students to prepare for a wide variety of career paths. The core principles of management can be found in most organizations including large & small companies, non-profit organizations, schools, government organizations and in entrepreneurial ventures.

These principles involve developing plans, organizing resources, leading people, and evaluating results. Students will develop interpersonal, critical thinking, and analytical skills while they seek out ways to achieve business objectives through case study analysis and business simulations.

Core Courses:

Item #	Title	Credits
EC 105	Principles of Economics	4.0
AC 231	Principles of Accounting	4.0
CO 210	Business Communication	4.0
	MG 315, PH 315, or CO 315	4
MG 491	Senior Capstone	4.0
	MG 463/464, IS 302, or IC 421	2

Management Courses:

Item #	Title	Credits
MG 120	Computer Information Systems	4.0
MG 357	Business Law	4.0
MG 364	Management	4.0
MG 485	Strategic Management	4.0

And two of the following

Item #	Title	Credits
MG 237	Organizational Behavior	4.0
MG 359	Human Resource Management	4.0
MG 366	Event and Facilities Management	4.0
MG 425	Management Information Systems	4.0
MG 426	Operations Management	4.0
TH 363	Stage Management and Theatre Operations	4.0
	Total Credits	46

MG 315, PH 315, or CO 315

Elective Credits 4

Item #	Title	Credits
MG 315	Business Ethics	4.0
PH 315	Business Ethics	4.0
CO 315	Communication Ethics	4.0

MG 463/464, IS 302, or IC 421

Elective Credits 2

Item #	Title	Credits
MG 463	Internship in Management	1.0-4
MG 464	Internship in Management	1.0-4
IS 302	Summer Internship	1.0-4
IC 421	Graduate READY: Career Strategies	2.0

Marketing Major

The Marketing major prepares students for a broad range of careers that fall underneath the umbrella of marketing. At the heart of the discipline is learning how to understand what potential buyers want and developing creative solutions to help buyers meet their needs. Students will develop of specific marketing skills related to promotion, sales, social media, supply chain management, and other marketing areas, as well as the broader issue of incorporating these into marketing strategy. The program culminates with the opportunity to work with a company on a semester-long project to solve a marketing problem.

A major in Marketing shall consist of 46 credit hours.

Core Courses

Item #	Title	Credits
EC 105	Principles of Economics	4.0
AC 231	Principles of Accounting	4.0
CO 210	Business Communication	4.0
MG 491	Senior Capstone	4.0
	MG 315, PH 315, or CO 315	4
	MG 463/464, IS 302, or IC 421	2

Marketing Concentration

Item #	Title	Credits
MG 354	Marketing	4.0
MG 454	Marketing Management	4.0
MG 120	Computer Information Systems	4.0
MG 350	Consumer Behavior	4.0

Two of the following:

Item #	Title	Credits
MG 350	Consumer Behavior	4.0
MG 356	Integrated Marketing Communications	4.0
MG 366	Event and Facilities Management	4.0
CO 214	Advertising and Public Relations	4.0
CO 325	Public Relations in Practice	4.0
AG 321	Agricultural Marketing	4.0
	Total Credits	46

MG 315, PH 315, or CO 315

Elective Credits 4

Item #	Title	Credits
MG 315	Business Ethics	4.0
PH 315	Business Ethics	4.0
CO 315	Communication Ethics	4.0

MG 463/464, IS 302, or IC 421

MG 463	Internship in Management	1.0-4
MG 464	Internship in Management	1.0-4
IS 302	Summer Internship	1.0-4
IC 421	Graduate READY: Career Strategies	2.0

Sports Management

Major

The Sports Management major prepares students for a variety of career paths connected to professional and collegiate sports, as well as the organizations that surround pro/college sports. The Sports Management major emphasizes a combination of experiences in the classroom, with campus teams, and with professional sports teams to provide a unique preparation. Problem solving, data analysis, hard work, and creativity are critical skills emphasized within the major. All Sports Management majors have the option to culminate their majors by working on a project with a professional sports team. Recent clients have included teams from MLB, NFL, and the NBA.

Core Courses

Item #	Title	Credits
EC 105	Principles of Economics	4.0
AC 231	Principles of Accounting	4.0
CO 210	Business Communication	4.0

Business Administration Course Descriptions

MG 100 : Introduction to Business Administration

An overview of the functions of business administration, including the interrelationships of accounting, finance, organization, management, law, and marketing. The course seeks to orient students to business and organizational practices. Does not count towards any major in the Business Administration Department. Not open to students who have taken EC 105, [AC 231](#), or any 200-level MG course.

Credits 4

MG 120 : Computer Information Systems

An introduction to application software used in problem solving including advanced features of spreadsheets, introduction to databases, and project management tools. Includes in-class laboratory work.

Credits 4

MG 237 : Organizational Behavior

This course focuses on the examination of research and theory as it relates to the organization and the organizational environment as a social system. Within this context, the course explores factors that influence the way members of an organization behave. Topics include individual and cultural differences, perceptions, attitudes, emotions, motivation, learning and reinforcement, managing diversity, decision-making, relationship management, performance, group/team relationships, leadership, conflict and negotiations, strategy, and organizational change management.

Credits 4

MG 253 : Diversity and Inclusion in the Workplace

Shifting demographics contribute to a workplace that continues to grow more diverse over time. Individuals in the workplace will constantly interact with peers, managers, and customers with very different backgrounds and experiences. When managed successfully, these differences can be a powerful tool that broadens perspectives and creates organizational advantage. Alternatively, when these differences are misunderstood or mismanaged, it can lead to challenges with employee well-being and organizational goals. This course is designed to encourage students to think critically about a variety of topics relevant to diversity in the workplace. We will consider cultural and psychological processes that influence how people interact with one another. Students will think critically on topics such as identity, relationships across difference and bias, and equality of opportunity in organizations. Students will utilize theory and empirical research to assess the management of diversity and inclusion in the workplace.

Credits 4

MG 280 : The Business of Sport

An overview of the business aspects of professional and amateur sports. Topics covered include league structure and operation, sports marketing, pricing, media, agents and contracts.

Credits 4

Prerequisites

sophomore standing. [AC 231](#) would be beneficial but not required

MG 305 : Athletic Administration

This course emphasizes the aims, objectives and problems involved in managing athletics and a physical education curriculum. Students study and analyze the strategic planning process in athletic departments. Assignments require real-life applications relevant to field settings.

Credits 4

Semester Offered

[Offered spring semesters](#)

MG 315 : Business Ethics

Consideration of the problem of determining the rules which should govern the relationship between industry and government, a company and its customers, and management and employees. (See PH 315.)

Credits 4

MG 350 : Consumer Behavior

Studies the factors affecting consumer behavior of individuals and organizations; provides an overview of explanations of consumption; and surveys consumer decision-making processes and their implications for marketing strategy. (See PS 350.)

Credits 4

MG 354 : Marketing

Emphasizes the concepts of planning, organizing, controlling and decision making as they are applied to management of the marketing function. Attention is given to the marketing environment, consumer behavior, marketing research, product management, distribution promotion and pricing policies. May not be taken for credit if a student has earned credit for [AG 321](#).

Credits 4

Prerequisites

sophomore standing

MG 355 : Sports Promotion

An examination of the field of promotion, with a focus and applications into the sports industry. Topics covered include advertising, sales promotion, ticketing, sponsorships, and social media.

Credits 4

Prerequisites

[MG 280](#) recommended

MG 356 : Integrated Marketing Communications

This course examines how to integrate all of the available marketing communication tools into one clear voice that breaks through today's communication clutter. Students will study and create various forms of communication materials that are used in the promotions mix. These items will include advertisements for print media, radio, television, social media, websites, and YouTube. In addition, product demonstrations, sales promotions, personal selling, and public relations will be examined. Students will gain understanding of how to coordinate these elements to achieve an organization's objectives.

Credits 4

MG 357 : Business Law

This course is designed to provide students with a general overview and introduction to the American legal system, both procedural and substantive, with an emphasis on civil law. Topics include: the courts, trial procedure, torts, personal property, real property, insurance, contracts, and contemporary issues.

Credits 4

MG 359 : Human Resource Management

Study of concepts and methods used by the HRM unit in building and maintaining an effective work force in profit and nonprofit organizations. Topics include recruitment, selection, training, wage and salary administration, job design and EEOC.

Credits 4

Semester Offered

[Offered spring semesters](#)

MG 360 : Talent Acquisition and Retention

Overview of the basic principles and techniques of staffing the workplace. Introduction of basic and intermediate level theories and strategies utilized in staffing, planning, recruiting, and selection. Topics covered include job analysis, recruitment, selection, and performance assessment.

Credits 4

Prerequisite Courses

[MG 359: Human Resource Management](#)

MG 362 : Rewarding Employees

Overview of the theoretical frameworks and practices pertaining to rewarding human resources in organizations. The course will introduce students to the Total Rewards approach and aid in the understanding of tangible and intangible aspects of compensation.

Credits 4

MG 364 : Management

The study of the managerial process in an organizational setting with emphasis on decision making, planning, organizing, and controlling; including discussion of motivation, leadership, communication and group dynamics in an organizational context.

Credits 4

Prerequisites

sophomore standing

MG 366 : Event and Facilities Management

This course studies the guidelines and principles of managing sport and recreation events with hands-on application in how to administer, organize, direct personnel, fundraise, market, and carry out an event. Additionally, this course will focus on information and knowledge in the area of operation and management of athletic and recreational facilities. Topics include critical/crisis planning techniques, negotiations, funding, facility design, operation, and maintenance.

Credits 4

MG 371 : International Business

An understanding of international business is important in today's global economy. This course explores the application of core business concepts in a global context. Topics include culture, political and economic systems, marketing, and global operations.

Credits 4

MG 374 : Professional Sales

A course in the principles of business-to-business sales that is intended for marketing, sports management, and other business majors. The emphasis is on a holistic approach to sales by emphasizing skill development in areas such as listening, negotiation, questioning, and problem solving.

Credits 4

Prerequisite Courses

[MG 354: Marketing](#)

MG 410 : Fitness Management

An application of business principles to the health/fitness/recreation area, with an emphasis on starting and running a successful fitness business. Students will be introduced to various types of fitness opportunities, including health and fitness clubs, athletic training facilities, indoor and outdoor recreation, and online/virtual fitness. Topics include legal/financial/budgeting issues, creating high value customer experiences, staffing/training, organizational structure. The emphasis is NOT on training but on how to run a fitness-related business.

Credits 4

Prerequisites

[AC 231](#) and [MG 364](#)

MG 425 : Management Information Systems

Introduction to the management of information within an organization: planning, organizing, and controlling of effective information and accounting systems. Topics include analysis of available hardware and software, data base management systems, and development and management of an information system.

Credits 4

Prerequisites

junior standing

MG 426 : Operations Management

Introduction to production and operation management including: forecasting, capacity and material planning, inventory control, production and shop scheduling, quality control, work management, special techniques including PERT, linear programming, MRP, EOQ, and the design and location of facilities. Open to junior and senior majors.

Credits 4

MG 454 : Marketing Management

Marketing Management integrates the study of methods and models for marketing decisionmaking; emphasizes the application of analytical tools and behavioral and quantitative models to marketing decision-making. It is an expansion of the study and application of the marketing mix, SWOT analysis, consumer behavior and research.

Credits 4

Prerequisite Courses

[MG 354: Marketing](#)

MG 461 : Independent Study in Management

Advanced independent study in the field of management or marketing. Open to senior majors seeking advanced study in their areas of specialization. May be repeated with different subject matter for a maximum of 6 hours.

Credits 1-4

Prerequisites

Consent of the instructor

MG 462 : Independent Study in Management

Advanced independent study in the field of management or marketing. Open to senior majors seeking advanced study in their areas of specialization. May be repeated with different subject matter for a maximum of 6 hours.

Credits 1-4

Prerequisites

Consent of the instructor

MG 463 : Internship in Management

A practical application of theoretical skills in actual job-related situations. May be repeated for a maximum of 6 hours. Open to junior and senior majors.

Credits 1-4

Prerequisites

consent of the instructor

MG 464 : Internship in Management

A practical application of theoretical skills in actual job-related situations. May be repeated for a maximum of 6 hours. Open to junior and senior majors.

Credits 1-4

Prerequisites

consent of the instructor

MG 465 : Independent Research in Management

Credits 1-4

MG 466 : Independent Research in Management

Credits 1-4

MG 485 : Strategic Management

This senior-level course focuses on formulating and executing competitive business strategies. Students will integrate and apply management, marketing, finance, and operations concepts to develop solutions to complex business challenges. Case study analysis and a business simulation will be used.

Credits 4

MG 491 : Senior Capstone

The capstone seminar for the business major, MG 491 integrates and applies concepts from management, accounting, economics, and related fields, with a focus on developing and applying skills for problem solving and leadership in an organizational environment. A semester-long project in which students study a real-world problem and develop solutions is required.

Credits 4

Prerequisites

AC 231, EC 105, MG 364, and senior standing

Chemistry

Professor Zvi Pasman

Associate Professor Brent Chandler

Associate Professor Clayton F. Spencer

Assistant Professor Jocelyn Lanorio

Chemistry affects all phases of our modern lives, from the clothes we wear, to the cars we drive, to the food we eat, to the houses in which we live. With substantial overlap between both the disciplines of biology and physics, chemistry is often called the “central science,” and a grounding in chemistry is beneficial for all science majors. The Department of Chemistry is committed to educating liberal arts students to think critically and independently and to communicate ideas effectively. It is the mission of the department to prepare students who wish to pursue:

- Their intellectual curiosity about the nature of the physical world and the underlying chemical principles that govern it.
- Admission to graduate programs in chemistry and related fields.
- Admission to professional programs in healthcare and engineering.
- Employment or service in areas such as education, business, industry, and government where a chemical and technical background is essential.

Biochemistry

Major

Biochemists investigate the chemical reactions and mechanisms that govern and regulate life. Biochemistry, therefore, combines the broad perspectives of biology and chemistry and uses diverse approaches to examine the chemistry of living things. The curriculum includes courses in chemistry and biology and provides students with expertise at the interface of these disciplines. The mastery of fundamentals in biology and chemistry permits students to seamlessly integrate ideas from both areas of science and approach problems from an interdisciplinary perspective.

The biochemistry curriculum incorporates class instruction with significant laboratory work, including experimental approaches in protein and nucleic acid chemistry, cell biology, biophysics, and molecular biology. Independent research is encouraged, and research opportunities are provided. The Biochemistry major is administered jointly by the Biology and Chemistry Departments (see the Biology and Chemistry Departments mission statements). Students majoring in Biochemistry are considered to be a part of both departments.

The Biochemistry major consists of eleven courses (40 credit hours), three electives (12 credit hours), and two corequisites (8 credit hours). The major is designed to allow students the flexibility to pursue individual interests as they prepare for their post-college careers.

*Students majoring in Biology and Biochemistry may only count BI 110, 207, and 307 towards both majors. Students majoring in Chemistry and Biochemistry may only count CH 110, 203, 304, and 211 towards both majors. Students majoring in Biology, Chemistry, and Biochemistry may only count BI 110, 207, 307, CH 110, 203, 304, and 211 towards the three majors. Due to significant course overlap, students majoring in Biochemistry are ineligible for a minor in either Biology or Chemistry.

Core Courses

Item #	Title	Credits
BI 110	Biological Investigation	4.0
BI 207	Molecular Genetics	4.0
BI 307	Cell and Molecular Biology	4.0
CH 110	General Chemistry	4.0
CH 203	Organic Chemistry I	4.0
CH 304	Organic Chemistry II	4.0
CH 211	Quantitative Analysis	4.0
CH 309	Biochemistry I	4.0
CH 410	Biochemistry II	4.0
CH 441	Senior Seminar I	2.0
CH 442	Senior Seminar II	2.0

Electives

At least three selected from:

Item #	Title	Credits
BI 345	Principles of Microbiology	4.0
BI 306	Developmental Biology	4.0
BI 310	Immunology	4.0
BI 311	Virology	4.0
CH 231	Inorganic Chemistry	4.0
CH 327	Medicinal Chemistry	4.0
CH 332	Advanced Inorganic Chemistry	4.0

Required Corequisites

Item #	Title	Credits
PY 225	College Physics I	4.0
PY 226	College Physics II	4.0
Total Credits		60

Chemistry

Major

A major in chemistry consists of coursework distributed as follows:

Core Courses

All required:

Item #	Title	Credits
CH 110	General Chemistry	4.0
CH 211	Quantitative Analysis	4.0
CH 203	Organic Chemistry I	4.0
CH 231	Inorganic Chemistry	4.0

Scientific Breadth Courses

Select two:

Item #	Title	Credits
CS 160	Introduction to Computer Science	4.0
BI 110	Biological Investigation	4.0
PY 225	College Physics I	4.0
PY 226	College Physics II	4.0

Advanced Courses

Select three:

Item #	Title	Credits
CH 304	Organic Chemistry II	4.0
CH 309	Biochemistry I	4.0
CH 312	Instrumental Methods of Analysis	4.0
CH 323	Thermodynamics	4.0
CH 327	Medicinal Chemistry	4.0
CH 332	Advanced Inorganic Chemistry	4.0
CH 365	Quantum Theory & Spectroscopy	4.0
CH 410	Biochemistry II	4.0
CH 461	Independent Study in Chemistry	1.0-4
CH 465	Independent Research in Chemistry	1.0-4

Capstone

Both required:

Item #	Title	Credits
CH 441	Senior Seminar I	2.0
CH 442	Senior Seminar II	2.0

Students may elect to concentrate in a particular sub-field as follows:

Analytical Chemistry

Item #	Title	Credits
CH 211	Quantitative Analysis	4.0
CH 312	Instrumental Methods of Analysis	4.0

Biochemistry:

Item #	Title	Credits
CH 309	Biochemistry I	4.0
CH 410	Biochemistry II	4.0
BI 110	Biological Investigation	4.0
BI 307	Cell and Molecular Biology	4.0

Inorganic Chemistry

Item #	Title	Credits
CH 231	Inorganic Chemistry	4.0
CH 304	Organic Chemistry II	4.0
CH 332	Advanced Inorganic Chemistry	4.0

Physical Chemistry:

Item #	Title	Credits
CH 323	Thermodynamics	4.0
CH 365	Quantum Theory & Spectroscopy	4.0
CH 312	Instrumental Methods of Analysis	4.0

Medicinal Chemistry

Item #	Title	Credits
CH 304	Organic Chemistry II	4.0
CH 327	Medicinal Chemistry	4.0

Pursuit of Graduate Chemistry

Students intending to pursue admission to graduate programs in chemistry or related fields are encouraged to complete the following coursework as described by the American Chemical Society (ACS):

Item #	Title	Credits
CH 110	General Chemistry	4.0
PY 225	College Physics I	4.0
PY 226	College Physics II	4.0
MA 213	Calculus I	4.0
MA 223	Calculus II	4.0
MA 233	Calculus III	4.0
CH 203	Organic Chemistry I	4.0
CH 211	Quantitative Analysis	4.0
CH 231	Inorganic Chemistry	4.0
CH 323	Thermodynamics	4.0
CH 309	Biochemistry I	4.0
CH 304	Organic Chemistry II	4.0
CH 312	Instrumental Methods of Analysis	4.0
CH 332	Advanced Inorganic Chemistry	4.0
Total Credits		40

Chemistry Minor

Required Courses

A chemistry minor consists of CH 110 and four additional chemistry courses at the 200-level or above.

Item #	Title	Credits
CH 110	General Chemistry	4.0
	Four additional chemistry courses at the 200-level or above	16
Total Credits		20

Four additional chemistry courses at the 200-level or above

Elective Credits 16

Chemistry Course Descriptions

CH 103 : General, Organic, & Biological Chemistry

This introductory course to the chemical sciences is designed to demonstrate how chemistry affects our lives and communities. The course emphasizes critical thinking and problem-solving development, which allow students to understand, evaluate, and respond to societal issues. Students will study key chemical concepts and principles from the perspectives of organic and biological chemistry. The course satisfies the Science Society with lab general education category but may not be used as a prerequisite for advanced courses in the Department. Four class hours and one two-hours laboratory per week.

Credits 4

CH 110 : General Chemistry

Chemistry is the study of the material world. It is essential to the understanding of a wide range of scientific disciplines and is applicable to diverse career interests. Intended primarily for students majoring in the natural sciences, this course introduces the principles of chemistry. Major themes include the microscopic structure of matter and the role of energy, stability, and entropy as drivers of chemical change. Topics include: atomic structure, periodicity, chemical bonding, molecular structure and geometry, inorganic reaction classes, stoichiometry, thermochemistry, kinetic theory of gases and liquids, and intermolecular forces. Laboratory work will provide practice in basic measurements, liquid handling, experimental design, application of scientific method, and data processing and interpretation. Three class hours and one three-hour laboratory period per week.

Credits 4

Corequisites

[MA 133](#) (or placement into a higher level mathematics course)

Semester Offered

[Offered every semester](#)

Notes

CH 110 is a prerequisite to all chemistry courses above the 100-level.

CH 203 : Organic Chemistry I

Organic chemistry focuses on the chemistry of carbon compounds and provides a basis for understanding much of the chemistry of the biological world around us. Lectures will focus on the properties of organic compounds, on the reactions of functional groups and reaction mechanisms. You will develop the critical thinking skills and knowledge necessary to understand, evaluate, and respond to major events, reports, and ideas using the key concepts and principles associated with organic chemistry. In the lab you will synthesize and analyze organic compounds with known molecular structure using fundamental laboratory techniques and report your experimental results. Three class hours and one three-hour laboratory period per week.

Credits 4

Prerequisites

[CH 110](#). [CH 203](#) with a 'C' grade or better is a prerequisite to [CH 304](#)

Semester Offered

[Offered every year](#)

CH 211 : Quantitative Analysis

Volumetric and gravimetric analysis. Introduction to instrumental analysis. Three class hours and one three-hour laboratory period per week.

Credits 4

Prerequisite Courses

[CH 110: General Chemistry](#)

Semester Offered

[Offered every spring](#)

CH 231 : Inorganic Chemistry

This course will teach students about the field of Inorganic Chemistry which addresses some of the most pressing challenges of our time. Whether the problem involves making new materials to harness solar energy, drawing inspiration from nature to convert methane to methanol, or developing metal-based pharmaceuticals and catalysts, inorganic chemistry is fundamental to the solutions. This course is designed to introduce students to the fundamental principles of inorganic chemistry and expands upon what is learned in general chemistry by providing new ways of understanding electronic structure, bonding, and reactivity. In this course we will explore the entire periodic table (even carbon - as long as it's bound to a metal!). We will start by discussing about the properties of the nucleus, the origin of atoms and how they bond, and then apply our bonding models to transition metal chemistry. Additionally, we will devote class time to examining current research in order to learn what the big questions are in inorganic chemistry and what motivates leading researchers in this field. Three class hours and one three-hour laboratory period per week.

Credits 4

Prerequisite Courses

[CH 110: General Chemistry](#)

Semester Offered

[Offered every fall](#)

CH 304 : Organic Chemistry II

Organic chemistry focuses on the chemistry of carbon compounds and provides a basis for understanding much of the chemistry of the biological world around us. Lectures will focus on the properties of organic compounds, on the reactions of functional groups and reaction mechanisms. You will develop the critical thinking skills and knowledge necessary to understand, evaluate, and respond to major events, reports, and ideas using the key concepts and principles associated with organic chemistry. In the lab you will synthesize and analyze organic compounds with known molecular structure using fundamental laboratory techniques and report your experimental results. Three class hours and one three-hour laboratory period per week.

Credits 4

Prerequisites

[CH 110](#), [CH 203](#) with a 'C' grade or better is a prerequisite to [CH 304](#)

Semester Offered

[Offered every year](#)

CH 309 : Biochemistry I

The morphological diversity of living things is fantastic. Nevertheless, many living systems are confined to aqueous environments, constant pressure and salt conditions, and little if any internal temperature fluctuations. Within these chemical restrictions all organisms must carry out chemical reactions that result in the sustenance and proliferation of life. In this course we will discuss the chemical reactions that often are shared among a vast number of organisms. We will start with an outline of the basic chemical environment of the cell and then describe the three-dimensional structures of proteins. We will consider how representative protein structures are assembled and how they perform their respective functions. Through the combined use of kinetic, structural, and genetic approaches, we will examine how enzymes carry out catalysis of chemical reactions within living systems. Three class hours and one three-hour lab per week.

Credits 4

Prerequisites

BI110, [CH 203](#)

Semester Offered

[Offered every fall](#)

CH 312 : Instrumental Methods of Analysis

Course presents a survey of the principles and applications of modern chemical instrumentation. Three class hours and one three-hour laboratory periods per week.

Credits 4

Prerequisite Courses

[CH 211: Quantitative Analysis](#)

Semester Offered

[Offered alternate years](#)

CH 323 : Thermodynamics

Credits 4

Notes

(See PY 323.)

CH 327 : Medicinal Chemistry

This is a survey course designed to explore the design, development, and action of drugs. Concepts of biology, biochemistry, pharmacy, physiology, organic chemistry, pharmacology, etc. will be discussed with an emphasis on relating the chemical structure of a drug to its biological function. We will see how drugs are discovered and developed; how they get to their site of action; what happens when they reach the site of action; how the body gets rid of them, and what a medicinal chemist can do to avoid having the body eliminate them before they have produced their desired effect. The approaches discussed are those used in the pharmaceutical industry and elsewhere for the discovery of new drugs.

Credits 4

Prerequisite Courses

[CH 203: Organic Chemistry I](#)

Semester Offered

[Offered alternate spring semesters](#)

CH 332 : Advanced Inorganic Chemistry

This course presents an overview of the physical/theoretical aspects relating to transition metal and main group chemistry, with emphasis on bonding, structure, thermodynamics, kinetics and mechanisms, and periodic relationships. Atomic structure, theories of bonding, symmetry, molecular shapes (point groups), crystal geometries, acid-base theories, survey of familiar elements, solid-state materials, nomenclature, crystal field theory, molecular orbital theory, isomerism, geometries, magnetic and optical phenomena, spectra, Tanabe-Sugano diagrams, synthetic methods, boron hydrides, organometallic compounds, cage structures, clusters, lanthanides, actinides. Three class hours and one three-hour laboratory periods per week.

Credits 4

Prerequisite Courses

[CH 203: Organic Chemistry I](#)

Semester Offered

[Offered alternate years](#)

CH 365 : Quantum Theory & Spectroscopy

Introduces chemistry and physics students to principles of quantum theory with applications to material and chemical systems and spectroscopy. Topics include development of quantum theory, fundamental postulates, quantum theory of simple systems, quantum theory of molecules and extended systems, application of quantum theory to spectroscopy of atoms, molecules, and extended systems. Appropriate as an introduction to quantum theory for students of physics or as a physical chemical treatment for students of chemistry. Cross-listed between physics and chemistry. Three class hours and one three-hour lab per week.

Credits 4

Prerequisites

PY226, [MA 223](#), and [CH 110](#)

Semester Offered

[Offered alternate fall semesters](#)

Notes

(See PY 365.)

CH 410 : Biochemistry II

This course is a direct continuation of [CH 309](#). We will continue investigating how protein and nucleic acid structures are suited for their function and concentrate on the regulation of catalyzed reactions. To demonstrate these principles, we will discuss representative allosteric regulatory systems, carbohydrate metabolism, chemical information transfer and utilization, and the regulation of these processes. Three class hours and one three-hour lab per week.

Credits 4

Prerequisite Courses

[CH 309: Biochemistry I](#)

Semester Offered

[Offered every spring](#)

CH 441 : Senior Seminar I

Introduction to topics at the “cutting-edge” of chemical research as presented in the chemical literature and departmental seminars. Course introduces strategies for researching the chemical literature and for preparing formal seminars, posters, and manuscripts (including reviews, research articles, and research proposals). Course culminates in the research and formal presentation of a contemporary topic of interest.

Credits 2

Prerequisites

24 semester hours in chemistry and senior standing

Semester Offered

[Offered every year](#)

CH 442 : Senior Seminar II

Introduction to topics at the “cutting-edge” of chemical research as presented in the chemical literature and departmental seminars. Course introduces strategies for researching the chemical literature and for preparing formal seminars, posters, and manuscripts (including reviews, research articles, and research proposals). Course culminates in the research and formal presentation of a contemporary topic of interest.

Credits 2

Prerequisites

24 semester hours in chemistry and senior standing

Semester Offered

[Offered every year](#)

CH 461 : Independent Study in Chemistry

Credits 1-4

CH 462 : Independent Study in Chemistry

Credits 1-4

CH 463 : Internship in Chemistry

Students spend the summer or an academic semester as an intern or research assistant in government, academic or industrial settings learning to apply chemistry to real-world problems. Students will be required to complete a final project (determined through consultation with the department) that serves to demonstrate the educational value of the experience.

Credits 1-4

Prerequisites

Approval of the department and on-site supervisor

CH 464 : Internship in Chemistry

Students spend the summer or an academic semester as an intern or research assistant in government, academic or industrial settings learning to apply chemistry to real-world problems. Students will be required to complete a final project (determined through consultation with the department) that serves to demonstrate the educational value of the experience.

Credits 1-4

Prerequisites

Approval of the department and on-site supervisor

CH 465 : Independent Research in Chemistry

Research on relevant topics.

Credits 1-4

Prerequisites

consent of the instructor

CH 466 : Independent Research in Chemistry

Research on relevant topics.

Credits 1-4

Prerequisites

consent of the instructor

Communication and Rhetorical Studies

Professor Adrienne E. Hacker Daniels

Associate Professor Adam C. Jones

Associate Professor Christopher J. Oldenburg

Assistant Professor Anna Wright

Assistant Professor Mizuki Wyant

Instructor Shawna Merrill

The mission of the Communication and Rhetorical Studies Program is to cultivate in students theoretically grounded and highly developed competencies in the production, delivery, and criticism of diverse forms of human communication. It is the expectation of the department that students will use their communication expertise ethically in the pursuit of both personal growth and professional advancement as well as in the fulfillment of their duties as responsible citizens and community leaders.

Studies in Communication and Rhetorical Studies are the heir of a long and honored tradition. Since its inception in ancient Greece, the art of rhetoric (effective discourse) has consistently been recognized as a pillar of humane learning and assigned a foundational role within the liberal arts. Contemporary studies of communication and rhetoric focus on the construction, evaluation and use of communication theories, the criticism of communication practices, and the refinement of skills necessary for communicating effectively in a technology-permeated, multicultural world.

While the heart of the field's self-understanding remains the humanistic rhetorical tradition, its broader contours also seek to integrate methodologies from the social sciences as well as to extend its collective insights into the application and criticism of diverse communication media.

Education in the rhetorical tradition and its intrinsically adaptive dynamics thus constitutes the conceptual core of the curriculum which integrates theory and practice and combines work in the classroom with co-curricular

activities. Majors also learn to advance their understanding of communication processes through the use of empirical research methods as well as have an opportunity to develop communication expertise for a variety of contexts (interpersonal, professional, organizational, small group, and intercultural).

Communication and Rhetorical Studies

Major

A major in Communication and Rhetorical Studies requires the completion of 44 hours of credit beyond CO 101.

Required Courses

Item #	Title	Credits
CO 204	Communication Theory	4.0
CO 220	The Rhetorical Tradition	4.0
CO 240	Introduction to Mass Communication	4.0
CO 260	Communication Research & Methods	4.0
CO 314	Freedom of Expression	4.0
CO 315	Communication Ethics	4.0
CO 415	Senior Seminar in Communication	4.0

Electives

In addition, at least 16 semester hours of CO electives must be completed. At least 8 of these hours must be at the 300-level or above and no more than 4 semester hours of CO 463/464 Internship may be applied to the major. Courses in the major must be selected in consultation with a departmental advisor.

Total Credits	44
----------------------	-----------

Organizational & Strategic Communication

Major

The Organizational and Strategic Communication major is designed for students who are interested in the communication and relationship component of organizations and have a desire to learn how to communicate strategic messages to fulfill an organization's mission. Students in this major study communication across organizational and business settings, gaining an understanding of how communication is integral to the effective management of people and behaviors in an organizational context. Students will learn how to communicate clear messages in organizations, including through social media. They will gain a foundation of communication theory and practices that will help them interact with, lead, and manage individuals in the organizational process. In addition, a significant component of this major are the interdisciplinary connections made to the disciplines of Art & Design in Visual Studies, English, and Business. Specifically, students majoring in Organizational and Strategic Communication will be required to take courses in either graphic design, digital art (including digital technology and new media), and/or professional writing as well as a course in the content area of marketing, all of which are important for students to understand as they enter today's professional environment.

With an Organizational and Strategic Communication major, students could work in corporations as sales representatives, advertising account executives, communication coaches/ specialists/analysts, human resources, social media managers, event coordinators, trainers, project managers, and recruiters, just to name a few. Similarly, they can find careers in higher education, training and development, public relations, or political communication.

A major in Organizational and Strategic Communication requires the completion of 44 hours of credit beyond CO 101.

Communication & Rhetorical Studies Core Courses

Item #	Title	Credits
CO 204	Communication Theory	4.0
CO 230	Organizational Communication	4.0
CO 315	Communication Ethics	4.0

Organizational and Strategic Communication Courses

Choose two from the following courses:

Item #	Title	Credits
CO 235	Strategic Communication and Social Media	4.0
CO 330	Developing Talent and Intercultural Competence	4.0
CO 353	Communication and Leadership in Teams	4.0

Public Relations Course

Choose one of the following:

Item #	Title	Credits
CO 214	Advertising and Public Relations	4.0
CO 325	Public Relations in Practice	4.0

Marketing Course

Choose one from the following:

Item #	Title	Credits
MG 354	Marketing	4.0
MG 356	Integrated Marketing Communications	4.0

Professional Writing and Digital Media Courses

Choose two from the following:

Item #	Title	Credits
EN 208	Persuasive Writing	4.0
EN 280	Editing and the English Language	4.0
EN 281		
EN 380	Writing for Publication	4.0
AR 204	Visual Communication	4.0
AR 361	New Media	4.0

Communication & Rhetorical Studies Elective Course

Organizational and Strategic Communication majors are required to complete one additional 4-credit hour course at either the 200-level or 300-level that is either a Communication & Rhetorical Studies course or any elective course listed in the Organizational & Strategic Communication major; a 4-credit hour internship may count for this elective requirement.

Senior Seminar Course

Double majors in Business may substitute MG 491 – Senior Capstone, taking note of the limit on double counting*

*Students pursuing a double major may double count no more than a maximum of 16 credit hours; students may double count no more than 8 credits toward a major and a minor or two minors.

Item #	Title	Credits
CO 415	Senior Seminar in Communication	4.0
Total Credits		44

Communication and Rhetorical Studies

Minor

A minor in Communication and Rhetorical Studies requires the completion of 24 semester hours of credit beyond CO 101.

Required Courses

Item #	Title	Credits
CO 204	Communication Theory	4.0
CO 220	The Rhetorical Tradition	4.0
CO 240	Introduction to Mass Communication	4.0

CO Electives

In addition, at least 12 semester hours of CO electives must be completed. At least 8 of these elective hours must be at the 300-level or above and no more than 4 semester hours of CO 463/464 Internship may be applied to the minor.

Total Credits	24
----------------------	-----------

Communication and Rhetorical Studies Course Descriptions

CO 101 : Speech Fundamentals

An introduction to the various types of speech. Required except for those students whose background and competence in speech qualifies them for departmental approval for substituting an advanced course.

Credits 4

CO 204 : Communication Theory

This course allows students to understand both the humanistic and social scientific theories in communication. Areas of inquiry include the ethical implications of individual theories, the development of knowledge and appreciation of theory building in the communication discipline, the ability to discern roles that communication theories play in our daily lives, and the examination and testing of communication theories using different methodological approaches. This course is a foundational requirement for all students majoring or minoring in Communication and Rhetorical Studies.

Credits 4

Prerequisites

CO 101 or consent of instructor

CO 210 : Business Communication

This course is designed to enhance one's understanding of the skills, principles and contexts of communication in business and organizational settings. Oral presentations and written assignments are utilized to evaluate competencies in verbal and nonverbal communication efforts. A framework of strategic communication is introduced for the planning and implementation of various interpersonal and presentational principles and skills along with an examination of important theories of organizational communication.

Credits 4

CO 214 : Advertising and Public Relations

This course is designed to provide the student with an understanding of the advertising industry's "identity," an identity which has mirrored - as well as participated in the creation of - a uniquely American identity. Significant historical, cultural, gender, aesthetic, ethical, legal, and rhetorical perspectives are examined. Public relations will be examined in theory and practice as it intersects with advertising theories and practices in their roles within a mass media framework.

Credits 4

CO 220 : The Rhetorical Tradition

A survey of major trends in the development of rhetorical theory from Homer to the present. Special attention is given to comparing and contrasting different theories of rhetoric, the implications of these theories primarily for oral communication and its consequences, and the ways these theories are adapted to a variety of philosophical, social and political contexts. This course is a foundational requirement for all students majoring or minoring in Communication and Rhetorical Studies.

Credits 4

CO 224 : Rhetorical Criticism

A quasi-chronological examination of the variety of methods used by rhetorical critics in analyzing the suatory dimensions of public civic texts. The issues and circumstances that have generated these methods will be considered as well. Students develop a familiarity with the tools, purposes and problems faced by rhetorical critics and an ability to produce rudimentary rhetorical criticism.

Credits 4

CO 225 : Interpersonal Communication

This course explores the motivations, characteristics, and consequences of interpersonal communication. Over the semester, students will learn the various theories, models, and vocabulary of the interpersonal communication field. Attention is paid to topics such as self-concept, perception, and disclosure as well as uncertainty, affection, maintenance, and conflict across a variety of relational contexts. Students reflect on and improve their own interpersonal skills while learning to apply various interpersonal communication theories toward the end of developing more positive relationships in their personal and professional lives.

Credits 4

CO 226 : Intercultural Communication

This course explores the synergy between communication and culture. Specifically, students investigate various value orientations and verbal and nonverbal behaviors that occur in several cultural contexts, such as within the religious, business and health contexts. A variety of intercultural communication issues are explored including cultural identity, disability, sexual orientation, ethnocentrism and stereotypes. Emphasis within all assignments is placed on the importance of developing intercultural communication competence in all contexts.

Credits 4

CO 230 : Organizational Communication

This course is broadly designed to explore communication processes and problems that occur within the organizational context. To accomplish this, students will be exposed to the managerial and communicative theories pertaining to organizations and relevant research covering a host of topics. Specifically, this course will examine organizational culture (and how to adapt one's communication successfully one's culture), communication in the superior-subordinate relationship, impact of organizational structure on communication, and techniques for assessing and improving organization and individual communication effectiveness.

Credits 4

CO 235 : Strategic Communication and Social Media

This course examines how recent advances in information technology and online social networking provide opportunities as well as challenges for those who practice and research strategic communication. Issues covered in this course will include ways that various organizations (corporate, governmental, and non-profit) strategically identify key audiences, effectively create and share social media content, evaluate social media-based strategic communication initiatives, and use social media to improve their image and brand. Students will also learn about the significant changes in strategic communication approaches brought about by the networked information society. This course combines theoretical and hands-on approaches to these issues. Additionally, in conjunction with the theoretical understandings of social media, students will study and use different social media applications throughout the course.

Credits 4

CO 240 : Introduction to Mass Communication

An introduction to the theory and practice of mass communication, with historical and critical examination of print media (books, magazines, and newspapers), electronic media (television, radio, and recordings), film, and the internet. Related topics covered include media research, mass media effects, mass media and society, mass media and government, mass media ethics, and mass media law.

Credits 4

CO 252 : Competitive Debate and Speech

Participation and competition in intercollegiate policy debate. This course may be repeated; however, no more than 4 semester hours of CO 252 may be applied to the major or minor. Permission of instructor required.

Credits 0.5

CO 260 : Communication Research & Methods

This course introduces students to the conceptual and methodological paradigms utilized in pursuing communication research. Operating primarily from a social science perspective, students will learn how to generate important research questions and hypotheses pertaining to human communication, how to design and carry out research projects, and how to do competent research within the communication discipline. Students are introduced to a variety of research paradigms as well as quantitative and qualitative approaches to communication research and the appropriate methodological approaches within each purview.

Credits 4

CO 311 : Argumentation & Debate

An introduction to both the mechanics of academic debate and principles of argumentation that can be applied to other methods of decision-making in which people weigh reasons pro and con. Students apply these insights to the analysis of arguments in the public sphere and participation in oral debate.

Credits 4

CO 314 : Freedom of Expression

This course examines the verbal and nonverbal communication tenets of the freedom of speech clause of the first amendment of the Constitution. The history of the first amendment will be traced, including careful analysis of Supreme Court decisions. Topics covered include political heresy, defamation, obscenity, commercial speech, and technology.

Credits 4

Prerequisites

junior standing or consent of the instructor

CO 315 : Communication Ethics

This course examines the ethical issues surrounding the role of verbal and nonverbal communication in distinguishing human participation in society. Students are asked to think critically about the range of issues germane to communication from a variety of normative perspectives.

Credits 4

Prerequisites

junior standing or consent of the instructor

CO 324 : American Public Address

A history and critical appraisal of the rhetors, movements and rhetoric from the First Great Awakening to the present. Analysis and discussion of specific rhetorical episodes are designed to nurture the student's understanding of the exigencies and constraints that confront public advocates as well as to illustrate the relationship between rhetorical practice and American public culture.

Credits 4

CO 325 : Public Relations in Practice

Public Relations (PR) helps to establish and maintain mutual lines of communication, understanding, acceptance, cooperation, and mutually beneficial relationships between organizations or public personalities and their various publics. Among the topics this course will cover are the social function of public relations, its diverse forms (e.g. media and community relations, the management function of public relations, and the role of the practitioner in crisis communication). The students will also develop their skills in public relations by creating publicity products, such as press releases, feature stories, brochures, posters/flyers, photo essays, and speeches.

Credits 4

CO 330 : Developing Talent and Intercultural Competence

Training employees in today's increasingly diverse world requires a great deal of knowledge. This course will discuss intercultural competence in global organizations. Then, building upon that foundation, the course will discuss how to train and develop employees, giving perspective to working in different world cultures. Major topics include the ADDIE training model, training methods, and intercultural communication in the workplace.

Credits 4

CO 336 : Rhetoric of Women's Discourse

This course examines women's "voices" through a myriad of modalities and genres in order to understand the themes of women's discourse for the achievement of empowerment and enfranchisement in a society whose "order" has been at odds with such goals. Areas of inquiry include the relationship between public and private communication as understood through the prism of gender, polemical issues such as reproduction and pornography, and the meaning of the literary and visual arts in pursuit of a feminist rhetoric.

Credits 4

CO 353 : Communication and Leadership in Teams

This course explores how communicating in small groups and teams is a significant part of the human experience. In this course, students will examine how the behavior of groups, leaders, and followers is inherently communicative. Specifically, students will study small group communication theory, research, and practice from several different perspectives, focusing on how individual and group behavior “emerges” from group communication and interaction. In addition, students enrolled in this course will participate in small groups on a semester-long service-learning project connected to local community non-profit or charitable organizations.

Credits 4

CO 381 : Health Communication

People who face illness or who try to maintain or achieve good health experience a number of challenges, such as decisions about treatments, coping with large volumes of medical information, and responding to changes in their identities as a consequence of illness. Managing those challenges can be helped or hindered by communication with others (e.g. family, friends, and healthcare providers). Both theoretical and practical in nature, this course will help students understand the impact of communication in a health context. Among the topics that will be addressed are: health and identity, patient-practitioner communication, cultural perceptions of health, healthcare policies, health communication campaigns, and health images in the media. (See NU 381.)

Credits 4

CO 381 : Health Communication

People who face illness or who try to maintain or achieve good health experience a number of challenges, such as decisions about treatments, coping with large volumes of medical information, and responding to changes in their identities as a consequence of illness. Managing those challenges can be helped or hindered by communication with others (e.g. family, friends, and healthcare providers). Both theoretical and practical in nature, this course will help students understand the impact of communication in a health context. Among the topics that will be addressed are: health and identity, patient-practitioner communication, cultural perceptions of health, healthcare policies, health communication campaigns, and health images in the media. [Essential VI]

Credits 4

CO 388 : Special Topics in Communication Studies

Topics vary by semester. Study of some selected period or genre of public discourse, some significant social movement or some major issue or individual within the field of rhetoric and communication theory.

Credits 4

CO 415 : Senior Seminar in Communication

This course will serve as the capstone course for all Senior-level students majoring in Communication and Rhetorical Studies. In addition, a strong emphasis will be placed on undergraduate research. Specifically, students will be asked to research relevant communication topics from either the social scientific or humanistic perspectives during the semester and formally present their scholarly findings. As part of the capstone experience in this course, students will also be asked to synthesize their previous coursework and critically reflect on their experiences in the Communication and Rhetorical Studies program.

Credits 4

Prerequisites

senior standing or consent of the instructor

CO 461 : Independent Study in Communications

Advanced study in some aspect of the communications field.

Credits 1-4

Prerequisites

consent of faculty supervisor

CO 462 : Independent Study in Communications

Advanced study in some aspect of the communications field.

Credits 1-4

Prerequisites

consent of faculty supervisor

CO 463 : Internship in Communications

An internship in some aspect of the communication field.

Credits 1-4

Prerequisites

consent of faculty supervisor

CO 464 : Internship in Communications

An internship in some aspect of the communication field.

Credits 1-4

Prerequisites

consent of faculty supervisor

CO 465 : Independent Research in Communications

Credits 1-4

CO 466 : Independent Research in Communications

Credits 1-4

Computer Science

Associate Professor Takako Soma

Instructor Zheng Huang

The Department of Computer Science offers both a major and minor in Computer Science. The primary focus of the major in Computer Science is for students to learn a solid practical foundation in software development (algorithm development and programming). Students also learn the fundamentals of theory and hardware, and how both relate to software. Students further have the opportunity to learn various advanced topics by taking elective courses in computer science. Students are carefully advised by faculty members of the department. The major in computer science helps to prepare students for a career in the field and/or further study in a graduate program. The ACM curriculum recommendations are used as guidelines to create the computer science curriculum.

A student must earn a grade of 'C-' (1.67) or better in all classes for a major or minor in Computer Science with an average of 2.00 or above in computer science and 2.00 or above in MA 201.

Prerequisites for Computer Science courses must be completed with a grade of 'C-' or above.

Computer Science

Major

A major in Computer Science consists of a minimum of 44 semester hours (eleven courses). [Depending on mathematical preparation, the student may need to take up to an additional 8 hours (two courses) of mathematics.]

Computer Science Core Courses

Item #	Title	Credits
CS 160	Introduction to Computer Science	4.0
CS 170	Introduction to Data Structures	4.0
CS 260	Data Structures and Algorithms	4.0
CS 270	Software Development	4.0
CS 280	Computer Organization and Architecture	4.0
CS 360	Theory of Computation	4.0
CS 485	Senior Seminar	4.0

Electives

A minimum of 12 semester hours (three courses) of electives from:

*(two of the three courses must be 300- or 400-level)

Item #	Title	Credits
CS 250	Programming Practicum	1.0-4
CS 310	Human Computer Interaction	4.0
CS 350	Concepts of Programming Languages	4.0
CS 380	Operating Systems	4.0
CS 410	Computer Networking	4.0
CS 420	Artificial Intelligence and Expert Systems	4.0
CS 460	Theory of Database Systems	4.0

Tool Courses

Item #	Title	Credits
MA 201	Discrete Mathematics	4.0

If a student does not place out of MA 133, then the student may need to take 4 to 8 additional credit hours (one or two courses) from MA 103 and MA 133. Students interested in attending graduate school are encouraged to take additional courses in mathematics in consultation with their advisor.

As part of the ongoing assessment process of the program, all majors must take the Major Field Achievement test in Computer Science during his/her last spring semester prior to graduation.

Total Credits	44
----------------------	-----------

Computer Science

Minor

A minor in Computer Science consists of 24 credit hours (six courses). [Depending on mathematical preparation, the student may need to take up to an additional 8 hours (two courses) of mathematics.]

Computer Science Core Courses

20 semester hours (five courses) from computer science including:

Item #	Title	Credits
CS 160	Introduction to Computer Science	4.0
CS 170	Introduction to Data Structures	4.0
CS 260	Data Structures and Algorithms	4.0
CS 270	Software Development	4.0

Elective

A minimum of one elective course (4 hours) from the following:

Item #	Title	Credits
CS 250	Programming Practicum	1.0-4
CS 280	Computer Organization and Architecture	4.0
CS 310	Human Computer Interaction	4.0
CS 350	Concepts of Programming Languages	4.0
CS 360	Theory of Computation	4.0
CS 380	Operating Systems	4.0
CS 410	Computer Networking	4.0
CS 420	Artificial Intelligence and Expert Systems	4.0
CS 440	Computer Graphics Programming	4.0
CS 460	Theory of Database Systems	4.0
CS 485	Senior Seminar	4.0

Other Requirements

MA 201 as a tool for the minor.

Item #	Title	Credits
MA 201	Discrete Mathematics	4.0

If a student does not place into MA 201, then the student may need to take 4 to 8 additional credit hours (one or two courses) from MA 103 and MA 133.

Total Credits	28
----------------------	-----------

Computer Science Course Descriptions

CS 115 : Computational Thinking for Problem Solving

Having computational thinking skills, not just digital literacy or IT skills, is important. It is a problem-solving process that includes decomposition, abstraction, pattern recognition, and algorithms. This class introduces students to the elements of computational thinking which will improve real-life problem-solving skills. Students will also learn simple coding using a visual programming language. The class includes in-class laboratory work.

Credits 4

CS 160 : Introduction to Computer Science

An introduction to the fundamental concepts of computer science. Topics include I/O, control structures, arrays, and structured programming techniques. This course, along with CS 170, is the basis for the rest of the computer science curriculum. A programming language will be introduced.

Credits 4

Corequisites

[MA 133](#) or equivalent

Semester Offered

[Offered fall semesters](#)

CS 170 : Introduction to Data Structures

A continuation of [CS 160](#). An introduction to basic data structures such as stacks, queues, linked lists, and expression trees all with an emphasis on object-oriented programming. Searching, sorting, elementary algorithm analysis, and recursion will be introduced.

Credits 4

Prerequisite Courses

[CS 160: Introduction to Computer Science](#)

Semester Offered

[Offered spring semesters](#)

CS 250 : Programming Practicum

Fundamental syntactic and stylistic techniques of an individual programming language such as assembly languages, FORTRAN, Ada, Prolog, LISP, C, C++, C#, and others. Maybe repeated for credit with different languages.

Credits 1-4

Prerequisites

[CS 160](#) and permission of the instructor

CS 260 : Data Structures and Algorithms

Algorithms and data structures for sorting, searching, trees, and graph algorithms. Algorithms and data structures associated with file processing, such as hashing, indexing, and B-trees, along with a continued examination of algorithm analysis.

Credits 4

Prerequisites

[CS 170](#) and [MA 201](#)

Semester Offered

[Offered fall semesters](#)

CS 270 : Software Development

This course gives students experience gathering requirements, designing, implementing, testing, debugging, and other aspects of medium-sized software projects.

Credits 4

Co-Requisite Courses

[CS 260: Data Structures and Algorithms](#)

Semester Offered

[Offered spring semesters](#)

CS 280 : Computer Organization and Architecture

Introduction to computer systems, organization, and architecture. Topics include representation of data, instructions sets, addressing modes, digital logic, logic circuits, logic devices, memory, register transfer, and alternative architectures.

Credits 4

Prerequisite Courses

[CS 170: Introduction to Data Structures](#)

Semester Offered

[Offered spring semesters](#)

CS 310 : Human Computer Interaction

An introduction to Human-Computer Interaction. In this course, students would explore the design, evaluation, and implementation of interactive computing systems for human use, and understand how evolving technologies can be designed to be intuitive, effective, and compelling for users.

Credits 4

Prerequisites

[CS 170](#) or consent of the instructor

CS 350 : Concepts of Programming Languages

History of programming languages. Organizational issues: data and control structures; run-time behavior of programs. Lexical and syntactic specification and analysis. Examination of procedural, object-oriented, functional, and logic programming languages.

Credits 4

Corequisites

[CS 260](#)

CS 360 : Theory of Computation

A study of the theoretical aspects of computer science in relation to programming languages. Topics includes regular languages, context-free languages, the Church-Turing thesis, decidability and reducibility.

Credits 4

Corequisites

[CS 260](#) and [MA 201](#)

Semester Offered

[Offered spring semesters](#)

CS 380 : Operating Systems

Introduction to operating system concepts including process, device, and memory management. Other topics include the history of operating systems and security.

Credits 4

Co-Requisite Courses

[CS 260: Data Structures and Algorithms](#)

Semester Offered

[Offered spring semesters](#)

CS 410 : Computer Networking

Topics include basic hardware, software and architectural components for computer communications, computer networks, switching, routing, protocols and security. Topics involving interfacing operating systems and networks are covered. Students will get hands-on experience with local area networks.

Credits 4

Corequisites

[CS 260](#) and [MA 201](#)

CS 420 : Artificial Intelligence and Expert Systems

Introduction to artificial Intelligence and expert systems concepts. Topics include knowledge representation, search algorithms, reasoning, and shells. Programming in an AI language such as LISP and/or PROLOG.

Credits 4

Prerequisite Courses

[CS 260: Data Structures and Algorithms](#)

CS 440 : Computer Graphics Programming

An introduction to computer graphics programming. Topics include lines, curves, windows, clipping, two- and three-dimensional transformations, projections, and hidden line removal.

Credits 4

Prerequisites

[CS 260](#) and [MA 201](#)

CS 460 : Theory of Database Systems

File structures and access methods. Database modeling, design and user interface. Emphasis on relational database models. Information storage and retrieval, query languages, and high-level language interface with database systems. The students develop a nontrivial database system using a language designed for databases.

Credits 4

Co-Requisite Courses

[CS 260: Data Structures and Algorithms](#)

CS 461 : Independent Study in Computer Science

Course of study to be arranged with a computer science faculty member with the approval of the department. A plan of study must be written before approval will be given.

Credits 1-4

Prerequisites

consent of the instructor

CS 462 : Independent Study in Computer Science

Course of study to be arranged with a computer science faculty member with the approval of the department. A plan of study must be written before approval will be given.

Credits 1-4

Prerequisites

consent of the instructor

CS 463 : Internship in Computer Science

Work experience in the computer environment of a business, financial institution, government agency, or National Laboratory, such as Argonne, Oak Ridge, etc. This work experience must advance the student's knowledge of computing.

Credits 1-4

Prerequisites

overall GPA 2.75, consent of department chair

Semester Offered

[Offered on a credit/fail basis](#)

Notes

May be repeated with a different firm or agency for a maximum of 8 credit hours. Complete guidelines for a computer science internship may be obtained from the department chair.

CS 464 : Internship in Computer Science

Work experience in the computer environment of a business, financial institution, government agency, or National Laboratory, such as Argonne, Oak Ridge, etc. This work experience must advance the student's knowledge of computing.

Credits 1-4

Prerequisites

overall GPA 2.75, consent of department chair

Semester Offered

[Offered on a credit/fail basis](#)

Notes

May be repeated with a different firm or agency for a maximum of 8 credit hours. Complete guidelines for a computer science internship may be obtained from the department chair.

CS 465 : Independent Research in Computer Science

Independent research to be arranged with a computer science faculty member with the approval of the department. A plan of study must be written before approval will be given.

Credits 1-4

Prerequisites

consent of the instructor

CS 466 : Independent Research in Computer Science

Independent research to be arranged with a computer science faculty member with the approval of the department. A plan of study must be written before approval will be given.

Credits 1-4

Prerequisites

consent of the instructor

CS 485 : Senior Seminar

Senior capstone course for majors in Computer Science. Topics include software design and research. Students design and implement a large software project, write a research paper, and make a presentation to the class. Also, all students take a Major Field Achievement test.

Credits 4

Prerequisites

[CS 260](#) and last spring semester as a major in Computer Science

Semester Offered

[Offered spring semesters](#)

CS 497 : Special Topics

Advanced topics in Computer Science Designed to make available topics not available in the regular curriculum, such as Systems Software Programming, Parallel Computing, and Numerical Analysis.

Credits 1-4

Prerequisites

consent of the instructor

CS 498 : Special Topics

Advanced topics in Computer Science Designed to make available topics not available in the regular curriculum, such as Systems Software Programming, Parallel Computing, and Numerical Analysis.

Credits 1-4

Prerequisites

consent of the instructor

Criminal Justice

Professor Kelly A. Dagan

Assistant Professor Jericho McElroy

Assistant Professor Jaclyn Tabor

Assistant Professor David Walter

Instructor Angela Gonzales Balfe

The Criminal Justice Major at Illinois College is housed in the Department of Sociology and is rooted in the liberal arts and the sociological perspective. At Illinois College, a major in Criminal Justice is dedicated to developing students' knowledge of the breadth, depth, and complexities of the criminal justice system. Through our courses, experiential learning, and faculty advising, 1) we ask students to examine the impact of larger cultural values and social dynamics on the operation of this social institution, paying particular attention to issues of stratification, and 2) we prepare students to pursue various criminal justice careers. In addition, we encourage students to recognize the ways in which various academic disciplines usefully illuminate issues in criminal justice.

Students must earn a 'C-' or better in each course to be counted toward the major or minor. Courses in the Criminal Justice major can share only three courses with a Sociology major. Courses in the Criminal Justice minor can share one course with a Sociology minor.

Note: CJ 160 is a prerequisite for CJ 210 and CJ 215. CJ 160 or SO 101 is a prerequisite for SO 260, SO 286, SO 341, SO 343, and SO 344. Status as a sophomore or above is a prerequisite for CJ 220, CJ 310, and PO 379.

Gender and Women's Studies Certificate in Criminal Justice

Certificate

Students may complete coursework and an experiential learning component that focuses on the role of gender in their primary area of study of Biology, Criminal Justice, or Health Sciences. Students who wish to pursue the certificate should contact the Gender and Women's Studies coordinator and consult with the instructor in the course from their field of study. The following is required:

Two of the following courses:

Item #	Title	Credits
GW 101	Introduction to Gender and Women's Studies	4.0
GW 102	Introduction to Gender and Men's Studies	4.0
GW 110	Gender and Social Justice	4.0

Choose one of the following:

Students must complete the prerequisite course(s) to enroll in either course. Students would choose a gender-related topic for the final paper.

Item #	Title	Credits
SO 341	Criminology	4.0
SO 344	Juvenile Delinquency	4.0

Internship or Research Experience

An internship or research experience (2-4 credits) that allows students to gain experience in their discipline, with the academic component having students apply Gender Studies' texts, topics, and theories to their practical work.

Total Credits	14-16
----------------------	--------------

Criminal Justice

Major

A major in Criminal Justice consists of a minimum of 44 required semester hours, 36 required hours and 8 hours of electives. These hours are as follows:

Mandatory Sociology Department Courses

Item #	Title	Credits
CJ 160	Introduction to Criminal Justice	4.0
CJ 201	Criminal Justice Administration and Leadership	4.0
CJ 210	Issues in Policing	4.0
CJ 310	Criminal Law and Procedure	4.0
SO 286	Introduction to Social Science Methods	4.0
SO 341	Criminology	4.0
SO 343	Prisons and Institutions of Social Control	4.0
SO 384	Data Collection and Analysis	4.0

Mandatory Interdisciplinary Course

Item #	Title	Credits
PO 379	Constitutional Law	4.0

Electives

One elective diversity course from the following list:

Item #	Title	Credits
SO 202	Race and Ethnicity	4.0
SO 206	Social Stratification	4.0
SO 207	Gender and Sexuality	4.0

One elective course from the following list (or another course approved by the Department Chair):

Item #	Title	Credits
CO 226	Intercultural Communication	4.0
CJ 215	Criminal Investigations	4.0
CJ 220	Victimology	4.0
CJ 463	Internship in Criminal Justice	1.0-4
CJ 464	Internship in Criminal Justice	1.0-4
IS 302	Summer Internship	1.0-4
SO 218	Social Problems	4.0
SO 260	Sociological Aspects of Deviance	4.0
SO 344	Juvenile Delinquency	4.0
Total Credits		44

Criminal Justice

Minor

A minor in Criminal Justice consists of a minimum of 20 hours and must include the following courses:

Mandatory Sociology Department Courses

Item #	Title	Credits
CJ 160	Introduction to Criminal Justice	4.0
CJ 210	Issues in Policing	4.0
SO 341	Criminology	4.0

Electives

One elective Sociology Department course from the following list:

Item #	Title	Credits
CJ 215	Criminal Investigations	4.0
CJ 220	Victimology	4.0
CJ 310	Criminal Law and Procedure	4.0
CJ 463	Internship in Criminal Justice	1.0-4
CJ 464	Internship in Criminal Justice	1.0-4
IS 302	Summer Internship	1.0-4
SO 286	Introduction to Social Science Methods	4.0
SO 343	Prisons and Institutions of Social Control	4.0
SO 384	Data Collection and Analysis	4.0

One elective diversity course from the following list:

Item #	Title	Credits
SO 202	Race and Ethnicity	4.0
SO 206	Social Stratification	4.0
SO 207	Gender and Sexuality	4.0
Total Credits		20

Criminal Justice Course Descriptions

CJ 160 : Introduction to Criminal Justice

An introduction to the evolution of the system of criminal justice in the United States; differing approaches to law enforcement, the process of criminal justice from intake to dismissal through its main agencies: police, courts, corrections, probation, and parole. Current ethical issues, experiments, and reforms in criminal justice, as well as planning for a career in criminal justice are covered.

Credits 4

CJ 201 : Criminal Justice Administration and Leadership

This course is designed to provide the student with a solid foundation in understanding criminal justice agencies. It will provide the student with the tools and knowledge they will need in order to build an understanding of what, how, and to what end management is conceived and implemented in criminal justice agencies. In doing so, this course will present a general descriptive and theoretical overview of agencies and their components (structures, processes, and behaviors). The readings and discussions will focus primarily on equipping students with the skills, knowledge, and solid understanding they need to effectively deal with the challenges they will face in their own criminal justice careers. Key topics as civil liability, political power, ethics and budgeting will be covered.

Credits 4

CJ 210 : Issues in Policing

Study and practice of policing in a free society. Included are crime prevention and detection, patrol tactics, criminal and traffic enforcement, accident investigation, arrest and apprehension procedures, trial court testimony, and an emphasis on ethical issues in police work. This course is designed to give the student an understanding of the importance that each of the above components have on the success of a police agency.

Credits 4

CJ 215 : Criminal Investigations

This course design is to introduce students to the unique aspects of criminal investigations. Students will explore the investigative theory, the collection and preservation of evidence, concepts of interviewing and interrogation, the use of forensic sciences, and trial preparation. The course focus is investigative techniques employed, howto gather information, and applying legal concepts to solving crime. The course will examine concepts and methods of investigation of major index crimes.

Credits 4

CJ 220 : Victimology

This course focuses upon crime and the justice system from the victims' perspective. Students will study and gain an understanding of the legal, social, psychological, and economic perspectives, approaches, and consequences of victimization from an individual, institutional, and legal point of view. The course will examine the levels, dynamics, and major correlates and consequences of primary and secondary criminal victimization, and the appropriateness of a variety of formal and informal responses aimed at preventing and/or remedying them. Emphasis throughout the course will be upon developing students' skill at systematically clarifying the definition of those problems and proposed or existing responses as well as understanding and applying criteria and methods by which alternative responses might be evaluated.

Credits 4

Prerequisites

sophomore standing or above

CJ 310 : Criminal Law and Procedure

This course introduces students to substantive criminal law and criminal procedure. Students will develop skills in legal analysis and learn the elements and defenses associated with criminal offenses. The course examines criminal statute, the common law, legal terminology, defenses, court procedures, the trial process, evidence, sentencing, appeal, probation, jail, prison, parole, civil commitment, and current events. Extensive reading, analysis, classroom participation, and writing is required.

Credits 4

Prerequisites

sophomore standing or above

CJ 461 : Independent Study Criminal Justice

Credits 1-4

CJ 462 : Independent Study Criminal Justice

Credits 1-4

CJ 463 : Internship in Criminal Justice

Credits 1-4

CJ 464 : Internship in Criminal Justice

Credits 1-4

Economics

Professor Kevin C. Klein

Assistant Professor Marilyn Markel

Instructor T. J. Devine

The courses in this discipline are intended to give an understanding of the nature, operation, and problems of the economy and modern business. They are designed to meet the needs of all students desiring a broader understanding of the economic aspects of their surroundings as well as for students planning careers in many aspects of business. The offerings of the discipline also provide pre-professional training leading to graduate study in economics, finance, management, public administration and law.

Each major in the Business Department will require a minimum of 24 additional hours of new content.

Each minor in the Business Department will require a minimum of 16 additional hours of new content.

Economics

Major

In addition to completing an economics major, students are encouraged to complete a double major or minor in related areas.

Required Courses

Item #	Title	Credits
EC 105	Principles of Economics	4.0
	EC 245 or MA 123	4
EC 255	Quantitative Methods in Economics	4.0
EC 312	Intermediate Microeconomics	4.0
EC 318	Intermediate Macroeconomics	4.0
	EC 463/464 or IC 421	2
EC 485	Senior Seminar	4.0

Four courses chosen from the following:

Item #	Title	Credits
EC 265	Economics of Entrepreneurship	4.0
EC 319	Game Theory	4.0
EC 331	Agricultural Economics	4.0
EC 342	Public Finance	4.0
EC 344	Development Economics	4.0
EC 372	Environmental Economics	4.0
	Total Credits	42

EC 245 or MA 123

Elective Credits 4

Item #	Title	Credits
EC 245	Statistics	4.0
MA 123	Elementary Statistics	4.0

EC 463/464 or IC 421

Elective Credits 2

Item #	Title	Credits
EC 463	Internship in Economics	1.0-4
EC 464	Internship in Economics	1.0-4
IC 421	Graduate READY: Career Strategies	2.0

Economics

Minor

Required Courses

Item #	Title	Credits
	EC 245 or MA 123	4
EC 105	Principles of Economics	4.0

Three Courses chosen from the following:

Item #	Title	Credits
EC 265	Economics of Entrepreneurship	4.0
EC 312	Intermediate Microeconomics	4.0
EC 318	Intermediate Macroeconomics	4.0
EC 319	Game Theory	4.0
EC 331	Agricultural Economics	4.0
EC 342	Public Finance	4.0
EC 344	Development Economics	4.0
EC 372	Environmental Economics	4.0
	Total Credits	20

EC 245 or MA 123

Elective Credits 4

Item #	Title	Credits
EC 245	Statistics	4.0
MA 123	Elementary Statistics	4.0

Entrepreneurship

Minor

Many students who have primary majors other than Accounting, Economics, Finance, or Business will enter their professional careers working with for-profit and non-profit organizations. In addition, many students may find their career paths leading toward Entrepreneurship as they begin their own business in many of the areas traditionally served by the liberal arts majors. Specifically, academic areas such as Art, Theatre, Music, English, Pre-med, Pre-law, Pre-vet, and others would potentially benefit from this minor because students majoring in these disciplines are likely to begin their own business or practice.

This minor is designed for all students wanting to explore creative problem solving within for-profit and non-profit organizations. (This minor is NOT open to Accounting, Agribusiness Management, Business Administration, Economics, Finance, Human Resource Management, Management, Marketing, or Sports Management majors.)

Required Courses

Item #	Title	Credits
EC 105	Principles of Economics	4.0
AC 231	Principles of Accounting	4.0
EC 265	Economics of Entrepreneurship	4.0
	FI 352 or MG 354 or MG 359 or MG 364	4

Electives

Item #	Title	Credits
	One approved elective course in Accounting, Economics, Finance, or Management	4
Total Credits		20

FI 352 or MG 354 or MG 359 or MG 364

Elective Credits 4

Item #	Title	Credits
FI 352	Financial Management (Corporate Finance)	4.0
MG 354	Marketing	4.0
MG 359	Human Resource Management	4.0
MG 364	Management	4.0

One approved elective course in Accounting, Economics, Finance, or Management

Elective Credits 4

This may include an approved internship.

Economics Course Descriptions

EC 105 : Principles of Economics

This course is a one-semester combination of both micro- and macro-economics. In this course, students are introduced to analysis of supply and demand, national income theory, the banking system, fiscal and monetary policy and the corresponding usage for economic stabilization, theory of the consumer, theory of the firm, and other selected microeconomic topics.

Credits 4

EC 245 : Statistics

An introduction to the use of statistics. Topics include summary statistics, introduction to probability estimation, hypothesis testing, regression analysis, time series and non-parametric statistics.

Credits 4

Prerequisites

[EC 105](#) or equivalent

EC 255 : Quantitative Methods in Economics

Fundamentals of business calculus paired with linear statistical modeling. Topics will include differentiation, integration, constrained optimization, multiple regression analysis, OLS, multicollinearity, and heteroskedasticity.

Credits 4

Prerequisites

[EC 245](#) or [MA 123](#)

EC 265 : Economics of Entrepreneurship

This course will apply insights from economic theory to the practice of starting a new business or expanding a current business. The course will combine elements of strategy, marketing, and entrepreneurial finance courses as typically faced by all businesses. Local entrepreneurs will provide guest lectures on their entrepreneurial experiences and advice. Open to all majors. Will count as an elective in the economics major.

Credits 4

EC 312 : Intermediate Microeconomics

Theories of consumer behavior, business firms, pricing in different market structures, input markets and welfare economics are discussed at the intermediate level.

Credits 4

Prerequisites

[EC 105](#) or equivalent

EC 318 : Intermediate Macroeconomics

Theories of national income determination, price level and economic growth and their application to public policy.

Credits 4

Prerequisites

[EC 105](#) or equivalent

EC 319 : Game Theory

An introduction to game theory and how it can be applied in many different situations in economics, politics, law, and in everyday personal interactions. At the end of the course, students will be able to analyze and solve sophisticated games.

Credits 4

Prerequisites

[EC 105](#) or consent of the instructor

EC 331 : Agricultural Economics

An introduction to the principles of economics including production principles; production costs, supply and revenue; profit maximization; consumption and demand; price elasticity; market price determination; and competitive versus noncompetitive market models. These principles are applied to agriculture and the role of agriculture in the United States and world economies. Other topics include a survey of the world food situation; natural, human and capital resources; commodity product marketing; and agricultural problems and policies.

Credits 4

Prerequisites

[EC 105](#) or equivalent

Notes

(See [AG 331](#).)

EC 342 : Public Finance

Institutions and theories of government finance. The nature and economic effects of present and proposed tax policies, fiscal and debt management policies and government spending.

Credits 4

Prerequisites

[EC 105](#) or equivalent

Notes

(See [PO 342](#).)

EC 344 : Development Economics

This course is an introduction to the theory of economic development. Why have some parts of the world developed economically while other parts of the world have remained underdeveloped? The purpose of this class is to develop a deeper understanding of the social, political, and economic conditions necessary to promote economic development.

Credits 4

EC 372 : Environmental Economics

A theoretical analysis of environmental pollution generation and of suggestions for corrective policies. Emphasis is on resource allocation and the welfare and income distributional implications of public policy decisions.

Credits 4

Prerequisites

105 or equivalent

EC 461 : Independent Study in Economics

An individual reading or project course for advanced qualified students under the direction of a member of the department, on a subject mutually satisfactory to student and instructor. May be repeated with different subject matter for a maximum of 6 hours.

Credits 1-4

Prerequisites

consent of the department chair

EC 462 : Independent Study in Economics

An individual reading or project course for advanced qualified students under the direction of a member of the department, on a subject mutually satisfactory to student and instructor. May be repeated with different subject matter for a maximum of 6 hours.

Credits 1-4

Prerequisites

consent of the department chair

EC 463 : Internship in Economics

A practical application of theoretical skills in actual job-related situations. May be repeated for a maximum of 6 hours. Open to junior and senior majors

Credits 1-4

Prerequisites

consent of the department chair

EC 464 : Internship in Economics

A practical application of theoretical skills in actual job-related situations. May be repeated for a maximum of 6 hours. Open to junior and senior majors

Credits 1-4

Prerequisites

consent of the department chair

EC 465 : Independent Research in Economics

Credits 1-4

EC 466 : Independent Research in Economics

Credits 1-4

EC 485 : Senior Seminar

Seminar devoted to special topics of themes, with individual research by participants. This seminar is designed to make connections between overarching themes in the various journal of Economic Literature (QEL) subject classifications. This is a required senior experience and is open only to economics majors.

Credits 4

Education

Professor Todd D. Oberg

Assistant Professor Penny Haase Wittler

Assistant Professor Jaime Klein – Director of Teacher Preparation

Instructor Suzanne Kell

Instructor Eric McClarey

Part-time Assistant Professor Jennifer Tygret

Part-time Instructor Kristine Bingham

Part-time Instructor Monica Dixon

Part-time Instructor Bridget English

Part-time Instructor Janean Mays

Part-time Instructor Erin Tighe

Students wishing to become teachers take courses in the Department of Education along with courses in the content area(s) in which they plan to teach. Most education courses include an experiential learning component so that students have many opportunities to work with K-12 students in order to become excellent teachers. Students interested in earning a teaching license should contact the Department of Education as soon as possible to construct a four-year plan.

Anyone interested in entering the Teacher Preparation Program should register for ED 101 during their first year or as soon as possible thereafter. This course will introduce prospective candidates to the requirements for entering and completing a licensure program and to the dispositions, skills, and competencies necessary for successful completion of an Illinois College teaching licensure program. ED 289 should be taken in the second semester of the sophomore year and includes application into the Teacher Preparation Program.

All courses that count toward teaching licensure must be completed with a grade of "C" (2.0) or above. A GPA of 2.75 or better must be earned to be admitted into the Teacher Preparation Program and must be retained throughout completion of the program.

Licensure of Non-Traditional Students

Anyone who already holds a bachelor's degree and wishes to earn a teaching license should consult the Director of Teacher Preparation to devise an individualized program that takes into account their coursework and real-world experience.

Candidates Seeking Additional Teaching License Endorsement

After earning their initial teaching license, any educator may add subsequent endorsements in other content areas or grade bands. Most subsequent teaching endorsements require 18 credit hours in the specific subject area, along with passing the applicable content area test. Some endorsements require a specific distribution of coursework, including particular teaching methods courses. All candidates seeking to add additional content area or grade band endorsements should speak with Illinois College's Licensure Officer.

Online Reading Teacher Endorsement

The PK-12 Reading Teacher Endorsement is designed to be added to an existing Professional Educator License (PEL) at any level. Reading teachers are generally responsible for working with students who would benefit from additional reading instruction and assessing students to determine their reading needs and strengths. These professionals collaborate with reading specialists and other professionals to improve instruction and to modify the physical and social environments as needed to meet the needs of all readers.

Online English as a Second Language Endorsement

This endorsement is in the process of being developed. Please refer to the website for the most up to date information.

Education Major Courses and Professional Education Courses

Students enrolled in education courses should expect additional costs due to professional memberships, licensure requirements, and/or transportation.

Education with Agricultural Education (5-12)

Major

Required Courses

Item #	Title	Credits
ED 101	Introduction to Education	3.0
ED 203	Multicultural Issues and Social Justice in Education	3.0
ED 289	Foundations of Curriculum, Instruction, and Assessment	3.0
ED 324	Teaching Science in the Middle and Secondary Schools	3.0
ED 335	Disciplinary Literacy in the Content Areas	3.0
ED 385	Creating and Managing Classroom Environments	3.0
ED 389	Advanced Curriculum, Instruction, and Assessment	3.0

Additional Requirements

Ag Ed licensure requires specific content area specific courses in Agriculture, Business Management and Sciences. Students should work closely with their advisor in the Education Department to ensure all requirements are fulfilled.

Item #	Title	Credits
	Additional Requirements for Teaching Licensure	
	Total Credits	21

Additional Requirements for Teaching Licensure

The following courses are not part of the education major but are required for licensure: PS 275 is required for Elementary Education. PS 312 is required for K-12 Physical Education, Foreign Language – Spanish, Middle Grades licensure in Math, Language Arts, Science, Social Science, and Secondary Math licensure, and strongly recommended for all other secondary licensure programs. ED 431, 432, 433, and 434 comprise the Student Teaching semester courses and are required for licensure in all programs.

Education with Elementary Licensure

Major

Students wishing to earn a teaching license in one of our State of Illinois approved programs and/ or major in Education must complete the following concentrations. ED 434 in the student teaching semester serves as the capstone for the education major. Anyone completing the education major without licensure will be required to complete an alternate capstone.

Elementary Licensure requires specific content area coursework in disciplines outside of the Education Department. Students should consult the Education Department for the current list of these courses. Many of these courses fulfill the BLUEprint general education requirements.

Required Courses

Item #	Title	Credits
ED 101	Introduction to Education	3.0
ED 203	Multicultural Issues and Social Justice in Education	3.0
ED 217	Teaching Health and Physical Movement in the Elementary Schools	2.0

Education

Minor

A minor in Education consists of a minimum of 18 credit hours, with a grade of “C” or better in each course, from the following list of courses.

Required Courses

Item #	Title	Credits
ED 101	Introduction to Education	3.0
ED 203	Multicultural Issues and Social Justice in Education	3.0
ED 289	Foundations of Curriculum, Instruction, and Assessment	3.0

Elective:

Students are required to take at least one additional 200- or 300-level approved elective (from areas such as, but not limited to, ED, KI, MG, PS, or SO). The elective course should be chosen in consultation with the Education Department and is intended to best serve the individual student and their professional interests.

Total Credits

18

History Teaching Licensure

Teaching Licensure

History students interested in earning a teaching license should plan to double major in history and education and student teach their final semester. These students should enroll in ED 101 their first semester or as soon as possible thereafter and work closely with their advisors in both departments to ensure all State of Illinois requirements for licensure are met.

Education Course Descriptions

ED 4xx : Linguistics for ESL Learners

This course will examine and analyze the fundamental concepts of linguistics and connect this information to routine work in the ESL classroom. Students will study linguistics including phonology, orthography, morphology, and syntax, as well as the implications of all of these topics for teaching all students, including ESL learners. Over the course of the semester, students will be provided with readings, videos, and podcasts that complement the information in the textbook, and assists students in developing a solid understanding of the intricacies of studying and teaching language. Through engagement in online whole-class discussions, group, and individual assignments, students will be able to use their understanding of essential linguistic principles to inform instruction and assessment at all levels. This course will include a 15-hour ESL Practicum.

Credits 4

Notes

(Pending approval)

ED 4xx : Assessment and Evaluation in ESL Education

This course will focus on the assessment of ESL learners with an emphasis on alternative assessments. The course will examine key concepts and issues of assessment, principles of language assessment including reliability, validity, authenticity, etc.; different purposes of assessment such as English learner identification, placement, diagnostic, and reclassification; different types of assessment (standards-based assessment, classroom-based assessment, standardized testing including norm-referenced and criterion-referenced standardized testing, alternative assessment such as dynamic assessment); steps in designing classroom-based or standardized language assessments; assessment of oral language (listening, speaking) and literacy (reading, writing), and language of content areas; use of technology in assessment; assessment of special populations such as young dual language learners and children with learning disabilities, analysis, interpretation, and reporting of assessment results. This course will include a 30-hour ESL Practicum.

Credits 4

Prerequisites

ED 4** - Theoretical Foundations: Second Language Acquisition

Notes

(Pending approval)

ED 4xx : Second Language Methodology and Materials

This course will provide methodologies and techniques for teaching ESL learners, evaluation of ESL materials for various levels and instructional goals. This course will discuss second language methodology theoretical bases, approaches, strategies, materials, and techniques needed for effective teaching in ESL classrooms. Students will explore different pedagogical issues that relate to various ESL teaching strategies. They will have the opportunity to understand how language learning impacts content area learning and vice versa. Students will also have opportunities to reflect on teaching practices and how they impact ESL learners. Accordingly, students will learn to develop lessons and materials to put ESL theory and methods into practice, tailored to meet the needs of individual English language learners. This course will include a 30-hour ESL Practicum.

Credits 4

Prerequisites

[ED 4**](#) - Theoretical Foundations: Second Language Acquisition. Students are highly advised to have taken [ED 4**](#) - Linguistics for ESL Learners prior to this course

Notes

(Pending Approval)

ED 101 : Introduction to Education

This beginning level education course offers students philosophical, historical, and current views of teaching and education and encourages students to think more deeply about what teaching is, what teachers do, and whether teaching is an appropriate career choice for them. Through readings, class discussions, educational research, and field work in a K-12 classroom, students will reflect upon and articulate their own beliefs and values about teaching, learning, and schooling.

Credits 3

Prerequisites

No prerequisite

ED 203 : Multicultural Issues and Social Justice in Education

This course explores different cultural and identity issues (such as socioeconomic status, gender, language, religion, sexual orientation, race ethnicity, age, and exceptionalities), and examines their influence on the teaching in today's classrooms. Participants will examine and develop culturally appropriate and responsive teaching techniques and skills to differentiate instruction and support the academic and social achievement of students from multiple identity groups. Participants will also become aware of their own social identities and how those identities inform their personal values, beliefs, and norms.

Credits 3

Prerequisites

No prerequisite

ED 217 : Teaching Health and Physical Movement in the Elementary Schools

This course is designed to help the Elementary Education Teacher better understand and utilize brain research focusing on the relationship between movement and student's academic performance. Course content will emphasize the importance of health, dance and physical education and provide techniques to incorporate them within the elementary classroom.

Credits 2

ED 267 : Foundational Literacy

Reading research over the last 20 years has identified the critical skills that students must acquire very early in reading development to ensure success in the later years and that may need to be reinforced in later years. These skills are in the areas of phonemic awareness, phonics, fluency, vocabulary, and comprehension. The development of these skills is critical to getting a good start in reading and to flourishing in reading throughout the years. As a result, this course will lay the foundation in each of these five pillars of reading instruction so that teacher candidates understand the theory, research, and practice in order to empower themselves as true teachers of reading to children of all ages. Attention will be paid to foundational literacy as it occurs in multi-lingual households, in households where English is not spoken, and for children with special needs or talents. This course is part of the Elementary Education Program and should be completed prior to admission to the Teacher Preparation Program.

Credits 3

Prerequisites

No prerequisite

ED 275 : Children's Literature

Analysis of the scope and nature of literature written specifically for children.

Credits 3

ED 276 : Geography through Literature

This course provides an introductory overview of physical geography across regions. The academic discipline of geography features a rich heritage of investigating the relationship between people and the natural environment. Students will learn how geographers study the physical environment and the interconnected linkages between physical and human systems. Through gaining a deeper understanding of the physical processes that influence our planet, students will recognize how and why physical and human phenomena vary from place to place.

Credits 3

Prerequisites

No prerequisites

ED 289 : Foundations of Curriculum, Instruction, and Assessment

This course is part one of two courses in Curriculum, Instruction, and Assessment. Through both college classroom and field-based experiences, teacher candidates will begin looking at and practicing planning quality instruction by: a) setting strong, challenging, but achievable objectives based on Common Core standards and other state standards b) choosing, developing, and using teaching activities that are engaging, relevant, and designed to help the student successfully meet the intended objective; c) using assessment for learning that guides instruction for all students, and d) exploring the ideas of curriculum and instructional design, as well as research based best practice. At the end of this course, students will apply for admission to the teacher preparation program which is required for most 300-level education coursework.

Credits 3

Prerequisites

[ED 101](#) or permission of instructor

ED 305 : Teaching Diverse Learner

This course addresses two primary goals: 1) to examine and develop the skills regarding instruction, assessment, and adaptations necessary to teach diverse learners. 2) to learn what important issues are most relevant to instruction of diverse learners and how best to acquire proficiency in those areas. To this end, the course focuses on topics such as recent law and policy changes, cultural issues relevant to immigration, the process of acquiring a second language and the impact of that process on students' academic and social well-being, definitions of second-language acquisition, language difference and disability, and accommodations and modifications for students with special education needs or those in the process of second-language acquisition. Additionally, the course will explore strategies to improve achievement of diverse learners in specific content areas.

Credits 3

Prerequisites

[ED 101](#) and [ED 203](#) or permission of instructor

ED 320 : Teaching K-12 Foreign Language

This course is generally met through participation in the Tandem Education Semester in Madrid, Spain, where teacher candidates will take the "Teaching Methodology for Teachers of Spanish and Bilingual Educators" course, along with appropriate Spanish language courses.

Credits 3

ED 322 : Teaching English in the Middle and Secondary Schools

This course is a study of the specific skills and techniques utilized by middle grades and secondary teachers of English.

Credits 3

Prerequisites

admission to the Program

ED 323 : Teaching Mathematics in the Middle and Secondary Schools

This course is a study of the specific skills and techniques utilized by both junior high and senior high school teachers of mathematics.

Credits 3

Prerequisites

admission to the Program

ED 324 : Teaching Science in the Middle and Secondary Schools

This course is a study of the specific skills and techniques utilized by middle grades and secondary teachers of science.

Credits 3

Prerequisites

admission to the Program

ED 325 : Teaching Social Science in the Middle and Secondary Schools

This course explores the specific skills and techniques utilized by middle grades and secondary teachers of social studies.

Credits 3

Prerequisites

admission to the Program

ED 326 : Teaching K-12 Physical Education

This course explores the specific skills and techniques utilized by K-12 teachers of physical education.

Credits 3

Prerequisites

admission to the Program

ED 330 : Teaching Language Arts and Literacy in the Elementary Schools

In this literacy course, prospective educators acquire necessary skills for teaching English Language Arts at the elementary level. Emphasis is placed on the interrelatedness of reading, writing, speaking, and listening as guided by our Common Core State Standards. This methods course integrates models such as co-teaching for differentiation of skill levels within the literacy classroom. This course includes assignments on lesson planning, utilizing assessment in order to drive instruction, and reflecting upon instructor efficacy.

Credits 3

Prerequisites

[ED 267](#) and admission to the Program

ED 335 : Disciplinary Literacy in the Content Areas

A study of the disciplinary literacy with an emphasis on understanding the academic language of subject matter across the curriculum. Teacher candidates will study the interrelatedness of reading, writing, speaking and listening, and will develop the ability to use these processes to help students learn subject matter in different content areas. Candidates will explore effective ways of creating active learning environments and strategies to support learning in knowing how, when, and why to use all modes of language to learn with texts. This course is part of the Secondary and K-12 Education Programs.

Credits 3

Prerequisites

[ED 101](#) or permission of instructor

ED 340 : Teaching Social Science in the Elementary Schools

This course explores various theories and practices designed to teach social science to diverse learners in the elementary classroom in general and specifically through disciplinary literacy. Students will learn to create engaging instruction, encompassing the five strands of social science, by utilizing practices and resources such as case studies and primary sources while implementing Common Core standards. Special focus will be placed on using technology to enhance learning in the social sciences.

Credits 3

Prerequisites

admission to the Program

ED 342 : Teaching Science in the Elementary Schools

A study of current theory, research, and best practices in the learning and teaching of science for all elementary school children, with a focus on student-centered inquiry and science and engineering practices. The course includes unit and lesson planning, assessment, task selection, design, and evaluation.

Credits 3

Prerequisites

admission to the Program

ED 343 : Teaching Math in the Elementary Schools

This course is a study of the specific theories, practices and resources utilized by elementary school teachers to create effective and engaging learning environments for the study of mathematics. A particular focus will be on the Common Core State Standards, the eight Mathematical Practices, use of literacy and meeting the mathematical needs of English Language Learners. Candidates will learn to write lesson and unit plans, to analyze student work, to provide effective feedback and to use technology to enhance learning.

Credits 3

Prerequisites

[MA 128](#) and admission to the Program

ED 360 : Teaching Disciplinary Literacy

In this literacy course, prospective educators acquire necessary skills for helping students successfully navigate through texts with strategies that apply to many content areas. Emphasis is placed on the interrelatedness of reading, writing, talking, and listening and the ability to use generalized processes to learn subject matter across the curriculum. Candidates will explore effective ways to create active learning environments in which learners know how, when, and why to use all modes of language to learn with texts. This course is part of the Elementary Education Program.

Credits 3

Prerequisites

admission to the program

ED 366 : Teaching Math in the Middle Grades

This course is a study of the specific theories, practices, and resources utilized by middle grade teachers to create effective and engaging learning environments for the study of mathematics. A particular focus will be on the IL Learning Standards (Common Core State Standards), the eight Mathematical Practices, use of literacy and academic language, and meeting the mathematical needs of diverse adolescent learners. Candidates will learn about the ideal middle school, to write (integrated) lesson and unit plans, to analyze student work, to provide effective feedback, and to use technology to enhance learning.

Credits 3

Prerequisites

admission to the Program

ED 385 : Creating and Managing Classroom Environments

This course will explore research, theory, and best practices related to effective classroom management. Topics will include establishing an environment for learning, organizing and managing instruction, coping with the challenges, and developing relationships with students, staff, and parents. This course includes an off-campus field experience in a classroom for 36-50 clock hours.

Credits 3

Prerequisites

admission to the Program

ED 389 : Advanced Curriculum, Instruction, and Assessment

This course is an advanced course in Curriculum, Instruction, and Assessment focusing most specifically on curriculum and the application of assessment. In the context of their field placement, students will complete a full cycle of assessment, including formative assessment, summative assessment and feedback. Students will devise a variety of assessments in their teaching area.

Credits 3

Prerequisites

admission to the Program and [ED 289](#)

ED 431 : Organizing Content Knowledge for Student Learning

This student teaching course focuses on how teachers use their understanding of the community, the school, the students and subject matter to decide on learning goals, to design or select appropriate activities and instructional materials, to sequence instruction in ways that will help students to meet short- and long-term goals, and to design or select informative evaluation strategies.

Credits 4

Prerequisites

admission to Student Teaching

ED 432 : Creating a Classroom Environment for Student Learning

This student teaching course addresses issues of fairness and rapport, of helping students to believe that they can learn and can meet challenges and the issues of establishing and maintaining constructive standards for behavior in the classroom. It enables candidates to consider all environmental factors that impact student learning, ranging from the physical setting to the subgroups and learning needs of individual students.

Credits 4

Prerequisites

admission to Student Teaching

ED 433 : Teaching for Student Learning

This student teaching course focuses on the act of teaching and its overall goal: helping students to learn. Candidates are expected to make learning goals and instructional procedures clear to students, encourage students to extend their thinking, monitor students' understanding of content through various forms of assessments, design and implement effective instruction, and use time effectively.

Credits 4

Prerequisites

admission to Student Teaching

ED 434 : Teacher Professionalism

In this student teaching course, candidates are assessed on their abilities to reflect on and analyze the extent to which learning goals were met, their demonstration of a sense of efficacy, their professional relationships with colleagues, their communication with parents, and their ability to develop plans for self-improvement. Participation in weekly seminars augments these skills. This student teaching course serves as the Senior Capstone for education majors seeking licensure.

Credits 4

Prerequisites

admission to Student Teaching

ED 441 : Problems and Solutions in Education

This course serves as an alternative Senior Capstone for education majors who choose not to seek licensure, and therefore choose not to complete student teaching. In the course, students develop a proposal to address a problem in education.

Credits 4

ED 451 : Theoretical Foundations: Second Language Acquisition

This course will give students of all levels an understanding of the main linguistic theories; first and second acquisition; cognitive, affective, and cultural factors in teaching ESL learners. This course will discuss how theoretical foundations of second language acquisition can be applied to their work in the ESL classroom. Major discussion topics in this course include language acquisition theories, language policy, models of ESL education, as well as information regarding the teaching of academic language to native English speakers and English language learners. This course will include a 10-hour ESL Practicum.

Credits 4

ED 454 : Culturally and Linguistically Responsive Teaching in ESL Classroom

This course prepares ESL teacher candidates to engage in culturally and linguistically responsive research-based practices to support diverse learners in PreK-12 classrooms. This course examines the relationships between language, culture, and cultural awareness in the learning and teaching of ESL. This course also explores many ways in which school teachers may build the capacities for cultural and linguistic diversity in the classroom. Emphasizes readiness for mutually accommodative professional practices with culturally and linguistically diverse learners and families. This course includes a 15-hour ESL Practicum

Credits 4

ED 461 : Independent Study in Education

This course is an independent study in the field of education, as approved by the Department of Education chair.

Credits 1-4

ED 462 : Independent Study in Education

This course is an independent study in the field of education, as approved by the Department of Education chair.

Credits 1-4

ED 463 : Internship in Education

This course is an internship in the field of education, as approved by the Department of Education chair.

Credits 1-4

ED 464 : Internship in Education

This course is an internship in the field of education, as approved by the Department of Education chair.

Credits 1-4

ED 465 : Independent Research in Education

This course is independent research in the field of education, as approved by the Department of Education chair.

Credits 1-4

ED 466 : Independent Research in Education

This course is independent research in the field of education, as approved by the Department of Education chair.

Credits 1-4

ED 470 : Foundations in Reading

This course will lay the foundation in each of the five pillars of reading instruction (phonemic awareness, phonics, fluency, vocabulary and comprehension) so that teachers understand the theory, research, and practices needed to empower themselves as teachers of reading. Attention will be paid to foundational literacy development as it pertains to the needs of diverse learners. This course includes an 8-10-hour Reading Practicum.

Credits 4

ED 471 : Reading Skills and Strategies in the Content Area

In this course, students will acquire the necessary skills for helping students successfully navigate through texts with strategies that apply to many content areas. Specifically, students will learn about, develop, and apply teaching methods for reading, writing, speaking, and listening that are relevant to multiple content areas, including academic vocabulary common to various content areas. This course includes an 8-10-hour Reading Practicum.

Credits 4

ED 472 : Assessment and Diagnosis of Reading Problems

This course will introduce teachers to the various types and causes of reading difficulty. Teachers will learn how to administer and interpret literacy assessments and use other diagnostic techniques with diverse populations. The information teachers obtain will assist in their identification of students' areas of reading difficulty and guide their instructional recommendations. This course includes an 8-10-hour Reading Practicum.

Credits 4

Prerequisite Courses

[ED 470: Foundations in Reading](#)

ED 473 : Developmental and Remedial Instruction, Materials and Support

This course builds on knowledge gained in [ED 472](#) as students learn to use diagnostic information as a basis for planning remedial instruction in reading. Prospective and licensed teachers will be introduced to various practices, procedures and materials which are useful for remediation of reading problems. This course includes an 8-10-hour Reading Practicum.

Credits 4

Prerequisite Courses

[ED 472: Assessment and Diagnosis of Reading Problems](#)

ED 475 : Literature for Children and Adolescents

This course will examine the scope and nature of literature written specifically for children and adolescents. It will examine a variety of genres as well as include literature representing a range of diversities including ethnicities, culture, ability, gender, and sexual orientation. Emphasis will be on the identification, selection, and evaluation of high-quality literature as appropriate for children's developmental level and interest.

Credits 4

Notes

*Many Illinois licensed teachers will have completed these courses during their initial licensure program. Substitutions will be made as approved by the IC Education Department. Anyone transferring in the equivalent of any of these courses for fewer than 4 credits may add a practicum independent study in any fall or spring semester to get to a total of 20 credit hours.

Engineering

Associate Professor Jeffrey Chamberlain

Assistant Professor Josiah Kunz

The engineering program at Illinois College prepares students to serve and solve problems both locally and globally. Training in engineering is intense and rigorous. Students will improve academically via critical thinking, quantitative reasoning, laboratory practices, and design and analysis. Engineering students will also learn how to work collaboratively, provide documentation, analyze systems, and ethically reason. With this robust foundation, students will be prepared to go directly into industry or continue their education at a post-graduate institution.

Dual Degree Engineering

Dual Degree Program

Dual degree engineering is offered through cooperative agreements with larger universities. Other names for this type of program include pre-engineering programs and 3-2 engineering (reflects the number of years spent at each institution). Dual degree refers to the fact that the student will receive degrees from two institutions. Students typically spend three years at Illinois College taking courses in physics, math, computer science and chemistry along with courses in the humanities, social sciences, and arts. Two years are then spent at the partner university concentrating on a specific engineering discipline. Upon completion of the program, the student receives a Bachelor of Science degree in physics with engineering from Illinois College and a Bachelor of Science Engineering from the partner university.

Major Requirements:

Mathematics

Item #	Title	Credits
MA 213	Calculus I	4.0
MA 223	Calculus II	4.0
MA 233	Calculus III	4.0
MA 332	Introduction to Differential Equations	4.0

Physics

Item #	Title	Credits
PY 225	College Physics I	4.0
PY 226	College Physics II	4.0
	16 additional hours at the 300-level	16

Other Science

Item #	Title	Credits
	Three courses chosen from the major requirements from chemistry, biology, or computer science	12

Additional Requirements

The completion of the graduation application and degree audit with the Illinois College Office of the Registrar prior to leaving campus to attend the transfer institution

Prerequisites to these courses must be completed with a grade of 'C' or above. To be approved for graduation from Illinois College, the student must have:

- Senior standing (88 credit hours)
- The completion of a degree program in mechanical, civil, electrical, or a related discipline at an approved institution
- Fulfillment of the general education requirements for both Illinois College and the transfer institution

Note that a student who elects not to continue the dual degree program will need to complete all BLUEprint requirements for graduation from Illinois College. See [BLUEprint](#) for additional information. Faculty approval to be in a 3-2 program is given if a 2.75 average (on a 4.0 scale) is achieved in courses in Division II (Biology, Chemistry, Computer Science, Mathematics, and Physics). Students are strongly encouraged to work closely with their advisors to verify that the general education requirements of the engineering institution are also fulfilled by their Illinois College studies.

Since students participating in the 3-2 Program in Engineering receive degrees from both Illinois College and the college or university at which they complete their degree, these students need to fulfill the general education requirements of both. In acknowledgement of the curricular constraints posed by this situation, the following accommodations will be made. They will be allowed only for those students in the 3-2 Program in Engineering who successfully complete the engineering program at the institution to which they transfer.

1. Students in the 3-2 Program in Engineering whose level of language participation necessitates their enrollment in a world language course at the 101 level will have successfully completed the world language requirement upon completion of this course.
2. Since participants in the 3-2 Program in Engineering attend Illinois College for only three years, they are not required to have a senior capstone course or experience.
3. Students in the 3-2 Program in Engineering may count up to 3 courses required for their major in the Science and Society category. Two of these classes must be outside the discipline of the student's major.

Total Credits

52

16 additional hours at the 300-level

Elective Credits 16

Three courses chosen from the major requirements from chemistry, biology, or computer science

Elective Credits 12

Commonly, this is CH 110, CS 160, and CS 170

Item #	Title	Credits
CH 110	General Chemistry	4.0
CS 160	Introduction to Computer Science	4.0
CS 170	Introduction to Data Structures	4.0

Engineering Major

A major in engineering consists of 80 credit hours with a grade of 'C-' or better in the required majors courses. This may be achieved by taking the core engineering requirements along with a selected concentration. Moreover, students whose level of language participation necessitates their enrollment in a world language course at the 101 level will have successfully completed the world language requirement upon completion of this course.

Core Engineering Courses

Mathematics

Item #	Title	Credits
MA 123	Elementary Statistics	4.0
MA 213	Calculus I	4.0
MA 223	Calculus II	4.0
MA 332	Introduction to Differential Equations	4.0

Science

Item #	Title	Credits
CS 160	Introduction to Computer Science	4.0
PY 225	College Physics I	4.0
PY 226	College Physics II	4.0
PY 323	Thermodynamics	4.0

Engineering

Item #	Title	Credits
EG 2xx	Systems Engineering	2.0
EG 2xx	Engineering Ethics	2.0
EG 3xx	Computational Analysis	4.0
EG 3xx	Control Systems	4.0
EG 3xx	Materials Science	4.0
EG 3xx	Heat and Mass Transfer	4.0
EG 3xx	Heat and Mass Transfer	4.0
EG 4xx	Senior Seminar I	2.0
EG 4xx	Senior Seminar II	2.0

General Engineering Concentration

(20 additional hours)

Item #	Title	Credits
CH 110	General Chemistry	4.0
PY 301	Circuits	4.0
PY 321	Analytic Mechanics: Statics	4.0
PY 322	Analytic Mechanics: Dynamics	4.0
	Choose one of the following	4

Chemical Engineering Concentration

(20 additional hours)

Item #	Title	Credits
CH 110	General Chemistry	4.0
CH 203	Organic Chemistry I	4.0
CH 211	Quantitative Analysis	4.0
CH 231	Inorganic Chemistry	4.0
EG 2xx	Introduction to Chemical Engineering	4.0

Environmental Engineering Concentration

(20 additional hours)

Item #	Title	Credits
CH 110	General Chemistry	4.0
CH 211	Quantitative Analysis	4.0
EG 2xx	Soil Science	4.0
EG 2xx	Green Engineering	4.0
EG 3xx	Ecohydrology	4.0
Total Credits		60-80

Choose one of the following

Elective Credits 4

Item #	Title	Credits
EG 2xx	Introduction to Chemical Engineering	4.0
EG 2xx	Biomedical Engineering	4.0

Engineering Course Descriptions

EG 2xx : Systems Engineering

This course combines several aspects of other engineering courses with the end goal of developing a product. The grade assessment is a mixed project-based work and theoretical product development, including risk analysis, project planning, and economics.

Credits 2

Corequisites

any other EG 200+ level course

Notes

(Pending approval)

EG 2xx : Engineering Ethics

Studies highlighting ethical implications inherent in the decisions made by engineers as they design products ranging from automobiles, to healthcare devices, to software, to appliances. Subject matter contains theoretical aspects, demonstrative consequences, and case studies.

Credits 2

Notes

(Pending Approval)

EG 2xx : Green Engineering

Explorations in topics such as air quality, air pollutants, emissions, gas and particle treatment technologies, solid waste management (e.g., recycling, composting) and disposal (e.g., landfills), and hazardous waste treatment and disposal (e.g., radioactive waste).

Credits 4

Prerequisite Courses

[CH 110: General Chemistry](#)

Notes

(Pending Approval)

EG 2xx : Introduction to Chemical Engineering

This course provides an introduction to the fundamental principles and calculation techniques used in the field of chemical engineering. Topics include units, mass and energy balances, mass transfer, fluid dynamics, kinetics and reactor design, heat transfer, process control and economics. This course also provides an exposure of the various areas of current chemical engineering research. Students will gain a familiarity with the chemical engineering field, career options, and potential job functions through lectures and homework problems.

Credits 4

Prerequisites

'C' or better in [MA 133](#) or placement into a higher-level mathematics class

Notes

(Pending Approval)

EG 2xx : Biomedical Engineering

This course will introduce students to the following topics: human musculoskeletal and nervous systems, Biomechanics-Gait analysis, equipment (MRI, CT-scan, etc.), bioelectrical signals (e.g., ECG, EMG), transducers and sensors, rehabilitation engineering (amputation, prostheses, etc.), artificial implants (e.g., heart, eye, ear), and human ergonomics.

Credits 4

Prerequisites

BI107

Notes

(Pending approval)

EG 2xx : Soil Science

Students will learn about soil genesis, soil physical and chemical properties, biological relations to soil quality and production, soil cycles, and more.

Credits 4

Prerequisite Courses

[CH 110: General Chemistry](#)

Notes

(Pending Approval)

EG 3xx : Computational Analysis

Uses Python to analyze engineering problems. Includes: Pandas data analysis, advanced plotting with Matplotlib, and methods of solving differential equations (Euler method, Laplacian methods, or imported Runge-Kutta packages).

Credits 4

Prerequisites

[CS 160](#) or proficiency in a coding language

Notes

(Pending approval)

EG 3xx : Control Systems

This course introduces modeling and analysis of dynamic systems as an application of differential equations. This course also introduces classical control techniques in response to inputs.

Credits 4

Prerequisites

[MA 332](#)

Notes

(Pending approval)

EG 3xx : Materials Science

(See PY 304.)

Credits 4

EG 3xx : Ecohydrology

This course provides an introduction to the basics of hydrology, water conservation, and the reuse of wastewater, including physical processes (such as filtration), chemical processes (such as ion exchange), and biological processes (such as the use of lagoons).

Credits 4

Prerequisite Courses

[CH 110: General Chemistry](#)

Notes

(Pending approval)

EG 3xx : Heat and Mass Transfer

Introduction to advanced convection, conduction, and radiation models, as well as studies in mass transfer. Topics will be explored both analytically and computationally.

Credits 4

Corequisites

[EG 3xx](#) and [PY 323](#)

Notes

(Pending approval)

EG 3xx : Fluid Dynamics

Studies fluid flow, including conservation rules; integral and differential analysis methods; laminar and turbulent flow; and channel flow configurations.

Credits 4

Corequisites

[PY 323](#)

Notes

(Pending approval)

EG 4xx : Senior Seminar I

(See PY 411.)

Credits 2

EG 4xx : Senior Seminar II

(See PY 412.)

Credits 2

EG 4xx : FE Exam Preparatory Course

Prepares students to pass the fundamentals of engineering state licensure examination. This course is strongly encouraged for students going into industry.

Credits 1

Prerequisites

senior standing in engineering

Notes

(Pending approval)

English

Professor Beth W. Capo

Professor Nicholas P. Capo

Professor Catharine O'Connell

Associate Professor Cynthia A. Cochran

Associate Professor Lisa J. Udel

Assistant Professor Kara Dorris

Instructor Matthew Schultz

Why Should You Study English at Illinois College?

"A major strength is the diversity of experience in the faculty; someone was always able to help me. Post-graduate and job-search advice was very strategic and useful. (I still employ some of the tips and resources today!)" – Claire Brakel Packer, '08

OUR GLOBAL VISION. Our students and faculty come to the English Department because they love to read and write. We explore the literary output of humanity throughout its history, and we endeavor to add to it. We understand that the study and creation of literature allows us to learn not only about ourselves but also about people from our culture and other global cultures. Our faculty members invite our students, both in their thoughts and through their actions, to travel beyond the walls of our classrooms, and many students write for off-campus publications, volunteer at local organizations, or study abroad (most recently to England, Japan, Ecuador, Ireland, Argentina, and Spain).

OUR CURRICULUM. The English curriculum reflects our belief that students should explore many areas of literary activity but also should fully understand the professional possibilities opened to them by the English major and minor. In addition to concentrations in literature and writing, we have designed an editing and publishing concentration and a minor in professional writing. The department's English Studies course provides students with an overview of the profession and a concentrated exposure to the particular specializations of professors. The curriculum also includes a capstone senior-seminar course that allows students to complete a major, individualized research project. Of course, we want our graduates to be fully prepared for graduate study or employment in a career track, but we also want them to understand that a life without exposure to the beauty and pleasures of the written word truly is a life lived in quiet desperation. We believe in the centrality of literature within the world's civilizations. We are readers and writers, students and creators of literature, and this work enables us to live meaningful lives.

OUR FACULTY. Our faculty members possess deep knowledge of their specializations and enthusiasm regarding their privilege of sharing the world's literature with the next generation of English scholars and writers. These specializations range from the common and very important (American literature, British literature, multicultural literatures of the Americas, creative writing, rhetoric and composition) to the

unexpected but equally important (Japanese literature, the literature of war, speculative and popular fiction, film, nature and travel writing). Our faculty members have traveled the world, and several have lived and taught abroad.

OUR ALUMNI. Our alumni include professors, writers, lawyers, teachers, editors, librarians, scientists, content managers, marketing specialists, game designers, grant writers, artists, and police officers, and we are proud of the accomplishments of all of them. Within our department's hallways, students encounter lists of jobs our alumni currently hold and advanced degrees that they have earned. We maintain close contacts with many alumni who have experienced high levels of success in their chosen career paths, and many young alumni accept our invitations to return to campus to share their advice and perspectives with current students. A good number of alumni share the faculty's delight with travel and exploring the world, with some even gaining valuable global experience as Peace Corps participants, and they maintain the friendships with peers that they formed while studying at Illinois College.

English

Major

English majors choose to concentrate in literature, writing, or editing and publishing. Students who wish to pursue more than one concentration should meeting with the department chair. The major consists of a minimum of forty (40) semester hours of course work within the department with a grade point average of 'C' (2.0) or above, exclusive of EN 104: Writing Foundations or EN 121: Writing. All majors in English must complete satisfactorily the Senior Seminar, the department's capstone course.

Required Courses

Item #	Title	Credits
EN 201	English Studies	4.0
	Five literature courses at the 300-level	16
	Three electives (100/200-level literature courses or writing courses at any level)	12
EN 430	Senior Seminar	4.0

Of the literature courses, students must take:

(Courses can count in more than one category; see Department Chair with questions.)

Item #	Title	Credits
	One course focused on literature before 1900	4
	One course focused on literature post-1900	4
	One course focused on British Literature	4
	One course focused on American Literature	4
	One course with a global or multicultural focus	4

Major, with writing concentration

Ten courses, meeting these distribution requirements:

Item #	Title	Credits
EN 201	English Studies	4.0
	Three literature courses	12
EN 181	Introduction to Creative Writing	4.0
	EN 182, 208, or 281	4
	Two courses from EN 304, 305, or 309	8
	One additional 300-level writing course	4
EN 430	Senior Seminar	4.0

Major, with editing and publishing concentration

Ten courses with a focus on understanding quality, understanding publishing, and the capstone course:

Item #	Title	Credits
EN 201	English Studies	4.0
	Two 300-level literature courses	8
	200-level writing course	4
	300-level writing course	4
EN 280	Editing and the English Language	4.0
EN 380	Writing for Publication	4.0
AR 204	Visual Communication	4.0
	Publication Project or Editing Internship	4
EN 430	Senior Seminar	4.0
	Total Credits	40-80

Five literature courses at the 300-level

Elective Credits 16

(or 4 300-level lit and an internship [EN 463/464] or independent study [EN 461/462])

Three electives (100/200-level literature courses or writing courses at any level)

Elective Credits 12

One course focused on literature before 1900

Elective Credits 4

Item #	Title	Credits
EN 123	Monsters and Myth in the British Literary Tradition	4.0
EN 131	American Literature 17th-19th C.: Witch Hunts to the White City	4.0
EN 326	Studies in the Renaissance	4.0
EN 331	Mapping the English Novel	4.0
EN 342	Studies in the Global Long Eighteenth Century	
EN 351		
EN 354	Major American Writers	4.0

One course focused on literature post-1900

Elective Credits 4

Item #	Title	Credits
EN 123	Monsters and Myth in the British Literary Tradition	4.0
EN 145	Literature and Science	4.0
EN 171	Global Literatures	4.0
EN 172	Multicultural Literature of the Americas	4.0
EN 173	Literature of the Middle East and North Africa	4.0
EN 176	Introduction to African American Studies	4.0
EN 180	LOL: Concepts of Comedy	4.0
EN 230	Young Adult Literature	4.0
EN 245	From Middle-Earth to Outer Space	4.0
EN 356	Native American Literature	4.0
EN 357	Modern American Literature	4.0
EN 358	Women Writers: Global Voices/World Visions	4.0
EN 359	Japanese and American Modernism	4.0
EN 368	Contemporary American Literature	4.0
EN 373	African-American Literature	4.0
EN 132		

One course focused on British Literature

Elective Credits 4

Item #	Title	Credits
EN 123	Monsters and Myth in the British Literary Tradition	4.0
EN 124		
EN 245	From Middle-Earth to Outer Space	4.0
EN 326	Studies in the Renaissance	4.0

EN 339	Studies in Global Literature	4.0
EN 358	Women Writers: Global Voices/World Visions	4.0
EN 359	Japanese and American Modernism	4.0

Three literature courses

Elective Credits 12

Two must be at the 300-level

EN 182, 208, or 281

Elective Credits 4

Item #	Title	Credits
EN 182	Journalistic Writing	4.0
EN 208	Persuasive Writing	4.0
EN 281		

Two courses from EN 304, 305, or 309

Elective Credits 8

Item #	Title	Credits
EN 304	Advanced Writing: Fiction	4.0
EN 305	Advanced Writing: Poetry	4.0
EN 309	Advanced Writing: Creative Nonfiction	4.0

One additional 300-level writing course

Elective Credits 4

From EN 304, 305, 307, 309, and 380, or EN 461/462 Independent Study, or EN 463/464 Internship

Item #	Title	Credits
EN 304	Advanced Writing: Fiction	4.0
EN 305	Advanced Writing: Poetry	4.0
EN 309	Advanced Writing: Creative Nonfiction	4.0
EN 380	Writing for Publication	4.0
EN 461	Independent Study in English	1.0-4
EN 462	Independent Study in English	1.0-4
EN 463	Internship in English	1.0-4
EN 464	Internship in English	1.0-4

Two 300-level literature courses

Elective Credits 8

200-level writing course

Elective Credits 4

300-level writing course

Elective Credits 4

Publication Project or Editing Internship

Elective Credits 4

Publication Project

Item #	Title	Credits
EN 461	Independent Study in English	1.0-4
EN 462	Independent Study in English	1.0-4

Editing Internship

Item #	Title	Credits
EN 463	Internship in English	1.0-4
EN 464	Internship in English	1.0-4
IS 302	Summer Internship	1.0-4

Editing and Publishing Minor
Minor

Required Courses

Item #	Title	Credits
	One 200-level writing course	4
	One literature course	4
	One 300-level writing workshop	4
AR 204	Visual Communication	4.0
EN 280	Editing and the English Language	4.0
EN 380	Writing for Publication	4.0

Total Credits		20

Two literature courses, with one at the 300-level

Elective Credits 8

Two writing courses, with one at the 300-level

Elective Credits 4

Two English electives

Elective Credits 8

Professional Writing

Minor

Possessing the ability to write well and to persuade effectively is advantageous to any working professional in any field. This minor in professional writing focuses on the basic theories and practical applications that govern communication in most professional workplaces. As a supporting minor to a primary major, it will strengthen a student's marketability. Students will learn about the key importance of audience, genre, and context in workplace communication. Effective communication is so much more than mere comma placement, and through examining real-world communication scenarios, this minor studies what matters to good writing.

Required Courses

Item #	Title	Credits
EN 182	Journalistic Writing	4.0
EN 208	Persuasive Writing	4.0
EN 280	Editing and the English Language	4.0

One course from the following:

Item #	Title	Credits
AR 204	Visual Communication	4.0
CO 210	Business Communication	4.0
CO 381	Health Communication	4.0
EN 380	Writing for Publication	4.0
EN 463	Internship in English	1.0-4
EN 464	Internship in English	1.0-4

One creative-writing elective course:

Item #	Title	Credits
EN 181	Introduction to Creative Writing	4.0
EN 304	Advanced Writing: Fiction	4.0
EN 305	Advanced Writing: Poetry	4.0
EN 309	Advanced Writing: Creative Nonfiction	4.0

Elective Credits 4

English Teaching Licensure

Teaching Licensure

English students interested in earning a teaching license should plan to double major in English and education and student teach their final semester. These students should enroll in ED 101 their first semester or as soon as possible thereafter and work closely with their advisors in both departments to ensure all State of Illinois requirements for licensure are met.

Students with a minimum 3.5 grade point average in English and a minimum 3.0 GPA overall can apply for Honors in English, working independently to complete an honors thesis over the final two semesters of enrollment. (For further details, see the course description below for English 410: English Honors Thesis.)

English Course Descriptions

EN 104 : Writing Foundations

This course reviews basic strategies for forming good college-level sentences (including good thesis statements), paragraphs and essays. Students also learn to plan and edit their writing. Students will review rules of grammar, mechanics, vocabulary usage, and punctuation and apply them to short essays. The work will be tailored to individual needs: the course has a lab studio component to help practice skills, and students will work with the instructor as well as writing center peer consultants. This course does not fulfill the all-college general education requirement in writing (this requirement can be met by taking EN 121, 205, or 208) or count toward the English major or minor.

Credits 4

Prerequisites

No prerequisite

EN 121 : Writing

A writing course designed to enable the student through practice and revision to demonstrate an acceptable standard of written expression. Focus upon description, exposition, and argumentation. Critical reading and thinking are also stressed. Course requirements include completion of a research paper. Course theme varies. This course does not count toward the English major or minor. Students should also enroll in IC 102 (1).

Credits 4

EN 123 : Monsters and Myth in the British Literary Tradition

This course is designed for majors and non-majors and will survey British literature from the Medieval period through the long eighteenth century. Special attention will be paid to monsters and myths across these literary periods. The course will attend to the global scope of the literature, to its cultural context, and to the persistence of "othering" across periods and genres.

Credits 4

EN 124 : Lit a la Mode: Food and Fashion in the British Literary Tradition

This course is designed for majors and non-majors and will survey British literature from the nineteenth century through the post-modern period. Special attention will be paid to food and fashion across these literary periods. The course will attend to the global scope of the literature and to its material and cultural context.

Credits 4

EN 131 : American Literature 17th-19th C.: Witch Hunts to the White City

This is an introduction to American Literature from its beginnings until the 1890s. It goes beyond just books by looking at the fascinating places, people, and periods that produced the texts, in addition to sampling the many types of writing that have helped Americans tell their stories, from bloody captivity narratives on the frontier to haunting gas-lit ghost stories in the city. Themes might include "The Devil in the 'Howling Wilderness'", "Revolution: Reason Armed", "American Renaissance: The Transparent Eyeball", "Conditions of the Working Class", "Women Write the Weird", and "Black in the White City: Chicago's Columbian Exposition."

Credits 4

EN 132 : American Literature: Between the Living and Dead

Think you know American Literature? Would you dare to read a blood-spattered Robert Frost poem about a farm boy fatally cutting his hand off with a noisy buzz saw, in "Out, Out-", or will you stay with Frost's quiet and lovely "Stopping by Woods on a Snowy Evening"? How about braving a classic American horror story, "The Damned Thing", featuring an invisible predator, set in a late 19th-century version of a CSI morgue, and written by a traumatized Civil War veteran--who wrote with a real human skull on his desk. Do you have a taste for the gothic, sympathy for outsiders, or an urge to follow clues and dig up underground history? Take this course, if you do! Starting with our own backyard ghost tour, for example, we will visit a small-town cemetery whose undead creep out to speak their lives in poetry, near the Spoon River in Illinois. Generally, we will try to understand both the fears and desires imagined by literature, and we will do so by placing each text in the context of its place in time. The 20th century is what connects us, the generations of the living, with the dead of the past and the American tradition as a whole. Possible themes include violence, war, trauma, (im) migration, and their impact on the values that span the twentieth and twenty-first centuries.

Credits 4

EN 145 : Literature and Science

This course focuses on how works of literature depict science and scientists. In 1959, scientist and novelist C.P. Snow declared that there were two cultures, the literary and the scientific, and that this divide prevented us from finding solutions to important problems. Scientists have written literature, and writers have written about science in ways that influence how society understands science and its achievements. The course may be themed around literature and medicine, climate change and the environment, technology and science fiction, or other topics bridging the "two cultures."

Credits 4

EN 171 : Global Literatures

Consideration of varying themes as they appear in texts from diverse cultures around the world. Genres of fiction, autobiography, graphic novel, and film included.

Credits 4

EN 172 : Multicultural Literature of the Americas

Focus on literatures and cultures of the Americas with special consideration of the formation of cultural and individual identity in a variety of texts. Topics include the Culture of War, immigration and assimilation, cross-cultural contact, Sundown towns in the Midwest, among others. Genres of fiction, memoir, graphic novel, and film included.

Credits 4

EN 173 : Literature of the Middle East and North Africa

This course is an introductory survey of contemporary literatures of the Middle East and North Africa (MENA). We will read works of fiction, non-fiction, and verse; we will view films, video, and art; and we will listen to music keeping in mind the cultural and historical contexts influencing the production of these texts. We will consider questions of national identity; the dialectic between gender, politics, and religion; and anti-colonial movements and the West, among others

Credits 4

EN 176 : Introduction to African American Studies

This course is an introductory survey of African American Studies. Readings will include works of fiction, non-fiction, drama, and verse, from Phyllis Wheatley (b 1735) to D-Knowledge (b 1970); various forms of oral expression and music, from speeches of Sojourner Truth and Malcolm X, from spirituals to hip-hop; and artists from Jacob Lawrence to Kara Walker, and cultural critics/ intellectuals W.E.B. Du Bois, Henry Louis Gates, Jr., bell hooks, and Cornell West. Discussions will include overlapping theoretical, artistic, and historical issues: questions of assimilation, the Middle Passage, Slave Narratives, the Abolition Movement, the Harlem Renaissance, the Civil Rights movement, Black Nationalism, Womanism, the "Sundown Towns" of Illinois, writing as witness, and political resistance, among others.

Credits 4

EN 180 : LOL: Concepts of Comedy

An exploration of various forms of 'literature of laughter' - from humor to satire, from comedy to the Absurd - focusing on the uses and effects of comic genres and techniques to express what it is to be human. This is an introductory course appropriate for first-year students.

Credits 4

EN 181 : Introduction to Creative Writing

A workshop for students interested in exploring the various forms of creative writing including fiction, creative nonfiction, and/or poetry. Students and instructor work closely together to evaluate the individual and class writing projects in an informal setting. This is an introductory course appropriate for first-year students.

Credits 4

EN 181 : Introduction to Creative Writing

A workshop for students interested in exploring the various forms of creative writing including fiction, creative nonfiction, and/or poetry. Students and instructor work closely together to evaluate the individual and class writing projects in an informal setting. This is an introductory course appropriate for first-year students.

Credits 4

EN 182 : Journalistic Writing

A study of newspapers and the techniques of news gathering and news writing; writing and criticism of news stories. This is an introductory course appropriate for first-year students.

Credits 4

EN 182 : Journalistic Writing

A study of newspapers and the techniques of news gathering and news writing; writing and criticism of news stories. This is an introductory course appropriate for first-year students.

Credits 4

EN 201 : English Studies

English Studies is a course for students who love to read and write. It serves as an overview of how scholars and writers study and produce language and literature. In this course, students learn not only basic skills like critical reading or literary explication but also the distinctions and connections among the various strands of the professional discipline, such as literary criticism or creative writing. This course is appropriate for both majors and non-majors.

Credits 4

EN 208 : Persuasive Writing

The study and practice of writing persuasively and logically.

Credits 4

EN 208 : Persuasive Writing

The study and practice of writing persuasively and logically.

Credits 4

EN 226 : Scriptwriting

(See [TH 226](#))

Credits 4

EN 230 : Young Adult Literature

What is "YA" literature? Should it only be read by Young Adults? How does it fit into literary studies and into popular culture? What can fiction do for Young Adult (or adult) readers? Can it make readers more aware of global diversity and world events? In this course we will read and analyze works of YA fiction and discuss genre, theme, representation, and interpretation. This is an introductory course appropriate for first-year students.

Credits 4

EN 236 : Narrative in Fiction and Film

Students will read literature and watch movies for how meaning is made both visually and textually. They will analyze stories using basic critical concepts from literary and film studies, such as genre conventions or editing techniques. Special attention will be paid to works with social, global, and philosophical implications. For example, semester organizing themes have included the suffering and sacrifice of children, workplace satire, women and true crime, and the graveyard.

Credits 4

EN 245 : From Middle-Earth to Outer Space

A reading of major works of fantasy and science fiction. Emphasis on the works of British authors, such as J.R.R. Tolkien, C.S. Lewis, and J.K. Rowling. This is an introductory course appropriate for first-year students.

Credits 4

EN 250 : Introduction to Literature: Special Topics

A course with a topical approach to literary study. The particular topic for a given offering of this course will be indicated in the semester's course schedule. The courses are introductory and appropriate for first-year students.

Credits 4

EN 251 : Lit Goes Pop! (Culture)

This course will provide the opportunity to study literature in its historical, social, and popular contexts "then" and "now." In addition to studying the original literary work, you will also examine a variety of its adaptations, including literary, film, theatrical, and graphic novel adaptations.

EN 280 : Editing and the English Language

Wherever there are words, there are writers, and jobs for writers. The Internet has created a staggering array of new platforms through which writers seek to reach readers. This course will offer students the opportunity to study these new writing landscapes, to participate and publish their thinking and writing, and to learn how to protect against the various hazards of such activity. This is an introductory course appropriate for first-year students.

Credits 4

EN 280 : Editing and the English Language

Wherever there are words, there are writers, and jobs for writers. The Internet has created a staggering array of new platforms through which writers seek to reach readers. This course will offer students the opportunity to study these new writing landscapes, to participate and publish their thinking and writing, and to learn how to protect against the various hazards of such activity. This is an introductory course appropriate for first-year students.

Credits 4

EN 281 : Professional Writing

This course studies the types of professional writing, with particular attention to factual, analytical and evaluative, and proposal arguments. Topic selection within the assignment sequence is flexible to allow students to shape more focused study into the themes and conventions of business writing, journalism, science and technical writing, writing for the Internet and social media, and writing about health and medicine.

Credits 4

EN 281**EN 304 : Advanced Writing: Fiction**

A course in fiction writing for advanced students.

Credits 4

Prerequisites

EN 181 or consent of the instructor

Notes

May be repeated for a maximum of eight (8) hours.

EN 304 : Advanced Writing: Fiction

A course in fiction writing for advanced students. May be repeated for a maximum of eight (8) hours.

Credits 4

Prerequisites

EN 181 or consent of the instructor.

EN 305 : Advanced Writing: Poetry

A course in poetry writing for advanced students.

Credits 4

Prerequisites

EN 181 or consent of the instructor

Notes

May be repeated for a maximum of eight (8) hours.

EN 305**EN 309 : Advanced Writing: Creative Nonfiction**

A workshop focused on the study and production of the four major genres of contemporary creative nonfiction: the profile, the general-interest article, popular criticism, and the personal or programmatic informal essay.

Credits 4

Prerequisites

EN 181, 182, 208, or consent of the instructor

Notes

May be repeated for a maximum of eight (8) hours.

EN 309**EN 326 : Studies in the Renaissance**

A study of the major works of British and Continental literature written during the sixteenth and seventeenth centuries, including the dramatic works of Shakespeare.

Credits 4

EN 331 : Mapping the English Novel

This course will examine place and space in the English novel, utilizing digital tools like GIS and story mapping to explore the effects of physical, imagined, and hybrid locations on identity. Some examples may include: Aphra Behn's *Oroonoko* and *Surinam*, Jane Austen's *Northanger Abbey* and *Bath*, Charles Dickens's *Bleak House* and *London*, Joseph Conrad's *Lord Jim* and the fictional *Island of Patusan*, E.M. Forster's *A Room with a View* and *Florence*, and Monica Ali's *Brick Lane* and *Bangladeshi London*.

Credits 4

EN 339 : Studies in Global Literature

Consideration of a genre, period, or theme in transnational literatures, such as European, Japanese, or Russian (in translation). The specific topic will be announced in the course listing and schedule of classes for the semester

Credits 4

EN 342 : Studies in the Global Long Eighteenth Century

This course will be devoted to the study of British literature of the long eighteenth century from a globally situated perspective. Special attention will be paid to the interrogation of Enlightenment exploration culture and to the objects and texts collected and circulated across continents by women and Indigenous persons.

EN 351 : Romantic Movement

In addition to examining major writers of the Romantic period in England, from the 1770's-1830's, this course will emphasize the role of material and global culture in the formation of the Romantic imagination. Through the study of material objects-collections brought back from global voyages, scrapbooks, letters, journals, women's collections of objects and ephemera--we will access voices from this period often left out of the Romantic canon. Moving beyond Keats, Shelley, Wordsworth, Coleridge and Byron, we will explore this period from multiple perspectives that account for the diverse experiences of people from a variety of social, gender, and racial and ethnic backgrounds, both in Europe and beyond. Special attention will be paid to Romantic writers outside of Europe and to female Romantic authors like Helen Maria Williams, Charlotte Smith, Felicia Hemans, and Jane Austen, as well as to women who contributed to the cultural and literary life of the period through their experiences and collections.

Credits 4

EN 354 : Major American Writers

Evolution of American literature from Poe onward to Transcendentalism, Realism, and Naturalism. Focus on such figures as Emerson, Thoreau, Hawthorne, Twain, James, and Dreiser.

Credits 4

EN 354 : Major American Writers

Evolution of American literature from Poe onward to Transcendentalism, Realism, and Naturalism. Focus on such figures as Emerson, Thoreau, Hawthorne, Twain, James, and Dreiser.

Credits 4

EN 355 : American Women Writers

Focus on the accomplishments, conditions and contributions of American women writers from the seventeenth century to the present. Readings will cover works of fiction, poetry and drama by writers such as Bradstreet, Dickinson, Sedgwick, Stowe, Wharton, Cather, Stein, Hurston and Morrison.

Credits 4

EN 356 : Native American Literature

An exploration of Native American literatures, primarily of the twentieth and twenty-first centuries. Issues of "writing as witness/" identity and assimilation, oral and written storytelling, Red Power and Indigenist movements studied. Includes contemporary writers such as James Welch, Leslie Marmon Silko, LeAnne Howe, and Sherman Alexie. Several films and attendance at local pow wow.

Credits 4

EN 357 : Modern American Literature

Developments in American literature from the early twentieth century to the '60s. Readings will cover major works of fiction, poetry and drama.

Credits 4

EN 358 : Women Writers: Global Voices/World Visions

A critical investigation of representative works by major women writers that reflect the social, philosophical, literary, and aesthetic standards of women's literature worldwide from the late 19th century to the present. Readings will cover fiction, non-fiction, poetry, and drama by writers such as Anna Akhmatova, Buchi Emecheta, Simone de Beauvoir, Nadine Gordimer, Arundhati Roy, Christa Wolf, and Virginia Woolf, among others.

Credits 4

EN 359 : Japanese and American Modernism

Examination of literary Modernism as it manifests in America and in Japan. Specifically, we will examine how literature in both countries embodied and expressed the many cultural changes both societies underwent in the years between World Wars. Key themes include alienation, mass culture, urbanization, cosmopolitanism, race, gender, class, and the politics of experimental form and style.

Credits 4

EN 368 : Contemporary American Literature

A study of American literature - fiction, poetry, and drama - from the '60s to the present.

Credits 4

EN 373 : African-American Literature

Focus on African-American literature from the period of slavery to the present. Consideration of writers such as Frederick Douglass, Harriet Jacobs, W.E.B. DuBois, Zora Neale Hurston, Ralph Ellison, Toni Morrison, and Octavia Butler. Consideration of such artistic forms of music (Blues, Spiritual, Jazz, Hip Hop), genres as the vernacular, the slave narrative, video representation, and speculative fiction.

Credits 4

EN 380 : Writing for Publication

This course covers the basic procedures of editing and publishing texts. It will use the Chicago Manual of Style as a primary textbook, and it will enable students to acquire the knowledge, skills, and aptitudes necessary to work effectively as an editorial assistant, editor, new-media writer, or professional writer.

Credits 4

Prerequisites

one 200-level writing course or instructor's permission, to work intensively in a special area of interest

Notes

May be repeated with consent of instructor.

EN 380 : Writing for Publication

This course covers the basic procedures of editing and publishing texts. It will use the Chicago Manual of Style as a primary textbook, and it will enable students to acquire the knowledge, skills, and aptitudes necessary to work effectively as an editorial assistant, editor, new-media writer, or professional writer.

Credits 4

Prerequisites

One 200-level writing course or instructor's permission to work intensively in a special area of interest. May be repeated with consent of instructor.

EN 388 : Literary Explorations

Topic, area, or authors chosen by the instructor. This course provides the opportunity for the instructor and students to work intensively in a special area of interest. May be repeated with consent of instructor.

Credits 4

EN 410 : English Honors Thesis

Open to English majors entering the second semester of their junior year. Students with a minimum 3.5 GPA in their English courses and a minimum 3.0 GPA overall can apply to enroll in English 410 by writing a proposal specifying the original project to be undertaken and indicating, via signature, the agreement of a supervising faculty member. This proposal should be submitted to the department chair no later than the end of the junior year. A second faculty reader will be selected in consultation with the primary supervisor and the department chair. This project is to be pursued over two semesters (2 credits per semester) and will be beyond the 40-credit minimum required for the major. Students will conduct a sustained project culminating in an article-length essay or new creative work of approximately 20-30 pages that engages with relevant literary scholarship while aiming for an original contribution to the topic. Students will also give a public presentation of their work at the end of the spring semester

Credits 1-4

EN 430 : Senior Seminar

A seminar bringing together all senior majors and department faculty in literary study designed to synthesize learning within the discipline, requiring comprehensive proficiency in literary techniques and critical concepts treated throughout the major and culminating in a major project.

Credits 4

Prerequisites

senior standing and students must complete two 300-level literature courses before enrolling

Semester Offered

Offered fall semesters

EN 461 : Independent Study in English

Independent Study in Language and Literature: A tutorial course providing intensive study of authors or areas of mutual interest to the instructor and students. Instructor permission required. May be repeated.

Credits 1-4

EN 462 : Independent Study in English

Independent Study in Language and Literature: A tutorial course providing intensive study of authors or areas of mutual interest to the instructor and students. Instructor permission required. May be repeated.

Credits 1-4

EN 463 : Internship in English

A work-study internship in public relations, journalism, technical or professional writing, or publishing. Permission of instructor and department chair required. May be repeated for a maximum of 8 hours.

Credits 1-4

EN 464 : Internship in English

A work-study internship in public relations, journalism, technical or professional writing, or publishing. Permission of instructor and department chair required. May be repeated for a maximum of 8 hours.

Credits 1-4

Credits 1-4

EN 466 : Independent Research in English

Credits 1-4

Environmental Studies and Wildlife Management

Administered by the Biology Department

Associate Professor Bryan Arnold - Biology, Coordinator

The Environmental Studies and Wildlife Management program at Illinois College is an interdisciplinary program combining strong preparation in biology and wildlife management with environmental policy allowing students to develop an interdisciplinary understanding of environmental issues that support personal and professional development, ethical leadership, and service. It is intended to prepare students for careers in ecological conservation and/or wildlife management that do not require formal postgraduate education. Students considering pursuing a graduate degree in wildlife management or conservation biology should strongly consider double majoring in biology. All students completing a major in Environmental Studies and Wildlife Management will complete this program with 48 credits (10 core courses plus two interdisciplinary courses).

Environmental Studies and Wildlife Management

Major

Students who wish to double major in Environmental Studies and Wildlife Management and another major may count no more than 12 credit hours toward both majors.

Core Classes

Item #	Title	Credits
EV 105	Earth's Physical Systems	4.0
EV 310	Environmental Policy	4.0
EV 344	Principles of Wildlife Management	4.0
CH 110	General Chemistry	4.0
BI 110	Biological Investigation	4.0
BI 318	Algae and Fungi	4.0
BI 206	Vertebrate Zoology	4.0
BI 350	Entomology	4.0

ONE course with an Ecological/Systems Focus from:

Item #	Title	Credits
BI 325	Tropical Ecology	4.0
BI 326	Marine Biology	4.0
BI 328	Animal Behavior	4.0
BI 332	Aquatic Biology	4.0
EV 324	Ecological Interactions	4.0

Capstone Course - Choose One

As seniors, all students will complete either an internship or research experience culminating in both written and public verbal presentations of the experience.

Item #	Title	Credits
EV 485	Environmental Studies Capstone	3.0-4
BI 404	Research Experience Capstone	3.0-4

Policy Track

Pick one of the following 2-course tracks:

Item #	Title	Credits

CJ 160	Introduction to Criminal Justice	4.0
CJ 210	Issues in Policing	4.0

Environmental Studies and Wildlife Management

Minor

Required Courses

Students choosing a minor in environmental studies need not complete the capstone experience.

Item #	Title	Credits
EV 105	Earth's Physical Systems	4.0
EV 310	Environmental Policy	4.0
EV 344	Principles of Wildlife Management	4.0
	Additional 12 hours from the major core courses listed	12
	Total Credits	24

Additional 12 hours from the major core courses listed

Elective Credits 12

Environmental Studies and Wildlife Management Course

Descriptions

EV 105 : Earth's Physical Systems

The goal of this course is to understand the dynamic natural systems that operate in Earth's environments. Emphasis is placed on processes that form and transform the surface of the planet. Factors that impact human activities are stressed. Topics include earth-sun relationships, weather, classification of climate, composition and structure of the solid earth, soil formation, groundwater, streams, glaciers and coastal processes. One two-hour lab each week.

Credits 4

Semester Offered

[Offered fall semesters](#)

EV 310 : Environmental Policy

This course provides an introduction to environmental policy with an applied approach focusing on how policies like the endangered species act, the clean water act etc. correspond with the work of practicing field biologists, wildlife managers, land managers, and natural resource professionals. The course will consider the roles of government (local, state, and federal), private stakeholders, and the community in environmental policymaking and governance with an emphasis on the intersection of nature and society.

Credits 4

Semester Offered

[Offered alternate spring semesters](#)

EV 324 : Ecological Interactions

Principles of ecology, illustrated by lecture and by the investigation of selected types of habitats.

Credits 4

Prerequisite Courses

[BI 110: Biological Investigation](#)

Notes

(See [BI 324](#)).

EV 344 : Principles of Wildlife Management

Wildlife management and other natural resource fields are both arts and sciences that deal with complex interactions in the environment. Wildlife “science” is based on scientific principles, which will be covered in this course. Techniques of managing wildlife, managing nature preserves and problems of managing large refugees will be included. Topics include evaluating and determining habitat requirements and management techniques for a number of bird and mammal species. Several field trips to local US fish and wildlife areas are required as part of the course.

Credits 4

Semester Offered

[Offered alternate fall semesters](#)

EV 461 : Independent Study Environmental Studies

Credits 1-4

EV 462 : Independent Study Environmental Studies

Credits 1-4

EV 463 : Internship in Environmental Studies

Students serve as interns in private or public organizations which oversee, study, or manage environmental resources. Internships may involve public issues, scientific research, or have business applications. For horticulture, students will work at a local landscape company, learning all aspects of horticulture. Topics covered will include plant cultivation, plant diseases, and small business management techniques. Students must have junior standing and permission of the Academic Dean or EV coordinator to enroll.

Credits 1-4

EV 464 : Internship in Environmental Studies

Students serve as interns in private or public organizations which oversee, study, or manage environmental resources. Internships may involve public issues, scientific research, or have business applications. For horticulture, students will work at a local landscape company, learning all aspects of horticulture. Topics covered will include plant cultivation, plant diseases, and small business management techniques. Students must have junior standing and permission of the Academic Dean or EV coordinator to enroll.

Credits 1-4

EV 465 : Independent Research in Environmental Studies**Credits** 1-4**EV 466 : Independent Research in Environmental Studies****Credits** 1-4**EV 485 : Environmental Studies Capstone**

This course serves as the capstone experience for seniors in the Environmental Studies and Wildlife Management major. It may include an internship and/or independent research experience or may follow successful completion of an internship ([EV 463](#) and/or [EV 464](#)) and/or independent research ([EV 465](#) and/or [EV 466](#)). A capstone internship or independent study must be completed during, or the summer prior to, the senior year.

Credits 3-4**Prerequisites**

consent of instructor

Finance

Assistant Professor Michael Harden Instructor Dana Bangert***Instructor T.J. Devine******Instructor Kanji Kitamura***

The courses in this discipline are intended to give an understanding of the nature, operation, and financial issues faced by modern organizations including for profit and not-for-profit businesses and governments. The offerings of this discipline also provide pre-professional training leading to graduate study in finance, management, public administration, and law.

Each major in the Business Department will require a minimum of 24 additional hours of new content.

Each minor in the Business Department will require a minimum of 16 additional hours of new content.

Finance

Major

Students are encouraged to complete a double major or minor in a related area.

Required Courses

FI 352	Financial Management (Corporate Finance)	4.0
FI 353	Investments	4.0
FI 355	Financial Institutions Management	4.0
FI 357	International Finance	4.0
FI 362	Corporate Risk Management	4.0
Total Credits		20

Finance Course Descriptions

FI 352 : Financial Management (Corporate Finance)

Study of the financial management of the typical corporation. Topics include stock valuation, risk analysis, capital structure, dividend policy and capital budgeting. Current developments such as mergers and acquisitions, new securities, and small business finance are also studied.

Credits 4

Prerequisites

[AC 231](#) and [EC 105](#)

FI 353 : Investments

An understanding of the mechanics of the securities market, the investment media, security selection and analysis, and the formulation of investment policy for individuals.

Credits 4

Prerequisite Courses

[FI 352: Financial Management \(Corporate Finance\)](#)

FI 355 : Financial Institutions Management

Comprehensive survey of the role of each of the major financial institutions in our economy. The emphasis of the course is on the management of these institutions.

Credits 4

Prerequisites

[EC 105](#) and [AC 231](#)

FI 357 : International Finance

Theories and practical aspects of international finance. Topics analyzed include international payments mechanism, exchange market operations, international capital movements, risk evaluation and protection, capital budgeting, and international financial institutions.

Credits 4

Prerequisite Courses

[EC 105: Principles of Economics](#)

FI 362 : Corporate Risk Management

This course examines the scientific approach to the problem of dealing with the risks that companies face today. Students will learn to develop comprehensive risk management plans incorporating identification, control, and financing of all corporate.

Credits 4

Prerequisite Courses

[EC 245: Statistics](#)

FI 406 : Investment Practicum

This course is designed to teach students how to invest their money wisely and to familiarize students with the different available investment instruments. Students in this course participate in the Illinois College Warren Billhartz Student Investment Organization. Through this organization, students gain firsthand experience, using real-world money and investments, with the effects markets have on investment portfolios. All final investment decisions are made by the participating students with the guidance of economics/business faculty and investment professionals. This course is open to students of all majors at Illinois College.

Credits 1-6

FI 461 : Independent Study in Finance

Credits 1-4

FI 462 : Independent Study in Finance

Credits 1-4

FI 463 : Internship in Finance

A practical application of theoretical skills in actual job-related situations. May be repeated for a maximum of 6 hours. Open to junior and senior majors.

Credits 1-4

Prerequisites

consent of the department chair

FI 464 : Internship in Finance

A practical application of theoretical skills in actual job-related situations. May be repeated for a maximum of 6 hours. Open to junior and senior majors.

Credits 1-4

Prerequisites

consent of the department chair

FI 465 : Independent Study in Finance

Credits 1-4

FI 466 : Independent Study in Finance

Credits 1-4

FI 485 : Senior Seminar

As an interdisciplinary capstone course, students will analyze and evaluate financial information with respect to profitability, corporate risk management, and proper financial reporting.

Credits 4

Prerequisites

senior standing, declared Accounting or Finance Major only

Notes

(See [AC 485](#).)

French

French Course Descriptions

FR 101 : French for Global Citizens I

Students learn basic sentence structures and vocabulary in French language and are introduced to the culture of the French and Francophone people. Students also acquire the language skills and cultural knowledge to travel on their own to the countries where French is spoken.

Credits 4

FR 102 : French for Global Citizens II

This course is designed for students who have taken FR101 or have had some French language instruction in high school, building upon what they have already learned. Students learn basic sentence structures and vocabulary in French language and are introduced to the culture of the French and Francophone people. They also acquire the language skills and cultural knowledge to travel on their own to the countries where French is spoken.

Credits 4

Prerequisites

[FR 101](#) or equivalent or consent of the instructor

FR 203 : French for the Professions

Students review the fundamentals of French language and become acquainted with basic vocabulary related to array of professions. Students become familiar with the role that language and cultural knowledge play in the professions.

Credits 4

Prerequisites

FR 102 or placement test or consent of the instructor

FR 301 : French Conversation through Film

In this course, the focus is on developing speaking fluency. Students will explore topics in Francophone and French cultures and societies through the medium of film; and discuss historical and current issues raised in classical and contemporary Francophone and French cinema. Language skill activities draw upon cultural perspectives and personal needs.

Credits 4

Prerequisites

FR 102 or consent of the instructor

Gender and Women's Studies

Gender and Women's Studies Certificate in Criminal Justice

Certificate

Students may complete coursework and an experiential learning component that focuses on the role of gender in their primary area of study of Biology, Criminal Justice, or Health Sciences. Students who wish to pursue the certificate should contact the Gender and Women's Studies coordinator and consult with the instructor in the course from their field of study. The following is required:

Two of the following courses:

Item #	Title	Credits
GW 101	Introduction to Gender and Women's Studies	4.0
GW 102	Introduction to Gender and Men's Studies	4.0
GW 110	Gender and Social Justice	4.0

Choose one of the following:

Students must complete the prerequisite course(s) to enroll in either course. Students would choose a gender-related topic for the final paper.

Item #	Title	Credits
SO 341	Criminology	4.0
SO 344	Juvenile Delinquency	4.0

Internship or Research Experience

An internship or research experience (2-4 credits) that allows students to gain experience in their discipline, with the academic component having students apply Gender Studies' texts, topics, and theories to their practical work.

Total Credits	14-16
----------------------	--------------

Gender and Women's Studies Certificate in Health Sciences

Certificate

Students may complete coursework and an experiential learning component that focuses on the role of gender in their primary area of study of Biology, Criminal Justice, or Health Sciences. Students who wish to pursue the certificate should contact the Gender and Women's Studies coordinator and consult with the instructor in the course from their field of study. The following is required:

Two of the following courses:

Item #	Title	Credits
GW 101	Introduction to Gender and Women's Studies	4.0
GW 102	Introduction to Gender and Men's Studies	4.0
GW 110	Gender and Social Justice	4.0

Required Course:

Students must complete the prerequisite course(s) to enroll in HS 402. Students would choose a gender-related topic for the proposal project in HS 402.

Item #	Title	Credits
HS 402	Senior Seminar	4.0

Internship or Research Experience

An internship or research experience (2-4 credits) that allows students to gain experience in their discipline, with the academic component having students apply Gender Studies' texts, topics, and theories to their practical work.

Total Credits	14-16
----------------------	--------------

Gender and Women's Studies in Biology

Certificate

Students may complete coursework and an experiential learning component that focuses on the role of gender in their primary area of study of Biology, Criminal Justice, or Health Sciences. Students who wish to pursue the certificate should contact the Gender and Women's Studies coordinator and consult with the instructor in the course from their field of study. The following is required:

Two of the following courses:

Item #	Title	Credits
GW 101	Introduction to Gender and Women's Studies	4.0
GW 102	Introduction to Gender and Men's Studies	4.0
GW 110	Gender and Social Justice	4.0

BI 207

Students must complete the prerequisite course(s) to enroll in BI 207. Students would choose a gender-related topic for the major literature review project in BI207

Item #	Title	Credits
BI 207	Molecular Genetics	4.0

Internship or Research Experience

An internship or research experience (2-4 credits) that allows students to gain experience in their discipline, with the academic component having students apply Gender Studies' texts, topics, and theories to their practical work.

Total Credits	14-16
----------------------	--------------

Gender and Women's Studies

Minor

A student minoring in Gender and Women's Studies must complete a minimum of 20 hours from the following courses:

Core

Students become familiar with the history, terms, and concepts essential in the field of Gender and Women's Studies, and begin to connect theory and practice:

Item #	Title	Credits
GW 101	Introduction to Gender and Women's Studies	4.0
GW 102	Introduction to Gender and Men's Studies	4.0
GW 110	Gender and Social Justice	4.0

Electives

Two courses total from two disciplines, with at least one at the 300-level or above. EN 250, 354, 357, 368 373, MA 125, SO 218 count only with special arrangement with the professor. Contact the program coordinator for a full and updated list of courses.

1. A student may decide to add a concentration to the minor by selecting two elective courses (from two disciplines, with at least one at the 300-level or above) from one of the following concentrations:
2. If no minor concentration is desired, the two elective courses (from two disciplines, with at least one at the 300-level or above) may be chosen from any of the concentrations below. Contact the program coordinator for a full and updated list of courses.

Gender and Women's Studies Course Descriptions

GW 101 : Introduction to Gender and Women's Studies

This course asks fundamental question such as: What is gender? What is sex? How do cultures construct gender and gender differences? How do gender, race, class, ethnicity, and sexuality interrelate in our society? The course encourages students to find links between their own lives and issues raised by scholars in the field. Readings, discussions and lectures cover material ranging from the humanities to the social sciences.

Credits 4

Semester Offered

[Offered fall and some spring semesters](#)

GW 102 : Introduction to Gender and Men's Studies

This course asks fundamental questions such as: What is gender? What is sex? What is masculinity? How do cultures construct gender and gender differences in terms of various perceptions of masculinity? How do ideas of maleness, race, class, ethnicity, and sexuality interrelate in our society? The course encourages students to find links between their own lives and historic and political issues raised by scholars in women's studies. Readings, discussions, and lectures cover materials ranging from the humanities to the social sciences.

Credits 4

GW 110 : Gender and Social Justice

Sexual assault. The gender pay gap. Female genital mutilation. Police brutality. Workplace discrimination. Economic inequality. These are just some of the examples of global social injustice that this course examines. Students will be introduced to feminist theories that help them better understand the causes of social injustice and possible solutions. This will include how feminist theories intersect with concepts of race, class, nationality, the environment, sexuality, etc. There will be a particular focus on putting theory into practice by doing activism work for social justice in students' own communities.

Credits 4

Semester Offered

[Offered spring semesters](#)

GW 461 : Independent Study in Gender and Women's Studies

An opportunity for students to investigate a special topic of interest.

Credits 1-4

Prerequisites

declared GW minor, consent of instructor and GW program chair

GW 462 : Independent Study in Gender and Women's Studies

An opportunity for students to investigate a special topic of interest.

Credits 1-4

Prerequisites

declared GW minor, consent of instructor and GW program chair

GW 463 : Internship in Gender and Women's Studies

An opportunity for students to participate in experiential learning related to GW.

Credits 1-4

Prerequisites

declared GW minor or consent of instructor and GW program chair

GW 464 : Internship in Gender and Women's Studies

An opportunity for students to participate in experiential learning related to GW.

Credits 1-4

Prerequisites

declared GW minor or consent of instructor and GW program chair

GW 465 : Independent Research in Gender and Women's Studies

An opportunity for students to pursue advanced research in a field of interest in collaboration with a faculty supervisor.

Credits 1-4

Prerequisites

declared GW minor or consent of instructor

GW 466 : Independent Research in Gender and Women's Studies

An opportunity for students to pursue advanced research in a field of interest in collaboration with a faculty supervisor.

Credits 1-4

Prerequisites

declared GW minor or consent of instructor

German

German Course Descriptions

GE 101 : German for Global Citizens I

Students learn basic sentence structures and vocabulary in another language and are introduced to the cultures of the people who speak German. They also acquire the language skills and cultural knowledge to travel on their own to the countries where German is spoken.

Credits 4

GE 102 : German for Global Citizens II

The course is designed for students who have taken 101 or have had some language instruction in high school, building upon what they have already learned. Students learn basic sentence structures and vocabulary in German and are introduced to the cultures of the people who German. They also acquire the language skills and cultural knowledge to travel on their own to the countries where German is spoken.

Credits 4

Prerequisites

[GE 101](#) or equivalent or consent of instructor locally or abroad

Notes

Placements may be available through the department or may be arranged by students in consultation with the department. May be repeated for a maximum of 4 hours

Global Studies

Professor Bernd K. Estabrook (German)

Professor Steven M. Gardner (Spanish)

Professor Margaret A. Marek (Spanish)

Professor Winston R. Wells (Political Science)

Associate Professor Devin Bryson (French)

Associate Professor Diana Grullón-García (Spanish) Assistant Professor Emily Adams (French)

Assistant Professor Gwendolyn Gillson (Asian Studies)

Instructor Kanji Kitamura (Japanese)

The Global Studies major helps students develop an awareness of both the diversity and the interconnectedness of the world's peoples and their cultural, economic, linguistic, political, and religious systems. Students in Global Studies also acquire the knowledge and skills necessary to understand global problems and evaluate possible solutions.

Language learning is included among these skills. As students in Global Studies learn to speak, read, and write in a language other than English, they gain direct experience of foreign cultures that deepens their understanding of the world. In turn, this close engagement with different cultures encourages students to reexamine their own cultural experiences, applying the unique insights that each language offers across cultural boundaries.

Global Studies majors choose an area of concentration that corresponds to their interests and professional plans. The concentration provides students with in-depth cultural and social knowledge in a specific region of the world or a particular field in Global Studies. Students select from Asian Studies, Caribbean Studies, European Studies, International Relations, or Spanish.

The Global Studies major prepares students to interact professionally with a greater diversity of people, as they incorporate themselves into an increasingly globalized society. Students are encouraged to be interdisciplinary and study across various cultures and global issues, which prepares them for careers in international development, health, politics, and science, as well as professions in their local communities that require interaction with people of various cultural backgrounds.

Students must earn a 'C' (2.0) or better in each course to be applied to the major or minor.

The Department of Global Studies offers five minors: French, German, Global Studies, Japanese, and Spanish. A minor consists of 20 hours.

Global Studies

Major

Core Courses

Item #	Title	Credits
GB 101	Introduction to Global Studies	4.0
GB 105	Languages and Their Place in the World	4.0

Choose one:

Item #	Title	Credits
EC 105	Principles of Economics	4.0
HI 112	World Civilization II	4.0
PO 150	World Politics	4.0
PO 180	Introduction to Comparative Politics	4.0
RE 190	World Religions	4.0

Language

Students who do not have previous language experience must take beginning level language courses (FR, JP, and SP 101, 102) before completing the language requirement in the major. Students who take a language placement exam and score at a level sufficient for placement in a course above third semester intermediate level will only be required to complete one language course; they may then complete the four additional hours through another course in their concentration. Choose one of the two options below:

- Two courses in French, Japanese, or Spanish at the third semester intermediate level (FR and SP 203; JP 111) and above.
- A combination of two or more languages for a total of 8 hours beyond the BLUEprint language requirement that aligns with students' concentration in the Global Studies major. This combination must be selected in consultation with a Global Studies advisor. For example, students concentrating in Caribbean Studies may study French and Spanish, while students concentrating in European Studies may study German and Spanish.

Choose language courses from the following list:

Item #	Title	Credits
FR 101	French for Global Citizens I	4.0
FR 102	French for Global Citizens II	4.0
FR 203	French for the Professions	4.0
FR 301	French Conversation through Film	4.0
JP 101	Japanese for Global Citizens 1	4.0
JP 102	Japanese for Global Citizens 2	4.0
JP 111	Japanese for Global Citizens 3	4.0
JP 112	Japanese for Global Citizens 4	4.0
SP 101	Spanish for Global Citizens I	4.0
SP 102	Spanish for Global Citizens II	4.0
SP 203	Spanish for the Professions	4.0
SP 210	Spanish for Heritage Speakers	4.0
SP 301	Spanish Conversation through Film	4.0
SP 302	Conversation and Composition	4.0

Study Abroad or International Experience

Students are required to complete an international experience that allows them to place their coursework in a practical context. A semester study abroad program is the best opportunity for developing global, intercultural, and bilingual knowledge and skills, so this option is strongly encouraged.

Other possibilities include an international BreakAway, international research, and an international internship. Some domestic intercultural experiences might fulfill the requirement with the approval of a Global Studies advisor. Any experience is selected in consultation with an advisor. All credits earned through the experience may fulfill requirements for the major in consultation with students' advisor.

Concentration (16 hours) may be completed at IC and/or abroad with the approval of a Global Studies advisor:

Asian Studies Concentration

Four courses from this list:

Item #	Title	Credits
GB 115	Rise from Ruins: Japan and Germany after 1945	4.0
HI 181	Gods, Monsters, and Sex in East Asia	4.0
HI 223	Japanese History and Religion	4.0
HI 224	China: History and Religion	4.0
PO 280	East Asian Politics	4.0
PO 383	Third World Politics	4.0
RE 167	Cults and the End of the World	4.0
RE 173	Space, Place, and Religion	4.0
RE 207	Killing in the Name of God(s)	4.0
RE 214	Healing and Healthcare	4.0

Caribbean Studies Concentration

Four courses from this list:

Item #	Title	Credits
BI 325	Tropical Ecology	4.0
GB 131	Introduction to Caribbean Studies	4.0
GB 230	The Caribbean and the African Diaspora	4.0
GB 231	Puerto Rican Culture & History	4.0
GB 235	Hispanic Caribbean Literature	4.0
GB 251	Torture in Spain and Latin America	4.0
HI 313	American Slavery	4.0
PO 383	Third World Politics	4.0

European Studies Concentration

Four courses from this list:

Item #	Title	Credits
GB 115	Rise from Ruins: Japan and Germany after 1945	4.0
GB 150	The Culture and History of Spain	4.0
GB 251	Torture in Spain and Latin America	4.0
GB 255	Spain's Textual Heritage	4.0
GB 256	Cervantes and Don Quixote	4.0
HI 254	Ordinary People and War: Germany, 1900 to Present	4.0
HI 292	Modern Europe since 1789	
HI 358	The Holocaust	4.0

International Relations Concentration

Four courses from this list:

Item #	Title	Credits
EC 344	Development Economics	4.0
EC 372	Environmental Economics	4.0
PO 280	East Asian Politics	4.0
PO 383	Third World Politics	4.0
PO 386	International Relations	4.0
PO 388	International Political Economy	4.0

Spanish Concentration

Four courses from this list:

Item #	Title	Credits
SP 302	Conversation and Composition	4.0
SP 307	Intermediate Spanish Grammar	4.0
SP 310	Advanced Spanish for Professions	4.0
GB 131	Introduction to Caribbean Studies	4.0
GB 150	The Culture and History of Spain	4.0
GB 231	Puerto Rican Culture & History	4.0
GB 235	Hispanic Caribbean Literature	4.0
GB 251	Torture in Spain and Latin America	4.0
GB 255	Spain's Textual Heritage	4.0

Spanish Teaching License

Teaching Licensure

Students wishing to earn a license to teach Spanish should double major in Education and in Global Studies, choosing the Spanish concentration of the Global Studies major. These students will consult closely with their advisors from both Departments to complete requirements for K-12 Licensure in Spanish. As part of fulfilling the Licensure requirements, students will participate in the Tandem Education Semester in Madrid, Spain, where they will take the "Teaching Methodology for Teachers of Spanish and Bilingual Educators" course, along with appropriate Spanish language courses.

Global Studies Course Descriptions

GB 101 : Introduction to Global Studies

An interdisciplinary course that examines humanitarian, economic, political, social, cultural, and ecological issues from a global perspective. Highlights the contributions that history, geography, anthropology, political science, economics, and other disciplines make to the field of Global Studies.

Credits 4

GB 105 : Languages and Their Place in the World

This core course will explore the essential role played by language in the liberal arts, in the professional world, and in international contexts. In addition, students will examine the complex, often undefined relationship between language and culture, as well as strategies for learning the components of speaking, listening, writing, and reading in a foreign language. We will investigate a variety of topics which are drawn from the fields of sociolinguistics, literary and cultural studies etc. The course will begin with a general overview of what constitutes language. We will examine the different proposed hypotheses which attempt to account for the nature of the relationship between language and culture. The remainder of the course will cover a variety of topics which explore language in its social context. Some questions that we will consider include: How is language used to create and maintain social institutions and rituals? How do we use language to create different personae? How is language used by people of different genders, ethnicities, and social classes? How are social and linguistic roles acquired by children?

Credits 4

Prerequisites

Open to all students; no specific language prerequisite

GB 115 : Rise from Ruins: Japan and Germany after 1945

This course focuses on the postwar reconstruction of the two primary Axis nations after their defeat by the Allies in the Second World War, examining how each nation has dealt with the political, social, ethical and cultural consequences of the war.

Credits 4

GB 131 : Introduction to Caribbean Studies

This course introduces students to the interdisciplinary field of Caribbean Studies, providing an understanding of the concepts that define the region within the framework of its society, history, and culture. Students will examine issues pertinent to the unique physical, political, environmental, and socio-economic challenges confronting the area. They will study literary, historical, and political primary and secondary sources, including various forms of art from Pan-Caribbean cultures, emphasizing the Francophone, Hispanophone, and Anglophone Caribbean and its diaspora. The course aims to develop critical thinking about the region in terms of its origin, geography, common historical experiences, cultural identities, the mixture, melange or mestizaje of diverse ethnic and racial groups, and its ongoing struggle for sovereignty and survival seen from the pre-colonial and colonial period to today's 21st-century natural/unnatural disasters.

Credits 4

GB 150 : The Culture and History of Spain

The Spanish world is studied in its historical and cultural context.

Credits 4

GB 230 : The Caribbean and the African Diaspora

The Caribbean has longstanding connections to the African continent through the African diaspora - the displacement of African peoples throughout the world. These connections began with the arrival of enslaved Africans in the Western hemisphere. Since that time, the Caribbean and Africa have shared much in terms of culture, languages, identities, race, social experiences, and political projects. This course will look at the historical development of the relationship between the two regions, giving students a better understanding of both the Caribbean and Africa, of the dispersal of Africans throughout the globe, and of the social and political importance of global exchanges between regions that have differences, but also similarities.

Credits 4

GB 231 : Puerto Rican Culture & History

This course introduces students to the social-political realities in Puerto Rico and its colonial relationship with the United States. September 20th, 2017, has marked a drastic change in the history and culture of the island. When Hurricane Maria struck the country, a more serious situation was unveiled. This course will focus on the colonial historical and economical context of Puerto Rico, including the debt crisis, the question of sovereignty, its infrastructure and the aftermath of the hurricanes of 2017. The course aims to give a concise view to the social, political, historical and cultural paradigms in which Puerto Rican Studies are based. This course includes a required service-learning component in Puerto Rico taking place during Spring Break.

Credits 4

GB 235 : Hispanic Caribbean Literature

This course examines the rhetoric of literary genres within the framework of Hispanic Caribbean intellectual history and culture. It focuses on the role of metaphors in the construction of Caribbean identity representations in essays, poetry, short stories, novels and plays from the 19th to the 21st centuries. Regarding the Hispanic Caribbean national interpretations, this course focuses on analyzing different manifestations, problems, origins, developments, and implications. In particular, students will study literature, history, politics, art, and music components from the cultures of Cuba, Dominican Republic and Puerto Rico. Taught in Spanish.

Credits 4

GB 251 : Torture in Spain and Latin America

From the Inquisition to 20th Century dictatorships, in this course explores the role that torture has played in the history of Spain and Latin America. It examines the perspectives of both the torturers and the tortured through autobiographical accounts, official government documents, short stories, plays and novels.

Credits 4

GB 255 : Spain's Textual Heritage

Take on topics such as the multiple languages of Spain, race, family and gender roles, religion, and empire in texts both literary and non-literary (e.g., painting, architecture, music) from medieval and early modern Spain. What is their impact on the world today? Taught in English. Students in the "Spanish" concentration will complete assignments in Spanish.

Credits 4

GB 256 : Cervantes and Don Quixote

Have you heard term “quixotic” or the phrase “tilting at windmills”? Don Quixote has shaped cultural productions for more than 400 years (think: R2-D2 and C-3PO, the Lone Ranger, and so many others). In this course you will embark on a guided tour through (the English translation of) this bestselling book and learn to spot new iterations of the knight and his squire in the present-day, while you analyze their significance in early modern Spain. Taught in English. Students in the “Spanish” concentration will complete assignments in Spanish.

Credits 4

GB 267 : Research Add-On Course in French, German, Japanese or Spanish

Students enrolled in a course outside the Department of Global Studies that involves a major research project may earn credit for conducting research in French, German, Japanese or Spanish. The research should be related to a major paper and/or presentation in the other discipline. A student who wishes to conduct research for a project in another field using language sources will submit a credit request to both the professor of the research related course and to the Chair of the Department of Global Studies. The course level will be determined upon consultation with the language supervisor and the Chair of the Department of Global Studies.

Credits 1

GB 270 : Serving 21st-Century Populations within the Health Professions

This course focuses on meeting the needs of the increasingly diverse populations served by the U.S. healthcare system, with particular emphasis on the Hispanic and Francophone populations in the Jacksonville area. Basic medical Spanish and French will be studied, and students will build skills for conversational and written expression needed in health-related situations. The course will address both theoretical issues such as intercultural competency and barriers to healthcare access, as well as practical strategies for working successfully with diverse communities.

Credits 4

Prerequisites

FR101 or SP101. Open only to Nursing majors

GB 270 : Serving 21st-Century Populations within the Health Professions

This course focuses on meeting the needs of the increasingly diverse populations served by the U.S. healthcare system, with particular emphasis on the Hispanic and Francophone populations in the Jacksonville area. Basic medical Spanish and French will be studied, and students will build skills for conversational and written expression needed in health-related situations. The course will address both theoretical issues such as intercultural competency and barriers to healthcare access, as well as practical strategies for working successfully with diverse communities.

Credits 4

GB 367 : Research Add-On Course in French, German, Japanese or Spanish

Students enrolled in a course outside the Department of Global Studies that involves a major research project may earn credit for conducting research in French, German, Japanese or Spanish. The research should be related to a major paper and/or presentation in the other discipline. A student who wishes to conduct research for a project in another field using language sources will submit a credit request to both the professor of the research related course and to the Chair of the Department of Global Studies. The course level will be determined upon consultation with the language supervisor and the Chair of the Department of Global Studies.

Credits 1

GB 461 : Independent Study in Global Studies

Independent reading or study in an area of particular interest to the student engaged in Global Studies. The specifics of each project, which may be interdisciplinary, are planned in consultation with the supervising professor(s). May be repeated with different content.

Credits 1-4

GB 462 : Independent Study in Global Studies

Independent reading or study in an area of particular interest to the student engaged in Global Studies. The specifics of each project, which may be interdisciplinary, are planned in consultation with the supervising professor(s). May be repeated with different content.

Credits 1-4

GB 463 : Internship in Global Studies

Credits 1-4

GB 464 : Internship in Global Studies

Credits 1-4

GB 465 : Independent Research in Global Studies

Credits 1-4

GB 466 : Independent Research in Global Studies

Credits 1-4

GB 467 : Research Add-On Course in French, German, Japanese or Spanish

Students enrolled in a course outside the Department of Global Studies that involves a major research project may earn credit for conducting research in French, German, Japanese or Spanish. The research should be related to a major paper and/or presentation in the other discipline. A student who wishes to conduct research for a project in another field using language sources will submit a credit request to both the professor of the research related course and to the Chair of the Department of Global Studies. The course level will be determined upon consultation with the language supervisor and the Chair of the Department of Global Studies.

Credits 1

GB 480 : Honors Thesis in Global Studies

An honors thesis based on extensive research conducted abroad or at intercultural domestic sites, through authentic cultural documents, and, if appropriate, in foreign language(s). Students can take this course in the second semester of their senior year. The thesis will be defended orally (in English) at a public presentation open to the entire Illinois College community. The written thesis can be completed in English or in a second language, in consultation with the supervising professor(s).

Credits 2

Prerequisites

consent of the professor(s)

Health Care Management

Administered by the Business Department

Through completion of the Health Care Management Program requirements, students will develop professional knowledge and general critical thinking and problem-solving skills to manage the intricate regulatory and human components present in health care organizations. By studying aspects of economics, accounting, finance, human behavior, health care law, and health care strategic management, students will be prepared for various management positions within a health care organization.

Health Care Management

Major

A major in Health Care Management shall consist of 46 hours as follows:

(46 credit hours in major and minimum 7 hours in required prerequisite coursework) Minimum of 50% credit hours in major coursework must be taken at IC (24 credit hours)

Human Health Prerequisites:

(Minimum 7 credit hours)

Item #	Title	Credits
	Health Science course	4
PS 101	Introduction to Psychology	4.0
BI 215	Medical Terminology	2.0

Business Core

Item #	Title	Credits
EC 105	Principles of Economics	4.0
AC 231	Principles of Accounting	4.0
CO 381	Health Communication	4.0
PH 350	Biomedical Ethics	4.0
MG 491	Senior Capstone	4.0
	MG 463/MG 464	2

Health Care Management and Administration

Item #	Title	Credits
MG 120	Computer Information Systems	4.0
	MG 237 or MG 359	4
MG 364	Management	4.0
HM 352	Health Care Finance and Economics	4.0
HM 379	Health Care Law	4.0
HM 485	Health Care Strategic Management	4.0
	Total Credits	53

Health Science course

Elective Credits 4

General, microbiology and/or human biology; Chemistry with health focus; Kinesiology; Nutrition; or other relevant course approved by advisor

MG 463/MG 464

Elective Credits 2

Item #	Title	Credits
MG 463	Internship in Management	1.0-4
MG 464	Internship in Management	1.0-4

MG 237 or MG 359

Elective Credits 4

Health Care Management Course Descriptions

HM 352 : Health Care Finance and Economics

This course is an introduction to the study of the health care industry with focus on financial and economic considerations. Topics include understanding the structure of health care organizations, health insurance, health care financial management, and health care policy.

Credits 4

Prerequisites

[EC 105](#) and [AC 231](#)

HM 379 : Health Care Law

This course is designed to provide students with a general overview and introduction to the American legal system, both procedural and substantive, with an emphasis on civil law as it relates to healthcare professionals. Risk management, tort liability, criminal law, agency, contracts, ethics, civil procedure, privacy, end-of-life decisions, administrative regulation, and basic employment law are among the topics covered. Textbook readings are supplemented with online resources which include a sample professional liability complaint against a hospital, the videotaped deposition of a nurse, the videotaped closing argument in a medical malpractice case against four doctors, the Illinois civil jury instructions used in medical malpractice lawsuits and footage of an appellate argument. At the conclusion of each module, students are expected to apply their knowledge and problem-solving skills to answer questions based upon realistic scenarios, thereby bringing theory to life.

Credits 4

HM 485 : Health Care Strategic Management

The study of management and leadership within health care organizations Focus on the elements of the U.& health care system and approaches to strategic planning, human resources management, and leadership within health care organizations.

Credits 4

Prerequisite Courses

[MG 364: Management](#)

Health Sciences

Associate Professor Paul Hamilton - Coordinator**Associate Professor Bryan Arnold**

Associate Professor Miranda Karban

Assistant Professor Prasanna Acharya

The Health Sciences program is administered by the Biology department.

The Health Sciences major offers students opportunities to explore coursework in a range of disciplines related to human health. A major in Health Sciences consists of the Health Sciences Core, four directed electives, one

additional elective, the Health Sciences Senior Seminar, and requires a minimum of 49 credits. Health Sciences students will work with their academic advisors to select appropriate elective coursework. Depending on the career or graduate training plans of the student, additional courses may be necessary beyond the minimum required for the major. Students should plan to complete the three introductory science courses in their first two or three semesters. **Assistant Professor Gwendolyn Knapp**

A student wishing to double major in Health Sciences and another field may count no more than 12 credit hours in the major field towards both majors. A minor in health sciences is not offered; please see the Kinesiology and Exercise Science minor.

Health Sciences with 2-2 Nursing Bachelor of Science

ILLINOIS COLLEGE AND ST. JOHN'S SCHOOL OF NURSING

Students pursuing a career in nursing may complete the prerequisite courses at Illinois College in two years and apply for admission to St. John's School of Nursing for an additional two years.

End of First Two Semesters Checkpoint Requirements

At the end of their first two semesters, students wishing to continue in the program must have met the following checkpoint requirements:

- A. Complete the first-year program (Seminar, EN 121, and [CO 101](#)),
- B. Complete or test out of the mathematics course required for [CH 110](#) ([MA 133](#)),
- C. Complete [BI 110](#) (or [BI 107](#)), [CH 110](#), and [PS 101](#),
- D. Complete one additional required course (e.g., [SO 101](#), [PO 101](#), or 102-level language),
- E. Complete all courses required for the program with a final grade of C or above,
- F. Overall GPA of 3.0,
- G. Develop a plan for completing the required additional coursework, including all BLUEprint 3.0 requirements, in consultation with an advisor in the Biology Department or the Health Professions Advisor.
- H. Submit a personal statement outlining their current career plans.

Requirements after Completion of Fourth Year

After successful completion of the fourth year of study at St. John's, students will earn a Bachelor of Science degree in Health Sciences from Illinois College and a Bachelor of Science in Nursing from St. John's.

Students must complete the following at Illinois College to be eligible to start the coursework at St. John's:

Item #	Title	Credits
BI 110	Biological Investigation	4.0
BI 215	Medical Terminology	2.0
BI 245	Microbiology	4.0
BI 315	Anatomy and Physiology I	4.0
BI 316	Anatomy and Physiology II	4.0
CH 110	General Chemistry	4.0
EN 208	Persuasive Writing	4.0
KI 225	Nutrition	4.0
MA 102	Statistics for Citizens	4.0
MA 133	Precalculus	4.0
PH 115	Introduction to Logic and Critical Thinking	4.0
PO 101	U.S. Federal Government	4.0
PS 101	Introduction to Psychology	4.0
PS 276	Lifespan Development	4.0
SO 101	Introduction to Sociology	4.0
	Additional courses as needed to complete the BLUEprint general education program	

Students who plan to participate in the 2-2 Program in Nursing with St. John's School of Nursing are transfer students who transfer out of Illinois College but still receive a degree from Illinois College. Because they receive degrees from both Illinois College and St. John's School of Nursing, these students need to fulfill the general education requirements of both. In acknowledgement of the curricular constraints posed by this situation, the following accommodations will be made. They will be allowed only for those students in the 2-2 Program in Nursing who successfully complete the nursing program at St. John's School of Nursing.

- Students in the 2-2 Program in Nursing will complete their Ethical & Responsible Actions course in their major at St. John's.
- Students in the 2-2 Program in Nursing will complete their major and other Information Literacy courses at St. John's.
- Since participants in the 2-2 Program in Nursing attend Illinois College for only two years, they will fulfill their senior capstone course or experience at St. John's School of Nursing and will be considered to have completed all embedded experiences that are expected to be part of the capstone course.

While attending Illinois College, specific courses are recommended to be taken at IC for other BLUEprint 3.0 requirements that will also fulfill St. John's admission requirements. See the Illinois College Biology department chair for full requirements

Note: A student may need to take one or more summer courses to complete all Illinois College requirements before transferring to St. John's School of Nursing. Students who do not start their first year on this plan may choose to do the exchange as a 3-2 program.

Students who choose to complete the B.S. in Health Sciences during their third and fourth year at Illinois College must complete two additional directed electives, HS 402 Health Sciences Senior Seminar and a social science/humanities elective from the list on page 107.

Transfer and dual-credit courses may count towards completion of the program, but students must complete at least 32 credit hours at Illinois College to be eligible to transfer to St. John's School of Nursing. By the end of their second year, students will have completed at least 65 credits at Illinois College. After completion of the third and fourth year at St. John's, students will transfer back approximately 65 credits from St. John's.

Total Credits	58
----------------------	-----------

Additional courses as needed to complete the BLUEprint general education program

Gender and Women's Studies Certificate in Health Sciences Certificate

Students may complete coursework and an experiential learning component that focuses on the role of gender in their primary area of study of Biology, Criminal Justice, or Health Sciences. Students who wish to pursue the certificate should contact the Gender and Women's Studies coordinator and consult with the instructor in the course from their field of study. The following is required:

Two of the following courses:

Item #	Title	Credits
GW 101	Introduction to Gender and Women's Studies	4.0
GW 102	Introduction to Gender and Men's Studies	4.0
GW 110	Gender and Social Justice	4.0

Required Course:

Students must complete the prerequisite course(s) to enroll in HS 402. Students would choose a gender-related topic for the proposal project in HS 402.

Item #	Title	Credits
HS 402	Senior Seminar	4.0

Internship or Research Experience

An internship or research experience (2-4 credits) that allows students to gain experience in their discipline, with the academic component having students apply Gender Studies' texts, topics, and theories to their practical work.

Total Credits	14-16

Health Science

Major

The Health Sciences major offers students opportunities to explore coursework in a range of disciplines related to human health. A major in Health Sciences consists of the Health Sciences Core, four directed electives, one additional elective, the Health Sciences Senior Seminar, and requires a minimum of 49 credits. Health Sciences students will work with their academic advisors to select appropriate elective coursework. Depending on the career or graduate training plans of the student, additional courses may be necessary beyond the minimum required for the major. Students should plan to complete the three introductory science courses in their first two or three semesters.

A student wishing to double major in Health Sciences and another field may count no more than 12 credit hours in the major field towards both majors.

Health Sciences Core

[CH 110](#): Requires [MA 133](#) or equivalent.

Item #	Title	Credits
BI 110	Biological Investigation	4.0
CH 110	General Chemistry	4.0
PS 101	Introduction to Psychology	4.0
PS 276	Lifespan Development	4.0
BI 215	Medical Terminology	2.0
BI 315	Anatomy and Physiology I	4.0
BI 316	Anatomy and Physiology II	4.0

Directed Electives

In consultation with their advisors, students choose four electives at or above the 200-level from at least two different disciplines from the following list:

Item #	Title	Credits
BI 207	Molecular Genetics	4.0
BI 245	Microbiology	4.0
BI 342	Parasitology	4.0
CH 203	Organic Chemistry I	4.0
CH 211	Quantitative Analysis	4.0
KI 225	Nutrition	4.0
KI 335	Personal Wellness and Fitness	4.0
KI 340	Exercise Physiology	4.0
KI 232	Motor Development	4.0
KI 308	Prevention and Care of Athletic Injuries	4.0
NU 250	Nursing Fundamentals	4.0
PS 261	Neuropharmacology: Drugs and Behavior	4.0
PS 275	Child Development	4.0
PS 276	Lifespan Development	4.0
PS 312	Adolescent Psychology	4.0
PS 346	Abnormal Psychology	4.0
PY 225	College Physics I	4.0
PY 226	College Physics II	4.0

One additional social science/humanities elective selected from:

[SO 218](#), [SO 337](#): Requires [SO 101](#) Introduction to Sociology

Item #	Title	Credits
CO 226	Intercultural Communication	4.0
CO 381	Health Communication	4.0
EN 145	Literature and Science	4.0
HI 234	Sex, Science and the Female Body	4.0
PH 115	Introduction to Logic and Critical Thinking	4.0
RE 104	Christianity and Diversity	4.0
RE 200	Interfaith Studies	4.0
SO 218	Social Problems	4.0
SO 337	Aging and the Life Course	4.0

Capstone

Complete either HS 402 Senior Seminar or the Interdisciplinary Capstone IS 485: A Liberal Arts Survival Guide or BI 404 for students who have conducted research with a faculty member in biology. A student who is a double major and takes the associated capstone course for their second major may waive the requirement for a separate capstone for the health sciences major as long as they take an additional directed elective in Health Sciences (see list above).

Item #	Title	Credits
HS 402	Senior Seminar	4.0
IS 485	A Liberal Arts Survival Guide	4.0
BI 404	Research Experience Capstone	3.0-4
Total Credits		49

Health Sciences Course Descriptions

HS 402 : Senior Seminar

The Health Sciences Senior Seminar features discussion of primary literature related to human health and disease with emphasis on critical analysis of data and research articles. The seminar requires completion of a presentation of a topic related to human health and disease based on published research, and a written literature review and research proposal.

Credits 4

History

Professor Jenny Barker-Devine

Professor Robert C. Kunath

Assistant Professor Brittney Yancy

History courses offer understanding of the development of civilization; appreciation of its varied social, economic, political, and cultural components and their historical interaction; and basic familiarity with historical methods and reasoning. These courses have vocational value for students preparing for the legal, ministerial, journalistic, library, and teaching professions and for others intending to enter governmental service.

Students must complete the major or minor in history with a grade point average of 2.0 or better for courses in the discipline. No courses in which a student earns below a "C-" will be counted as meeting major or minor course requirements.

History

Major

Required Courses

History majors must complete a minimum of 37 semester hours (nine courses and a 1-hour proseminar) in the discipline, including at least two and no more than three courses at the 100-level, HI 200, HI 300, and HI 485. Students will also complete at least one 300+ course in United States history and one 300+ course in non-U.S. history. It is expected that students will have attained junior standing before enrolling in 300-level courses. Majors are strongly encouraged to pursue internship opportunities and off-campus study. Some departmental funds may be available to support these activities.

Concentration in Public History

Students may choose a concentration in Public History, which consists of three courses and an internship. The three courses will replace elective courses in the History major. Students with a particular interest in careers in historical administration are also encouraged to pursue a minor in Entrepreneurship, as skills in accounting and finance are essential in maintaining historic and cultural sites. The concentration requirements are three from the following: HI 276, HI 277, HI 279, and HI 379.

The concentration requirements are three from the following:

Item #	Title	Credits
HI 276	Museum Studies	4.0
HI 277	Public History	4.0
HI 279	Archival Methods	4.0
HI 379	Digital History	4.0

Honors

Honors in History can be earned by majors who have a minimum GPA of 3.5 in History and write an exceptional capstone research paper, as judged by the members of the department. Students who write an outstanding essay but whose GPA is below the threshold for honors will be awarded Capstone Essay with Distinction.

Total Credits	37
----------------------	-----------

African American Studies

Minor

African American Studies offers an interdisciplinary approach to the varied social, economic, political, literary, artistic, and cultural aspects of the African American experience. This minor is open to all students and can be tailored to meet a student's intellectual and professional goals. These courses benefit anyone wishing to incorporate concepts of diversity, equity, and inclusion into their major areas of study.

Because this is an interdisciplinary minor, only two courses from one discipline will count toward a minor in that field. For example, a student minoring in both African American Studies and History could take four history courses for African American Studies, but only two would count toward a History minor.

Required Course

Item #	Title	Credits
EN 176	Introduction to African American Studies	4.0

Five electives from this list:
(one must be either HI 211 or HI 212):

Item #	Title	Credits
EN 373	African-American Literature	4.0
GB 230	The Caribbean and the African Diaspora	4.0
HI 211	The African American Experience I	4.0
HI 212	The African American Experience II	4.0
HI 245	History of Sub-Saharan Africa	4.0
HI 313	American Slavery	4.0
HI 341	Social Movements in U.S. History	4.0
RE 158	Christianity From the Margins	4.0
SO 202	Race and Ethnicity	4.0
Total Credits		24

History

Minor

Required Courses

A minor may be earned in History by completing a minimum of five courses, including three courses at the 200-level or above.

Total Credits	20
----------------------	-----------

History Teaching Licensure

Teaching Licensure

History students interested in earning a teaching license should plan to double major in history and education and student teach their final semester. These students should enroll in ED 101 their first semester or as soon as possible thereafter and work closely with their advisors in both departments to ensure all State of Illinois requirements for licensure are met.

History Course Descriptions

HI 101 : United States History to 1877

A survey of the social, economic, political, and constitutional development of the United States through the Reconstruction period.

Credits 4

HI 102 : United States History since 1877

A continuation of 101 looking at developments since Reconstruction.

Credits 4

HI 111 : World Civilization I

A survey of the development of world civilizations from antiquity to approximately 1500 A.D. Readings will include many historical documents.

Credits 4

Semester Offered

[Offered fall semesters](#)

HI 112 : World Civilization II

A general survey of the development of world civilizations since approximately 1500 A.D., emphasizing the rise of Europe and the "West" to world power. Readings will include many historical documents.

Credits 4

Semester Offered

[Offered spring semesters](#)

HI 134 : Sex and Sexuality in America

This course explores how concepts of gender, sex, and sexual identity have shifted over time and shaped American history. From the pre-Colonial period to the present, we will consider how Americans understood sexual orientation and gender, as well as masculinity, femininity, and nonbinary identities across diverse cultures. Our goal is to connect these concepts to the broader intersections of social, economic, and political expectations over time.

Credits 4

HI 140 : The Sixties in America

The 1960s represent a period of tremendous social, political, economic, and cultural transitions in U.S. History. We will study the historical events that unfolded during this decade, as well as their precedents and lasting effects on the modern United States. We will discuss the contentious issues Americans argued about during the 1960s, and perhaps argue about them again: Cold War, civil rights, Vietnam War, women's liberation, student movements, drugs. Through course readings, lectures, films, music, and web exhibits, students will learn to critically evaluate historical sources and arguments.

Credits 4

HI 181 : Gods, Monsters, and Sex in East Asia

(See RE 181.)

Credits 4

HI 200 : History as High Adventure

This proseminar introduces new and prospective History majors to the art of doing history, asking historical questions, and employing research methods. Readings and discussions will better equip students to succeed in 200- and 300-level history courses and will provide a strong foundation on which to prepare for their work on the capstone essay. The course is open to all interested students, but declared majors will have priority for registration and minors are encouraged to participate. HI 200 is required for all History majors.

Credits 1

Semester Offered

[Offered fall semesters](#)

HI 211 : The African American Experience I

This course examines the experiences of African Americans from 1619 to 1877/Reconstruction Era. This course presents African American history both as an integral part of American history, and as a unique subject of historical investigation.

Credits 4

HI 212 : The African American Experience II

This course examines the experiences of African Americans since the Reconstruction Era. This course presents African American history both as an integral part of American history, and as a unique subject of historical investigation.

Credits 4

HI 223 : Japanese History and Religion

Japanese history and religion are intimately intertwined; indeed, it is impossible to understand one without the other. This course is intended to assist you in understanding Japan in the context of its history and major religious traditions. It will cover the sweep of Japan's story from its archaeological and mythical beginnings to today. We will explore the development of its primary religious traditions, Buddhism and Shinto, as well as other religions such as Confucianism that play an important part in Japanese history and thought. Readings will include texts by Japanese and non-Japanese alike. No previous knowledge of Japan is assumed. (See RE 223.)

Credits 4

HI 224 : China: History and Religion

This course is intended to assist you in understanding contemporary China in the context of its history and major religions. It will cover the sweep of China's story from its beginnings to the 21st century. Traditions treated will include ancient beliefs and practices, Confucianism, Daoism, Buddhism, and modern political ideologies such as Maoism. Readings will include texts by Chinese and non-Chinese alike. No previous knowledge of China is assumed. (See RE 224.)

Credits 4

HI 231 : Women in U.S. History

From Pocahontas to Hillary Clinton, this broad survey provides an overview of women's intellectual, political, literary, and material contributions to American society, from the colonial period to the present. This course also offers an introduction to theories of race, class, and gender in historical inquiry.

Credits 4

HI 234 : Sex, Science and the Female Body

This course investigates intimate representations of women's bodies and social constructions of gender throughout American history, in fields such as education, entertainment, and medicine. Students will gain an understanding of how gendered identities and images evolve over time and play a significant role in ordering our society. Embedded within this course are overviews of theories related to gender, science and technology, embodiment, and cultural identities.

Credits 4

HI 245 : History of Sub-Saharan Africa

In this course, we will examine the continent of Africa and its vital place in world history. This class will examine the social, cultural, intellectual, political, and economic happenings that aided in forming the vibrant, diverse, and real history of Africa. Utilizing a variety of sources (written texts, films, art, etc.), you will learn to analyze the material and form supported arguments in class discussions and your writings.

Credits 4

HI 254 : Ordinary People and War: Germany, 1900 to Present

Germany was at the center of the three most destructive wars in history: World War I, World War II, and the Cold War. This course will cover the history of Germany over those times as seen through the eyes of common people: German students on the front in World War I, a small German town experiencing the takeover by the Nazis from the late 1920s to the end of World War II, a sister and brother determined to resist the Nazis, and men and women in Communist East Germany betrayed to the secret police by their friends and even their spouses. We will also examine how Germany responded to its defeat and occupation, and how nationalist movements are rising again in Germany.

Credits 4

HI 256 : War to end all Wars: World War I

Selected topics in the political, cultural, and intellectual history of Germany between 1870 and the present. Please see instructor for specific topic.

Credits 4

Notes

(Pending approval)

HI 262 : Food and the Environment in US History

In 1782, Thomas Jefferson wrote, "Those who labor in the earth are the chosen people of God," and declared that democracy could only thrive through the influence of farmers and small town folks. At that time, 90 percent of Americans lived on farms. Today that number stands at less than 2 percent. Yet Jefferson's ideas, and others like them, have had a tremendous influence on the history of the United States, even as it became an increasingly urban, industrial nation. This course explores the social and political aspects of rural America from the colonial period to the present, covering such topics as daily life in colonial America, the institution of slavery, Westward expansion, and the current decline of small towns across the country.

Credits 4

HI 272 : Civil War in the United States

This course is designed to introduce students to the history of the American Civil War and its profound impact on the United States. It focuses on the period from the nullification crisis of 1830 through the end of Reconstruction in 1877 and takes as its central theme, an in-depth exploration of the concept of freedom for nineteenth-century Americans. To that end, we will discuss national debates concerning slavery, the politics of the 1850s, and the creation of Southern nationalism, paying particular attention to concepts of freedom and nationality. It also examines the military, economic, and social aspects of the war, the process of emancipation, and the role of African Americans in these events. Finally, this course concludes with an exploration into the Reconstruction era and its legacy for race and gender issues, as well as politics and economics.

Credits 4

HI 276 : Museum Studies

Why do we have museums? What do museums do? Are museums relevant or necessary in a digital world? This course will engage students with a foundation in the museum field, exploring the role of museums in society today by exploring their past and contemplating their future. Students will discover the behind-the-scenes of museums, gaining insight into current practices and debates from class discussions, visiting experts, hands-on class activities, and site visits. Students will gain an understanding of the range of skills and expertise needed in this varied career field by investigating the history and philosophy of museums; the social, economic, and political context that shapes museums; and the main operating functions of museums - collection and care of objects, exhibits, interpretation, education, and governance.

Credits 4

HI 277 : Public History

How is the past remembered? How do we get our ideas about history outside the traditional classroom? How do venues like museums shape how we understand past? Public history, or applied history, refers to history that you find in public spaces outside of the pages of academic journals and beyond college walls. We encounter examples of public history every day through exhibits, performances, walking tours, visits to historic sites, books, film, etc. This introductory course familiarizes students with examples of public history, with a focus on community engagement, unique hands-on experiences, and service hours with community partners. Through course readings, activities, guest speakers, and site visits, students learn how the study of history may be applied in public fields. Potential community partners include the Findley Congressional Office Museum, the Khalaf A1 Habtoor Archives at Illinois College, the Prairie Land Heritage Center, the Governor Duncan Mansion, the Heritage Cultural Center Museum, etc.

Credits 4

HI 279 : Archival Methods

This course takes students into the archives to explore both practical archival methodologies, as well as the ethical, political, and historical aspects of creating and maintaining archives in public and private institutions. In addition to completing course readings and discussions, students will work in the Khalaf A1 Habtoor Archives at Illinois Colleges, gaining hands on experience in accessions and assessment of archival materials, processing collections, appraising rare books, and providing patron access.

Credits 4

HI 291 : Reason and Terror: The Enlightenment, the French Revolution, and the Birth of Modern Politics

In the 1700s, writers and philosophers in Europe championed a new movement called the Enlightenment, dedicated to religious tolerance, individual liberty, and human rights. But the 1700s ended with the French Revolution, the Reign of Terror, and wars of unprecedented destructiveness. How did that happen? Is there a connection between Enlightenment and violence, reason and terror? History 291 seeks an answer by reading major Enlightenment writers and French Revolution documents to search for connections between the Enlightenment and the Revolution.

Credits 4

HI 292 : Modern Europe since 1789

Survey of modern European history from the French Revolution to the present, focusing especially on the theme of the tension between the rise of democracy and the development of repressive and totalitarian governments in the nineteenth and twentieth centuries. Special attention will be given to the French Revolution, the Industrial Revolution, the rise of movements seeking political, social, and legal equality for workers, minorities, and women, the rise and decline of Imperialism, and the rise of and resistance to Fascism, Nazism, and Soviet Communism. The readings and assignments will emphasize how cultural products (art, music, and literature) express the experiences of individual men and women in these turbulent centuries.

HI 300 : Making History

What do historians do? This course offers students an introduction to historiography — the history of historical writings and methods. Students will learn the major approaches to writing history since 1700, concentrating especially on the period since 1900, and students will apply their knowledge by developing a personal historical research project.

Credits 4

Semester Offered

[Offered spring semesters](#)

HI 306 : The Gilded Age and Progressive Era

This course will explore the last decades of the 19th century coined by Mark Twain as the Gilded Age. Rather than an age of prosperity and positive growth, Twain believed the period was besmirched with corruption and inequality—particularly enormous wealth for the few, and massive poverty for the vast majority of the American population. This class examines the social inequalities of this period by focusing on race, class, and gender.

Credits 4

HI 313 : American Slavery

Covers the history and development of slavery and the process of emancipation in the United States. Examines the economic, social, legal, political, and cultural characteristics of American slavery, how these evolved, and how the institution grew in the Atlantic world. The South became the primary location for the development of slavery in the U.S., although other states and colonies actively shaped the institution as well, and the history of slavery in the South followed a different trajectory from other societies in the Americas. Also explores the development of emancipation from the colonial period to the end of the Civil War, including self liberation, slave resistance, compensated emancipation, the anti-slavery and abolition movement, and colonization projects.

Credits 4

HI 325 : Love and War in Ancient Greece and Rome

The Greeks and Romans created models of politics, culture, and life that still influence societies. This course focuses on reading primary sources by Greek and Roman authors to understand their views of war and death, love and sex, men and women, and power and corruption. Among the readings are classics that have endured for more than 2,000 years, which range from the tragedy of Achilles facing death in Homer's Iliad, to the comedy of Greek women stopping a war with a sex strike in Aristophanes' Lysistrata, and to the epic of the founding of Rome and its human cost in Virgil's Aeneid.

Credits 4

HI 341 : Social Movements in U.S. History

An exploration of social movements throughout U.S. history. This course explores the roots of varied movements in economic, social, and political conditions, and the effects of reform efforts. Consult instructor for specific topic. Prior completion of [HI 101](#) or 102, or junior standing recommended.

Credits 4

HI 358 : The Holocaust

An introduction to Nazi Germany's systematic attempt to murder the Jews of Europe. Special focus on the mentality of the killers and issues of moral responsibility. Readings will include many documents from the period

Credits 4

Prerequisites

junior standing or consent of instructor

Semester Offered

[Offered spring semesters](#)

HI 379 : Digital History

This course explores the applications of digital tools to public history. Students will consider the ethical and methodological challenges of digital history, as well as the various tools of the trade, including databases, websites, crowdsourcing, text analysis, GIS, and digitization hardware. Integrated with the existing resources in Schewe Library, including the Digital Learning Center, the GIS Lab, and the Kahlaf A1 Habtoor Archives, students will complete hands-on projects that may include digitization projects, the creation of a website or mobile app, managing a collection on SharedShelf, or completing a research project using the GIS Lab.

Credits 4

HI 420 : Seminar in History

Seminar devoted to special topic or theme, with individual research by participants

Credits 4

HI 463 : Internship in History

Students serve as interns in such institutions as the Illinois State Museum in Springfield, Illinois, for approximately 120 hours and keep a journal of their work.

Credits 1-4

HI 464 : Internship in History

Students serve as interns in such institutions as the Illinois State Museum in Springfield, Illinois, for approximately 120 hours and keep a journal of their work.

Credits 1-4

HI 465 : Independent Research in History

Credits 1-4

HI 466 : Independent Research in History

Credits 1-4

HI 485 : Senior Seminar

A capstone seminar bringing together all Senior majors to write senior essays on topics of their own choosing, advised by a member of the History faculty. This is a required senior experience and is open only to history majors.

Credits 4

Semester Offered

Offered fall semesters

Interdisciplinary Studies

Interdisciplinary Studies Course Descriptions

IC 102 : Leveling Up in the Library

This course will teach students the ins and outs of college-level research. It will ensure students are prepared to meet their professors' research expectations when it comes to preparing papers, presentations, speeches, and other projects. Students will learn a variety of searching techniques and information evaluation strategies. Taught by a librarian who will work closely with students throughout the course. Enrolls concurrently with EN 121 but may optionally be taken by transfer students and students enrolled in EN 208.

Credits 1

IC 103 : First Year Foundations

The subject of this class is SUCCESS...what success is for students personally and how students can achieve it. In the coming weeks, students will learn many proven strategies for creating greater academic, professional and personal success. We will use guided journal writings to explore these strategies.

Credits 1

IC 121 : Career Exploration in Liberal Arts

The purpose of this course will be for students to begin to understand how their career exploration can be enhanced by their liberal arts experience. Students will utilize various methods of self-discovery to help them identify potential majors and career directions that might align with their skills, qualities, and interests, while also exploring what IC has to offer through its general education curriculum.

Credits 1

IC 230 : TSS: Transfer Seminar

Optional for transfer students with 15 or more credits accepted at Illinois College.

Credits 4

IC 421 : Graduate READY: Career Strategies

Students will learn how to transition from the college campus to a workplace environment through this interactive course. Within a supportive learning community, students will develop strategies from executing a successful job search to beginning their entry-level job or graduate program. Course topics in preparing for the role as new young professional include determining personal strengths through self-reflection and assessment, locating and applying for available positions, successfully interviewing, and identifying workplace "rules of the game."

Credits 2

Interdisciplinary Studies

Interdisciplinary Studies Course Descriptions

IS 110 : Exploring American Culture

This course provides a general overview and exploration of American culture(s) and what it means to be an American. It is designed as an introduction to the values, traditions, and customs in American culture, acquainting students with characteristics of American society in general, and with the history and aspects of everyday life in west central Illinois specifically. Consideration is also given to the diversity of American culture(s) in other regions of the country. In addition to the regular classroom experience, this course includes field-based activities through which students experience first-hand various dimensions of living in this region. Recommended for, and enrollment limited to, international students who are new to Illinois College; may not be repeated. 4 credits.

Semester Offered

Offered fall semesters

IS 201 : Travel Study Program within the United States

This course number designates academic credit in connection with a BreakAway trip within the United States. BreakAways: Credits vary (1-3), depending on the length of the trip and hours of preparatory course sessions. Students register for a BreakA way trip during the semester in which the trip and/or preparatory course takes place. (December-January BreakAways require Fall registration for the course; May-June BreakAways require Spring registration for the course.)

Credits 1-3

Prerequisites

application to participate in a BreakAway and instructor approval

IS 202 : Travel Study Abroad Program

This course number designates academic credit in connection with either an international BreakA way trip or study abroad. BreakAways: Credits vary (1-3), depending on the length of the trip and hours of preparatory course sessions. Students register for a BreakA way trip during the semester in which the trip and/or preparatory course takes place. (December-January BreakAways require Fall registration for the course; May-June BreakAways require Spring registration for the course.) Study abroad: For Fall or Spring study abroad, a student registers at IC for a block of 15 credits. After receipt of the transcript from the program abroad, the 15-block credit is replaced by individual course titles with their respective credits. Summer study abroad credits vary according to program.

Credits 1-15

Prerequisites

BreakAways: application to participate in a BreakAway and instructor approval. Study abroad: application for study abroad and approval by the Committee on Study Abroad and BreakAways, [IS 203](#), and [IS 204](#) (upon return)

IS 203 : Introduction to Cross-Cultural Experiences

This course constitutes the first of an interdisciplinary two-course sequence related to study abroad. This course focuses on getting ready for departure and is specifically designed for students who have been approved for study abroad. During the semester prior to their anticipated term abroad, students develop a mindset and skills that will help them make the most of their experience outside the United States. Required for study abroad participants.

Credits 1

Semester Offered

Offered every semester

IS 204 : Integrating Cross-Cultural Experiences

This course constitutes the second of an interdisciplinary two-course sequence related to study abroad. This part focuses on integrating the experience of students returned from abroad into the remainder of their undergraduate career, anticipating graduation, applying to graduate school, or searching for a job. Required for students returned to campus from study abroad.

Credits 1

Semester Offered

Offered every semester

IS 270 : Latino Community Tutoring

Students tutor Spanish-Speakers in the community on a weekly basis, helping them improve their use of English. Their work helps Spanish-speakers in the local community gain the language and intercultural skills to integrate into society. Through working with Spanish-speakers, students learn about local Hispanic cultures. Through training and practice, students gain basic skills in second-language tutoring. Class is repeatable.

Credits 1

IS 301 : IC Explorers Internship

The IC Explorers program partners agencies throughout the state of Illinois with Illinois College interns who engage in learning opportunities that encourage them to put their academic knowledge to work. Students who are chosen to participate in the program complete a three-credit internship as a requirement of their internship.

Credits 1-6

IS 302 : Summer Internship

Credits 1-4

IS 400 : Internship: Washington Center Program

Training in a number of disciplines through internships in Washington, D.C., under the auspices of the Washington Center Program. As part of the program, students take one, sometimes two courses parallel to the internship experience. For Fall or Spring internships, a student registers at IC for a block of IS credits. After receipt of the transcript from TWC, the 15-block credit is replaced by individual course and internship titles with their respective credits. Summer internship credits vary. Open to juniors and seniors.

Credits 1-15

Prerequisites

application for off-campus study and approval by the Committee on Study Abroad and BreakAways

IS 461 : Independent Study in Interdisciplinary Studies

Credits 1-4

IS 462 : Independent Study in Interdisciplinary Studies

IS 463 : Internship in Interdisciplinary Studies

Credits 1-4

IS 464 : Internship in Interdisciplinary Studies

Credits 1-4

IS 465 : Independent Research in Interdisciplinary Studies

Credits 1-4

IS 466 : Independent Research in Interdisciplinary Studies

Credits 1-4

IS 467 : Summer Research**Credits** 1-4**IS 485 : A Liberal Arts Survival Guide**

This capstone course is designed to look explicitly at how a liberally educated college graduate can apply the core ideas, practices, insights, and skills from her or his college education to the particular challenges of contemporary adult life. The course focuses on how the interdisciplinary nature of a good liberal arts education is relevant - and even necessary - for success in the modern world. We will examine books, articles, films, podcasts and multimedia sources reflecting important current ideas, perspectives, and challenges, engaging in a critical analysis of what it means to be a citizen in our modern world. It fulfills the BLUE print Transformations requirement.

Credits 4

Japanese

Japanese Course Descriptions

JP 101 : Japanese for Global Citizens 1

This is the first semester of the first-year study of Japanese language. It introduces students to Japanese language and culture centering on conversation that deals with life situations. It also provides students with the language skills and cultural knowledge to travel on their own to Japan. Two phonetic writing systems (hiragana and katakana) are introduced.

Credits 4**JP 102 : Japanese for Global Citizens 2**

This is the second semester of the first-year Japanese. Students receive further instruction in basic skills and culture that deals with life situations. It also provides students with the language skills and cultural knowledge to travel on their own to Japan. The kanji writing system is introduced.

Credits 4**Prerequisites**

[JP 101](#) or equivalent or consent of the instructor

JP 111 : Japanese for Global Citizens 3

This is the first semester of the second-year Japanese. Students acquire further basic grammar that enables them to communicate in a more complex manner. Students also acquire better understanding of Japanese culture through conversation and text. This course also provides students with the language skills and cultural knowledge to travel on their own to Japan.

Credits 4**Prerequisites**

[JP 102](#) or equivalent or consent of the instructor

JP 112 : Japanese for Global Citizens 4

This is the second semester of the second-year Japanese. Students acquire further basic grammar that enables them to communicate in an increasingly sophisticated manner. Students also acquire better understanding of Japanese culture through conversation and text. This course also provides students with the language skills and cultural knowledge to travel on their own to Japan.

Credits 4**Prerequisites**

[JP 111](#) or equivalent or consent of the instructor

Kinesiology and Exercise Science

Assistant Professor Prasanna Acharya

Instructor Eric McClarey

Instructor Alex Wolfe

Part-time Instructor Terry Geirnaeirt

Part-time Instructor Ken Mansell

Kinesiology and Exercise Science

Major

The Kinesiology Major at Illinois College offers students an opportunity to explore the human physiological response to movement and exercise through coursework that includes human anatomy, biomechanics, nutrition, strength and conditioning, and kinesiology. This major will prepare students for careers or graduate work in athletic training, exercise physiology, physical therapy, physical education, and many other professions.

The two concentrations within the kinesiology major each require the kinesiology core coursework, electives, and a capstone experience. A detailed summary of the course requirements for the core and each concentration is provided below.

Core Courses

Item #	Title	Credits
	BI 110 or BI 107	4
KI 201	Introduction to Kinesiology	4.0
KI 340	Exercise Physiology	4.0
KI 341	Biomechanics	4.0

Exercise Science Concentration

This concentration is well suited for students preparing for careers in a wide range of careers in wellness and health promotion fields as well as students preparing for graduate work in Athletic Training, Exercise Science, and Exercise Physiology.

Exercise Science Concentration electives (26 credit hours)

Item #	Title	Credits
	Students must complete one of these two-credit experiences	2
	Students will choose five electives with the guidance of their advisors:	20
	Capstone for Exercise Science Concentration	4

Physical Education Concentration

This concentration is intended for students pursuing PE teacher licensure. Students in this concentration should double major in kinesiology and education.

These students should enroll in ED 101 their first semester or as soon as possible thereafter and work closely with their advisors in both departments to ensure all State of Illinois requirements for licensure are met.

Physical Education concentration required courses (22 credit hours plus capstone/student teaching)

Item #	Title	Credits
KI 211	Foundations of Physical Education	4.0
KI 214	Teaching Physical Activities	4.0
KI 232	Motor Development	4.0
KI 310	Adaptive Physical Education	4.0
KI 332	Applied Motor Learning	2.0
KI 335	Personal Wellness and Fitness	4.0
	Capstone for Physical Education Concentration	4
	Total Credits	38-42

BI 110 or BI 107

Elective Credits 4

Item #	Title	Credits
BI 110	Biological Investigation	4.0
BI 107	Human Biology	4.0

Students must complete one of these two-credit experiences

Elective Credits 2

A student can complete both but only one counts towards the major.

Item #	Title	Credits
KI 101	First Aid and CPR/AED	2.0
KI 463	Internship in Kinesiology and Exercise Science	1.0-4

Students will choose five electives with the guidance of their advisors:

Elective Credits 20

Item #	Title	Credits
KI 214	Teaching Physical Activities	4.0
KI 225	Nutrition	4.0
KI 232	Motor Development	4.0
KI 240	Principles of Strength Training and Conditioning	4.0
KI 308	Prevention and Care of Athletic Injuries	4.0
KI 335	Personal Wellness and Fitness	4.0
KI 383	Exercise Testing, Evaluation, and Prescription	4.0
BI 315	Anatomy and Physiology I	4.0
BI 316	Anatomy and Physiology II	4.0
CH 110	General Chemistry	4.0
MG 305	Athletic Administration	4.0
PY 225	College Physics I	4.0

Capstone for Exercise Science Concentration

Elective Credits 4

Four hours chosen from

Item #	Title	Credits
HS 402	Senior Seminar	4.0
BI 401	Research and Analysis I	2.0
BI 402	Research and Analysis II	2.0
BI 404	Research Experience Capstone	3.0-4
IS 485	A Liberal Arts Survival Guide	4.0

Capstone for Physical Education Concentration

Elective Credits 4

Minimum four hours; normally met through student teaching.

Kinesiology and Exercise Science

Minor

Required Courses

Item #	Title	Credits
BI 107	Human Biology	4.0
KI 201	Introduction to Kinesiology	4.0

Electives

Students planning to pursue graduate work in the health professions and/or special certifications (Physical Therapy, Athletic Trainer, etc.) should take BI 315 and BI 316 and should strongly consider majoring in Biology with a concentration in Physiology or completing the full Kinesiology and Exercise Science major.

Item #	Title	Credits
BI 315	Anatomy and Physiology I	4.0
BI 316	Anatomy and Physiology II	4.0
KI 225	Nutrition	4.0
KI 232	Motor Development	4.0
MG 305	Athletic Administration	4.0
KI 308	Prevention and Care of Athletic Injuries	4.0
KI 335	Personal Wellness and Fitness	4.0
KI 340	Exercise Physiology	4.0
KI 463	Internship in Kinesiology and Exercise Science	1.0-4
KI 464	Internship in Kinesiology and Exercise Science	1.0-4
Total Credits		24

Kinesiology and Exercise Science Course Descriptions

KI 101 : First Aid and CPR/AED

The purpose of this course is to teach students how to recognize, assess, and respond to emergency situations. Students will learn how to provide first aid and CPR, as well as administer an AED. Students can choose to become certified at the end of the course.

Credits 2

KI 201 : Introduction to Kinesiology

The purpose of this course is to introduce the exciting field of study that is kinesiology. This course lays the foundation for studying the many aspects of human movement, performance, and health. Students will explore topics such as career paths, anatomy, biomechanics, exercise physiology, and movement terminology.

Credits 4

Semester Offered

[Offered spring semesters](#)

KI 211 : Foundations of Physical Education

This is a study of significant concepts of physical education with emphasis on history, current issues and trends in the field. Students learn about and gain experience teaching locomotor and manipulative skills. May include relevant field placement/trips.

Credits 4

Semester Offered

[Offered fall semesters](#)

KI 214 : Teaching Physical Activities

This course teaches how to guide the dynamic interaction between individuals and within groups engaged in activities for personal and social development. It applies techniques, skills, and strategies involved in individual and team sports, fitness activities and dance. The course includes units on team building and ethical decision-making in physical education and sport settings.

Credits 4

KI 225 : Nutrition

The primary focus of this course is to provide the student with a broad foundation of basic and advanced nutritional concepts such that they will acquire an increased understanding of the biological implications which govern the study of nutrition. Topics include the action, interaction, and balance of food constituents as they pertain to human health and disease.

Credits 4

Prerequisites

BI107 or [BI 110](#)

Semester Offered

[Offered every fall semester](#)

KI 232 : Motor Development

This course is intended to introduce students to changes in motor skills (like walking, reaching and grasping, etc.) across different stages of the human lifespan (from infancy to older adulthood), the processes that underlie these changes factors that affect them. Further, this course also discusses different theoretical perspectives that are relevant to understand human motor development.

Credits 4

Semester Offered

[Offered spring semesters](#)

KI 240 : Principles of Strength Training and Conditioning

A study of the physiological, psychological, and practical aspects of strength training and cardiovascular conditioning.

Credits 4

Prerequisites

[BI 107](#) or [BI 315](#) or consent of the instructor

KI 308 : Prevention and Care of Athletic Injuries

This course includes how to follow safety practices, principles of emergency first aid and equipment maintenance procedures. It also involves the practice and study of the recognition of athletic injuries and rehabilitation of these injuries.

Credits 4

KI 310 : Adaptive Physical Education

This course explores the techniques and methods of involving children with physical disabilities in physical education activities. May include relevant field placement/trips.

Credits 4

KI 332 : Applied Motor Learning

This is a required course for Kinesiology and Exercise Science majors who choose the physical education track. It will build on the concepts of [KI 232](#) (Motor Development) by directly applying them to the physical education setting. Topics include discrete vs continuous skills, locomotor, nonlocomotor, and manipulative skills, gross and fine skills, and open and closed skills. Other topics are stages of motor learning, whole vs part learning, and types of feedback specific to teaching.

Credits 2

KI 335 : Personal Wellness and Fitness

An introduction to nutrition, conditioning, aerobic fitness, personal fitness assessment, and stress management.

Credits 4

Prerequisites

BI 107 or BI 110

Semester Offered

Offered alternate fall semesters

KI 340 : Exercise Physiology

An analysis of muscle function/biomechanics, and study of the responses and adaptations of the human body during exercise.

Credits 4

Prerequisites

BI 107 or BI 110 and KI 201

Co-Requisite Courses

BI 315: Anatomy and Physiology I

Semester Offered

Offered alternate spring semesters

KI 341 : Biomechanics

This course examines the concepts of body mechanics as they are applied to movement. Students will investigate how forces act on the body and how the body creates force for exercise and sport performance. Topics include internal/external kinetics, linear and angular motion, and kinematics.

Credits 4

Prerequisites

MA 133 and either KI 201 or BI 315

KI 383 : Exercise Testing, Evaluation, and Prescription

This course explores the practical application of testing and measurement of personal fitness. It requires students to develop and analyze assessment tools for use in the weight room as well as to know and understand current scholarly research on this area.

Credits 4

KI 461 : Independent Study in Kinesiology and Exercise Science

Credits 1-4

KI 462 : Independent Study in Kinesiology and Exercise Science

Credits 1-4

KI 463 : Internship in Kinesiology and Exercise Science

Credits 1-4

KI 464 : Internship in Kinesiology and Exercise Science

Credits 1-4

KI 465 : Independent Research Kinesiology and Exercise Science

Leadership Studies

Administered by the History, Political Science, Philosophy, and Religion Department

Leadership Studies

Minor

After completing this minor, students will articulate their approach to leadership, the social contexts that have shaped them as leaders, and the ethical values they bring to leadership; demonstrate understanding of the complex dynamics of leadership in various group settings, ranging from small groups of peers to larger social organizations; demonstrate understanding of pressing social issues facing contemporary democratic societies; and evaluate the impact of community engagement on themselves and their community.

At the center of the minor are two required courses, LD 201 Introduction to Leadership Theory and LD 205 Ethical Leadership in Democracy. These two courses introduce students to the theories and practices of leadership and focus on the formation of ethical leaders committed to working within and for a vibrant democracy. Students will select three more courses, with one required from each of the following areas below:

Required Courses

Item #	Title	Credits
LD 201	Introduction to Leadership Theory	4.0
LD 205	Ethical Leadership in a Democracy	4.0

Diversity and Social Justice in Leadership

Choose one course:

Item #	Title	Credits
ED 203	Multicultural Issues and Social Justice in Education	3.0
GW 110	Gender and Social Justice	4.0
HI 341	Social Movements in U.S. History	4.0
RE 200	Interfaith Studies	4.0
SO 206	Social Stratification	4.0
SO 218	Social Problems	4.0

Ethics and Self-Awareness in Leadership

Choose one course:

Item #	Title	Credits
CO 225	Interpersonal Communication	4.0
CO 226	Intercultural Communication	4.0
CO 315	Communication Ethics	4.0
MG 315	Business Ethics	4.0
PS 241	Personality and Individual Differences	4.0

Group Dynamics in Leadership

Choose one course:

Item #	Title	Credits
CO 353	Communication and Leadership in Teams	4.0
MG 237	Organizational Behavior	4.0
MG 485	Strategic Management	4.0

Total Credits		20

Leadership Studies Course Descriptions

LD 201 : Introduction to Leadership Theory

Students will critically examine historical and contemporary theories of leadership. Students will explore the moral and ethical dimensions of leadership and understand that the practice of leadership involves authenticity, integrity and service.

Credits 4

LD 205 : Ethical Leadership in a Democracy

In this course students read, discuss, and reflect on the fundamental concept of leadership across a wide range of historical periods. They grapple with such questions as Why lead? Why follow? How are leaders best educated to be effective in a democracy? What type(s) of leaders are the best in a democracy? How important should morality be to leaders? What do citizens owe one another? In what way(s) does leadership intersect with the idea of service?

Credits 4

Mathematics

The courses in mathematics are designed to satisfy the general cultural needs of students and to provide a broad background for those who plan a career in mathematics, computer science, actuarial sciences, engineering sciences, or the natural sciences.

The mathematics minor will consist of 5 or more mathematics courses (20 credit hours), at least two of which must be at the 300-level.

An exception to the ten-course requirement is the following. The department considers a student who places into Calculus II or Calculus III and completes that course with a 'C' or better to have met the major requirements for the preceding calculus courses. That is, a student who places into MA 223 and completes it with a 'C' or better is not required to take MA 213 for the major; a student who places into MA 233 and completes it with a 'C' or better is not required to take MA 213 or MA 223 for the major.

Prerequisites for mathematics courses must be completed with a grade of 'C' or above. No student who has completed a mathematics course with a grade of 'C' or above may enroll in a prerequisite to that course without the permission of the department chair. MA 223 is a prerequisite for all 300-level mathematics. Transfer credit for 300-level courses counting toward the major or minor requires permission of the department chair.

Note: Students will take IS 485 or the capstone of another department to fulfill the BLUEprint Capstone Experience.

Actuarial Science Major

The Actuarial Science major is an interdisciplinary program that is housed in the Math department. It requires 48 semester hours, with 28 hours of the courses taking place in Math and the remaining 20 hours in Accounting, Economics, and Finance. The focus of the program is to prepare students for careers as actuaries, with at least one course focused around actuarial exam preparation. The program will ensure that students will also complete a Math minor and be prepared to attempt two professional exams prior to graduation. The courses required for the major are:

Mathematics Core

Item #	Title	Credits
MA 213	Calculus I	4.0
MA 223	Calculus II	4.0
MA 233	Calculus III	4.0
MA 323	Introduction to Linear Algebra	4.0
MA 341	Probability	4.0
MA 342	Mathematical Statistics	4.0
MA 347	Mathematics of Investment	4.0

Business/Other Core

Item #	Title	Credits
AC 231	Principles of Accounting	4.0
AC 325	Intermediate Financial Accounting I	4.0
AC 326	Intermediate Financial Accounting II	4.0
EC 105	Principles of Economics	4.0
FI 362	Corporate Risk Management	4.0
IS 485	A Liberal Arts Survival Guide	4.0
Total Credits		48

Mathematics Major

An exception to the ten-course requirement is the following. The department considers a student who places into Calculus II or Calculus III and completes that course with a 'C' or better to have met the major requirements for the preceding calculus courses. That is, a student who places into MA 223 and completes it with a 'C' or better is not required to take MA 213 for the major; a student who places into MA 233 and completes it with a 'C' or better is not required to take MA 213 or MA 223 for the major.

Students who do not meet placement requirements for MA 213 will need to take an additional mathematics course or courses (4 to 8 credit hours) prior to enrolling in MA 213.

Core Courses

Item #	Title	Credits
MA 201	Discrete Mathematics	4.0
MA 213	Calculus I	4.0
MA 223	Calculus II	4.0
MA 233	Calculus III	4.0
MA 323	Introduction to Linear Algebra	4.0

Two chosen from:

Item #	Title	Credits
MA 302	Survey of Geometry	4.0
MA 373	Real Analysis	4.0
MA 383	Abstract Algebra	4.0

At least one chosen from:

Item #	Title	Credits
MA 310	History of Mathematics	4.0
MA 342	Mathematical Statistics	4.0
MA 484	Capstone for Secondary Education	4.0

Remaining requirements

Any remaining courses chosen from the 300-level mathematics courses.

Additionally, CS 160, Introduction to Computer Science, is highly recommended.

Total Credits	40
----------------------	-----------

Mathematics

Minor

Required Courses

The mathematics minor will consist of 5 or more mathematics courses (20 credit hours), at least two of which must be at the 300-level.

Total Credits	20
----------------------	-----------

Mathematics Teaching Licensure

Teaching Licensure

Math students interested in earning a teaching license should plan to double major in math and education and student teach their final semester.

These students should enroll in ED 101 their first semester or as soon as possible thereafter and work closely with their advisors in both departments to ensure all State of Illinois requirements for licensure are met.

Required Courses

Additionally, these students must take at least 11 mathematics courses (44 credit hours):

Item #	Title	Credits
MA 123	Elementary Statistics	4.0
MA 201	Discrete Mathematics	4.0
MA 213	Calculus I	4.0
MA 223	Calculus II	4.0
MA 233	Calculus III	4.0
MA 302	Survey of Geometry	4.0
MA 310	History of Mathematics	4.0
MA 323	Introduction to Linear Algebra	4.0
MA 334	Modeling and Technology	4.0
MA 383	Abstract Algebra	4.0
MA 484	Capstone for Secondary Education	4.0
Total Credits		44

Mathematics Course Descriptions

MA 102 : Statistics for Citizens

The study of basic descriptive and inferential statistics, with a focus on statistical ideas and statistical reasoning and on their relevance to public policy and to the human sciences from medicine to sociology.

Credits 4

MA 103 : College Algebra

College Algebra provides an introduction to algebra. Topics include functions, rates of change and linear functions, quadratic functions, polynomial functions, exponential functions, and logarithmic functions.

Credits 4

Prerequisites

appropriate placement recommendation

MA 123 : Elementary Statistics

The study of basic descriptive and inferential statistical methods, with applications primarily to the biological, behavioral, and social sciences.

Credits 4

Prerequisites

[MA 103](#), appropriate placement recommendation, or consent of the instructor

MA 124 : Elementary Statistics through Baseball

Introduction to standard statistical concepts and techniques through the study of baseball and baseball statistics. General topics include surveys and sampling, observational studies vs. controlled experiments, binomial and normal distributions, correlation and regression. Baseball-specific topics include nontraditional statistics such as OPS, making strategic decisions using run-production tables, using individual batting statistics to predict team runs and team win/ loss ratios, and modeling game play with chance models. Students will have the opportunity to conduct analyses of their own design.

Credits 4

MA 125 : Elementary Statistics & Gender

Introduction to standard statistical concepts and techniques particularly as they apply to the study of gender, race, and class.

Credits 4

MA 127 : Theory of Arithmetic

A foundation course for elementary education: foundations for learning mathematics; manipulatives; algebraic thinking; numeration; theory of whole numbers, integers, rational numbers, and real numbers; operations of arithmetic; mental math; elementary number theory; and proportional reasoning.

Credits 4

Prerequisites

[MA 103](#) or appropriate placement recommendation and [ED 101](#) or permission of instructor

Semester Offered

[Offered fall semesters](#)

MA 128 : Uncertainty and Shape

A continuation of [MA 127](#): elementary data analysis; concepts of chance; basic concepts of geometry; two- and three-dimensional geometry; congruence; similarity; symmetry; tessellations; geometric manipulatives; and measurement.

Credits 4

Prerequisite Courses

[MA 127: Theory of Arithmetic](#)

Semester Offered

[Offered spring semesters](#)

MA 133 : Precalculus

Precalculus is a course that explores functions (linear, power, exponential, logarithmic, and trigonometric), and triangle trigonometry through multiple representations of mathematical ideas - words, numbers, graphs, and symbols. The course includes using these functions to create mathematical models to address questions about phenomena from the world around us.

Credits 4

Prerequisites

[MA 103](#), appropriate placement recommendation, or consent of the instructor

MA 201 : Discrete Mathematics

An introduction to the study of discrete mathematical structures. This course includes some set theory, relations and functions, logic and proof, mathematical induction, and graphs.

Credits 4

Prerequisites

[MA 133](#), or appropriate placement recommendation, or consent of the instructor

Semester Offered

[Offered spring semesters](#)

MA 207 : Numeric and Algebraic Thinking

Provides a more advanced treatment of the following Elementary Education topics: real numbers, number theory, algebraic thinking, functions, proportional reasoning, and percents.

Credits 4

Prerequisite Courses

[MA 128: Uncertainty and Shape](#)

Semester Offered

[Offered only as needed](#)

MA 213 : Calculus I

This is the basic calculus sequence with applications and covers: functions; limits; derivatives; integrals; conics; calculus of transcendental functions; sequences and series: vector valued functions; partial derivatives; curves and surfaces in space; and multiple integrals.

Credits 4

Prerequisites

[MA 133](#), appropriate placement recommendation, or consent of the instructor

MA 223 : Calculus II

This is the basic calculus sequence with applications and covers: functions; limits; derivatives; integrals; conics; calculus of transcendental functions; sequences and series: vector valued functions; partial derivatives; curves and surfaces in space; and multiple integrals.

Credits 4

Prerequisites

[MA 213](#), appropriate placement recommendation, or consent of the instructor

MA 233 : Calculus III

This is the basic calculus sequence with applications and covers: functions; limits; derivatives; integrals; conics; calculus of transcendental functions; sequences and series: vector valued functions; partial derivatives; curves and surfaces in space; and multiple integrals.

Credits 4

Prerequisites

[MA 223](#), appropriate placement recommendation, or consent of the instructor

MA 242 : Experiencing Geometry

Inductive and deductive study of topics from two- and three-dimensional Euclidean geometry, coordinate geometry, and transformational geometry.

Credits 4

Prerequisite Courses

[MA 213: Calculus I](#)

Semester Offered

[Offered fall semester of even years](#)

MA 302 : Survey of Geometry

Inductive and deductive study of topics from Euclidean, Transformational, Coordinate, and Non-Euclidean geometries.

Credits 4

Prerequisites

[MA 223](#) or consent of the instructor

Semester Offered

[Offered spring semester of odd years](#)

MA 310 : History of Mathematics

Provides a historical study of numeration systems, number theory, calculus, geometry, and contributions from under-represented groups.

Credits 4

Prerequisite Courses

[MA 223: Calculus II](#)

Semester Offered

[Offered spring semester of even years](#)

MA 323 : Introduction to Linear Algebra

Matrix algebra, linear systems, vector spaces, and linear transformations.

Credits 4

Prerequisite Courses

[MA 223: Calculus II](#)

Semester Offered

[Offered fall semesters](#)

MA 332 : Introduction to Differential Equations

First and higher order linear differential equations, variable coefficients, series methods, Laplace transforms, and a brief introduction to systems and numerical methods.

Credits 4

Prerequisite Courses

[MA 223: Calculus II](#)

Semester Offered

[Offered spring semesters](#)

MA 334 : Modeling and Technology

Discrete and continuous mathematical models from a variety of disciplines using appropriate technology. Includes experiences using various types of technology and addresses when technology is appropriate and when it is not.

Credits 4

Prerequisite Courses

[MA 223: Calculus II](#)

Semester Offered

[Offered spring semester of even years](#)

MA 341 : Probability

Counting techniques, basic probability models and probability rules, discrete and continuous probability distributions, and multivariate random variables. This course, along with MA 342, covers the material needed to pass Exam P of the Society of Actuaries.

Credits 4

Prerequisite Courses

[MA 213: Calculus I](#)

Co-Requisite Courses

[MA 223: Calculus II](#)

MA 342 : Mathematical Statistics

In this course, we study Normal and Bivariate Normal Distributions; parameter estimation with confidence intervals; hypothesis testing such as t-tests, chi-square tests, and analysis of variance; and theory of estimation and hypothesis testing. This course, along with Math 341, covers the material needed to pass Exam P of the Society of Actuaries. Additionally, this course covers some of the material tested on Exam S of the Casualty Actuarial Society.

Credits 4

Prerequisite Courses

[MA 341: Probability](#)

MA 347 : Mathematics of Investment

Mathematics of investment and credit. Topics include interest rate measurements, annuities, loan repayments, bond valuation, rates of return of investments, and cashflow duration and immunization. This course covers a preponderance of the material needed to pass Exam FM of the Society of Actuaries.

Credits 4

Prerequisite Courses

[MA 223: Calculus II](#)

MA 353 : Topology

A rigorous study of the fundamental concepts of point-set topology, including metric spaces, separation, connectedness compactness, and homeomorphisms.

Credits 4

Prerequisite Courses

[MA 223: Calculus II](#)

Semester Offered

[Offered spring semesters of odd years](#)

MA 373 : Real Analysis

A rigorous study of the concepts of continuity, differentiation, integration and convergence.

Credits 4

Prerequisites

[MA 201](#) and [MA 223](#) or consent of the instructor

Semester Offered

[Offered spring semesters of even years](#)

MA 383 : Abstract Algebra

This course will introduce basic algebraic structures including groups rings and fields. In this context, the student will gain significant experience in finding and writing mathematical proofs. Optional topics may be chosen from solvable groups Sylow theorems, Galois theory, extension fields, and integral domains

Credits 4

Prerequisites

[MA 201](#) and [MA 223](#) or consent of the instructor

Semester Offered

[Offered fall semesters of even years](#)

MA 461 : Independent Study in Mathematics

Selected topics from the usual subject matter of undergraduate mathematics. Students work independently, but under the supervision of an instructor. A final examination, notebook, term paper, or any combination of these may be required. May be elected more than once, with a limit of eight hours credit.

Credits 1-4

Prerequisites

consent of the instructor

Notes

1-4 credits each semester

MA 462 : Independent Study in Mathematics

Selected topics from the usual subject matter of undergraduate mathematics. Students work independently, but under the supervision of an instructor. A final examination, notebook, term paper, or any combination of these may be required. May be elected more than once, with a limit of eight hours credit.

Credits 1-4

Prerequisites

consent of the instructor

Notes

1-4 credits each semester

MA 463 : Internship in Mathematics

Credits 1-4

MA 464 : Internship in Mathematics

Credits 1-4

MA 465 : Independent Research in Mathematics

Credits 1-4

MA 466 : Independent Research in Mathematics

Credits 1-4

MA 484 : Capstone for Secondary Education

Provides for a discussion of how the mathematics learned as an undergraduate student relates to the core mathematical content and problems of high school mathematics courses while treating these topics from a mathematically advanced standpoint.

Credits 4

Prerequisites

completion of major requirements or consent of instructor

Semester Offered

[Offered fall semesters](#)

MA xxx : Statistics and Analysis of Data

An applied statistics course that focuses on analyzing and translating nursing and other relevant research.

Credits 4

Notes

(Pending Approval)

Music

Associate Professor Christian Secrist

Assistant Professor Nichol DelGiorno

Part-time Instructor Terri Benz

Part-time Instructor Tyler Carpenter

The courses in music are designed to enrich and broaden the understanding of music as an art form in all its cultural contexts. Some courses encourage participation in performance, while others deal with aspects of music history, notation, and analysis. The music minor offers immersive study in music for those who are passionate about music but wish to major in another subject. Prospective students may audition for fine arts

scholarships, and all music ensembles (MU103, 104, 105, 106, 107, 108, and 113) are open to students (some, but not all, require an audition). Enrollment in the ensembles is counted in determining tuition charges. A fee is charged for private lessons, but this fee is waived for music minors.

Fine Arts

Minor

The Fine Arts minor shall consist of 20 credit hours with these requirements:

1. Students must successfully complete, with a minimum grade of 'C' in all courses, at least 8 credit hours in two of the fine arts areas chosen from Art, Music, and Theatre. Students may take courses in all three areas.
2. Within the 8 credit hour minimum requirement in each discipline, at least four credit hours must be completed as an academic class.
3. If the student chooses the area of theatre, the 8 hour minimum can be split between academic and application classes or practicums. For example, in theatre this could be one 4-credit hour class and four credit hours of performance experience.
4. If the student chooses the area of music, the 8 hour minimum must include at least one music theory or music history class. The remaining four credit hours may include another theory or history course or application courses such as ensembles participation or private music lessons.
5. If the student chooses the area of art, the minimum may include any art class.

Total Credits	20
----------------------	-----------

Fine Arts Administration

Minor

Professor Nancy Taylor Porter, Coordinator (Theatre)

The Fine Arts Administration minor is open ONLY to students majoring or minoring in Art, Music, and Theatre or minoring in Fine Arts. It is intended to create a related or alternative career path for students in the arts, preparing them for an entry-level administrative position at an arts organization. Conversely, it helps give them the skills to build their own company or studio if that is their goal. During their senior year, students will register for an internship, which may either be focused on a particular field or be designed to include experiences from multiple arts arenas. It can be taken as a one-credit course in both semesters or as a two-credit course in a single semester.

The Fine Arts Administration minor consists of 18 hours:

Course Requirements

Item #	Title	Credits
AC 231	Principles of Accounting	4.0
EC 265	Economics of Entrepreneurship	4.0
MG 364	Management	4.0
MG 354	Marketing	4.0

Practicum Requirements

Item #	Title	Credits
	Fine Arts Administration Internship	2
Total Credits		18

Fine Arts Administration Internship

Elective Credits 2

Music

Minor

Ensemble participation is suggested for all music minors each semester. All minors must also enroll in MUSR, a non-credit requirement to attend a minimum number of 6 concerts and recitals each semester after declaration of the minor. Minors must attend MUSR for a minimum of 4 semesters.

To fulfill the BLUEprint Creative Expressions – Studio requirement with music courses, music lessons or ensembles, a total of four applicable hours must be successfully completed for credit with the exception of transferring one 3-hour course.

Required Courses

Item #	Title	Credits
MU 111	Introduction to Music and Music Theory	4.0
MU 102	Music Appreciation	4.0

Electives

8 hours of electives chosen from the following:

Item #	Title	Credits
MU 141	American Popular Music	4.0
MU 142	Introduction to World Music	4.0
MU 216	Jazz History and Appreciation	4.0
MU 352	Vocal Diction I	2.0
	2 Hours of Applied Music (200-level)	

Additional Requirements

- 2 hours of Ensemble Participation
- Successful completion of MU SR

Total Credits	20
----------------------	-----------

2 Hours of Applied Music (200-level)

Two hours of applied music are to be taken over two consecutive semesters, under the same instructor, on the same instrument or voice in alignment with the student's primary area of competency. Vocalists may substitute MU 109 (Class Voice) for one semester of applied study.

Music Course Descriptions

MU 102 : Music Appreciation

This class explores music through the lenses of culture and history, allowing us a deeper understanding of music-makers and listeners. Students will explore the dominant trends of Western music, including the major composers, musical styles, and historical eras that have shaped music from the Middle Ages to the present. A special emphasis will be given to developing active listening skills, as well as communication skills regarding aesthetic expression.

Credits 4

MU 103 : Symphony Chorale

Two and one-half hours of weekly rehearsal and two to four performances during the year. Includes the preparation and performance of major works for chorus and orchestra. Sponsored by the Jacksonville Symphony Society.

Credits 0-1

Prerequisites

consent of the instructor

Notes

0-1 credits each semester

MU 104 : Jazz Ensemble

Two hours of weekly rehearsal and several performances.

Credits 0-1

Prerequisites

Consent of Instructor

Notes

0-1 credits each semester

MU 105 : Wind Ensemble

Three hours of weekly rehearsal, several performances both on and off campus throughout the year, including a Spring Concert Tour with other music ensembles to major metropolitan area. Repertoire performed includes sacred and secular concert music and original works for wind ensemble and concert band. Student should contact instructor for placement.

Credits 0-1

Notes

0-1 credits each semester

MU 106 : Concert Choir

Three hours of weekly rehearsal, several performances both on and off campus throughout the year, including a Spring Concert Tour with other music ensembles to major metropolitan areas. A variety of music is performed, including great masterworks from all periods of music history. Student should contact instructor for placement.

Credits 0-1

Notes

0-1 credits each semester

MU 107 : Symphony Orchestra

Two and one-half hours of weekly rehearsal and five or six concerts during the year. Sponsored by the Jacksonville Symphony Society.

Credits 0-1

Prerequisites

consent of the instructor

Notes

0-1 credits each semester

MU 108 : Chamber Singers

Two hours of weekly rehearsal. Focus on works for smaller forces, including madrigals, motets, and chamber works from all periods in music.

Credits 0-1

Prerequisites

consent of instructor

Notes

0-1 credits each semester

MU 109 : Class Voice

Introduction to singing, the development of the solo voice. Study of problems of vocal production, interpretation, style, and stage deportment. Vocal exercises and songs learned and memorized.

Credits 2

Prerequisites

No prerequisite

Semester Offered

[Offered fall semesters](#)

MU 111 : Introduction to Music and Music Theory

An introductory study of melody, harmony, counterpoint, and part-writing fundamental to Western music, including a discussion of musical examples from different periods. Concurrent ear training, composing, and keyboard training. Entry level course for music minors. Open to other interested students.

Credits 4

Semester Offered

[Offered fall semesters](#)

MU 113 : Small Ensemble

Percussion Ensemble, Brass Ensemble, Woodwind Quintet, String Quartet, Bella Voce (treble vocal ensemble) or other small chamber ensemble organized by the department.

Credits 0-1

Prerequisites

consent of instructor

Notes

0-1 credits each semester

MU 141 : American Popular Music

This course examines the characteristics and significance of popular music in the United States from the late nineteenth century to the present. No prior musical experience or knowledge is required to enroll in this course. We will explore musical characteristics such as form and instrumentation as well as the meaning and implications of text in music. The relationship of popular music to cultural, social, economic, and political dimensions will be central to the study and understanding of popular music in the United States.

Credits 4

MU 142 : Introduction to World Music

This is an introductory course covering a survey of music that falls outside of the traditional canon of Western Art Music. Historical and cultural backgrounds pertaining to the creation and performance of music will be considered, as will the roles of music and musicians in various culture and comparisons of musical practices in different geographical regions.

Credits 4

MU 152 : Voice

Private instruction in singing and vocal technique.

Credits 1-2

Notes

1-2 credits each semester

MU 162 : Instrument

Private instruction in, Piano, Organ, Brass, Woodwind, Percussion, Guitar, Bass, or Strings. Other instruments available by request when a well-qualified instructor is available to fulfill student demand.

Credits 1-2

Notes

1-2 credits each semester

MU 208 : Accompanying

Practical training and experience in the tradition, interpretation and execution of accompaniment. Students will accompany specific vocalists and/or instrumentalists in lessons, classes and performances.

Credits 1

Prerequisites

consent of the instructor

MU 216 : Jazz History and Appreciation

A study of the development of Jazz music from its origins to the present day. Students will explore the different eras, styles, artists, literature and social issues associated with Jazz, with a strong emphasis on audio and visual examples. The course will also provide a basic understanding of the structure of Jazz with the goal of developing greater skills for listening and appreciation of this uniquely American genre.

Credits 4

MU 250 : Voice: Music Minor

Private instruction in singing and vocal technique for music minors as their primary area of applied study.

Credits 1-2

Notes

1-2 credits each semester

MU 260 : Instrument: Music Minor

Private instruction in, Piano, Organ, Brass, Woodwind, Percussion, Strings, or Guitar for music minors as their primary area of applied study.

Credits 1-2

Notes

1-2 credits each semester

MU 265 : Woodwind Methods

A practical course in the techniques of playing woodwind instruments, designed for music education students.

Credits 1

Semester Offered

[Offered fall semesters](#)

MU 266 : Brass Methods

A practical course in the techniques of playing brass instruments, designed for music education students.

Credits 1

Semester Offered

[Offered spring semesters](#)

MU 270 : Composition

Credits 1-2

Prerequisites

consent of instructor

Notes

1-2 credits each semester

MU 352 : Vocal Diction I

A specialized course for the serious singer, this course is designed to develop an appreciation for and application of the following common languages in professional singing: Latin, Italian, and German. Using the International Phonetic Alphabet, the student will acquire a working knowledge of rules for applying these languages to singing.

Credits 2

Prerequisites

an understanding of classical singing, one semester of private voice lessons or consent of instructor

Semester Offered

[Offered fall semesters](#)

MU 370 : Composition

Credits 1-2

Prerequisites

consent of instructor

Notes

1-2 credits each semester

MU 461 : Independent Study in Music

Advanced supervised study in music theory or history, music performances (not a solo recital), or music administration.

Credits 1-4

Prerequisites

consent of the instructor

Semester Offered

[Offered fall semesters](#)

MU 462 : Independent Study in Music

Advanced supervised study in music theory or history, music performances (not a solo recital), or music administration.

Credits 1-4

Prerequisites

consent of the instructor

Semester Offered

[Offered fall semesters](#)

MU 463 : Internship in Music**Credits** 1-4**MU 464 : Internship in Music****Credits** 1-4**MU 465 : Independent Research in Music****Credits** 1-4**MU 466 : Independent Research in Music****Credits** 1-4**MU SR : Student Recital**

Attendance at recitals, concerts, and lectures is required of all music minors after declaration of the degree program. Attendance at these events is similar to convocation requirements, minors must attend at least 6 events per semester. The Department of Music will make a list of approved events available to the students.

Nursing

Assistant Professor Pamela Brown, MSN Program Coordinator***Assistant Professor Barbara Chumley******Assistant Professor Angela Pierson******Assistant Professor Sheila Rhodes******Assistant Professor Sonia Williamson******Assistant Professor Christine Staake******Part-time Assistant Professor Marie Lindsey******Part-time Instructor Jeri Conboy******Part-time Instructor Ann O'Sullivan***

The Bachelor of Science in Nursing (BSN) at Illinois College has two tracks: 1) the traditional prelicensure track and 2) the online RN to BSN track.

The nursing program has a Holistic Nursing Framework with five central themes essential for preparing nurses for professional practice in the 21st Century:

- Professionalism and "Inter-professionalism": Success in the interconnected health care environments in which nurse leaders work in the 21st Century requires the ability to collaborate effectively across health care disciplines and professions.
- Leadership: The professional nurse must effectively lead and manage diverse teams and have the confidence and knowledge to advocate for the wellbeing of individuals and communities.
- Communication: Nurse leaders must communicate effectively with other health care professionals, as well as a wide range of constituencies within the communities they serve.
- Respect and Care for Diverse Populations: The effective nurse leader must have the intercultural competence to interact respectfully with individuals from diverse backgrounds and experiences.
- Ethics: At all times, the nurse leader must make decisions and address problems based on integrity and respect for human dignity. Leaders must role model ethical comportment.

The prelicensure or traditional track prepares you to be "ready" to take the National Council Licensing Examination (NCLEX) which allows you to become licensed as a Registered Professional Nurse (RN). Our traditional track requires a total of 128 credits and combines classroom instruction, and hands on practice in our nursing laboratory and various clinical sites. Students begin hands on clinical in the second semester of the sophomore year.

A sample traditional track degree plan is available. Please consult with your advisor about your individual plan for course registration and completion of program/graduation requirements.

Nursing Traditional Track

BSN

Admission: Traditional BSN Track

Admission as a Nursing major:

- High School Cumulative Grade Point Average of 3.0 or higher, and
- ACT of 22 or higher /SAT of 1100 or higher

Admission as Pre-Nursing Student:

- ACT less than 22/SAT less than 1100, or
- Test Optional: High School cumulative Grade Point Average less than 3.0

Traditional Track: Required Courses

Item #	Title	Credits

NU 400	Nursing Research & Evidence-Based Practice	4.0
NU 424	Public, Community & Population Health Nursing	4.0
NU 425	Laboratory/Clinical: Public, Community & Population Health Nursing	2.0
NU 440	High Acuity Nursing	4.0
NU 441	Laboratory/Clinical: High Acuity Nursing	2.0
NU 450	Leadership & Health Policy in Nursing Practice	4.0
NU 451	Clinical: Leadership & Health Policy in Nursing Practice	2.0
NU 460	Nursing Capstone	4.0
PH 350	Biomedical Ethics	4.0

Additional Requirements

Students also must complete all BLUEprint requirements, with the exception of, if a student enters needing the 101-level of language, the student will take SP 101 followed by GB 270, which will also count toward Cultures and Worldview.

Note: A student may need to take one or more summer courses if they do not enter ready to take the 102-level language or needing any other prerequisite courses.

Students must earn a grade of “C” or higher in all nursing and nursing support courses required for the nursing major. For all clinical courses, the clinical component is pass/fail. A failure in the clinical practicum will result in failure of the course, regardless of classroom performance. (See the Nursing Handbook for additional information on program requirements.)

Students must maintain satisfactory progress through and completion of courses in each semester, including first year and sophomore level, in accordance with the Traditional Track Degree Plan and must maintain a cumulative GPA of 2.75 to progress through the Nursing Program.

Total Credits	108-112
----------------------	----------------

Language 102 or SP 101 and GB 270

Elective Credits 4-8

Language 102 or SP 101 and GB 270, if starting at 101-level

Item #	Title	Credits
SP 101	Spanish for Global Citizens I	4.0
GB 270	Serving 21st-Century Populations within the Health Professions	4.0

Master of Science in Nursing (Online)

Master of Science in Nursing

The Master of Science in Nursing online program offers students two areas of concentration: leadership/administration or education. Both concentrations consist of a 36-credit hour track with core courses, interdisciplinary courses, and concentration courses. Each student completes all core and interdisciplinary courses and then completes their chosen area of concentration courses. This track is based on and meets the standards of the American Association of Colleges of Nursing's Essentials of Master's Education in Nursing (2011), and the Commission on Collegiate Nursing Education's Standards for Accreditation of Baccalaureate and Graduate Nursing Programs (2017).

Admissions Requirements

Acceptance into the MSN program is contingent on meeting the following admission requirements:

- Bachelor of Science Degree in Nursing (BSN) from a program accredited by the Commission on Collegiate Nursing Education (CCNE) or the National League for Nursing Accrediting Commission (NLNAC).
- Minimum grade point average of 2.5 on a 4.0 scale for the last 60 semester credit hours of undergraduate course work.
- Official transcripts of all prior collegiate academic work.

- Evidence of satisfactory completion of introductory courses in statistics, nursing research, and health assessment, or their equivalent, with a grade of "C" or better at the baccalaureate level.
- Basic computer skills.
- Evidence of licensure as a registered professional nurse in any state or territory of the United States.
- Evidence of liability insurance.
- Current CPR certification.
- Evidence of the following immunization: Hepatitis, MMR, tetanus, and diphtheria.
- Evidence of an annual TB skin test.
- Evidence of health insurance.
- Criminal background check within 90 days prior to the first practicum experience.

Acceptance into the program for any student who speaks English as a second language is also contingent on meeting the following admission requirement:

- TOEFL score or other acceptable proof of English proficiency.
 - Students for whom English is a second language may be referred to an ESL program of study as a condition for enrollment into the program.

Transfer of Credit

Students may transfer a maximum of 4 semester credit hours of previous graduate level course work (from a regionally accredited university or college). Only courses with a grade of B or better will be transferred.

Core Courses

Item #	Title	Credits
NU 510	Nursing Philosophy/Theories	4.0
NU 512	Advanced Assessment, Pathophysiology and Pharmacology	4.0
NU 514	Evidence-Based Research in Advanced Nursing Practice	4.0
NU 516	Healthcare Policy & Advocacy	4.0

Interdisciplinary Courses

Item #	Title	Credits
MA xxx	Statistics and Analysis of Data	4.0
Elective Relative to Concentration		4.0

Nursing Leadership/Administration Concentration Courses

Item #	Title	Credits
NU 610	Nursing Leadership and Healthcare Finance	4.0
NU 612	Organizational Behavior in Healthcare	4.0
NU 614	Leadership in Healthcare Systems: Advanced Roles in Nursing	4.0

Nursing Education Concentration Courses

Item #	Title	Credits
NU 630	Curriculum Development and Evaluation	4.0
NU 632	Innovative Teaching Strategies in Nursing	4.0
NU 634	Evaluation and Testing in Nursing Education	4.0

Notes

Licensure

Students in the MSN program practice professional nursing during their practicums and therefore must have a current registered nurse license from a state or territory of the United States and liability insurance. All students must submit proof of licensure and insurance when applying for the program and whenever their license and/or insurance are renewed.

The names and origin of license of all “out-of-state” professional nurses are filed with the Illinois Division of Professional Regulation at the beginning of each semester, allowing these students to practice nursing during their practicums. According to the Illinois Nurse Practice Act, students who have a license from another state or territory can practice in the state as a graduate student when under the supervision of faculty. Students who wish to work in the State of Illinois while enrolled in the program must apply to the Illinois Department of Financial and Professional Regulation, Division of Professional Regulation, for an Illinois registered professional nurse license.

Progression Requirements and Policy

Students in the BSN to MSN Track at Illinois College are required to maintain a 3.0 grade point average. A student may earn one “C” in a Masters level nursing course or cognate course if they maintain the 3.0 GPA. Students who earn in excess of one “C” in either a nursing or elective course may be dismissed. All issues regarding student’s academic progress will be decided by the faculty on a case-by-case basis.

Academic Standing

Students in the BSN to MSN Track are required to maintain a cumulative GPA of 3.0 on a 4.0 scale. Students who fail to meet this standard will be subject to an academic review by the Coordinator of Online Nursing and may be dismissed from the program depending on the severity of the academic deficiency. All students must have a cumulative GPA of 3.0 or better to graduate from the MSN Track.

A student who is dismissed from the program for academic reasons may appeal the dismissal within 30 calendar days from the date on the dismissal letter. While the appeal is pending, the student cannot register for or attend classes. The Department of Nursing is responsible for deciding the merits of an appeal. The appeal must be in writing and addressed to the Coordinator of the MSN Program. The appeal must provide in detail the following information:

- Description of the unusual or non-recurring events that lead to the student’s poor academic performance.
- Actions that have been taken or will be taken by the student to ensure there will be no recurrence of these events.
- Actions that have been taken or will be taken by the student to ensure his/her cumulative GPA will quickly reach a minimum of 3.0.
- Any additional evidence or information that may be helpful in reaching a decision.

Dismissal

Illinois College Department of Nursing reserves the right to dismiss students from the MSN program regardless of the cumulative grade point average for:

- Not meeting progression requirements
- Unsafe clinical performance as outlined in the “Unsafe Student Practice Policy.”
- Failure to comply with the policies of the program
- Failure to maintain licensure as a professional nursing
- Unsafe performance as a nurse in general

Immediate Dismissal

- Immediate dismissal may result from the following:
- Knowingly causing a patient harm
- Appearance in the class or practicum under the influence of drugs or alcohol. Student may be asked to take a drug screening test.

Graduation Requirements

- 36 credit hours at the graduate level
- Complete all core, concentration, and elective courses
- Completion of student's project.
- A cumulative grade point average of 3.0 or above

Total Credits

48

Nursing RN to BSN Track (Online)

RN to BSN

The purpose of the online RN to BSN is to provide current licensed registered nurses with the skills, knowledge, and abilities necessary to provide excellence in health care practice and leadership within a variety of health care settings. This is a fully online program. See <https://online.ic.edu/> for more information.

Admission to the RN to BSN Nursing Program

An entering student must possess an associate degree or diploma in nursing, from an approved nursing program, as well as a valid and unencumbered RN state license issued in the U.S.

ADN/transfer credits must include the following courses:

- English Composition I
- English Composition II (preferred) or another writing-intensive course
- Human Anatomy and Physiology I
- Human Anatomy and Physiology II
- Microbiology
- Introduction to Psychology
- ADN/transfer credits should include the following courses (although these courses may also be completed concurrently):
- Statistics
- Introduction to Sociology (preferred) or other sociology course
- An additional arts or humanities course

Major, for a Bachelor of Science in Nursing: minimum of 36 credits in 9 courses (24 credit hours of nursing, and 12 credit hours of interdisciplinary/cross-over courses). The core nursing courses require admission into the program. The three interdisciplinary, or cross-over, courses do not require admission into the program.

RN to BSN Track: Required Nursing Courses

Item #	Title	Credits

Nursing Course Descriptions

NU 250 : Nursing Fundamentals

This course introduces the student to holistic nursing theory and concepts and explains how nursing practice interacts with society. Students are introduced to basic medical-surgical nursing concepts and skills with an emphasis on adults with common health conditions. Nursing process serves as the basis for assessing, diagnosing, planning, implementing, and evaluating care in both the laboratory and clinical settings. Students address care in various settings and the privilege of becoming a professional nurse. Students are introduced to the critical role of the American Nurses Association and specialty nursing organizations in setting high standards for professional nursing practice.

Credits 4

NU 251 : Lab: Fundamentals & Assessment

Experiences in this course correlate to theories and concepts in [NU 250](#) and NU 252. Students are introduced to skills and techniques needed to perform a comprehensive, focused, and condensed health assessment with practice in acute, sub-acute, and non-acute care settings. The significance of normal and abnormal findings is emphasized. Other basic concepts include the fundamental aspects of communicating, caring, assessing, diagnosing, and documenting the patient's unique responses to their health condition, medical diagnoses, tests, treatments and procedures, and prognosis.

Credits 2

Prerequisite Courses

[NU 250: Nursing Fundamentals](#)

Corequisites

[NU 252](#) and [NU 253](#)

Notes

Additional fees are applied.

NU 252 : Health Assessment

This course introduces the student to holistic head-to-toe assessment of the individual patient. In this course, students learn normal assessment findings expected for individuals across the lifespan. This provides a basis for recognizing findings that require additional assessment and monitoring. Students are introduced to physical and psychosocial assessment skills as well as the major influences of development, environment, culture, religion, socioeconomic status, and family. Emphasis is placed on the importance of assessment as the first step of the nursing process. A comprehensive approach to eliciting health histories and conducting assessments that recognize cultural and individual differences allows students to serve diverse populations and meet societal needs.

Credits 2

Prerequisite Courses

[NU 250: Nursing Fundamentals](#)

Corequisites

[NU 251](#) and [NU 253](#)

NU 253 : Clinical: Fundamentals & Assessment

Experiences in this course correlate to theories and concepts in [NU 250](#) and [NU 252](#). Students are introduced to medical-surgical nursing in acute and sub-acute settings with an emphasis on skills needed to provide basic nursing care to adults with common health conditions. Students focus on assessment, deducting nursing diagnoses, planning, providing, and evaluating patient-centered care. Communication and documentation are key skills. Categories of independent, dependent and interdependent nursing diagnoses are also addressed.

Credits 2

Prerequisite Courses

[NU 250: Nursing Fundamentals](#)

Corequisites

[NU 251](#) and [NU 252](#)

Notes

Additional fees are applied.

NU 310 : Pharmacology

This course brings a pathophysiological approach to pharmacology. Students use a systems approach to learning drug classifications and key drug prototypes. The principles of safe medication administration are emphasized. Students integrate knowledge from biological and physiological sciences to make connections between pharmacology, pathophysiology and the safe administration of medication therapies. Patient teaching is key to safe medication administration and students use current research to create patient teaching plans.

Credits 4

NU 320 : Concepts of Professional Nursing and Healthcare Policy

This course addresses the skills, attributes, and role development of the successful professional nurse. Case studies examine the nurse's role in essential political, economic, and social forces affecting health care. Concepts of multidimensional care, plus skills of inquiry and analysis that inform clinical reasoning, professional judgment, and lifelong learning are integrated into personal practice. [Essentials I, V, VIII, IX]

Credits 4

NU 324 : Maternal/Child Nursing

This course focuses on holistic nursing care related to childbearing women, neonates, infants, children and adolescents in acute, and community settings. Common acute and chronic health conditions are addressed. Contemporary issues in women's, families', infants, children's, and adolescent's health are emphasized. Emerging and evolving models of families are discussed. Students integrate concepts from genetics, growth and development, and health promotion/ disease prevention into care. Students write a scholarly paper documenting a holistic family assessment with a family centered disease prevention/health promotion plan.

Credits 4

Corequisites

Students must also be enrolled in [NU 325](#) and NU 327

NU 325 : Clinical: Maternal/Child Nursing

Experiences in this course relate to the theories and concepts in [NU 324](#). Students focus on providing care for the childbearing woman, neonate, and family in various settings and throughout the perinatal process. Common acute and chronic health conditions of mother and neonate are addressed. Students also focus on providing care for the infant, toddler, child, adolescent and family with acute and chronic health conditions in various settings. Growth and development and health promotion/disease prevention are emphasized.

Credits 2

Co-Requisite Courses

[NU 324: Maternal/Child Nursing](#)

Notes

Additional fees are applied.

NU 330 : Mental Health Nursing

This course focuses on holistic nursing theory and concepts related to managing care for persons with acute and chronic psychiatric/mental health needs/conditions in acute and community settings. A developmental lifespan approach is used to situate mental health within the wellness-illness continuum. Emphasis is on establishing therapeutic relationships, therapeutic communications, interdisciplinary collaboration and on applying psychopharmacologic and therapeutic treatment principles.

Credits 4

Corequisites

Students must also be enrolled in [NU 331](#)

NU 331 : Clinical: Mental Health Nursing

Experiences in this course relate to theory and concepts in [NU 330](#). Students focus on providing nursing care for persons with acute and chronic psychiatric/mental health conditions across the lifespan. Using therapeutic communication skills and establishing therapeutic relationships are key components of students participating in an interdisciplinary team approach in a variety of settings. Additional fees are applied.

Credits 2

Corequisites

Students must also be enrolled in [NU 330](#)

NU 334 : Adult & Geriatric Nursing

This course focuses on holistic nursing theory and concepts related to managing care for young, middle, and older adults with acute and chronic health conditions. Gender aspects of biological, epidemiological, psychological, and sociological health are considered. Growth and development and health promotion/disease prevention are emphasized. Attitudes about the aged, historical perspectives, transcultural concepts, growing old, and end-of-life issues are addressed.

Credits 4

Corequisites

Students must also be enrolled in [NU 335](#)

NU 335 : Laboratory/Clinical: Adult & Geriatric Nursing

Experiences in this course relate to the theory and concepts in [NU 334](#). Students focus on the care of young, middle, and older adults with acute and chronic health conditions in a variety of settings. End-of-life issues, growth and development, and health promotion/disease prevention are emphasized. Additional fees are applied.

Credits 2

Corequisites

Students must also be enrolled in [NU 334](#)

NU 340 : Advanced Health Assessment

This course focuses on the theoretical and practical skills necessary to perform comprehensive physical, psychosocial, and cultural assessments of individuals, families, and groups. Gathering of specific data, across the lifespan and in vulnerable populations, is used to address common health problems. [Essential I; II; VI; VIII]

Credits 4

NU 360 : Pathophysiology in Disease Management and Health Promotion

This course provides an in-depth study of human pathological processes and their effects on homeostasis. The focus is on interrelationships among organ systems in deviations from homeostasis. Etiology, physical signs and symptoms, prognosis, and complications of commonly occurring diseases, their management, and preventive measures inform management of nursing care. [Essentials I; IV VII; IX]

Credits 4

NU 400 : Nursing Research & Evidence-Based Practice

This course focuses on the fundamental competencies the student needs in order to effectively use and communicate the process of scientific inquiry as the basis for professional nursing practice. Opportunities are provided for the student to apply evidence-based practice and the research process to critically read and analyze nursing research studies. A general understanding of and appreciation for research is provided. In this course the students will be exposed to an overview of evidence-based practice and research, consider ethical aspects related to the conduct of research, and explore processes related to qualitative and quantitative research.

Credits 4

NU 410 : Ethical Leadership and Management in Nursing

Current theories of management, ethical leadership, and change theories are examined. Students use self-assessment and reflection drawing from ethical principles and virtues, moral theorists, caring and empathy to share how complex ethical decisions are made. Case studies are used to address how leaders manage common ethical issues within healthcare. [Essentials II; IV; VI; VIII]

Credits 4

NU 420 : Community and Population Health Nursing

This course focuses on caring for vulnerable and other populations in community settings. Central themes include promoting and protecting the health of the public using health promotion, risk reduction, and disease management and control strategies related to vulnerable populations. Evidence based practice is guided by community assessments, epidemiologic data, environmental data, change, political action, and case management frameworks. [Essential VII; IX]

Credits 4

NU 424 : Public, Community & Population Health Nursing

This course focuses on theories and concepts related to managing care for vulnerable and other populations in community settings. Central themes include promoting and protecting the health of the public using health promotion, risk reduction and disease management, and strategies related to vulnerable populations. Evidence-based practice is guided by community assessments, epidemiologic data, environmental data, change, political action, and case management frameworks. Concepts of social justice, disparities in health and health care, and vulnerable and culturally diverse populations are addressed within a global context.

Credits 4

Corequisites

Student must also be enrolled in [NU 425](#)

NU 425 : Laboratory/Clinical: Public, Community & Population Health Nursing

Experiences in this course relate to the theory and concepts in [NU 424](#). The student focuses on managing nursing care for families, groups, and populations in community settings.

Credits 2

Corequisites

Student must also be enrolled in [NU 424](#). Additional fees are applied

NU 430 : Nursing Research and Statistical Analysis

This course provides an opportunity for students to continue to develop skills related to nursing research. Research skills include appraisal of literature, research design, measurement and statistical analysis, as well as scientific inquiry. Students discuss the philosophy underpinning qualitative versus quantitative, versus mixed methods research, and how to evaluate such studies. Students analyze evidence-based literature related to directly or indirectly improving patient-centered care, and classify the quality of evidence to design a 'best' practice. [Essentials II; III; IX]

Credits 4

NU 440 : High Acuity Nursing

This course emphasizes holistic nursing theory and concepts related to the care of patients with multisystem, unpredictable and complex health conditions. Students practice across settings, from high-skill home care to long-term care to specialized critical care units. Students focus on the relationship between pathophysiology, disease management, and evidence-based holistic care, to further develop clinical reasoning skills that lead to optimal decision making in high-acuity situations.

Credits 4

Corequisites

Student must also be enrolled in [NU 441](#)

NU 441 : Laboratory/Clinical: High Acuity Nursing

Experiences in this course relate to theory and concepts in [NU 440](#). Students focus on providing care to persons with multisystem, unpredictable, and complex health conditions across the lifespan and in a variety of settings. Professionalism, communication, and conflict management skills are imperative to becoming part of an interdisciplinary team collaborating to deliver safe quality patient-centered care in chaotic and high stress situations. Additional fees are applied.

Credits 2

Corequisites

Student must also be enrolled in [NU 440](#)

NU 450 : Leadership & Health Policy in Nursing Practice

This course emphasizes theories and concepts related to leadership, management and the nurse's role in the political process and health policy. Students focus on concepts of leadership, management, power politics, delegation, budgeting, and conflict management. Students are expected to apply concepts of professional practice models, professionalism, and interpersonal communication skills to foster positive work environments. Students engage with interdisciplinary teams to effect change that improves patient-centered care. The role of the nurse in the political process and health policy is examined, and students interact with legislators to inform and influence change in health care and the nursing profession.

Credits 4

Corequisites

Student must also be enrolled in [NU 451](#)

NU 451 : Clinical: Leadership & Health Policy in Nursing Practice

Experiences in this course relate to theories and concepts in [NU 450](#). Students focus on managing safe quality care for groups of patients in a variety of settings. Students are expected to apply leadership and management principles and use healthcare informatics, and explore the nurse's role in the political/legislative process to improve patient-centered care and facilitate change in nursing practice. Additional fees are applied.

Credits 2

Corequisites

Student must also be enrolled in [NU 450](#)

NU 460 : Nursing Capstone

Students examine the research process, evaluate published nursing and other related research and write and present in a scholarly and professional manner. The student is expected to critically appraise qualitative and quantitative research, engage in evidence-informed clinical decision making and practice, including quality improvement activities and projects. The capstone project includes students researching and writing a scholarly paper and creating an artful engaging narrated PowerPoint presentation. Students identify a clinical issue that warrants a systematic appraisal of the relevant literature with the purpose of informing clinicians, critically evaluating the evidence, and translating findings into recommendations for interdisciplinary care teams.

Credits 4

Prerequisites

[NU 400](#) or permission of the instructor

Notes

The American Association of Colleges of Nursing's (AACN) and the Commission on Collegiate Nursing Education's (CCNE) Essentials for Baccalaureate Nursing Education related to the courses are noted at the end of the course descriptions. A student must be admitted into the RN-to-BSN nursing program to take any of these six courses.

NU 510 : Nursing Philosophy/Theories

Analysis of philosophy and theoretical models, and mid-range theories in nursing. Students conduct concept analysis and develop a testable mid-range theory relevant to directly or indirectly improving health promotion and patient care.

Credits 4

NU 512 : Advanced Assessment, Pathophysiology and Pharmacology

Students examine assessment findings, pathophysiological processes and pharmacological therapies related to common health conditions encountered in nursing practice settings. Students focus on analyzing health histories, assessment findings, test results, and medical treatments to design nursing care for a variety of patient populations.

Credits 4

NU 514 : Evidence-Based Research in Advanced Nursing Practice

Students explore theories related to the generation and evaluation of evidence, research utilization, and evidence-based practice. Issues from nursing practice are identified, developed and refined into an evidence-based researchable project based on testing a mid-range theory.

Credits 4

NU 516 : Healthcare Policy & Advocacy

This course explores health policy development and implementation and its impact on healthcare regulation, delivery, and finance. There is a focus on wellness and promotion of health for local, national, and worldwide health initiatives. Students will define healthcare provider roles in health promotion, healthcare delivery, and quality improvement through activities related to health policy reform and finance.

Credits 4

NU 610 : Nursing Leadership and Healthcare Finance

This course focuses on theories, concepts, and principles from nursing and related disciplines to form a foundation for nursing leadership and administration. Theories of change, role, adaptation, need and leadership are investigated in relationship to advanced nursing practice. Students complete a 60-hour practicum, related to their change project, within a faculty approved health care agency or system.

Credits 4

NU 612 : Organizational Behavior in Healthcare

This course explores human behavior at the individual, interpersonal and group levels, examines the effects of organizational structure on behavior in multi-cultural organizations, and studies practices and methods within the organization that promote or hinder a healthy work environment. Key concepts include ethical management and leadership, and the history and evolution of management and leadership in the United States.

Credits 4

Notes

4 credits (Includes Practicum)

NU 614 : Leadership in Healthcare Systems: Advanced Roles in Nursing

This course focuses on leadership theory and the role of advanced practice nurses in leadership/ management, and as a colleague and/or consultant in health care systems. An emphasis is placed on transformational leadership and the leaders' responsibility to create a healthy work environment, develop staff, and ensure safe, quality patient-centered care while complying with regulatory, legal and ethical standards.

Credits 4

Notes

4 credits (Includes Practicum)

NU 630 : Curriculum Development and Evaluation

This course provides an introduction to curriculum development in nursing education. Core processes of curriculum development, scholarship in curriculum work, organization of curriculum, and ongoing evaluation for continuous improvement are emphasized. Examples of nursing curricula are available to students.

Credits 4

NU 632 : Innovative Teaching Strategies in Nursing

This course focuses on theories of teaching/learning and various approaches to classroom, clinical, and virtual learning. Key concepts include culture and diversity in the classroom, learning styles, socializing professional behaviors; strategies for innovation in teaching, action-focused thinking use of technology and other media.

Credits 4

Notes

4 credits (Includes Practicum)

NU 634 : Evaluation and Testing in Nursing Education

This course focuses on evaluation of student performance, evaluation of aggregates and evaluation of the nursing program. Key concepts include significance of giving and receiving feedback, formative and summative assessments, grading policies, perspectives on program evaluation, frameworks for program evaluation, and standards and processes of program evaluation.

Credits 4

Notes

4 credits (Includes Practicum)

Philosophy

Associate Professor John A. Laumakis

The purpose of the courses in Philosophy is to acquaint students with the philosophic thought of the past and present and with philosophical argumentation and analysis.

African American Studies

Minor

African American Studies offers an interdisciplinary approach to the varied social, economic, political, literary, artistic, and cultural aspects of the African American experience. This minor is open to all students and can be tailored to meet a student's intellectual and professional goals. These courses benefit anyone wishing to incorporate concepts of diversity, equity, and inclusion into their major areas of study.

Because this is an interdisciplinary minor, only two courses from one discipline will count toward a minor in that field. For example, a student minoring in both African American Studies and History could take four history courses for African American Studies, but only two would count toward a History minor.

Required Course

Item #	Title	Credits
EN 176	Introduction to African American Studies	4.0

Five electives from this list:

(one must be either HI 211 or HI 212):

Item #	Title	Credits
EN 373	African-American Literature	4.0
GB 230	The Caribbean and the African Diaspora	4.0
HI 211	The African American Experience I	4.0
HI 212	The African American Experience II	4.0
HI 245	History of Sub-Saharan Africa	4.0
HI 313	American Slavery	4.0
HI 341	Social Movements in U.S. History	4.0
RE 158	Christianity From the Margins	4.0
SO 202	Race and Ethnicity	4.0
Total Credits		24

Philosophy

Minor

A minor in Philosophy consists of a minimum of 20 semester hours of course work in Philosophy.

Students completing a minor in Philosophy must complete each course counted toward the minor with a grade of 'C' (2.0) or better.

Total Credits

20

Philosophy Course Descriptions

PH 115 : Introduction to Logic and Critical Thinking

Logic is the study of natural language, arguments, and systems of reasoning. This course will have five parts: (1) natural language and arguments; (2) fallacies; (3) inductive reasoning (e.g., arguments by analogy); (4) deductive reasoning (e.g., categorical syllogisms); and (5) using logic to explain and evaluate classic philosophical texts, including Plato's Euthyphro, Meno, and Phaedo (Platonism) and Lucretius's On the Nature of the Universe (materialism). Several times during the semester we will see the similarity between the study of logic and the study of law by examining the LSAT (Law School Admission Test).

Credits 4

PH 170 : Philosophy of Mind

As the scientific study of the human mind, psychology arose from philosophy. In this course, we will study the historical background and current broader context for psychology by examining philosophical views of the human mind. We will focus on (1) the nature of the self, including the mind-body problem and personal identity, (2) the self's ways of knowing and communicating, including sensation, perception, imagination, understanding, thinking, and language, and (3) the self's awareness, that is, consciousness. What is the human mind? How does the human mind know? What does human language reveal about the human mind? What is human consciousness? These are the primary questions we will consider in reading traditional and recent works in philosophy of mind.

Credits 4

PH 213 : Agricultural Ethics

In this course, we will study and apply theories of ethics to agriculture—primarily agriculture in the United States. After noting the complexity of the food system, we will examine current moral issues in American agriculture concerning farmworkers, animals, plants (e.g., genetically modified organisms (GMOs)), and the environment (e.g., the use of fertilizers and pesticides).

Credits 4

PH 216 : Computer Ethics

An introduction to the ethical theories needed to examine various ethical issues in computing such as privacy, security, reliability, responsibility, intellectual property, and freedom of expression. Examples illustrating important concepts are drawn from both the past and current media. A brief history and overview of computing is provided so that prerequisite courses in computer science are not needed other than familiarity with current popular applications software.

Credits 4

PH 315 : Business Ethics

In this course, we will study and apply Western theories of ethics to the policies and actions of companies in the mixed market economy of the United States and other capitalist countries, that is, an economy in which the production and sale of goods and services are structured by a combination of market forces, such as supply and demand, and government regulations. We will discuss broad moral issues, such as the relation between business and government, as well as specific issues that arise in ordinary business practices, such as marketing, product safety, and workers' rights. In our spotlight section near the end of the semester, we will focus on the healthcare industry in the United States. (See [MG 3 IS](#).)

Credits 4

PH 324 : Survey of Political Philosophy

In this course, we will study classical texts from the political tradition of the Western world, such as Plato's Republic. (See [PO 324](#).)

Credits 4

PH 350 : Biomedical Ethics

This course introduces students to matters of social justice related to health. There is a focus on fundamental ethical theories and principles relevant to modern healthcare and health disparities. Case studies are used to emphasize and put into practice ethical decision-making models and processes. [Essential V, VII; VIII]

Credits 4

PH 350 : Biomedical Ethics

This course introduces students to matters of social justice related to health. There is a focus on fundamental ethical theories and principles relevant to modern healthcare and health disparities. Case studies are used to emphasize and put into practice ethical decision-making models and processes.

Credits 4

Physics

Associate Professor Jeffrey E. Chamberlain

Assistant Professor Josiah Kunz

The Department of Physics provides courses dealing with the basic principles of behavior of matter and energy and their relationship to human society. They enhance critical thinking ability and train students in the techniques of quantitative reasoning and laboratory measurement in physical science. The complete physics major program provides the student with a high level of competence in all these skills, which are valued by employers in the fields of science, engineering, medicine, business, law, management, and a large variety of interdisciplinary fields, and for admission to and success in graduate school.

Prerequisites must be completed with a grade of 'C' or above.

Physics

Major

A major in Physics consists of a minimum of 28 semester hours in classroom and laboratory physics courses, along with a minimum of 16 semester hours of Mathematics courses as tool courses for the major.

Required Courses

Item #	Title	Credits
PY 225	College Physics I	4.0
PY 226	College Physics II	4.0
PY 321	Analytic Mechanics: Statics	4.0

16 additional hours of course work in 300-level courses

Item #	Title	Credits
PY 301	Circuits	4.0
PY 302	Electricity and Magnetism	4.0
PY 303	Light	4.0
PY 365	Quantum Theory & Spectroscopy	4.0

Additional Requirements

Item #	Title	Credits
MA 213	Calculus I	4.0
MA 223	Calculus II	4.0
MA 233	Calculus III	4.0
MA 332	Introduction to Differential Equations	4.0

Students who do not place into calculus will need to take additional hours in mathematics. Students interested in further study in physics should take additional courses in physics, chemistry, math, and computer science. It is strongly recommended that physics majors have at least one internship or research experience as PY 465/466 in addition to the above.

Total Credits	44
----------------------	-----------

Physics: Engineering Track

Major

The Department of Physics offers a program in dual degree engineering through cooperative agreements with larger universities. Other names for this type of program include pre-engineering programs and 3-2 engineering (reflects the number of years spent at each institution). Dual degree refers to the fact that the student will receive degrees from two institutions. Students typically spend three years at Illinois College taking courses in physics, math, computer science and chemistry along with courses in the humanities, social sciences, and arts. Two years are then spent at the partner university concentrating on a specific engineering discipline. Upon completion of the program, the student receives a Bachelor of Science degree in physics with engineering from Illinois College and a Bachelor of Science Engineering from the partner university.

Required Courses

The major requires a minimum of 24 hours in classroom and laboratory physics courses at Illinois College of which 16 hours must be at the 300-level. MA 332 and three additional courses chosen from the major requirements for the chemistry, biology, or computer science major are also required. These three should be chosen in consultation with the student's Physics advisor to best meet the needs of the particular engineering program that the student wishes to pursue. The most commonly selected courses are CH 110, CS 160 and CS 170.

Item #	Title	Credits
MA 332	Introduction to Differential Equations	4.0

Additional Requirements

PY 226 and MA 223 are prerequisite to all upper division courses unless waived by the department chair. Prerequisites must be completed with a grade of 'C' or above. The students must complete at least 88 hours of academic credit (senior standing) at Illinois College before approval will be given for continuation of the program at the engineering institution. The Illinois College senior residency requirement is waived for participants in this program. The completion of a degree program in mechanical, civil, or electrical engineering or related discipline at an approved institution is required for the award of the Illinois College bachelor's degree. A student who elects not to continue the dual degree program will need to complete all [BLUEprint requirements](#) for graduation from Illinois College. Faculty approval to be in a 3-2 program is given if a 2.75 average (on a 4.0 scale) is achieved in courses in Division II (Biology, Chemistry, Computer Science, Mathematics, and Physics). Students are strongly encouraged to work closely with their advisors to verify that the general education requirements of the engineering institution are also fulfilled by their Illinois College studies. Students need to complete their graduation application and degree audit with the Illinois College Office of the Registrar prior to leaving campus to attend the transfer institution.

Since students participating in the 3-2 Program in Engineering receive degrees from both Illinois College and the college or university at which they complete their degree, these students need to fulfill the general education requirements of both. In acknowledgement of the curricular constraints posed by this situation, the following accommodations will be made. They will be allowed only for those students in the 3-2 Program in Engineering who successfully complete the engineering program at the institution to which they transfer.

1. Students in the 3-2 Program in Engineering whose level of language participation necessitates their enrollment in a world language course at the 101 level will have successfully completed the world language requirement upon completion of this course.
2. Since participants in the 3-2 Program in Engineering attend Illinois College for only three years, they are not required to have a senior capstone course or experience.
3. Students in the 3-2 Program in Engineering may count up to 3 courses required for their major in the Science and Society category. Two of these classes must be outside the discipline of the student's major.

Physics

Minor

Prerequisites must be completed with a grade of 'C' or above.

Required Courses

Item #	Title	Credits
PY 225	College Physics I	4.0
PY 226	College Physics II	4.0

8 additional hours of Physics at the 300-level

Including at least one of the following courses:

Item #	Title	Credits
PY 301	Circuits	4.0
PY 302	Electricity and Magnetism	4.0
PY 303	Light	4.0
PY 365	Quantum Theory & Spectroscopy	4.0
Total Credits		16

Physics Course Descriptions

PY 124 : Introduction to AutoCAD

This course is intended to be an overview of computer-aided design (CAD) for students with NO prior 2D or 3D experience. In this introductory AutoCAD class, students learn basic drawing and modifying techniques for drafting and technical drawing, using AutoCAD to create drawings that can be used to build objects in real life. This course will provide an emphasis on translating real objects into computer space and vice versa. Through this, students will learn how to create usable designs and will be able to evaluate the different uses of a design. Not only is this a good introduction to computer-aided design for students pursuing engineering, but it is also a good way for other students to add 3D experience to their computer-aided design skills.

Credits 1

PY 225 : College Physics I

This course covers measurements; kinematics in one and two dimensions; Newton's Laws of motion and applications; circular and rotational motion; fundamentals of work, energy, and momentum are presented along with the applications; elasticity; fluids - continuity equation & Bernoulli's Principles; and oscillations. Techniques from calculus are introduced in the first few classes and as needed. Four one-hour lectures (three classes and supplemental instruction per week). One two-hour laboratory session per week.

Credits 4

Prerequisites

[MA 133](#) with a grade of 'C' or better

Semester Offered

[Offered spring semesters](#)

PY 226 : College Physics II

A continuation of [PY 225](#) covering electricity, magnetism, and light with the use of calculus. Students with little or no calculus background enrolling for this course will be trained with limited but necessary math skills in the first few classes or as needed. Four class hours and one two-hour laboratory period per week.

Credits 4

Prerequisites

[PY 225](#) with a grade of 'C' or better

Semester Offered

[Offered fall semesters](#)

PY 301 : Circuits

Electric circuits, node voltage and mesh current techniques, time domain and frequency domain. Laboratory determinations of potential, resistance, capacitance, inductance, transistor characteristics, and other electrical quantities. Includes one three-hour laboratory period per week.

Credits 4

Prerequisites

[PY 226](#) and [MA 223](#)

PY 302 : Electricity and Magnetism

Electrostatics, magnetism, Maxwell's Equations, and introduction to the electromagnetic theory of light. Includes one three-hour laboratory period per week.

Credits 4

Prerequisite Courses

[PY 226: College Physics II](#)

Corequisites

[MA 233](#), or permission of instructor

PY 303 : Light

Geometrical and physical optics: reflection, refraction, dispersion, lasers, interference, diffraction, polarization, and spectroscopy. Includes one three-hour laboratory period per week.

Credits 4

Prerequisites

[PY 226](#) and [MA223](#)

PY 304 : Materials Science for Engineers

This course in Materials Sciences and Engineering is ideal for 3-2 engineering and physics students interested to pursue mechanical, civil, industrial, materials science and general engineering. This course provides balanced, current treatment of the full spectrum of engineering materials, covering all the physical properties, applications and relevant properties associated with engineering materials. It explores all the major categories of materials while also offering detailed examinations of new materials with high-tech applications. The course involves investigating the relationships that exist between the structures and properties of materials.

Credits 4

Prerequisites

[PY 226](#) and [MA 223](#)

PY 321 : Analytic Mechanics: Statics

Force, moments, and couples; conditions of equilibrium; distributed forces; center of gravity and moment of inertia; trusses; frames; beams.

Credits 4

Prerequisites

[PY 225](#) and [MA 213](#)

PY 322 : Analytic Mechanics: Dynamics

Kinematics, kinetics, simple harmonic motion, work, energy, power.

Credits 4

Prerequisite Courses

[PY 225: College Physics I](#)

Co-Requisite Courses

[MA 223: Calculus II](#)

PY 323 : Thermodynamics

This course covers the fundamental concepts of temperature, work, and heat. Specific topics include the Laws of Thermodynamics, gas laws, entropy, conditions of equilibrium, gas cycles, the Maxwell relations, chemical potential and equilibrium, Gibbs' phase rule, Clapeyron-Clausius equation, kinetic-molecular theory, and the Maxwell-Boltzmann distribution. This course does not include a lab period.

Credits 4

Prerequisites

[CH 110](#), [PY 225](#), and [MA 223](#)

Semester Offered

[Offered spring semester of even years](#)

Notes

(See [CH 323](#).)

PY 365 : Quantum Theory & Spectroscopy

(See [CH 365](#).)

Credits 4

PY 411 : Senior Seminar I

The first half of the Physics senior seminar experience. Students develop lab-based or expository projects which include literature review and interdisciplinary aspects.

Credits 2

Prerequisites

senior standing and two 300-level physics courses

PY 412 : Senior Seminar II

The second of a two-semester sequence of 2-credit hour courses which together make up the senior seminar. Students continue to work independently on research projects (lab-based or expository) under the supervision of a faculty member. The projects will include an interdisciplinary component developed with the aid of the instructor.

Credits 2

Prerequisite Courses

[PY 411: Senior Seminar I](#)

PY 461 : Independent Study in Physics

Individual projects course for advanced qualified students

Credits 2-6

Prerequisites

consent of the instructor

PY 462 : Independent Study in Physics

Individual projects course for advanced qualified students

Credits 2-6

Prerequisites

consent of the instructor

PY 463 : Internship in Physics

Students spend an entire summer or academic semester as interns in physics/engineering research projects at Argonne National Laboratory, other government agencies or in the private sector.

Credits 2-8

Prerequisites

Approval of department chair and on-site supervisor

PY 464 : Internship in Physics

Students spend an entire summer or academic semester as interns in physics/engineering research projects at Argonne National Laboratory, other government agencies or in the private sector.

Credits 2-8

Prerequisites

Approval of department chair and on-site supervisor

PY 465 : Independent Research in Physics

Credits 1-4

PY 466 : Independent Research in Physics

Credits 1-4

Political Science

Professor Winston R. Wells

Assistant Professor Dane G. Wendell

Political science courses are designed to give students a deep understanding of government and politics, political behavior, and public policy, both in the US and around the world. Students in our courses become experts in American and international political institutions, and they build concrete skills for global citizenship and civic leadership. Our courses prepare students for government service and careers in law, journalism, electoral politics, and teaching.

Students must complete the major or minor in political science with a grade point average of 2.0 or better for courses in the discipline. No student may register for IS 485 with less than a 2.0 GPA in the major. No courses in which a student earns below a 'C-' will be counted as meeting major or minor course requirements.

Political Science

Major

Political Science majors must complete a minimum of 36 semester hours (nine courses) in the discipline.

Required Courses

Item #	Title	Credits
PO 101	U.S. Federal Government	4.0
PO 150	World Politics	4.0
IS 485	A Liberal Arts Survival Guide	4.0

Electives

Item #	Title	Credits
	Two 300-level American Politics electives	8
	Two 300-level International Relations/Comparative Politics electives	8
	Two other electives at any level	8

In addition, all majors are strongly encouraged to pursue experiential learning opportunities such as internships, study abroad/BreakAway, or service projects. Some departmental funds are available to support these activities.

Total Credits	36
----------------------	-----------

Two 300-level American Politics electives

Elective Credits 8

Two 300-level International Relations/Comparative Politics electives

Elective Credits 8

Two other electives at any level

Elective Credits 8

African American Studies

Minor

African American Studies offers an interdisciplinary approach to the varied social, economic, political, literary, artistic, and cultural aspects of the African American experience. This minor is open to all students and can be tailored to meet a student's intellectual and professional goals. These courses benefit anyone wishing to incorporate concepts of diversity, equity, and inclusion into their major areas of study.

Because this is an interdisciplinary minor, only two courses from one discipline will count toward a minor in that field. For example, a student minoring in both African American Studies and History could take four history courses for African American Studies, but only two would count toward a History minor.

Required Course

Item #	Title	Credits
EN 176	Introduction to African American Studies	4.0

Five electives from this list:

(one must be either HI 211 or HI 212):

Item #	Title	Credits
EN 373	African-American Literature	4.0
GB 230	The Caribbean and the African Diaspora	4.0
HI 211	The African American Experience I	4.0
HI 212	The African American Experience II	4.0
HI 245	History of Sub-Saharan Africa	4.0
HI 313	American Slavery	4.0
HI 341	Social Movements in U.S. History	4.0
RE 158	Christianity From the Margins	4.0
SO 202	Race and Ethnicity	4.0
Total Credits		24

Political Science

Minor

Required Courses

Item #	Title	Credits
PO 101	U.S. Federal Government	4.0
PO 150	World Politics	4.0
	Three other elective PO courses at any level	12
	Total Credits	20

Three other elective PO courses at any level

Elective Credits 12

Political Science Course Descriptions

PO 101 : U.S. Federal Government

A survey of the principles, problems, structure, and functions of the United States federal government including the concept of democracy, the constitution, the federal system, civil and political rights, the party system, public opinion, pressure groups, governmental institutions, and public policies.

Credits 4

PO 150 : World Politics

An introduction to methods of analyzing the problems and processes of world politics, including consideration of the interests and perspectives of different countries, problems of international organization (including the United Nations), and current issues and events. Involves a U.N. simulation.

Credits 4

PO 180 : Introduction to Comparative Politics

An introduction to the study of political systems found outside the United States. The course uses different conceptual approaches to explore the political systems of Great Britain, France, China, and Japan. Highlights the ways in which the political institutions of these countries and the political attitudes of their citizens differ from those of the United States and each other.

Credits 4

PO 260 : Political Psychology

Political psychology is an exploding interdisciplinary field of study dedicated to understanding the psychological underpinnings of political cognition and political behavior. Researchers in this field use the tools of psychologists, behavioral economists, and cognitive scientists to study core questions about politics in novel and exciting new directions. Key questions answered in this course include: How is personality related to politics? Are politicians psychopathic? Are there psychological underpinnings of authoritarianism? Are there intuitive ethics and moral foundations that underlie all societies? Can humans overcome cognitive biases and prejudices in politics? Why are conspiracy theories so hard to combat?

Credits 4

PO 270 : Brain, Biology, and Politics

This course explores the biological nature of our political behavior. Are human beings born to be political animals? The project of understanding the political self has always been interdisciplinary, and researchers today are increasingly turning to the biological sciences to seek better understanding of political cognition. This seminar begins with discussions of human beings as evolutionary political animals, and then proceeds into a deep investigation of how evolutionary theory, psychophysiology, genetics, and cognitive neuroscience contribute to our understanding of politics today.

Credits 4

PO 275 : Campaigns and Elections

A study of the nature of parties; the history, organization, and government of the American party system; suffrage and elections; political socialization and behavior; primaries and conventions; campaign techniques and finance; pressure groups.

Credits 4

PO 280 : East Asian Politics

This course explores the history and politics of China and Japan since the middle of the 19th century, with a comparative focus on the remarkable political and economic experiences of both countries. Current domestic and international issues in the region are examined as well.

Credits 4

PO 324 : Survey of Political Philosophy

Credits 4

Notes

(See [PH 324.](#))

PO 342 : Public Finance

Credits 4

Notes

(See [EC 342.](#))

PO 347 : The Presidency and Congress

A study of the basic institutional components of the Presidency and the Congress and the interrelationships between these two branches of government.

Credits 4

PO 369 : Political Behavior

Political behavior is the study of how people think and act politically. This course deeply investigates several important questions about people and politics: Is the mass public hopelessly divided by politics? Are American citizens knowledgeable about politics? Should we trust American citizens to elect good officials? Can misinformation hurt our democracy? In what ways do men and women operate differently in politics, as both voters and policy makers?

Credits 4

PO 379 : Constitutional Law

This course examines governmental foundations as well as individual rights and freedoms. Students will study the plain language of the U.S. Constitution, the evils that it sought to remedy, Supreme Court decisions applying that text to situations unimagined by its drafters, and current events. The subjects explored in this course include: Judicial review, methods of interpretation, incorporation, the Bill of Rights, Terry stops, interrogation, custody, warrants, search and seizure, plain view, the exclusionary rule, arrest, right to counsel, Miranda, Massiah, lineups, photographic identification, grand juries, indictment, information, initial appearance, bail, preliminary hearing, probable cause, arraignment, discovery, the prosecutor's duty to disclose exculpatory evidence, the right to a speedy trial, the right to trial by jury, pretrial conferences, motions in limine, the confrontation clause, voir dire, and conditions of confinement. Students will learn how the Constitution impacts all Americans, from the artist to the anarchist, and the preacher to the police officer. This course requires extensive reading, analysis, classroom participation, and an oral presentation.

Credits 4

PO 383 : Third World Politics

This course examines the nature of politics in the developing world. Topics include the political legacies of colonialism and the contemporary spread of democracy and open markets throughout Asia, Africa, and Latin America.

Credits 4

PO 386 : International Relations

A study of international systems, relations among states, problems of war and peace, and theoretical issues.

Credits 4

PO 387 : American Foreign Policy

An analysis of American attitudes toward international problems, the process of foreign policy making, and the content of U.S. policy. Particular attention is focused on current issues.

Credits 4

PO 388 : International Political Economy

A study of the interactions between states and markets in the international arena. Topics explored include the politics of international trade, the political regulation of international financial flows, and relations between developed and developing countries.

Credits 4

PO 420 : Seminar in Political Science

Seminar devoted to a special topic or theme, with individual research by participants.

Credits 4

Prerequisites

consent of the instructor

PO 421 : Seminar in Political Science

Seminar devoted to a special topic or theme, with individual research by participants.

Credits 4

Prerequisites

consent of the instructor

PO 461 : Independent Study in Political Science

Students will read in depth on a subject in the general field of government or political science. A research paper is usually required.

Credits 1-4

Prerequisites

B average and consent of the instructor

PO 462 : Independent Study in Political Science

Students will read in depth on a subject in the general field of government or political science. A research paper is usually required.

Credits 1-4

Prerequisites

B average and consent of the instructor

PO 463 : Internship in Political Science

Students normally serve as interns in the state legislature or a government office.

Credits 1-4

Prerequisites

consent of the instructor

PO 464 : Internship in Political Science

Students normally serve as interns in the state legislature or a government office.

Credits 1-4

Prerequisites

consent of the instructor

PO 465 : Independent Research in Political Science

Credits 1-4

PO 466 : Independent Research in Political Science

Credits 1-4

PO 485 : Senior Seminar

A capstone seminar bringing together all graduating majors to examine major themes in our discipline. Students will examine classic and current scholarship in the discipline that will lead to writing a senior essay and its formal presentation.

Credits 4

Pre-Law

Administered by the History, Political Science, Philosophy, and Religion Department

For more information, contact Professor Winston Wells, the College's Pre-Law Advisor.

Pre-Law

Minor

Students interested in pursuing admission to law school are encouraged to supplement the major of their choice with the College's Pre-Law minor.

This interdisciplinary course of study is designed to cultivate the skills that are essential in any legal career: the ability to analyze complex and complicated materials, to think logically and clearly, and to write and speak with precision. The Pre-Law minor also helps students develop the research skills that are required by law schools.

The Pre-Law minor consists of three core courses and two electives selected from a list of five courses. Students are also encouraged to complete an internship in a legal setting in order to explore various areas of the law, gain experience completing legal tasks, and strengthen their law school applications.

Core Courses

Item #	Title	Credits
PO 101	U.S. Federal Government	4.0
PH 115	Introduction to Logic and Critical Thinking	4.0
PO 379	Constitutional Law	4.0

Electives

Two courses from the following:

Item #	Title	Credits
CJ 310	Criminal Law and Procedure	4.0
CO 311	Argumentation & Debate	4.0
CO 314	Freedom of Expression	4.0
EN 208	Persuasive Writing	4.0
MG 357	Business Law	4.0
Total Credits		20

Psychology

Professor Elizabeth Rellinger Zettler

Professor Jeremy Turner

Assistant Professor Alex Moore

Assistant Professor Clarissa Richardson

Visiting Assistant Professor Amanda Henton

Visiting Assistant Professor Loretta McKenzie

Part-time Instructor Angela Grobelnik Zentgraf

The general goals held by the Department of Psychology are to provide courses that give students a broad background, varieties of concepts, self-awareness, and self-understanding for the development of skills, tools, and knowledge for the understanding of behavior, especially human behavior. Basic language, concepts, theories, and symbols associated with the various fields of psychology are emphasized.

Students must earn at least a 'C-' (1.67) in each course counted towards the psychology major or minor.

Psychology

Major

Required Courses

Psychology majors must complete a minimum of 40 semester hours in the department and must include:

Item #	Title	Credits
PS 101	Introduction to Psychology	4.0
	PS 241 or PS 346	4
PS 243	Introduction to Research Methods and Statistics	4.0
PS 244	Advanced Research Methods and Statistics	4.0
PS 226	Introduction to Neuroscience and Behavior	4.0
PS 401	Seminar	4.0
Total Credits		40

PS 241 or PS 346

Elective Credits 4

Item #	Title	Credits
PS 241	Personality and Individual Differences	4.0
PS 346	Abnormal Psychology	4.0

Psychology

Minor

Required Courses

A minor in psychology consists of 20 hours credit in Psychology courses.

Total Credits	20
----------------------	-----------

Psychology Course Descriptions

PS 101 : Introduction to Psychology

A general survey course prerequisite for all courses in the department.

Credits 4

PS 203 : Careers in Psychology

A survey of topics designed to support the pursuit of a career within the field of Psychology, broadly speaking. Major topics include succeeding in the major, job prospects for students at different levels of education across subfields, and approaches that support career development.

Credits 4

PS 209 : Psychology of the Exceptional Child

A detailed study of all areas of exceptionality, from the challenged to the challenging.

Credits 4

Prerequisite Courses

[PS 101: Introduction to Psychology](#)

PS 226 : Introduction to Neuroscience and Behavior

An introduction to the physiological substrate of behavior. Topics include brain structure, function and development, sensory and motor systems and the brain basis for a variety of normal and abnormal human behaviors. Laboratory experiences included.

Credits 4

Prerequisites

[PS 101](#), [BI110](#), or [BI 107](#)

Semester Offered

[Offered spring semesters](#)

PS 235 : Psychology through Films

Normal and psychopathological individuals as depicted in commercially produced films. An orientation toward an understanding of the behaviors and psychological dynamics that differentiate the normal from the psychopathological individual.

Credits 4

Prerequisite Courses

[PS 101: Introduction to Psychology](#)

PS 241 : Personality and Individual Differences

An introduction to the understanding of individuals and their personalities through the study of the ways persons differ and the meaning of these differences.

Credits 4

Prerequisite Courses

[PS 101: Introduction to Psychology](#)

PS 243 : Introduction to Research Methods and Statistics

An introduction to the research methods and statistical tools used in the psychological and related sciences. Topics include an introduction to some of the most commonly used research methods; defining, measuring, and manipulating variables; descriptive methods and statistics; correlational methods and statistics; probability, hypothesis testing, and inferential statistics; two-group experimental designs and inferential statistics (including t-tests, Wilcoxon and Chi-Square tests.)

Credits 4

Prerequisite Courses

[PS 101: Introduction to Psychology](#)

Semester Offered

[Offered fall semesters](#)

PS 244 : Advanced Research Methods and Statistics

A continuation of the methods and statistics covered in [PS 243](#). Topics include experimental designs with more than two groups, or more complex designs with more than one manipulated variable (factorial design); One-Way and Two-Way ANOVAs; quasi-experimental designs; introduction to multiple regression; communication of research findings.

Credits 4

Prerequisites

[PS 243](#) or consent of instructor

Semester Offered

[Offered spring semesters](#)

PS 261 : Neuropsychopharmacology: Drugs and Behavior

A survey of the neural, pharmacological, and psychological mechanisms of psychoactive drugs. Major topics include principles of pharmacology, basic properties of neurotransmission/ neurophysiology, and physiological and psychological aspects of addiction. Psychotherapeutic drugs (e.g., for depression, anxiety, schizophrenia, ADHD), legal drugs of abuse (e.g., alcohol and nicotine), and illegal drugs of abuse (e.g., methamphetamine, opiates, Hallucinogens, club drugs) are surveyed. Attention is also given to drug development and regulations, the problem of drugs in the workplace and treatment options.

Credits 4

Prerequisites

[PS 101](#), [BI 110](#), or [BI 107](#)

PS 275 : Child Development

An interdisciplinary approach to the study of development across the early stages of the lifespan with emphasis on genetic and environmental influences; includes prenatal development through the elementary school years. A prerequisite for PS 312, Adolescent Psychology. (Not open to students who have taken PS 276.)

Credits 4

Prerequisite Courses

[PS 101: Introduction to Psychology](#)

PS 276 : Lifespan Development

An interdisciplinary approach to the study of development across all stages of the lifespan with emphasis on genetic and environmental influences; includes prenatal development through death. (Not open to students who have taken [PS 275](#).)

Credits 4

Prerequisite Courses

[PS 101: Introduction to Psychology](#)

PS 278 : Recreation and Environment

An overview of the interrelated issues in the psychology of recreation and in environmental psychology, including outdoor recreation and environmental values, self and cultural identities, and political and public policy issues related to recreation and our environment.

Credits 4

Prerequisite Courses

[PS 101: Introduction to Psychology](#)

PS 282 : Social Psychology

A study of the psychological and sociological factors of interaction between individuals in social groups and collectives.

Credits 4

Prerequisite Courses

[PS 101: Introduction to Psychology](#)

Notes

(See SO 282.)

PS 286 : Health Psychology

An introduction to scientific research and theory on the relationship between physical health and mental processes, emotion, and behavior. Topics include current research on stress and stress management, coping and illness, pain, heart disease, cancer, AIDS and health behaviors (e.g., smoking, diet, exercise).

Credits 4

Prerequisite Courses

[PS 101: Introduction to Psychology](#)

PS 301 : Industrial - Organizational Psychology

An in depth look at the principles of psychology as applied to all organizational settings. Course oriented towards student discovering how psychologists have improved the satisfaction, safety, and productivity of the work environment.

Credits 4

Prerequisite Courses

[PS 101: Introduction to Psychology](#)

PS 312 : Adolescent Psychology

An interdisciplinary study of adolescents. Focus is on how various social and psychological phenomena affect individuals within this age group.

Credits 4

Prerequisites

[PS 275](#), [PS 276](#) or consent of the instructor

PS 313 : Learning

A study of the categories of learning, applicable to both humans and animals.

Credits 4

Prerequisite Courses

[PS 101: Introduction to Psychology](#)

PS 322 : Cognitive Psychology

A survey of theory and principles that reveal the nature of thought and mental processes engaged during thinking. Major topics include perception, attention, memory, language, neural function, and consciousness.

Credits 4

Prerequisite Courses

[PS 101: Introduction to Psychology](#)

PS 327 : Sensory and Motor Systems

A survey of all major senses (vision, hearing, balance, touch, taste, smell) and how we organize and interpret sensory information in the brain to understand the external world. Additional topics include principles of psychophysics; natural history of the senses; development and aging of the sensory systems; and the role of the senses in communication.

Credits 4

Prerequisites

[PS 101](#), [BI 110](#), or [BI 107](#)

PS 328 : Animal Behavior

(See [BI 328](#).)

Credits 4

PS 329 : Advanced Neuroscience

Advanced Study of the brain. Topics included brain development, aging, plasticity, memory, and diseases/disorders of the brain. Course readings and topics will vary depending upon the interests of the class. Common readings and discussions are paired with individualized study in the student's area of interest, culminating in a laboratory research project.

Credits 4

Prerequisite Courses

[PS 226: Introduction to Neuroscience and Behavior](#)

Corequisites

any statistics course meeting the Statistical Literacy BLUEprint Requirement

Semester Offered

[Offered fall semesters](#)

PS 330 : Behavioral Genetics

An introduction to the theory and methodology of behavior genetic psychology. Includes twin and adoptive studies, family designs, and molecular genetic approaches to psychology.

Credits 4

Prerequisites

[PS 101](#) and [PS 243](#) (or other statistics course) or consent of instructor

PS 337 : Aging and the Life Course**Credits** 4**Notes**

(See SO 337.)

PS 341 : Psychological Tests and Measurements

A comprehensive study of the principles of test construction, knowledge of the behavior being measured, and acquaintance with the major types of available tests.

Credits 4**Prerequisite Courses**[PS 101: Introduction to Psychology](#)**PS 346 : Abnormal Psychology**

A study of the various patterns of mental, behavioral, and personality disorders. Major emphasis is on the diagnosis and understanding of the disorder. Pertinent legal issues are also discussed.

Credits 4**Prerequisite Courses**[PS 101: Introduction to Psychology](#)**PS 350 : Consumer Behavior****Credits** 4**Notes**(See [MG 350](#).)**PS 365 : Understanding Social / Emotional Disorders in Children**

A study of the developmental and environmental causes of social and emotional problems in children as related to their characteristic behaviors, with emphasis on identifying these behaviors and diagnosing their probable causes.

Credits 4**Prerequisite Courses**[PS 101: Introduction to Psychology](#)**PS 371 : Therapies**

An orientation toward the differential application and effectiveness of biological, individual, and group therapies in the treatment of psychopathological disturbances.

Credits 2-4**Prerequisite Courses**[PS 101: Introduction to Psychology](#)**PS 385 : Field Work**

Clinical experience in psychologically relevant facility.

Credits 1-4**Prerequisites**

12 credit hours of course work in Psychology and consent of instructor. [PS 101](#)

Notes

Total number of hours of credit cannot be more than four (4).

PS 391 : Report Project

An individual directed investigation arranged with an instructor on a topic of mutual interest. Project requires a final report that includes a presentation of the problem, review of the literature, and a description of the specific procedures to be employed.

Credits 2**Prerequisites**[PS 243](#)

PS 401 : Seminar

Offered fall semesters.

Credits 4

Prerequisites

PS 101, PS 243, and consent of the instructor if not a senior

PS 461 : Independent Study in Psychology

Credits 1-4

Prerequisites

consent of the instructor

PS 462 : Independent Study in Psychology

Credits 1-4

Prerequisites

consent of the instructor

PS 463 : Internship in Psychology

Clinical experience in psychologically relevant facility.

Credits 1-4

Prerequisites

12 credit hours of course work in Psychology and consent of instructor

Notes

Total number of hours of credit cannot be more than four (4).

PS 464 : Internship in Psychology

Clinical experience in psychologically relevant facility.

Credits 1-4

Prerequisites

12 credit hours of course work in Psychology and consent of instructor

Notes

Total number of hours of credit cannot be more than four (4).

PS 465 : Independent Research in Psychology

Credits 1-4

PS 466 : Independent Research in Psychology

Credits 1-4

Religious Studies

Professor Adam L. Porter

Assistant Professor Gwendolyn Gillson

Religious literacy is vital for social networking, civic responsibility, global understanding, and professional work in all fields. Religion is integral to a liberal arts education, as it explores dimensions of human life that have had a profound and decisive effect on our conception of human nature, destiny, and action. All courses in the Religion program emphasize traditional liberal arts skills of thinking and writing. Close reading of primary texts and development of analytical skills allow students to explore ideas and values that form the basis of human civilization. Emphasis is also placed on expressing ideas clearly and persuasively through writing. Courses in Religion are designed to serve as a focus of a liberal arts education, preparing students for a variety of careers: public service, teaching, ministry, law or medicine among them.

African American Studies

Minor

African American Studies offers an interdisciplinary approach to the varied social, economic, political, literary, artistic, and cultural aspects of the African American experience. This minor is open to all students and can be tailored to meet a student's intellectual and professional goals. These courses benefit anyone wishing to incorporate concepts of diversity, equity, and inclusion into their major areas of study.

Because this is an interdisciplinary minor, only two courses from one discipline will count toward a minor in that field. For example, a student minoring in both African American Studies and History could take four history courses for African American Studies, but only two would count toward a History minor.

Required Course

Item #	Title	Credits
EN 176	Introduction to African American Studies	4.0

Five electives from this list:

(one must be either HI 211 or HI 212):

Item #	Title	Credits
EN 373	African-American Literature	4.0
GB 230	The Caribbean and the African Diaspora	4.0
HI 211	The African American Experience I	4.0
HI 212	The African American Experience II	4.0
HI 245	History of Sub-Saharan Africa	4.0
HI 313	American Slavery	4.0
HI 341	Social Movements in U.S. History	4.0
RE 158	Christianity From the Margins	4.0
SO 202	Race and Ethnicity	4.0
Total Credits		24

Religious Studies

Minor

A Religion Minor consists of 20 hours in Religion: RE 190 and 16 additional hours in religion classes. It is an excellent choice to enrich any major subject area, whether in Math and Science, Social Science, Business and Economics, or Humanities and the Arts. It helps prepare students for any career in our increasingly interrelated, multicultural world.

Required Courses

Item #	Title	Credits
RE 190	World Religions	4.0
	16 additional hours in religion classes	16
Total Credits		20

Religious Studies Course Descriptions

RE 101 : Introduction to the Bible

This course explores the contents, historical contexts, themes, development, and transmission of the Hebrew Bible (Old Testament) and New Testament. Readings will be selected portions of most biblical books, in a translation that offers explanatory notes and other helps. Class sessions will focus in great part on trying to understand these writings in their original situations, and how people ever since have used and interpreted them. No previous knowledge of the Bible is assumed.

Credits 4

RE 104 : Christianity and Diversity

"Who do you say that I am?" Throughout Christian history and in the contemporary world, there are numerous and sometimes quite incompatible responses to this question about Jesus's identity. This course introduces students to the Christian tradition in history and the contemporary world through a focus on the diversity of these "interpretations of Jesus/" including in the global religious and interfaith context. Through this course, students will also gain the critical and cross-cultural thinking skills required for the academic study of religion. No previous knowledge of Christianity or religious studies is assumed.

Credits 4

RE 105 : Afterlives of the Bible

Contrary to popular belief, the Bible doesn't have a single meaning. Rather, it means different things to people depending on the questions they ask, when they live, how they understand the world, and their social location. This class will explore this by reading three Bible stories: Creation and the Garden of Eden, the Exodus, and Revelation. We will then examine how different people (other Biblical authors, ancient Jews and Christians, Renaissance artists and writers, and modern Americans, both black and white) have found different meanings in these texts.

Credits 4

RE 158 : Christianity From the Margins

Christianity began as a marginal sect, became the official religion of the Empire, and has continually shaped and been shaped by political forces. This course explores how Christian beliefs and practices have been understood from the margins, contesting the structures of power of its day. Particular attention will be given to African American forms and expressions of Christianity.

Credits 4

RE 166 : Satan in Popular Culture

Satan is hot in popular culture. This course will explore how Satan has been viewed by the West. We will consider Satan's (few) appearances in the Bible but most of the class will be spent looking at more recent representations of Satan in literature, comics, film, music, and television. We will focus on how people have imagined Satan differently and what has prompted these different versions of Satan to be imagined.

Credits 4

RE 167 : Cults and the End of the World

What is a cult and why would somebody want to join one? What might the end of the world look like? Why are people worried about the apocalypse? This course will attempt to answer these questions through the study of different groups that have been labelled "cults." We will explore why people choose to join new religions and why others call those new religions "cults" but why we're supposed to call them "New Religious Movements." We will also try to discover why many of these new religions focus on the end of the world, the coming apocalypse, and the rebirth of humanity and society. Throughout the semester we will use a variety of groups from America and Asia to illustrate four key themes within New Religious Movements: charismatic leadership, the end of the world, race and gender, and violence.

Credits 4

RE 173 : Space, Place, and Religion

Where does religion happen? Why are people so interested in and protective of religious spaces? This class examines the ways that people experience and live religion through interactions with particular spaces and places. We will examine the nature of "sacred space" and why religion, which is considered by many to be relatively abstract, is in fact often grounded in geography at the intersection between the physical and the spiritual realms. Covering religions from across the globe and their interactions across space and time, we will examine the ways that religions interact, develop, and establish themselves in new locations and with new peoples and cultures. We will also look at how various religions understand and interact with the environment.

Credits 4

RE 175 : Religion and Sports

The relationship between athletic competition and religious worship is as old as the Olympics in ancient Greece. Why do some religions encourage athletic competition, while others see sports as incompatible with religious life? How do specific religious commitments conflict with athletic competition? Why do some religions borrow athletic imagery to describe the religious life? How do sports use religious imagery? In this class, we will look at the role of sports in several religions from ancient Greece to contemporary America. We will look at Jews, Christians, Muslims, among others, examining the relationship between their religious commitments and athletics. Finally, we will think of how athletics and religion often take on each other's qualities to the point that sports can be analyzed as a form of religion.

Credits 4

RE 176 : Religion and Business

This course will explore the connections between Business and Economics and Religion. Religion has played a major role in shaping American business practices and continue to influence business decisions especially related to the environment and agriculture. We will also think about how big business has sought to influence American religion.

Credits 4

RE 177 : Religion, Agriculture, and Environment

Religion - and Christianity in particular - has been called one of the greatest threats to the environment, the Bible often being used to justify the exploitation of natural resources for human benefit. Is this true? Does it have to be the case? In this class, we will explore how religious commitments shape attitudes toward the environment, and ways that people can act in an environmentally ethical manner through their religious traditions. We will look, in particular, how the Bible has been called upon on all sides of the debate, but also turn to other traditions, such as Hinduism and Buddhism for comparison.

Credits 4

RE 181 : Gods, Monsters, and Sex in East Asia

What do femininity and masculinity look like in East Asia? How many genders are there according to East Asian religions? This course will examine these and other related questions to explore the meaning of gender and sexuality in East Asian religions. Using stories, traditions, and testimonies of gender transformation and fluid sexuality, along with their counterpoints of gender rigidity and restrictive sexuality, it will look at both historical and contemporary expressions of gender and sexuality across East Asia to show the variety of interpretations of women, men, and everything in between that lie at the heart of East Asia. (See [HI 181](#).)

Credits 4

RE 190 : World Religions

This class helps students expand beyond their own religious tradition in order to see the way other traditions view their worlds and explore how religion can be understood as a reflection of attempts to comprehend the human condition. In this course, we examine Judaism, Christianity, Islam, Hinduism, Buddhism, and Chinese Traditions, alongside a select number of additional traditional and new religious movements to reflect the diversity inherent in religious experiences across the globe. Using the lived experience of religion as a launching point, we compare and contrast these religions and critically examine texts from each one to illuminate how misunderstandings about religion can easily arise. We pay particular attention to the ways that historical practices and beliefs are present in contemporary expressions of religious identity.

Credits 4

RE 200 : Interfaith Studies

In this interdisciplinary course, you will gain knowledge and skills necessary for navigating professional and community life in a religiously diverse 21st century. Using case studies, texts from multiple disciplines like religion, history, and sociology, alongside experiences and interactions inside and outside of the classroom, you will learn about multiple religions, about what is at stake when people who orient around religion differently interact, and about how you can become an effective interfaith leader. The course includes an opportunity to connect this work with a profession, a major, or an issue of specific interest to you.

Credits 4

RE 207 : Killing in the Name of God(s)

In this course, you will learn about global politics as manifest in religious terrorism from five global religions, one case study of a violent new religious movement in the United States, and the intersection of religion and the physical and imagined body. Drawing together historical, textual, philosophical, and theoretical examinations of religion and violence, this class will question the enduring relationship of the two, with a particular focus on the contemporary landscape and all that came to form it. The class will conclude with an examination of responses to religious violence like Martin Luther King Jr.'s and Mohandas Ghandi's work on nonviolence.

Credits 4

RE 214 : Healing and Healthcare

Illness is a universal human experience and so is the desire to give meaning to illness. Nevertheless, cultural and religious differences can produce very different interpretations of the meaning and significance of illness for both individuals and those around them. In this course we will examine religiously-informed understandings of illness (of body, mind, and spirit) as well as the interpretative and healing strategies different cultures have developed to explain, address, and alleviate it. We will cover faith healing, Ayurveda, Traditional Chinese Medicine, shamanism and a variety of alternative ways of thinking about health and the human body in order to make sense of why people pursue non- Western biomedical forms of medicine. In addition, we will explore how different ways of healing raises questions about the differences between disease and illness, curing and healing, and religion and folk tradition.

Credits 4

RE 216 : Religion and Film

Many people's ideas about religion are shaped by how it is presented in film. This class will introduce the vocabulary of film analysis to students and then use it to study a variety of films. We will see that films often reflect the concerns of the time in which they were made, even if they claim to represent the life of Jesus or other biblical figures. Films to be studied include several Bible films (that is, films adapting stories from Bible), films that represent Jewish and/or Christian ideas, and films representing other religions. Films are one of the most complex art forms, but most people watch them passively. In this class we will learn to "read" them carefully, analyze them, and reflect upon them. While the content of the films will be biblical and religious, the skills learned in this class are applicable to any film-based medium.

Credits 4

RE 223 : Japanese History and Religion

Japanese history and religion are intimately intertwined; indeed, it is impossible to understand one without the other. This course is intended to assist you in understanding Japan in the context of its history and major religious traditions. It will cover the sweep of Japan's story from its archaeological and mythical beginnings to today. We will explore the development of its primary religious traditions, Buddhism and Shinto, as well as other religions such as Confucianism that play an important part in Japanese history and thought. Readings will include texts by Japanese and non-Japanese alike. No previous knowledge of Japan is assumed. (See [HI 223](#).)

Credits 4

RE 224 : China: History and Religion

This course is intended to assist you in understanding contemporary China in the context of its history and major religions. It will cover the sweep of China's story from its beginnings to the 21st century. Traditions treated will include ancient beliefs and practices, Confucianism, Daoism, Buddhism, and modern political ideologies such as Maoism. Readings will include texts by Chinese and non-Chinese alike. No previous knowledge of China is assumed. (See [HI 224](#).)

Credits 4

RE 251 : God? An Investigation

What kind of being is God supposed to be? Does God exist? How do we know? If there is a God, why is there evil? Is belief in God relevant in our contemporary social and political world? Can you create ideas of God, new religions? This course investigates these and other questions about God by examining the writings of historical and contemporary thinkers (philosophers, religious adherents, and novelists).

Credits 4

RE 341 : Introduction to Classical Hebrew I

A thorough and rigorous introduction to biblical Hebrew, with emphasis on grammar, syntax and vocabulary, in preparation for translation of biblical prose. Readings in the Hebrew Bible/Old Testament begin in the first semester and increase in complexity throughout the year. This course is offered upon student request. Please contact Dr. Porter if you are interested.

Credits 4

RE 342 : Introduction to Classical Hebrew II

A continuation of RE 341, with emphasis on reading more complex materials, such as poetry.

Credits 4

Prerequisite Courses

[RE 341: Introduction to Classical Hebrew I](#)

RE 351 : Introduction to Biblical Greek I

A thorough and rigorous introduction to biblical Greek, with emphasis on grammar, syntax and vocabulary, in preparation for translation of biblical prose. Readings in the New Testament begin in the first semester and increase in complexity throughout the year. This course is offered upon student request. Please contact Dr. Porter if you are interested.

Credits 4

RE 352 : Introduction to Biblical Greek II

A continuation of RE 351, with emphasis on reading more complex materials, including Greek documents outside the New Testament.

Credits 4

Prerequisite Courses

[RE 351: Introduction to Biblical Greek I](#)

RE 461 : Independent Study in Religion

A detailed study of some topic or a movement in religion.

Credits 1-4

Prerequisites

9 hours in religion or consent of the instructor

RE 462 : Independent Study in Religion

A detailed study of some topic or a movement in religion.

Credits 1-4

Prerequisites

9 hours in religion or consent of the instructor

RE 463 : Internship in Religion

Credits 1-4

RE 464 : Internship in Religion

Credits 1-4

Credits 1-4

RE 466 : Independent Research in Religion

Credits 1-4

Sociology

Professor Kelly A. Dagan

Assistant Professor Jericho McElroy

Assistant Professor Jaclyn Tabor

Assistant Professor David Walter

Instructor Angela Gonzales Balfe

The Department of Sociology, rooted in the liberal arts at Illinois College, is dedicated to developing students' awareness of the interconnections between individual lives and the larger social context. Through our courses and faculty advising, we ask students to question the taken-for-granted by requiring them to examine the impact of society on individual choices, behaviors, and attitudes, as well as how patterns of individual choices, behaviors, and attitudes create the society in which we live. In addition, we encourage our students to recognize the ways in which their sociological knowledge complements understanding other disciplines in

which they are participating.

Students must earn a 'C-' or better in each course to be counted towards the major or minor.

Sociology

Major

General Requirements

Item #	Title	Credits
SO 101	Introduction to Sociology	4.0
SO 210	Social Statistics	4.0
SO 286	Introduction to Social Science Methods	4.0
SO 384	Data Collection and Analysis	4.0
SO 387	Sociological Theory	4.0

Electives

The remaining 12 hours needed to fulfill the sociology major are electives. Here are a few examples of combining courses that will focus on the various subfields offered in the department:

Criminology: SO 341, 343, 344

Inequality/Stratification: SO 202, 206, 207

Family Studies: SO 224, 327, 338

One course designated as a diversity course:

Item #	Title	Credits
SO 202	Race and Ethnicity	4.0
SO 206	Social Stratification	4.0
SO 207	Gender and Sexuality	4.0

One course designated as a civic engagement course:

Item #	Title	Credits
SO 206	Social Stratification	4.0
SO 337	Aging and the Life Course	4.0
SO 343	Prisons and Institutions of Social Control	4.0

Majors are also encouraged to complete courses in government and policy and in computer literacy. These courses do not count toward fulfillment of major requirements.

Total Credits		40

Sociology Course Descriptions

SO 101 : Introduction to Sociology

This course is an introduction to the study of society, including the basic concepts of society, culture and personality, and their relationship to one another. This course is required for majors and minors and is a prerequisite for most 300 level sociology courses.

Credits 4

SO 202 : Race and Ethnicity

This course is a study of the social processes that create minorities and govern the interrelations between minority and dominant groups including both ethnic sub-societies and other socially differentiated collectivities that are stereotyped, stigmatized, and subjected to discrimination. A few specific topics will be chosen to focus on such as desegregation, multiethnic immigration, reparations, etc.

Credits 4

SO 206 : Social Stratification

This course is focused on the study of the major concepts, theories and findings regarding dimensions of social class in the United States. A major component of this course is service in one of many community organizations and therefore, this is considered a service-learning course.

Credits 4

Prerequisite Courses

[SO 101: Introduction to Sociology](#)

Semester Offered

[Offered every fall semester](#)

SO 207 : Gender and Sexuality

This course highlights the social construction gender and sexuality and highlights how these concepts are intricately intertwined. This course will examine the history of gender sexuality and theories of gender and sexuality. A variety of topics may be chosen for inclusion by the instructor, such as gender and sexuality in the workplace and sexuality in the military, etc.

Credits 4

SO 210 : Social Statistics

This course introduces the student to the basics of social statistics-techniques which sociologists and other social scientists use to summarize numeric data obtained from censuses, surveys, and experiments. The topics include frequency distribution, central tendency, variability, probability theory, and estimation. The student will also learn how to test hypotheses for group differences in means (z test, t test) and for association between two variables (correlation, chi-square test).

Credits 4

SO 218 : Social Problems

This course entails a sociological examination and analysis of selected social phenomena that are defined as social problems by a significant number of persons. This course will examine social problems from each of the major sociological paradigms (symbolic interactionist, conflict, and functionalist) to illuminate recurring substantive problems in the areas of economic inequality, social inequality, and the restriction of democracy.

Credits 4

SO 224 : Families and Society

This course will introduce you to how sociologists study families, identifying the core concepts, theories, and methods used by scholars as well as exploring the history, present, and future of families in America. We will consider both the "public" and "private" dimensions of families over the course of the semester - families as settings for socially important tasks such as raising children and caring for family members, but also as the place where we experience much of our private lives. The course culminates in a research paper exploring a family-related social problem.

Credits 4

SO 260 : Sociological Aspects of Deviance

This course involves the study of the definition, identification, treatment, and control of types of legal, moral and status deviance, such as crime, mental illness, alcoholism, and other individual pathologies.

Credits 4

Prerequisites

[SO 101](#) or [CJ 160](#)

SO 282 : Social Psychology**Credits** 4**Prerequisite Courses**[SO 101: Introduction to Sociology](#)**Notes**(See [PS 282.](#))**SO 286 : Introduction to Social Science Methods**

This course is the first course in a year-long sequence of two courses. If you take this course, it is expected that you will continue with the sequence and take SO 384 in spring semester of the same year. This course provides an introduction to social research from an interdisciplinary perspective and examines a number of research methodologies that include both quantitative and qualitative approaches. Course objectives include gaining an understanding of the value and importance of social research and learning to evaluate key components of research design. During the course of the semester, students initiate and develop a comprehensive research proposal integrating theory, data collection strategies, and ethical considerations.

Credits 4**Prerequisites**[SO 101](#) or [PS 101](#) or [CJ 160](#)**Corequisites**[SO 210](#) or equivalent statistics course**SO 326 : Modern Love**

Integrating sociology with other social science perspectives (including history, psychology, and anthropology), this course will explore romantic love, sexuality, and intimate relationships in the modern world. Progressing through the semester, class readings, films, and discussions focus on the various ways that individuals fall in love, come together, settle down, break apart, and find love again. In doing so, we critically interrogate the evolution of dating and marriage in U.S. history and abroad along with their impact on contemporary society. We will also consider contemporary issues that impact our current understandings of romance, dating, and marriage - including cohabitation, online dating, the legalization of same-sex marriage, and the #Metoo movement.

Credits 4**Prerequisite Courses**[SO 101: Introduction to Sociology](#)**SO 337 : Aging and the Life Course**

This course makes a critical examination of the facts, fictions, and theoretical frameworks for understanding aging in its multicultural social contexts and considers the implications for people's social and personal lives. We will examine perceptions of older individuals and the process of aging from social constructionist and life course perspectives, exploring our beliefs, values, and cultural traditions regarding aging. We will also look at the various social institutions impacting the lives of older Americans, such as work and the economy, government and politics, the healthcare system, and families. Major components of this class include service hours at a local senior home and the development of a proposal for elder-positive changes in Jacksonville, Illinois.

Credits 4**Prerequisite Courses**[SO 101: Introduction to Sociology](#)**Notes**(See [PS 337.](#))

SO 338 : Childhood and Adolescence

This course examines the processes of childhood and adolescence within contemporary U.S. culture. Readings, discussions, and coursework focus on the evolution of childhood and adolescence and how these phases of the life course have been constructed and shaped by human societies, both historically and in the present day. This course involves a critical examination of the impacts of these social constructions to children and adolescents themselves, but also to parents, other family members, and peers, the society as a whole. This course also examines the two-way relationship between specific social institutions, and ways that these institutions both impact and are influenced by children and adolescents at this point in our culture.

Credits 4

Prerequisite Courses

[SO 101: Introduction to Sociology](#)

SO 341 : Criminology

Crime and delinquency as major forms of deviance; scope and distribution of crime and delinquency, and character of offenders; treatment of relevant theory as well as treatment, prevention, and control will be highlighted.

Credits 4

Prerequisites

[SO 101](#) or [CJ 160](#)

SO 343 : Prisons and Institutions of Social Control

This course will familiarize students with the treatment of adult offenders in detention and incarcerations in both short and long-term institutions. This course also emphasizes the analysis of punishment in our criminal justice system, with a focus on why we punish. This is all examined in the context of correctional philosophies, history and development of corrections, including relevant theories, practices, systems analysis, and treatment modalities.

Credits 4

Prerequisites

[SO 101](#) or [CJ 160](#)

SO 344 : Juvenile Delinquency

This course will focus on the nature, extent and causes of juvenile delinquency with attention also given to methods of prevention and treatment.

Credits 4

Prerequisites

[SO 101](#) or [CJ 160](#)

SO 384 : Data Collection and Analysis

This course begins with a brief review of the basic assumptions, designs and ethics of quantitative social research. We will make an in-depth examination of both qualitative and approaches to data collection and explore effective ways to analyze data collected from each of these methodological approaches. Students will collect and analyze data from their own original research projects and develop a comprehensive research paper integrating all components of research design. This course serves as the capstone experience in the Sociology Department.

Credits 4

Prerequisites

[SO 101](#) or [CJ 160](#) and [SO 286](#)

SO 387 : Sociological Theory

This course focuses on understanding theories and concepts of sociological theory from Comte to the present. We will investigate the historical context in which Sociology developed, as well as how contemporary theory has built upon classical theory and how they all offer insight into social issues. Students will be asked to not only understand the theories themselves but to engage in critiques of them as well as application of them to real-world issues

Credits 4

Prerequisites

SO 101, one 300-level SO course and junior standing

SO 461 : Independent Study in Sociology

This course provides the opportunity for junior or senior sociology majors to investigate a topic of special interest by means of theory and research. Participation in these hours will result in a grade.

Credits 1-4

Prerequisites

one 300-level SO course and junior standing, or consent of the department chair

SO 462 : Independent Study in Sociology

This course provides the opportunity for junior or senior sociology majors to investigate a topic of special interest by means of theory and research. Participation in these hours will result in a grade.

Credits 1-4

Prerequisites

one 300-level SO course and junior standing, or consent of the department chair

SO 463 : Internship in Sociology

Credits 1-4

SO 464 : Internship in Sociology

Credits 1-4

SO 465 : Independent Research in Sociology

Credits 1-4

SO 466 : Independent Research in Sociology

Credits 1-4

Spanish

Spanish Course Descriptions

SP 101 : Spanish for Global Citizens I

Students learn basic sentence structure and vocabulary in Spanish and are introduced to the culture of the peoples who speak Spanish. They also acquire the language skills and cultural knowledge to travel on their own to the countries where Spanish is spoken.

Credits 4

SP 102 : Spanish for Global Citizens II

The course is designed for students who have taken 101 or have had some language instruction in high school, building upon what they have already learned. Students learn basic sentence structures and vocabulary in Spanish and are introduced to the cultures of the people who speak Spanish. They also acquire the language skills and cultural knowledge to travel on their own to the countries where Spanish is spoken.

Credits 4

Prerequisites

[SP 101](#) or equivalent or consent of instructor

SP 105 : Reading in Spanish

Selected reading for summer study.

Credits 1

SP 203 : Spanish for the Professions

Students review the fundamentals of Spanish and become acquainted with basic vocabulary related to an array of professions. Students become familiar with the role Spanish and cultural knowledge play in these professions.

Credits 4

Prerequisites

[SP 102](#) or equivalent or consent of instructor

Notes

(Not open to students who have taken SP 210.)

SP 205 : Reading in Spanish

Selected reading for summer study.

Credits 1

SP 210 : Spanish for Heritage Speakers

Heritage speakers of Spanish advance their proficiency for multiple contexts, including professional use. Students build vocabulary, acquire learning strategies, improve oral and written expression, with particular consideration to grammar, and orthography. Special emphasis on cultural topics about the Hispanic/Latino(a) community in the United States. (Not open to students who have taken [SP 203](#).)

Credits 4

SP 301 : Spanish Conversation through Film

Students develop conversation skills in Spanish and gain an understanding of the cultures and societies of the people who speak Spanish through discussing and writing about films.

Credits 4

Prerequisites

[SP 203](#), [SP 210](#) or equivalent or consent of instructor

SP 302 : Conversation and Composition

Students explore other cultures through readings video, and other media, and they practice Spanish through compositions and discussions

Credits 4

Prerequisites

[SP 301](#) or equivalent or consent of instructor

SP 305 : Reading in Spanish

Selected reading for summer study.

Credits 1

SP 307 : Intermediate Spanish Grammar

Advanced study of Spanish grammar and syntax—verbs.

Credits 4

SP 310 : Advanced Spanish for Professions

An introduction to Spanish business vocabulary, forms, economic matters and career possibilities.

Comprehension and communication in many common business situations.

Credits 4

Prerequisites

SP 203, SP 210 or consent of instructor

Theatre

Professor Nancy Taylor Porter

Associate Professor Craig Steenerson

Assistant Professor Aasne Daniels

Visiting Instructor Richard McCoy

The Theatre Program at Illinois College is dedicated to teaching students skills to prepare them for work and participation in the theatre world after graduation and to excel in the 21st- century workforce at large: leadership, creative problem-solving, collaboration, critical thinking, professionalism, and integrity. In addition to developing students' analytical and communication skills as part of a liberal arts institution, the program also encourages students to develop their theatrical abilities through a program of coursework and guided experience in acting, directing, management, design, and the use of technologies most common in theatre. Practical, hands-on experience in TheatreWorks productions allows students to put their knowledge into practice and to showcase their work for the larger community.

The Theatre Program currently offers a minor, but students may also pursue a Theatre Arts interdisciplinary major, designed by the student and a theatre faculty advisor. As part of the Communication Arts Department, the Theatre Program encourages explorations of connections with Art and Communication and Rhetorical Studies as well as English. If you are interested in this option, please see the Individualized Studies Major and contact Dr. Nancy Taylor Porter.

Fine Arts

Minor

The Fine Arts minor shall consist of 20 credit hours with these requirements:

1. Students must successfully complete, with a minimum grade of 'C' in all courses, at least 8 credit hours in two of the fine arts areas chosen from Art, Music, and Theatre. Students may take courses in all three areas.
2. Within the 8 credit hour minimum requirement in each discipline, at least four credit hours must be completed as an academic class.
3. If the student chooses the area of theatre, the 8 hour minimum can be split between academic and application classes or practicums. For example, in theatre this could be one 4-credit hour class and four credit hours of performance experience.
4. If the student chooses the area of music, the 8 hour minimum must include at least one music theory or music history class. The remaining four credit hours may include another theory or history course or application courses such as ensembles participation or private music lessons.
5. If the student chooses the area of art, the minimum may include any art class.

20

Fine Arts Administration

Minor

Professor Nancy Taylor Porter, Coordinator (Theatre)

The Fine Arts Administration minor is open ONLY to students majoring or minoring in Art, Music, and Theatre or minoring in Fine Arts. It is intended to create a related or alternative career path for students in the arts, preparing them for an entry-level administrative position at an arts organization. Conversely, it helps give them the skills to build their own company or studio if that is their goal. During their senior year, students will register for an internship, which may either be focused on a particular field or be designed to include experiences from multiple arts arenas. It can be taken as a one-credit course in both semesters or as a two-credit course in a single semester.

The Fine Arts Administration minor consists of 18 hours:

Course Requirements

Item #	Title	Credits
AC 231	Principles of Accounting	4.0
EC 265	Economics of Entrepreneurship	4.0
MG 364	Management	4.0
MG 354	Marketing	4.0

3 productions

At least one onstage—which can include the semester in an improv troupe—and one backstage.

Item #	Title	Credits
TH 150	Theatre Practice	0.0-2
TH 151	Theatre Practice	0.0-1

Theatre Course Descriptions

TH 150 : Theatre Practice

A theatre practicum consists of significant participation in some facet of an Illinois College TheatreWorks production or an outside production, approved by the program chair. ♦ 1 credit hour awarded for backstage crew, or light and sound board operators ♦ 1.5 credit hours awarded for assistant stage managers 2-2.5 credit hours awarded for stage

Credits 0-2

Notes

Each credit hour is awarded for 45 hours of work, so credits earned vary depending on the student's role in the production. Students may count 8 theatre practice credit hours toward graduation, and non-majors may count 8. Participation beyond these limits is registered at 0 credit hours.

TH 151 : Theatre Practice

♦ .5 credit hour awarded for backstage crew or light and sound board operators ♦ .5-1 credit hour awarded for actors

Credits 0-1

Notes

Each credit hour is awarded for 45 hours of work, so credits earned vary depending on the student's role in the production. Students may count 8 theatre practice credit hours toward graduation, and non-majors may count 8. Participation beyond these limits is registered at 0 credit hours.

TH 160 : Long-form Improv Troupe

This ensemble rehearses 1.5-2 hours weekly and performs monthly in the ICEBOX during the year. Interested students take a six-week workshop that culminates in an audition. Each year, the troupe competes in the College Improv Tournament and sometimes also attends guest artist or offsite workshops.

Credits 1

Prerequisites

Consent of instructor

TH 190 : From Comic Books to Blockbusters

This course looks at superheroes as they appear in comic books and films dating from the 1940s to the present day. Special attention will be paid to the evolution of heroes' and heroines' identities across time. The final project is the creation of a short superhero film/comic.

Credits 4

TH 222 : Acting

An introductory workshop experience for actors, designed to foster a basic competence in the uses of the voice, body, and imagination for dramatic performance.

Credits 4

Semester Offered

[Offered every semester](#)

TH 226 : Scriptwriting

This class is designed to teach students about the nuts and bolts of play and screenwriting. It covers topics such as action/plot, structure, character development, dialogue, and setting in the abstract and in plays written by both professionals and college students. It encourages writers to choose workable ideas, draft them, and improve them through exploration and peer review. The final project is a one-act script for stage or film.

Credits 4

Semester Offered

[Offered alternate springs](#)

Notes

(See EN 226.)

TH 231 : Stagecrafts

Students will acquire a hands-on knowledge of the methods, principles, and conventions of scenic production by way of both lab and lecture periods. As this is a prerequisite for advanced classes in technical theatre, basic skills as well as a working vocabulary in scenery and property construction, scene painting, lighting, and sound will be stressed.

Credits 4

Semester Offered

[Offered every semester](#)

TH 250 : Shakespeare on Stage and Screen

A study of some of Shakespeare's greatest hits and how these plays have been transformed into movies, from filmed stage productions to contemporary riffs on the characters and storylines. The course will also include analysis of relevant cultural artifacts connected to the play's content as well as filmic techniques and principles of adaptation.

Credits 4

Semester Offered

[Offered alternate springs](#)

TH 351 : Intermediate Acting

A studio class utilizing the specific methodology of theorist Sanford Meisner. Additionally, this course will focus on the mastery of audition technique relevant to prepare students for professional competition.

Credits 4

Prerequisites

[TH 222](#) or consent of the instructor

Semester Offered

[Offered once every three years](#)

TH 352 : Theatre on the Edge

A studio class exploring various non-realistic approaches to theatre-making, including the body as object, masks, commedia dell'arte, clown, physical comedy, soundscapes, and translations of film, art, and music into theatrical performance. The course culminates in a piece of devised theatre on a topic chosen by the students and performed for the Celebration of Excellence.

Credits 4

Semester Offered

[Offered once every three years](#)

TH 353 : Advanced Acting

A studio class focusing on physical characterizations, especially for monologues; period style movement; voice work; understanding and speaking classical texts; and stage combat: unarmed, broadsword, and single rapier.

Credits 4

Prerequisites

[TH 222](#) or consent of the instructor

Semester Offered

[Offered once every three years](#)

TH 361 : Elements of Design

This course will immerse students in a study of all aspects of theatre design, from general design theory to practical execution of designs in the theatre, with a focus on scenic design.

Credits 4

Prerequisite Courses

[TH 231: Stagecrafts](#)

Semester Offered

[Offered alternate years](#)

TH 362 : Light and Sound

In this course students will examine the visual and aural world and how that is imitated and manipulated in theatrical lighting and sound. Students will acquire a thorough understanding of lighting and sound technology through a study of history, theory, and hands-on experience.

Credits 4

Prerequisite Courses

[TH 231: Stagecrafts](#)

Semester Offered

[Offered alternate years](#)

TH 363 : Stage Management and Theatre Operations

This course combines stage management and production management, exploring the relationship between the artistry and execution of theatre from conception to final performance. Topics include stage management, production management, delegation, scheduling, professional unions, time and personnel management, touring, publicity/marketing, box office, and house management. Students will be placed in a problem-solving environment, so they can acquire knowledge and skills necessary for becoming a leader in a theatre organization.

Credits 4

Prerequisite Courses

[TH 231: Stagecrafts](#)

Semester Offered

[Offered alternate years](#)

TH 461 : Independent Study in Theatre

Advanced tutorial on an appropriate topic.

Credits 1

Prerequisites

Consent of the instructor

TH 462 : Independent Study in Theatre

Advanced tutorial on an appropriate topic.

Credits 1

Prerequisites

Consent of the instructor

TH 463 : Internship in Theatre

Internship with a theatre company or company utilizing theatre, usually during the summer. Areas of emphasis include acting, playwriting, stage management, lighting, sound, and box office/ house management.

Credits 1-4

TH 464 : Internship in Theatre

Internship with a theatre company or company utilizing theatre, usually during the summer. Areas of emphasis include acting, playwriting, stage management, lighting, sound, and box office/ house management.

Credits 1-4

TH 465 : Independent Research in Theatre

When a faculty-directed production is entered in the Kennedy Center American College Theatre Festival, an outside evaluator and the director choose two students to participate in the regional Irene Ryan Scholarship Audition. In conjunction with their director, they research and prepare scenes to present at the festival.

Credits 1-2

TH 466 : Independent Research in Theatre

When a faculty-directed production is entered in the Kennedy Center American College Theatre Festival, an outside evaluator and the director choose two students to participate in the regional Irene Ryan Scholarship Audition. In conjunction with their director, they research and prepare scenes to present at the festival.

Credits 1-2

TH 480 : Honors Project

Completed in either the junior or senior year, this course represents a milestone in the student's development and is intended to prepare him or her for professional work in the field. Typically, this will be a significant role or design for a faculty-directed show. For students not strictly in the acting or tech tracks, alternative possibilities will be considered, such as writing and/or directing a play, stage managing a challenging faculty-directed show, or working as the program's business manager in an arts administration capacity.

Credits 4

TH 485 : Senior Capstone: Theatre Directing

This course examines the role of the director and how he or she translates technique and theory into the world of the stage with a focus on exploration and collaboration with actors and designers. Additionally, students will gain project management and leadership experience, practicing the organizational and communication skills required to helm a production. The final outcome of the course for each student will be a fully realized production of a one-act play in the ICEBOX.
